Miramichi and the North Shore, etc,

COOK WANTED:—see advt.

DON'T FORGET the Blackville Excursion and Picnic to-day.

PISO'S cure for Consumption and Piso's remedy for Catarrh are sold by J. D. B. F. MacKenzie, Druggist, Chatham.

WATER-PROOF LOST between Chatham and Burnt Church. See advt.

SMOKE THE OTELLO, the best ten cen cigar in the market. For sale wholesale and retail at Z. Tingley's, Chatham.

Cleanse the scalp from scurf and dandruff; keep the hair soft and of a natural color by the use of Hall's Vegetable Sicilian Hair Renewer.

REMEMBER St. John's Church Strawberry Festival, in the Skating Rink, Chatham, this evening. Don't bother making a fire at home to get tea, but go to the nice, cool Rink and enjoy the good things provided there.

SPECIAL NOTICE:—Owing to the train arrangements, which oblige us to go to press earlier on Wednesdays than usual, no matter received after Tuesday at 6 p. m. can appear in the ADVANCE of that week.

BASE BALL CLUB:—A meeting of the members of the proposed base ball club in Chatham is to be held at No. one engine house, next to police court this Thursday evening at half past eight. A full attendance is requested.

INSURED AT ONCE:—Mr. Warren C. Winslow has been authorised by the British America Assurance Company to accept all classes of fire risks, issue policies and make endorsements, without delay or reference to the head office.

PLAIN AND FANCY WORK.—The ladies of St. Mary's Guild, Chatham, are prepared to receive orders for all kinds of plain and fancy sewing, knitting, etc. and to promptly execute the same. They will supply both materials and work, or make up materials furnished by patrons. Orders will be received by Mrs. Blair, President, or any other of the ladies of the Guild.

THE ENTERTAINMENT given by the Campbellton Musical Enterprise Company on Tuesday evening in Masonic Hall was an excellent one—much more deserving of patronage than the average professional companies give, in both an artistic and popular way. We are glad to be able to say that Prof. Baker gives his audience their money's worth and his company deserves general patronage from North Shore people.

SPECIAL:—All subscribers will please take notice that the terms of the ADVANCE are as advertised in our regular business notice for years viz:—$1.50 a year, *if paid in advance* and $2 a year if not so paid. When subscribers do not choose to pay in advance, but take credit for the paper, they do so with the understanding that they are to pay at the rate of two dollars a year. Any subscriber who does not wish to pay $2 a year for the paper must pay in advance.

RICHBUCTO DIVISION, No. 45, S. of T.—The officers of this division for the present quarter are:—

William J. Smith, W. P.;
Odber Black, W. A.;
Gordon Livingston, R. S.;
Percival Booth, A. R. S.;
Robert W. Beers, F. S.;
Robert Phinney, T.,
Alex. Leggatt, Chas.;
Alex. Wathen, Con.;
Dominick Percy, A. C.;
John Robertson, I. S.;
Fred Ferguson, O. S.;
Robert McKinnon, P. W. P.

THE EXCURSION on Saturday to Doaktown, announcement of which appears in another column, ought to attract a large number of people from the Miramichi end of the line. An excursion train is also to run from Fredericton to Doaktown on that day and this will afford a fine opportunity for the people belonging to the antipodes of the N. & W. to become the better acquainted with each other. Rt. Rev. Bishop Kingdon is to officiate at the laying of the corner-stone of the church to be erected at Doaktown and the ceremony will be quite an event in that prosperous locality.

Some of the Deaths of the Week.

MISS PERCIVAL, whose death, at Nelson, is recorded elsewhere, was one of oldest residents of the Miramichi. Her circle of friends was a very large one and she was held by all in the highest esteem. She was born near Peterith, Cumberland, England, in 1795 and spent most of her early years at Kendal, Keswick and other places in Westmorland. She came to America in 1833 to reside with her brother, John Percival, at Gates Head, Chatham. On the death of Mr. Percival, in 1864, she went to live with her niece, Mrs. Burchill, at Birch Hill, where she continued to reside up to the time of her death. The funeral is to take place this afternoon as per notice elsewhere.

MR. WM. GORDON of Lower Newcastle, another old, well known and respected resident of the County, died on Tuesday. He was born and always lived at Lower Newcastle. He leaves six children—five sons and one daughter, the latter being the wife of Wm. Innis, Jr., who is the business partner of one of the sons, George.

