TRADE OUTLOOK A BRIGHT ONE

Satisfactory Condition in All Parts of Dominion.

COLLECTIONS SOMEWHAT SLOW

Wholesale Trade Is Active and Industries Prosperously Busy —The Local Markets.

Toronto, March 25. — Bradstreet's weekly review of Canadian trade says:

Montreal trade reports say: General business conditions continue fairly satisfactory despite a continuance of the bad state of the roads throughout the country, and the outlook is bright. The drygoods business has been active, and the movements in iron and hardware goods fair. Orders for present and future delivery are large. Wholesale grocers find trade a little quiet, but the prospect is for immediate improvement in this respect. In all lines of wholesale trade there has been a good volume of orders for later shipment. Spring activity is opening out pretty well in all lines of industry. Values of commodities generally are steady to firm. New cotton list prices have been announced, and contrary to expectations, prices were, if anything, firm. Most lines of country produce continue to hold their prices. There is some scarcity and firmness in cheese, although receipts of other dairy produce have been heavier and prices lower. Payments are coming in fairly well, although here and there are still a few complaints to be heard. There is a feeling among some prominent business men that credit has been extended rather too freely. There has been no very large provincial failures, but the number of small ones is too heavy.

Toronto reports say: Satisfactory trade conditions prevail throughout the country generally. Wholesale trade in all lines is more or less active, and the prospects continue bright for all lines of business. The wholesalers have been of the opinion that the manufacturers of the Province were prosperous, and this is borne out by Dominion trade returns which show that exports of this branch of industry are the only ones increasing. From manufacturing towns the payments are prompt and equal to about 90 per cent, while those from country towns are slow. There is continued slowness in the payments from the Northwest. From now on deliveries of grain and produce throughout the country are likely to be light, as by the time the roads dry up, the farmers will be busy seeding. In expectation of this, prices of grain have a firm tone. A feature of the markets is the high prices of hogs. Selected live bring as high at $6 25 on this market. Cattle prices are also firm owing to light receipts. Wholesale drygoods houses continue very busy and their orders for hardware and metals are heavy. Groceries are only fairly active. Navigation will be opening in a short time, and this will give an impetus to trade generally.

At Quebec the soft weather of the past week has retarded the movements of travelers, but, as a rule, orders are well to hand. Remittances show a slight improvement. Prices are being well maintained and considerable activity is noticeable in the hardware and groceries trade. There have been no failures in the district to speak of, and the outlook continues favorable. No great activity is noticeable in the building trade for the coming season.

Winnipeg reports say: The present mild weather is unseasonable for trade activity in some lines, but in other departments of trade and industry it is responsible for much greater activity than was evident a short time ago. Wholesale trade is fairly busy, there being a good number of orders for immediate and future delivery. Collections, however, show a little improvement, and it is generally conceded that the very general land speculation of a short time ago is responsible. Immigrants continue to pour into this part of the country in large numbers, and the outlook is very favorable to trade expansion.

Reports from Victoria and Vancouver say: Business generally continues active. The drygoods trade is brisk and shows an improvement over that of a year ago, and there is good trade doing in hardware. The fine weather is keeping down prices of dairy products and the outlook for business all along the coast is hopeful. The lumber trade is fairly active and hopeful for better conditions. The provincial industries generally are actively engaged.

Hamilton trade reports say: While in some lines there is still a little quietness about the movement of wholesale goods, business generally is assuming an active appearance. Placing orders have been large and a good sorting trade is expected. Manufacturers continue actively engaged, and the outlook for trade is bright.

London advices say trade there is in a satisfactory condition. The volume of wholesale trade doing at the moment is larger than at the same time in previous years. Collections are fair. The industries generally are busy and prosperous. Receipts of country produce are light and are likely to continue so.

Reports from Ottawa say there is a fairly good tone to business conditions there. Demands for wholesale goods for the country have been good. There is some complaint, however, on the score of collections. There are hopes of speedy improvements in this regard and prospects are bright.

