Icintyre & Wardwell (John J. Dixon) eived the following despatch from New rk to-day:

o-day was selected by traders as a day profit taking in the stock market. ces for nearly everything had a sharp re- ery from Monday's low level, and not- hstanding the absence of unfavorable ws the temptation to take profits proved esistible. The bears anticipated this vement, and hammered the market, util- ng yellow fever reports and the inflation outside gas stocks and other unlisted urities and the apparent over-bought dition of the market as a pretext. Pres- re was chiefly directed against Grangers l Southern securities, which gave way, ewhere prices kept up fairly well and owed only fractional changes from last ht's prices. Minneapolis and St. Louis res came to the front with advances of to 3 points, and a very strong tone. ilers developed increased strength on rgan influences. The decline in the mar- was arrested in late trading by large ing of the bull clique, particularly in thern Pacific and Atchison, but notwith- nding this the market sagged towards close. The Board of Control of Joint affic Association was in session to com- te arrangements for restoration of east l westbound traffic. Late in the day rling was $4.83 and $4.85½.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street t, received the following despatch to-day m Chicago:

Wheat opened lower by ¾c without any parent cause. Liverpool early cables e three farthings higher. After the ening the market became firmer and sold to 94⅝c during the first half hour. Sec- l cables quoted their market dull at ½d er; this started the local crowd selling, t as there was very little support to the rket, prices broke easily to 93½c and sed at about low point for the day. re was no apparent cause for so dull a rket. The break permitted of consider- e export business. We know of 100,000 shels No. 2 red and an equal quantity No. 2 hard and No. 2 spring sold here export. Our New York people report 50 is taken there for export to-day. The al clearances in both wheat and flour re 740,000 bushels. Northwest cars were , against 832 cars last year. We have orts of killing frosts in portions of the rthwest. San Francisco wired: "Oregon Washington having continued rains; ed from one-third to one-half of crop; many places large tracts of splendid eat total loss." All this news had no ect. Paris closed 5c lower; Antwerp 5½ s. lower. Local receipts 351 cars. The ket closed weak. On any further de e wheat should be a purchase.

orn and oats ruled quiet and steady and hin a narrow range. Total clearances orn 241,000 bushels. Cash demand for n very fair. The trade was not very ge in volume, transactions being con- d chiefly to local operators. Receipts corn were 882 cars and 295 cars oats. e close was steady.

rovisions—Opening prices were a shade er this morning, but rallied some on buying by packers and professionals, eipts were 21,000 hogs. With yellow er in the South it is hard at present to ard an opinion. With the coal strike led the demand for meats should be d, so think we have had break enough discount the fever scare. The selling s scattered. The market closed steady firm around the best prices for the day. timated receipts of hogs for Friday 16,

McIntyre & Wardwell (John J. Dixon) eived the following despatch from Chi- o to-day:

Wheat—Market was a stupid affair to- , the trading mainly professional and quick fluctuations were caused by local ping element, who seemed to trade in heart. There was no news especially fa- able to long interest and the market sequently was inclined to heaviness, clos- weak at 1⅛c decline from last night's ces. Cable advices were without fea- re and shipping demand at seaboard not tractive; 30 loads taken by exporters. vement of wheat continues liberal, and expect to see a steady accumulation of cks for some time to come. The ught through the west has been effectu- broken by generous rains. We rather k for further decline.

orn and Oats—The corn market opened r, feeling some pressure to sell by local ders, generally on rains and south- st and cooler weather. Country sold the corn to-day. In oats there was a light de and prices ruled steady.

rovisions opened weak and lower and anced on good buying of December pork l lard by Anglo-American Provision Co. d was stronger than pork or ribs, with good cash demand. The market closed ong at about highest prices of the day. timated hogs to-morrow 15,000.

A FIGHT WITH MOMUNDS

Senate Reading Room Pianos SENATE P O

General Bl s Division Had a Sharp Encounter.

BRITISH LOST 140 KILLED AND WOUNDED.

The Enemy Was Found in Unexpected Strength in the Hills.

A Regiment of Sikhs Supported by Four Guns Was Sent to the Attack and Drove the Tribesmen Into the Hills, But They Came Back With Reinforcements and the Tide of Battle Was Turned for a Time—Cavalry Charged Brilliantly and With Other Help Swept the Rebels Back—Lieut. Hughes. and Lieut. Crawford Are Among the Killed—Cable News

Camp Anayat, via Panjkora, Sept. 17.—(8 p.m.)—Severe fighting has taken place between the second brigade of General Sir Bindon Blood's division and the Momunds. The British loss was about 140 killed and wounded. The brigade had moved out to attack the Momunds in the valley north of the camp, to punish them for the assault Tuesday night upon the force of General Jeffreys at the foot of Rawat Pass. The Bengal Lancers found the enemy entrenched on the hills, about eight miles distant.