DEATH OF JOHN FLETT, Esq.:—On Tuesday afternoon John Flett, Esq., one of the most prominent and respected citizens of Northumberland, died at Nelson. He was for many years a leading lumber manufacturer and merchant and, although owing to failing health he was not actively engaged in business for the past few years as formerly, may be said to have died in harness. He was on the mill premises in the afternoon, when an alarm was made, caused by a portion of the tramway near the refuse furnace taking fire, and the excitement prostrated him, and no doubt was the immediate cause of death. The funeral will take place at half past ten this forenoon.

Destroy the Worms or they may destroy the children. Freeman's Worm Powders destroy and expel all kinds of worms.

Mr. Quilty's Marriage.

St. Joseph's Church, Chambers Street, Boston, Mass., was on Tuesday evening, June 25, crowded with relatives and friends to witness the marriage of Mr. J. Pierce Quilt, station agent at North Cambridge Junction, and Miss Nellie E. O'Brien, of Boston. Promptly at 7 o'clock the wedding party entered and proceeded to the altar, the bride being accompanied by her sister, Miss Alice L. O'Brien, and the groom by his brother, Mr. Thos. F. Quilty, of Bathurst. The bride, a charming brunette, was attired in white corded silk, with the customary bridal veil, and looked very beautiful. Rev. Thos. L. Flanagan performed the ceremony. A reception was held after the ceremony at the residence of the young couple, 305 Elm St., West Somerville, at which Caterer Tufts of Boston served a collation. The presents were numerous and costly, among which may be mentioned a Chickering piano and a handsome clock from the bride's father; silver service, friends from St. John, N. B.; dinner set, Mr. and Mrs. John Maguire; sewing machine, Thos. F. Quilty; a picture (painting from Faust,) Mrs. C. E. Wright; picture and easel from Mr. and Mrs. A. G. Cheney; toilet set, Miss Alice L. O'Brien; beautiful lamp, Mrs. Jackson.

Mr. Quilty was formerly station agent at Barnaby River, on the I. C. R., and his many friends along that line and around Miramichi, will be glad to hear of his success in life, and that he is as popular here as he was "down East," where he was often spoken of as being the most obliging station agent on the I. C. R.

DA CAPO.

Bay du Vin Schools.

The examination of the Bay du Vin school was held on the 28th. The pupils acquitted themselves in a manner that was highly creditable to their talented young teacher. After the examination one of the pupils came forward and read the following

ADDRESS

DEAR TEACHER:—It is with the deepest regret that we now are about to bid you good bye. We have no doubt that during your short stay among us, we have caused you lots of trouble, but we trust that you will think of that only as a remembrance of our youthful spirit, and that you will carry away with you many pleasent memories of your school work in Bay du Vin And now, before leaving, we wish to present you with, this jewel case and napkin ring, as a small token of our esteem and regard and to assure you that wherever your lot may be cast in the future you will always retain a warm corner in the hearts of your Bay du Vin pupils.

MINA CARROLL,
ALETH WILLISTON,

In behalf of the pupils.

Miss Gjertz had not heard a word about the intended present, and she asked Revs Mr. Wilkinson, who was present, to reply for her. The Rev. gentlemen, in his own happy style, thanked the pupils, for the teacher. It was not her wish that the ties that bound teacher and the pupils together was about to be severed, nor was it that the ratepayers had got tired of her, as she had been pressed by the ratepayers to still keep charge of the school. Private reasons which she could not control made it impossible for her to continue teaching for a time. In closing Mr. Wilkinson said it was rarely that a teacher could be found who was as popular with both pupils and parents as Miss Gjertz had been since she has had charge of this school.

Miss Gjertz certainly seems to have been the right teacher for Bay du Vin, as her departure seems to be regretted by every pupil and ratepayer in the district. Outside of the district also she is followed by the good wishes of hosts of admiring friends. The present that her Bay du Vin pupils gave her was a very handsome, one.

HARDWICKE DISTRICT NO. 4.