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c. zxv

An English firm has received the contract to erect the tower and spire of the American Church in the Avenue de Alma, Paris. The spire will rise to a height of 246 feet and will be higher than any other spire or tower in the city.

THE SUPERIORITY of Mother Graves' Worm Exterminator is shown by its good effects on the children. Purchase a bottle and give it a trial.

A number of motor cars have been sent to Khartoum to be tried in the desert. If they are found to be of value a large number will be sent there and used to carry people across the sands where camels are now employed.

BOMB-THROWING AT WARSAW CITY

Terrorists Attack von Nolken, Chief of Police.

BLOWN FROM HIS CARRIAGE

Six Policemen Wounded and One Killed by Bomb-Thrower, Who Makes His Escape.

Warsaw, March 26. — A bomb was thrown into the carriage of Baron von Nilken, chief of police of Warsaw, at 8 o'clock tonight. According to latest information, the attack on Baron von Nolken was the result of an elaborate conspiracy of the revolutionary party. Shortly before 8 o'clock this evening an elegantly-dressed man went to the police station, at Praga, a large suburb of Warsaw, on the other side of the Vistula, and threw a bomb into the courtyard of the station, wounding seven persons, two of them dangerously. The man started to run away, but was caught by the captain of the station. He was found to be a Jew, but his identity has not yet been discovered."

A telephone message was immediately sent to Baron von Nolken, at the city hall, informing him of the outrage, Baron von Nolken, accompanied by a police official, took a carriage and started immediately for Praga. When passing the castle where the Governor-General resides, a man standing on the pavement threw a bomb at the carriage. Baron von Nolken, who was sitting on the side nearest the assailant, received the full charge of the bomb, while his companion escaped unhurt. The coachman was thrown from the box and the carriage was smashed. Baron von Nolken was removed to the city hall, and doctors were summoned, who found he had received injuries on the head, neck, arm and leg, which are believed to be serious.

Meanwhile the police official accompanying Baron von Nolken saw the bomb-thrower fleeing, and pursued and caught up with him, but the criminal proved the stronger and tore himself away. Another policeman fired twice after him without result.

Half an hour later a man was found dead in Sowia street, whom the police believe to be the bomb-thrower. The police think the man shot himself to escape arrest. A girl who was passing the spot when the bomb was thrown was wounded by splinters, and had to be taken to the hospital.

According to the theory of the police, the revolutionists calculated upon Baron von Nolken going to Prague on learning of the explosion of the bomb at the station there, and knew he would pass the castle, that being the only road by which he could reach the only bridge across the Vistula. The affair caused great excitement.

The police discovered 80 bombs yesterday hidden in a brick grave in the Powonski cemetery in Warsaw. A popular rumor says the revolutionaries adopted this course of informing the police that they have more bombs besides those discovered in the Powonski cemetery on Saturday.

Baron von Nolken is very unpopular. He is hated by the masses of the Polish population, which hold him responsible for the sanguinary suppression of the disturbances here at the end of January. He has been here only a year, having come from St. Petersburg, where he was chief of the mounted division of the police.

Marsaw, March 27, 1 a.m.—According to later information, the bomb which exploded at the Prague police station was not thrown into the courtyard, but into a room of the station, where the men assembled before going on duty. Six policemen were wounded, and all the furniture, as well as one wall, were destroyed. The bomb-thrower, in trying to escape, met a policeman, and shot twice, wounding the officer in the stomach. The prisoner himself was wounded, and has been placed in the hospital. The man found dead in Sowia street proves to be a plain clothes policeman, who was seen pursuing Baron von Nolken's assailant. The police believe that the latter turned on the policeman and shot him dead. Baron von Nolken's injuries are serious, but it is thought he will recover.

MR. MISCAMPBELL'S DEATH

Conservative Organizer Succumbs to Typhoid Fever at Toronto.