A Sikh Regiment to the Attack.

The 35th Sikhs were ordered to make the attack. The regiment was supported by four guns of a mountain battery and by six companies of Buffs. The Sikhs drove the enemy into the hills, but eventually fell back upon the Buffs before superior numbers.

The enemy then advanced against the left flank, drove back the cavalry and surrounded a company of Sikhs. The cavalry charged brilliantly and relieved the Sikhs, and the guides, coming up, swept the enemy back. The force halted for some time, destroying the enemy's towers, and then retired.

Pressed Hard on the Right

A company of Sikhs on the hills to the extreme right were hard pressed and were running short of ammunition, when the general officer commanding moved the guides forward to their relief, which was gallantly accomplished. The guides carried the wounded Sikhs back and executed the withdrawal in good order, though the enemy pressed them hard.

Darkness came on before the force reached the camp, and the guides, with General Jeffreys and his escort of Buffs, became separated from the column, which passed them in the gloom. General Jeffreys remained with the guns and took up a position in a village.

Enemy Driven Back.

The enemy had occupied a part of the village, and the escort, not being strong enough to repel them, they had inflicted considerable loss on the little party before Major Wortledge, with two companies, each composed of Sikhs and guides, came up and compelled them to retire. A large body of cavalry and the 38th Dogras left the camp and brought in the whole detachment.

Captain Birch and Lieut. Watson behaved with great gallantry. Lieut. Hughes and Lieut. Crawford were killed.

Lieut. Watson, Lieut. Gunning and Lieut. Winter were severely wounded and Gen. Jeffreys, Lieut. Cassels and Capt. Birch slightly wounded.

The Buffs lost one killed and seven wounded; the Sikhs 21 killed and 42 wounded; the guides two killed and 10 wounded; the gunners 7 killed and 21 wounded, and the Sappers 3 killed and 16 wounded. Two Bengal Lancers were wounded. Many horses and mules were killed.

Very Serious News.

The Daily News says: "It is very serious news and gives the greatest importance to the appointment of Sir William Lockhart to succeed Sir George White as Commander-in-Chief in India, on the latter's retirement, which has just been officially announced. There is little doubt that his name will be heard with dread by the insurgent tribesmen."

THEY CALL IT A' REVERSE.

London Newspapers Comment in a Rather Doleful Strain on the Fight

London, Sept. 18.—All the morning papers comment upon the British reverse north of Camp Anayat.

The Daily Telegraph calls it "disastrous," and says: "Whether it was due to rashness or to some not yet explained cause, it will be a matter of unfeigned sorrow. When we read of the loss of so many valuable lives we can only deplore a casualty which, though it will doubtless be speedily avenged, casts a gloom upon the happier intelligence received from Fort Gulistan."

in Every Way Deplorable.

The Standard says: "The interruption of the advance is every way deplorable. It is absolutely necessary to retrieve the reverse, and, meanwhile, the enemy, who were said to be disheartened and disinclined to fight, will be encouraged to organize a determined resistance. Probably the 3rd Brigade, which has reached Nawagai, will retrace its steps in order to support Gen. Jeffreys. It is impossible to offer an explanation of the mishap. We must remember, however, that it occurred in a country never before traversed by European troops and very little known, the country of the Momunds, who also knew very little of the strength ultimately to be employed against them. But there is reason to fear once again that a lack of complete intelligence as to the disposition of the enemy's strength has led our commanders to undertake an operation that cannot be pushed through. Further details are awaited with anxiety. It must be hoped that the Indian Government will give Sir William Lockhart a perfectly free hand to choose his own men. He must not be bound by red tape regulations. Much has yet to be done before peace and order will be restored."

THE CIRCASSIA SAVE.

Towed Into Queenstown Harbor by the SS. Memnon From Montreal.

Queenstown, Sept. 17.—The overdue Anchor Line steamer Circassia, which left New York on Aug. 28 for Glasgow, and which should have reached that port on Thursday, Sept. 9, was sighted this morning off Kinsale Head, in tow of the British steamer Memnon, Captain Bales, from Montreal, on Sept. 3, for Avonmouth. On Sept. 5 the Circassia was overhauled by the Thingvalla Line steamer Island, from New York for Copenhagen, and was taken in tow by the latter, as she was in a disabled condition. Owing to the heavy sea which prevailed the hawser parted and the Island was unable to take the Circassia in tow again.

Passengers All Well.

