WHEAT REGISTERS ANOTHER ADVANCE

Market Reaches New High Price Levels on Active Trading.

WEST CROP DAMAGED

Chicago Market Stimulated by Pessimistic Reports From Canadian Prairies.

Chicago, Oct. 19.—New high price levels were reached today in the wheat market here, and prices finished strong at a net advance of 1⅝c to 3c for active months, with December at $1.68¾ and May at $1.68⅞, but unchanged to ½c lower for July. Crop reports from Canada were the largest yet received and advices from Argentina told of continued damage from drought. Corn scored a gain of 3c net and oats of ⅝c to ¾c. In provisions the outcome ranged from the same as yesterday's close to a rise of 67½c.

Bulls in wheat gave special attention today to reports that not only was half or more of the Canadian crop covered with snow, but also that the grain in question was rainsoaked and frozen. According to one authority trains from the Canadian wheat growing districts were crowded with outside laborers leaving the country. The Canadian Government was said to be calling away soldiers who had been loaned to farmers to help out with threshing, which the weather conditions had now rendered next to impossible. With such reports current, lower cable quotations failed to cause more than a brief show of weakness in the market here. Prices continued to ascend until the last hour of the session.

Realizing of profits led to a setback for wheat prices during the late dealings. Every decline ran into good buying, and all the offerings were absorbed.

Dollar a bushel corn was nearly approached today, No. 2 yellow selling here at 96½, the highest since 1892. Oats rose with corn and wheat. Provisions went up to the highest point yet this season. It was said that purchases for Belgium had been larger than the trade had been led to expect.

ST. LAWRENCE MARKET.

Creamery butter advanced one cent per pound on the wholesales during the past week, the dairy remaining stationary.

New-laid eggs remained unchanged in price.

Poultry of all descriptions, with the exception of turkeys, came in quite freely, but did not vary much in price.