Toronto, March 25.—Andrew Miscampbell, ex-member of the Legislature, and Conservative organizer for Ontario, died here this afternoon of typhoid fever. Mr. Miscampbell had been ill since the elections. He worried greatly over the rush and the bulk of the detail work, and it is very likely that he laid the foundation for typhoid fever during this time. He represented East Simcoe in the Legislature following the elections of 1890, 1894 and 1898, and was well known throughout the country, where he was interested in lumbering around Midland and Orillia. For two years he was manager of the Northern Navigation Company, and in 1902 went to Sault Ste Marie, where he was appointed manager of the steamship line in connection with the Clergue industries there. He contested the constituency of Algoma in 1902, and was victorious, but his election was protested and he was defeated.

OYAMA READY FOR LONG FIGHT

Can Continue the Conflict as Long as Necessary.

LINEVITCH STILL IN RETREAT

Japanese Force Preparing to Seize the Russian Island of Sakhalien.

Yin Kow, Wednesday, March 22, 2 p.m., via Tien Tsin, March 26.—Field Marshal Marquis Oyama today gave his first interview since coming into the field. He refused to discuss the probability of peace. "I am only a soldier," he said, "not a politician. The Japanese Government will arrange terms of peace when the time comes. We were forced to fight this war in the interests of international peace and for the safety of our country. Personally, I have a high regard for the Russians. They are soldiers. The officers and men are brave and able, and have fought well. During the war between China and Japan I was the commander of the army which captured Port Arthur. With a division and a half of troops we took the city in five hours. The result this time shows the wonderful difference between the Russians and the Chinese with whom we had previous experience; but our army, both soldiers and officers, performed their duty as Japan knew they would. I was Minister of War for Japan for sixteen years, during which time conscription laws were passed. I have closely watched the making of the Japanese army, which has proved what I say, that the officers and the men have fulfilled every hope, as I said they would in the older days, when the Japanese army was composed of the Samuri, professional fighting men. The modern army was drafted from all classes; yet all our hopes have been fully realized by the work this army has done in actual war." Field Marshal Oyama declined to discuss the future movements or plans of the Japanese army. He intimated that he was ready to continue the war as long as necessary. Despite the reports to the contrary, Field Marshal Oyama's health is excellent. With his staff he is comfortably quartered in fine Chinese houses, placed at his disposal by the Chinese Viceroy.

Japs After Sakhalien.

St. Petersburg, March 26. — Gen. Linevitch, in a dispatch dated March 25, reports no change in the position of the armies. An imperial order relieves Gen. Gripenberg of the command of the second Manchurian army, but permits him to remain as aide-de-camp to the Emperor.

According to Government mail advices brought to the mainland from Sakhalien and telegraphed from Kharborovsky, the Japanese were expected to land at Korsakovsk within a fortnight, the port being free of ice early in April. The Russians are not in a position to resist, the whole force on the island being less than 2,000 soldiers and prison guards. There are 6,000 convicts in the camps, the remainder of the population consisting of 3,000 natives and 6,000 time-expired convicts' wives and children who have settled in the island. The prospect that the convicts may be landed on the mainland in the vicinity of Vladivostock by the Japanese is being considered.

Tokio, March 26.—Noon.—The following official dispatch has been received here: "Our Singking force reports that the enemy retreated from Singking toward Hautungchou, 90 miles northeast. Another report is that one squadron of the enemy's cavalry halted at Mienhuachien, on the Kirin road, in the district between Piyouanpomen and Changtu, and in the vicinity of Taiseiyei. At Kankoshi a few of the enemy's troops are appearing. Natives report 200 of the enemy's cavalry posted at Aishenkou, nine miles north of Wanmasai, and 600 infantry and cavalry at Taotu, fifteen miles east of Wanmasai. Changtu reports a few troopers in the district twenty miles northward of Chinchiatun, 23 miles northeast of Fakoman. Reports do not trace the enemy from Kankpin, thirteen miles northwest of Fakoman, but some troops from Liao Yang and Wopeng are 25 miles north of Kangpin."

The railway between Mukden and Kaiyuan has been restored and traffic resumed. The railway bridge across the Hun River has not yet been thoroughly repaired and traffic is still interrupted there.

Captured Russian Nurses.