Queenstown, Sept. 17.—The passengers of the Circassia are all well and have been landed here. The Memnon met the Circassia on Monday last, Sept. 13, when the two vessels were about 600 miles west of Queenstown, the Anchor Line steamer having drifted eastward about 230 miles after becoming separated from the Island. The accident which disabled the Circassia occurred on Saturday, Sept. 4, when 900 miles from New York.

From a passenger it was learned that the shaft broke within the tube on the morning of the 4th instant and could not be repaired. The weather was so rough that the Thingvalla liner Island could not tow her, hawsers and chains snapping like small cords. The Memnon picked the vessel up on the 13th, and after some trouble a cable was attached and no further mishap occurred.

SAW ANDREE'S BALLOON.

People in Arctic Russia Gazed for Five Minutes on an Airship.

St. Petersburg, Sept. 17.—A telegraphic message received here from Krasnoyarsk, in the interior of Siberia, says that on Sept. 14, at 11 p.m., the inhabitants of the village of Antzifirowskoje, in the district of Yeniseisk, Arctic Russia, saw a balloon, believed to be that of Professor Andree, the Swedish aeronaut, who left the island of Tromsoe shortly before 2.30 p.m. on July 11, in an attempt to cross the Polar region. The balloon, it is added, was in sight for about five minutes.

FOUR PERSONS CREMATED.

Disastrous Fire Started in a Bazaar at Cabul and 159 Houses Were Burned.

Simla, Sept. 17.—A destructive fire which began in a bazaar of Cabul, the capital of Afghanistan, on Sept. 6, lasted until Sept. 7. One hundred and fifty stores were burned, four persons were cremated and damage to the amount of several lakhs of rupees was done.

Sir Walter Pyne, the Ameer's British adviser, distinguished himself in directing the work of quenching the flames, organizing a fire brigade and using the fire engines which are kept in the workshops of the Ameer.

The Bad Harvest in Russia.

St. Petersburg, Sept. 17.—The bad harvest affects 17 Russian provinces, and it is feared it will also be felt in 1898, as the drought has prevented sowing winter wheat in a large area. The immense reserve stocks will prevent a famine; but the peasants are ruined for several years.

BEHRING SEA CORRESPONDENCE.

London Times Publishes the Gist of It and Shows Charity to Sherman.

London, Sept. 18.—The Times this morning publishes the gist of the correspondence between Secretary Sherman and Lord Salisbury in the Behring Sea controversy.

The blue book covers a period beginning with 1895 and ending with July 30 of the present year. Altogether there are 107 despatches, which show that the United States has pressed for revision since January, 1895.

The Times remarks: "Though Mr. Sherman so far forgot himself as to sign the famous despatch, we cannot suppose that he actually wrote it." Only the concluding paragraph of the despatch is republished, all the terms deemed discourteous being omitted.

ANOTHER HEAD IN THE BASKET.

Thomas McCarthy, Deputy Warden of St. Vincent de Paul Penitentiary, Suspended—Convicts Still Shouting.

Montreal, Sept. 17.—Thomas McCarthy, Deputy Warden of St. Vincent de Paul Penitentiary, was suspended today. The news has created great indignation, as he was liked by both Liberals and Conservatives. The letter of suspension was handed him by the Acting Warden, and was written by the inspector, Mr. W. Stewart. The reason given was on account of the exigencies of the present situation and on account of his advanced age. The notice was not unexpected, for from the beginning of the investigation into the affairs of the Penitentiary, Mr. Foster, the Acting Warden, showed that Mr. McCarthy was not persona grata. It had been Mr. McCarthy's intention to resign as soon as the present trouble was over. Mr. McCarthy, when seen to-day, stated that he was conscious of having done his duty all his life, but that if they did not want him any more he was satisfied, though he would much rather have had the chance to resign. The fact that Mr. McCarthy was suspected of being a friend of the suspended warden, Mr. Ouimet, was probably the principal reason for his suspension.

It is expected that when the news becomes known among the convicts, as it will in an hour or so, it will have the effect of making them still more rebellious. Mr. McCarthy has been connected with penitentiaries in the capacity of head-keeper and deputy warden since December, 1856. He commenced at Kingston and was transferred in December, 1881, to St. Vincent de Paul. He was mainly responsible for the suppression of the revolt, and he worked under seven wardens. His name has time and again been favorably mentioned in reports.

It is understood that the ringleaders of the present trouble will be transferred to Kingston as soon as possible. They are still shouting.

Mr. Joseph Contant, the chief keeper, has been appointed acting deputy warden, replacing Mr. McCarthy.

FREE GOLD DISCOVERED.

So Reports a Prospector for the Railway Syndicate From the Michipicoten District.