The examination of the School District No. 4 was held on Friday 20th. The visitors were chiefly ladies. One of the Trustees put in an appearance towards the close of the examination. The different classes were examined in Reading Arithmetic Geography, Grammar, Canadian History, Black-Board Exercises and other branches usually taught in a country school. The Maps that the pupils drew on their slates and the black-board were really very good productions, and could hardly be excelled. The following Dialogues and Recitations were given by the pupils:

Recitation, Laura Mills, "A Child's Trouble."
Dialogue, Hubert Williston, Ranald Dupleese, Lulu Dupleese, and Charlie Williston, "Ned's Present."
Dialogue, by Annie Noble and Maggie Jane McLean, "Afternoon Calls."
Dialogue by Elmira Williston and Laura Mills, "Little Philosopher."
Recitation by a little fellow, James Mills, "Ben's Straw Hat."
Dialogue by Gough Williston and Ernest Noble, "Saved by Love."
Dialogue by Jemima Noble, Mary Jane McLean and the teacher, "A Silly Dispute."

The teacher of this school is Miss Ella C. Galloway, a daughter of John Galloway Esq. of Napan. In looking over the school register I found that there were thirty pupils enrolled. I also think that the Trustees have the greatest confidence in Miss Galloway, as their visits to the school during the past term have been like those of angels. I do not think their confidence has been misplaced. At the close of the examination a treat was provided for the pupils by Mrs. Robert Noble, senior. The examination was closed by the pupils singing "God Save the Queen" and then they were dismissed for five weeks holidays.

National Pills are sugar coated, mild but thorough, and are the best Stomach and Liver Pills in use.

Matters in Kent County.

(Telegraph)

Kingston, Kent Co., June 26—In the immediate vicinity of Kingston the crops promise an abundant harvest while up our rivers the yield especially of hay is not so encouraging. The horticulturist and even the farmer lament the sad havoc of insects, in particular the cut-worm, whose destructiveness is to a degree hitherto unknown.

Mr. A. P. Young, of Houlton, Me., who is here purchasing horses for the American market, reports the grass in many districts of the province badly winter killed.

Business at present is rather on the ebb, but the tide of activity will soon flow in, when a brisk and busy season is anticipated.

Messrs. J. & T. Jardine's shipment of lumber this summer will be 5,000,000 feet, while that of Mr. George McLeod will be far larger, so these gentlemen, with those of minor note, will make the times lively.

The bark trade is booming and much tonnage and many hands will be employed in its transporation.

The lobster factories are merely paying expenses, although for a few weeks at first the fish were quite plentiful, and hopes were entertained that the good old times of former years were returning. Some of the fishermen expect to terminate operations with the close of the week and try new fields of labor, whose alluring prospects promise a better reward. The fishery overseers, Messrs. Hannah and Guimand, have lately been paying official visits to every establishment in their jurisdiction and, as a result, all have been fined for a non-compliance with the law requiring lobsters under size to be strictly rejected. The weight of opinion here is in favor of parliament putting a prohibition on this branch of our fisheries for a term of years; then it could be profitably engaged in for a like period.

Last spring the catch of gaspereaux was so large, and the prices so remunerative, that many were induced this season to make additional preparations in that line, but the results have proved a comparative failure.

The base ball fever has reached here and many were smitten with an uncontrolable passion for the manly sport, which only could be allayed by the organization of a club.

Numbers from the North Shore will visit St. John during carnival week to witness the many attractions that will doubtless be presented, but especially how the useful and beautiful can be so happily combined.

The tug boat Isabel, purchased by Messrs. Smith and McDonald in Quebec, reached here yesterday morning.

The examinations of the schools in district No. 2 will be held on Thursday and Friday of this week.

The bear is dead—or rather has ceased to be talked of.

A Burn or Cut will heal quickly and leave less scar if Victoria Carbolic Salve is applied at once.

Wm. O'Brien's Arrest.

POLICE AND PEOPLE FIGHT AT CLONAKILTY.

DUBLIN, June 1.—William O'Brien, M. P., was arrested again last evening at Clonakilty. An attempt to rescue him was made, the police fired upon the crowd and two men were wounded. A National League meeting was announced to be held at Clonakilty, about twenty-five miles west of Cork. A proclamation was posted up throughout the district forbidding the meeting and a large force of police was drafted into the town to suppress it should any attempt be made to hold it. The vigilance of the police was eluded and several hundred people assembled in a field outside the town. O'Brien in defience of the edict of Dublin Castle delivered one of his stirring addresses and was cheered to the echo. The police suddenly appeared upon the scene, ordered the crowd to disperse and charged upon it, plying their clubs freely. The people resisted and about forty of them were injured. Among those hurt was Patrick O'Brien, one of the members of parliament for Tipperary. O'Brien was soon on his way to Dublin, escorted by a large force of constabulary. Excited crowds hooted the police all along the route and at Charleville a desperate attempt to rescue the prisoner was made. The crowd rushed upon the police and a fierce hand to hand struggle ensued. The police were ordered to fire and the first volley took effect. Two of the crowd were seriously wounded. The police succeeded, in getting away with their prisoner and he was conveyed to Dublin by the first train that left Limerick Junction. The news spred rapidly throughout Ireland and great excitement prevailed.