Gunshu Pass, March 26. — Everywhere along the front there is complete and ominous quietude. Collisions have been reported today. A nurse arriving from Mukden today states that the reports by Chinese of ill-treatment of Russian sick and wounded after the evacuation of Mukden are entirely unfounded. The Japanese treated all who fell into their hands in the most kindly manner, and gave the nurses permission to return to the Russian army, saying there were no women of that avocation with the Japanese advanced column. They provided the nurses with credentials, indicated the roads by which they might travel, and warned them that they might be under fire west of the railway. Several doctors, sisters and attendants remained with the wounded at Mukden.

BIG ELECTRIC MERGER

Combination of American and Canadian Lines Talked Of.

Niagara Falls, Ont., March 25. — Rumors are current here that the New York Central is forming the greatest electric railway merger ever attempted. Apparently reliable information is that the international railway system which recently changed hands from the Ely to the Pierce interests, is now under New York Central control. It is further stated that the syndicate, of which Frederick Nicholls, of Toronto, is the head, and which owns the Electric Development Company of Ontario, the Toronto and Niagara Power Company, the Toronto and Hamilton Railway Company and the Niagara, St. Catharines and Toronto system is acting for the New York Central in combining Canadian electrical interests for the coming international merger. It is said that the new Toronto and Hamilton Railway will be used to give the New York Central a four-track route to Toronto.

THE WEATHER TODAY—Fair and very mild.

VISIT OUR MILLINERY PARLORS—KEEP IN TOUCH with the new styles. See that you have all your Easter needs ordered early. We're as busy as busy can be. The after-opening rush is on. Prices here must have made a decided hit.

SMALLMAN & INGRAM,

149, 151 and 153 Dundas Street. London.

THE VEGETABLE GROWERS

Ontario Gardeners Organize Association for Mutual Benefit.

Toronto, March 25.—A representative gathering of Ontario gardeners met in the Speaker's reception room in the Parliament buildings this afternoon. Delegates were here from Sarnia on the west to Picton in the east, and they organized an association to be known as the Ontario Vegetable Growers' Association. A general constitution was adopted, the preamble of which states that the object of the association shall be "the advancement of the science and art of vegetable-growing in all its branches, and for the collection, arranging and dissemination of useful information for the use of its members." It is proposed to wait upon the Minister of Agriculture at an early date to secure a substantial grant to further the interests of the association.

Exiles From Home.

Every year sees thousands of pale and emaciated people leaving their homes for the benefit a change of climate affords them. A large number of these poor sufferers who are thus exiled from home are affected with throat or lung trouble, asthma, bronchitis or consumption, which can invariably be traced back to a severe cold. No one would neglect a cold could he foresee such a termination. To go to a warmer climate for one's health is expensive and seldom altogether satisfactory. The prompt use of Chamberlain's Cough Remedy will save all this expense and worry. This remedy is widely known for its prompt cures of coughs and colds, and thousands have testified to the permanent relief they have received by its use. For sale by all druggists.

STEAMERS ARRIVED

March 25-26.—At New York—Georgic, from Liverpool; Philadelphia, from Southampton; Etruria, from Liverpool; Friesland, from Philadelphia; Pretoria, from Hamburg; La Bretagne, from Havre.

At Fort de France—Prinzessin Victoria Luise, from New York.

At Naples—Lombardia, from New York.

At Ponta Delgada—Cretic, from New York.

At Hamburg—Pennsylvania, from New York.

At Portland—Ontarian, from Glasgow.

At Halifax—Pretorian, from Glasgow.

At Liverpool—Lake Erie, from St. John.

At Queenstown—Umbria from New York.

BE THERE A WILL, WISDOM POINTS THE WAY.—The sick man pines for relief, but dislikes sending for the doctor, which means bottles of drugs never consumed. He has not the resolution to load his stomach with compounds which smell villainously and taste worse. But if he have the will to deal himself with his ailment, wisdom will direct his attention to Parmelee's Vegetable Pills, which, as a specific for indigestion and disorders of the digestive organs, have no equal.

