DETROIT, June 1.—The Torontos, administered a most terrible trouncing to the champions yesterday afternoon, the latter going to pieces in the second and fourth innings and playing, like school boys at recess. The visitors batted McCarthy at will and, sided by the succession of frightful errors on the part of the Detroits, won the game in a canter. The Torontos also played a magnificent fielding game, not making an error, and some of the plays by Rice and Bottonus were phenomenal. The Detroits are badly crippled, but that does not account for the terrible case of razzle dazzle that attacked them. Every time a Detroiter went after a bell it was pretty certain to be fumbled or thrown wild and the spectators hissed their work. In the last half of the sixth a cyclone struck the Detroit team. Every body who touched the ball either fumbled it or threw it wild, and the Torontos sand-wiched in enough hits to make it interesting. Rhue made two wild throws. Donnally a Rhue made wiched in enough hits to make it interesting.

The crease was somewhat better than that of last year, but still wanted rolling badly, and proved rather trying to the batamen, especially at the upper end. East Toronto winning the toss sent their opponents in—the latter, however, did not make much stand against the bowling of Cameron and E. Berry and Painter hit hard for their runs but the rest of the team did little and the innings closed for 34. East Toronto followed with 85, Cameron and Welch heading the individual scores with 21 and 17 followed with 85, Cameron and Welch heading the individual scores with 21 and 17 respectively, and both betsmen deserve credit for the vigorous way in which they treated the bowling, which was somewhat roughly handled. LONDON, May 31.—The recent decree of the directors of the Provincial Bank of Ireland that none of their clerks is to marry until his salary reaches £150 a year marry until his salary reaches 2150 a year continues to create a considerable comment, owing in a great measure to the fact that the possible maximum of a bank clerk's salary is only 2120 in most cases, and the new rule may be viewed as one to enforce cell-bacy. One of the Provincial Bank clerks, and a would be benedict, who had out of his 2120 per year saved 250 with a view to marriage, has been obliged to treak his engagement, owing to the decree, because there is no symptom of increased pay, though the bridegroom expectant has been 18 years in the service. A prominent Dublin attorney now comes forward and offers to institute proceedings against the bank for damages for the young lady in question, and claims that he can make out a good case against the concern. The outcome of the suit is axiously awaited by many other clerks in a similar predicament.