Mothers!

Castoria is recommended by physicians or children teething. It is a purely vegatable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels quiets pain, cures diarrhœa and wind colic allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend, 35 doses, 35 cents.

Encouraging Science.

The Vermont Microscopical Association has just announced that a prize of $250 given by the Wells & Richardson Co., the well-known Chemists, will be paid to the first discovery of a new disease germ. The wonderful discovery by Prof. Koch of the cholera germ, as the cause of cholera, stimulated great research throughont the world and it is believed this liberal prize, offered by a house of such standing, will greatly assist in the detection of micro-organisms that are the direct cause of disease and death. All who are interested in the subject and the conditions of this prize, should write to C. Smith Boyaton, M. D., Sec'y of the Association, Burlington, Vt.

Piles! Piles! Itching Piles.

SYMPTOMS—Moisture, intense itchiug and stinging; most at night; worse by scratching. If allowed to continue tumors form, which often bleed and ulcerate becoming very sore. SWAYNE'S OINTMENT stops the itching and bleeding, heals ulceration, and in most cases removes the tumors. At druggists, or by mail, for 50 cents. Dr. Swayne & Son, Philadelphia.

Leprosy.

Three distinct cases of leprosy have been discovered in Cape Breton by Dr. Smith of the Tracadie Lazaretto in this province to which institutton they are being removed. Gurjun oil has been declared an infallible specific for this dreadful disease. It is the product of a fir tree, which grows in the Andaman Islands. An ointment is made from this oil which is rubbed over the leper's body four hours every day, and two small doses are given internally. After eight months' of this treatment, a cure is effected The medical authorities at Tracadie will surely give the gurjun oil a trial. Sir Donald Stewart, formely governor of the Andaman Islands, is confident that it is a sure cure.—*Capital.*

Malarial Fever and Chills are best broken up and prevented by using Milburn's Aromatic Yuinine Wine.

A Useful Lesson.

(From the Halifal Evening Mail)

The defeat of prohibition in Pennsylvania by 200,000 majority, and the repeal of the prohibition amendment in the constitution of Rhode Island by a vote of 3 to 1,—coming as they do so soon after the "wet" victories in New Hampshire and Massachusetts—most conclusively show that the neighboring republic is still very far from being ready for a prohibitory liquor law. The four states appealed to are all very much above the average of the union in intelligence and morality, and yet in every one a decisive majority has been cast against prohibition. If such be the verdict in New Hampshire, Rhode Island, Massachusetts and Pennsylvania, there need be no doubt as to what would be the result if the whole union were appealed to.

It is to be hoped that the lesson will not go unheeded in Canada. We have people here who refuse to believe that Canada is not yet ready for prohibition,—who delight in denouncing every man who doubts the wisdom of demanding the immediate passage of a prohibitory enactment. Yet it is obvious that in New England, the birthplace and home of the prohibition idea, the people are still very far from being ready for such a measure. There are doubtless a large number of people in Canada who believe in prohibition, and who are ready to vote for it and to help enforce it, but they are not a majority of the population. We doubt very much if they constitute one forth the voting population of the dominion.

For Cramps, Cholera, Diarrhœa, Summer complaint, use Keudrick's Mixture. Kendrick's Mixture, a positive cure in nearly every case. Sold by dealers. 25 cents.

Nine Million Witches Burned!

Sprenger computes that during the Christian era no fewer that nine million witches were immolated. In England, the last execution for witchcraft took place in 1716, but in Illinois as late as 1780 to 1790, several unfortunates were put to death. This is a terrible reflection on the boasted enlightenment of the age; but we must not be over-consorious, while we daily see friends going down to death, ignorance or prejudice preventing the use of remedies which might save them. Many a cold runs into consumption, while indigestion and impure blood debilitate the system, inviting fatal attacks, when the use of Dr. Pierce's Golden Medical Discovery would have ensured health and happiness.