Along the Adriatic Sea swallows and other migratory birds are caught every year by the hundreds of thousands and eaten by the Italians, who spread nets, in which as many as 300 to 500 of the birds are caught at once.

IT IS THE FARMER'S FRIEND.—The farmer will find in Dr. Thomas' Eclectric Oil a potent remedy for wounds or pains in the body, or for affections of the respiratory organs and for household use generally. He will also find it a convenient friend in treating injured horses, cattle, etc., or relieving them when attacked by colds, coughs or any kindred ailments to which they are subject.

Over in France they have the only professional woman bookmaker in the world. She is of English birth and she lives at Chantilly. For 30 years she has been making books and her knowledge of racing is so complete that she has made a fortune. Success crowned her efforts from the start, and at the end of the first six months of her campaign she had cleared up $6,000.

Hoop! Hoop! Hooray! the youngsters cry,
When "Swiss" Breakfast Food they spy,
Well they know it makes them strong
Watch them pass their plates along.

MANY DIE FOR ONE WOMAN

Eight Soldiers Killed and Nineteen Injured Attempting Her Rescue.

Semlin, Hungary, March 26.—A great landslide occurred here today. A squadron of soldiers, who went to the rescue of a buried woman, suffered severely, eight of their number being killed and nineteen injured.

TROUBLE IN CRETE

Revolutionary Band Clamoring for Greek Rule.

Canea, Island of Crete, March 25.—A revolutionary band of 600 persons, demanding Greek rule, which has been active for some days, fired on Cretan gendarmes today, seriously wounding two of them. Cretan reinforcements are expected from Candia. Prince George, in a proclamation issued today, urged the people not to encourage the revolutionary movement, which at present appears to be confined to Canea. The outlying districts are quiet.

HOW'S THIS, DR. OSLER?

A Seventy-Year-Old St. Kitts Man Saves Another From Drowning.

St. Catharines, Ont., March 25.—A Royal Canadian Humane Society medal was last evening presented to William Stonehouse, of St. Catharines, a man of about 70 years of age. On the night of Nov. 3 he rescued Charles Christmas from drowning in the Welland Canal at Allanburg. Mr. Stonehouse, who is a veteran of '66, was employed on a Government scow, and noticed Christmas fall overboard from the steamer Parent. Without a moment's hesitation the old gentleman jumped into the water and succeeded in saving the drowning man. It was a pitch dark night, and Mr. Stonehouse took his life in his hands when he made his perilous leap into the ice-cold water.

SUDDEN TRANSITION from a hot to a cold temperature, exposure to rain, sitting in a draught, unseasonable substitution of light for heavy clothing, are fruitful causes of colds and the resultant cough so perilous to persons of weak lungs. Among the many medicines for bronchial disorders so arising, there is none better than Bickle's Anti-Consumptive Syrup. Try it and become convinced. Price, 25 cents.

We Offer $1,000

For a Disease Germ That Liquozone Can't Cure.

On every bottle of Liquozone we offer $1,000 for a disease germ that it cannot kill. We do this to assure you that Liquozone does kill germs.

And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Liquozone its worth to humanity: a worth so great that, after testing the product for two years through physicians and hospitals, we paid $100,000 for the American rights. And we have spent over one million dollars, in one year, to buy the first bottle and give it free to each sick one who would try it.

Acts Like Oxygen.

Liquozone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has for more than 20 years been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is an absolutely certain germicide. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetal matter.

Liquozone goes into the stomach, into the bowels and into the blood, to go wherever the blood goes. No germ can escape it and none can resist it. The results are inevitable, for a germ disease must end when the germs are killed. Then Liquozone acting as a wonderful tonic, quickly restores a condition of perfect health. Diseases which have resisted medicine for years yield at once to Liquozone, and it cures diseases which medicine never cures. Half the people you meet—wherever you are—can tell you of cures that were made by it.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Asthma	Hay Fever—Influenza
Abscess—Anæmia	Kidney Diseases
Bronchitis	La Grippe
Blood Poison	Leucorrhea
Bright's Disease	Liver Troubles
Bowel Troubles	Malaria—Neuralgia