A Home Find—A Foreign Trip Here.

Mr. E. E. J. Boos, of Jackson, Miss., was the fortunate holder of one-twentieth of ticket No. 93,890 in the April drawing of the Louisiana State Lottery, which drew the second capital prize of $100,000. He took it to the Capital State Bank of Jackson, Miss., for collection. He purchased his tickets direct from M. A. Dauphin, New Orleans, La. He is a barber by trade, a native of Germany, and expects to invest his money in real estate.—*Jackson* (Miss.) *Clarion-Ledger*, May 2.

Great Men and Good Manners.

The Chief-Justice of the United States lives on a beautiful knoll in the suburbs of Washington. His elegant home called "Belmont" with turrets and spires, built of rough light-colored stone, is only a few rods from the Fourteenth street car-line that leads to the White House and the Capitol. As I was hurriedly passing his home yesterday, in the pouring rain, I saw three little girls all in a flutter of haste and excitement—wrapped in gossamers, with school bags tucked away out of the wet—running to catch the car. Just behind them walked a scholarly-looking, gray-haired gentleman, with a most kindly sunny face shining out from under the umbrella.

"Oh' papa! papa! do hurry; you're getting so wet," I heard said; and the three little maids stopped and turned back to hold and pull and tug away at the quiet gentleman, hurrying him to take his place in the crowded car packed with a rainy-morning crowd.

"Papa" took hold of the strap, and the rosy little daughters kept fast hold of him to steady themselves in the swaying throng. The dripping umbrella leaned against the door, and the gentleman chatted pleasantly with the conductor, helped an old colored woman with a huge basket of clothes to a place beside him; and when the "transfers" were given for Pennsylvania Avenue and the little family "changed cars" a murmur of inquiry and pleasure swept over the faces of those left. "Who was that gentleman? Do you know him?"

The conductor walked through, very straight, and looked very prond as he said: "That man was Chief-Justice Fuller, and he rides on my car every day. We like him. We like him, and all his family. They ain't a bit proud, nor stuck-up, and they know good manners from shoddy ones every time. Mr Chief-Justice talks to us conductors jus. as kind and good as he does to the President. We hope he will stay on our line forever!"—*M. D., in July* WIDE AWAKE.

What Ball-Tossers Do.

(Boston Herald)

The profession of the base ball player never stood as high as it does to-day There never was a time when the morals of a young man were investigated upon his seeking an engagement as to-day The drinkers are being surely and quickly weeded from the ranks, thanks to the severe penalties that are being called for under the rules. The business has attracted a large number of college bred men and it offers them congenial occupation with large salaries. Many ball players pursue their studies in the winter and play ball in the summer earning enough to defray all the expenses of their education. Saunders of the Philadelphia club took a course in civil engineering last winter; Gunning of the Athletics was in attendence at the medical school of the University of Pennsylvania; Bingham of Harvard is to graduate from Harvard this year, Knowlton of the Eastern club is a member of the Harvard medical school; Garfield of the Pittsburg club, is studying at Oberlin University; Mead and Cahill of the New Haven team, are graduates of Holy Cross College in Worcester: Tyng is a Harvard graduate, Wagenhurst comes from Princeton, and many other instances could be mentioned. Nor must the cases of Messrs. John M. Ward and James H. O'Rourke of the New York club be forgotten. The former took the course of Political Science in Columbia College and with then latter attended the lectures in the Yale law school, where they received the degrees of LL. B, and were afterwards admitted to practice before the bar of Connecticut. Mr. Ward is undoubtedly the most intelligent ball player in the profession. He is a most prolific writer for the magazines and the press, and he has written a book on base ball, which is decidedly the best and most comprehensive of the kind ever issued.

Don't

let that cold of yours run on. You think it is a light thing. But it may run into catarrh. Or into pneumonia. Or consumption.

Catarrh is disgusting. Pneumonia is dangerous. Consumption is death itself. The breathing apparatus must be kept healthy and clear of all obstructions and offensive matter. Otherwise there is trouble ahead.

All the diseases of these parts, head, nose, throat, bronchial tubes and lungs, can be delightfully and entirely cured by the use of Boschee's German Syrup. If you don't know this already, thousands and thousands of people can tell you. They have been cured by it, and "know how it is, themselves." Bottle only 75 cents. Ask any druggist.

News and Notes.

Wm. E. Howard, convicted in New York of swindling in connection with the Electric Sugar frauds, has been sentenced to 9 years and 8 months in State prison.

By a month's engagement in San Francisco Edwin Booth and Lawrence Barrett cleared something over $100,000. They are two of the few men who do not envy the rich and thrifty baseball pitcher.

Alexander Sullivan has been locked up at the request of the Coroner's jury in the Cronin case. The arrest of two Clan-na-Gael men in New York and of Burke in Winnipeg for complicity in the murder shows that the police have reasons to believe that the crime was the outcome of a conspiracy within the ranks of the organization. It has also been indicated pretty clearly that the Clan-na-Gael hired assassins and sent them to England. Men who plan murder in the name of patriotism are not likely to scruple at shedding the blood of their private enemies.

The Genius of the Age.

No pessimist is old Professor Blackie. He says that a century ago was a time of miserable humbug, and he is thankful that he lives in better days.

Rev. Dr. Cunningham, who succeeded Dr. Tulloch, as Principal of St, Andrew's University, Scotland, is a man of marked individuality. A few years ago, when he was the pastor of a country church. he horrified old-fashioned Presbyterians by advising his congregation to take advantage of a dry Sunday to get in their crops instead of going to church. And in the General Assembly of the Established Church of Scotland, which was recently held in Edinburgh, he moved that the Apostles' Creed be dropped from a certain book of devotions. That he is a minister in good standing of the Established Church is evidence of the toleration that obtains in that body.

Dr. Crosby of New York, who is the leading temperance advocate of the Presbyterian body in the United States, was supported by a vote of 210 to 105 the last meeting of the General Assembly of the Presbyterian church of that country in his pronounced position in favor of high license as the most effective means of counteracting the evils of the liquor traffic. Real prohibitinists have recognized the fact that their objects can best be attained under the leadership of such men as Dr. Crosby.

Eczema, Itchy, caly, Skin Torture.

The simple application of "SWAYNE'S OINTMENT," without any internal medicine, will cure any case of Tetter, Salt Rheum, Ringworm, Piles, Itch, Sores, Pimples, Eczema, all Scaly, Itchy Skin Eruptions, no matter how obstinate or long standing. It is potent, effective, and costs but a trifle.

Farm and Household.

HOW TO GET THE BEST BUTTER

WALTON, N. Y., June 19, 1889,—A conference of the New York State Dairymen's Association was held at the fair grounds to-day. The best methods of getting the best milk and making the most and best butter, and the way to feed cows to get the best results, were discussed by Colonel F. D. Curtis, Messrs. P. E. Gilbert and J. J. Shaue, secretary of the State association.

In the afternoon the cream from 200 pounds of milk was churned. In made seven and one-half pounds of butter, or an average of one pound of butter to twenty six and one-half pounds of milk.

It was argued that one-third cotton seed meal and two-thirds wheat middlings, three pounds a day to each cow, was the best food for cattle. Ensilage should be made from uncut ripened corn. Cream should be taken from sweet milk and ripened by exposure to pure air for from twenty-four to thirty-six hours.

BLOODY MILK

—(Reader) writes: "Please give me a remedy for bloody milk. When the milk is set for cream the bottoms of the pans appear quite red. Ans.—Put the cow in a good upland pasture where she can get plenty fresh water, and give her a powder composed of 2 drs. each, iron sulphate and genatin, and 3 drs. ginger, every morning in a quart of gruel.

BONE MEAL

Like almost everything else, bone meal can be, and no doubt is, adulterated. The best bone meal contains by analysis, as a rule, 54 to 58 per cent. of phosbate, and from 4½ to 5 per cent. of ammonia. When poorer than this in either element, the bones used have been too old, too dirty or otherwise adulterated.

Many diseases of the skin are not only annoying but are difficult to cure. You will not be disappointed if you try Baird's French Ointment It also cures insect stings, piles chapped hands, &c. Sold by all dealers.

DIED.

At Lower Newcastle, July 2nd, Wm Gordon in the 76th year of his age. Funeral to-day, Thursday, at ten o'clock.

("Pioneer" please Copy)

At Chatham on Saturday June 15 th, after a short illness, Miss Ellen Kearney aged 55 years *Requiescat in pace*

At Nelson, 2nd July, very suddenly, John Flett, aged 67 years and 7 months. Funeral today, (Thursday,) at 10.30 a m. The interment will be at St James' Church, Nelson.

At Birch Hill, Nelson, on the 2nd inst, Catherine Percival, sister of the late John Percival, Gates Head, Chatham, in the 96th year of her age. Funeral at 2 p m. local (Chatham) time, to-day, Interment at St Paul's Churchyard Chatham.

PREFERE.

The subscriber intends travelling the Government Percheron Stallion "Prefere," in the following districts, on the dates hereafter mentioned:

1st May, leaving Chatham at 8 o'clock a. m., on route to Bay du Vin—will stand at Wm. Ullock's at noon, thence to Archibald Cameron's, Black River.

May 2nd, will stand at William Willistón's.

May 3rd, will return to Chatham, and remain until Monday morning, 6th May, at 8 o'clock, at which time he will cross the river at Chatham and remain at Wm. Stothart's until 12 o'clock; thence proceed to Newcastle, remaining there over night.

May 7th, will leave Newcastle at 8 a. m., proceeding to E. Parker's at noon; will arrive at Wm. O'Brien's the same evening.

May 8th, leaving O'Brien's at 8 a. m., arriving at James Scofield's at noon, thence to James Bean's, Blackville.

May 9th, will cross the Southwest Bridge, at Blackville, returning down south side, arriving at Daniel Firth's at noon; same evening will be at or near John Newman's.

May 10th, will arrive at Nelson at noon, thence to Chatham; will remain home until Monday morning.

On Monday, May 13th, he will leave Chatham at 8 a. m., and stand for the day at or near George Burchill's, Bartibog, returning to Chatham same evening. Will remain in Chatham until Wednesday morning, 15th, when he will leave as on May 1st and travel on the same route and same time table, and continue to do so regularly every fortnight during the season.

"Prefere" will, thus stand Saturdays and also every alternate Tuesday at Chatham.

Terms of Service, $8 00 for the Season.

Any further information will be given by the Groom.

NOTICE.

WEIGHTS AND MEASURES

TRADERS, Manufacturers, and owners of Weights, Measures, and Weighing Machines generally, are especially requested to read carefully the following instructions and act accordingly:—

1. The Weights and Measures Act provides for a regular biennial inspection of all Weights and Measures used for trade purposes, as well as for *irregular* inspections of the same, which may be made at any time when deemed necessary by the Inspector, and it also imposes a heavy penalty on any trader or other person who wilfully obstructs or impedes an Inspector or Assistant Inspector in the performance of his duty under said Act, or who refuses to produce the whole of his Weights and Measures for inspection when called upon to do so by an Inspecting Officer.

2. Every Trader, Manufacturer and owner of Weights, Measures and Weighing Machines, when paying moneys to Inspectors or Assistant Inspectors of Weights and Measures for verification fees, is entitled to, and is especially requested to demand from the officer who makes the inspection an official certificate (*Form 16 C*) *with the words* "Original for the Trader," *printed at the head thereof; properly filled out and stamped* and also at same time to carefully ascertain whether or not the stamps attached to such certificate represent *exactly* in value the amount of cash paid. Traders are requested to bear in mind that certificates of verification are *of no value whatever* unless stamps covering the full amount of fees charged are attached.

3. Owners or holders of these official certificates are especially requested to keep them carefully for two years, and in order to secure their safe keeping it would be advisable to paste them in their places of business in the manner in which ordinary license certificates are done; for it must be distinctly understood that all traders who are unable to produce their *properly stamped* certificates, when asked to do so by an Inspector or Assistant Inspector, may, in all probability, have to pay over again their verification fees.

E. MIALL,
Commissioner.

Department of Inland Revenue,
Ottawa, April 15th, 1889.

INTERCOLONIAL RAILWAY.

TENDERS FOR BUILDINGS.

SEALED TENDERS, addressed to the undersigned and marked on the outside "Tender for buildings at Moncton," will be received until the 20th day of June, 1889, for the construction at Moncton of a ROUND HOUSE for LOCOMOTIVES and of a SHOP for ERECTING LOCOMOTIVE ENGINES.

Both buildings are to be of brick and to have iron framed roofs, and the round house is to be provided with a wrought iron turn table.

Tenders may be made for either building or for both buildings.

Plans and specifications can be seen and forms of tender can be obtained at the office of the Chief Engineer, Moncton, N B.