Sault Ste. Marie, Sept. 17.—The North Shore steamer arrived down from Michipicoten this morning with about a dozen passengers. Thirty prospectors went in there yesterday. By to-day's boat the railway syndicate, which has 11 40-acre locations on the north and south shore of the lake, received a letter from one of its prospectors, which stated that free gold had been discovered in a vein on their property on the south side of the lake. This assures them gold-bearing veins on either side of the lake, and they are more confident than ever that they have a mighty good thing there. J. L. Caverhill, the wealthy Montreaker, in whose interest Prof. McKenzie went to the region and examined the Dickinson-Mackey claim, is among those on the ground now. Mr. Caverhill is there for the purpose of closing a deal with Mr. Dickinson for a 49 100th interest in the claim, for which he is to pay $10,000. Dickinson will retain the controlling interest in the claim, which includes 40 acres in all. It is Mr. Caverhill's intention to sink a shaft at the earliest practicable moment. The North Shore steamer will have about 20 passengers for the outside points. But few tenderfeet are now going in, the majority of the prospectors being experienced men, inured to the hard work that is before them. Many of them are representing eastern parties in the United States and Canada.

ADDRESSED AGAIN.

Sir Wilfrid Laurier Had to Reply to More Congratulatory Expressions, French and English.

Montreal, Sept. 17.—(Special.)—Sir Wilfrid Laurier was presented with an address to-day by the French National Union and the British Empire League. Replying to the latter, Sir Wilfrid said he was happy that his speeches in England had met with their approval. They were all agreed that our present relations with the Mother Country were very satisfactory. They, however, could not always remain as they were, and then there would be but one solution, separation, or closer union with the Motherland. We all fondly believe the solution will not be separation, but closer union. It was, he believed, possible to keep our present legislative and fiscal independence and still have closer union.

Sir Wilfrid Laurier to-day requested Mr. D. A. Ansell, Consul-General for Mexico, to telegraph his congratulations to President Diaz on his escape from assassination.

Sir Wilfrid's Visit to Toronto.

There was a well-attended meeting of the Toronto Reform Association last night to discuss plans for a reception on the coming visit of Sir Wilfrid Laurier to this city. President J. H. McKenzie was in the chair, and it was decided to make the celebration and demonstration a public one. It was proposed to tender the Premier a banquet, but a communication was read from President Gurney of the Board of Trade stating that the board would like to entertain him in that manner. It was decided to forego the banquet undertaking and to allow the Board of Trade the honor.

Sir Wilfrid will be in Toronto on Oct. 5 and 6, and on the second day, if suitable arrangements can be made, he will hold a public reception.

BOTH MEN HURT.

Two Torontonians Get Into a Fight and They are Now in the Same Ward at St. Michael's Hospital.

There was a lively scrap on Colborne-street yesterday afternoon, the two participants eventually being attended in the same ward at St. Michael's Hospital.

John Herson is a butcher at St. Lawrence Market, and he has a horse and rig. James Muldoon lives at 88 Colborne-street, and he wanted to borrow Mr. Herson's conveyance. He applied to the owner, who, it is stated, refused the request. Notwithstanding this, Mr. Muldoon took the turnout, and when he came back with it Herson was wrathy, and proceeded to put the borrower out of the rig. In doing so, Muldoon's leg caught upon a jagged piece of iron and was very severely torn. He went home and got his injury temporarily attended to, and then sent for Herson to come and see him. When Herson arrived there was a warm argument, that terminated in a considerable amount of bloodshed. The ambulance took Muldoon to St. Michael's Hospital, and he hadn't been there long when some of Herson's friends brought him to the institution.

Both men are considerably scratched and bruised, but neither is seriously hurt.

THE PROVINCIAL ELECTIONS.

The indications are that the local elections will be held in November or December. The deal at Kingston has been completed—the deal to allow Mr. Hugh Ryan to contest that city in succession to the seat for the city in the Legislative Chamber, and to the seat in the Cabinet, both now held by Hon. Mr. Harty.

The details run about as follows: Ald. Preston of Toronto and Librarian of Ontario is to get the Wardenship of Kingston Penitentiary in place of James Metcalfe, ex-M.P., who is to be moved from that post to the Wardenship of the Penitentiary in Manitoba; and in consideration for the latter's head not going into the basket as a result of the report of the recent commission on the administration of the prison, Mr. Metcalfe and his friends are not "to do Mr. Ryan any harm." The Ottawa Government is appointing Mr. Preston and moving Mr. Metcalfe—not removing him—in order to help Mr. Hardy.

This is the story given out, and it is confirmed in several ways. Mr. Preston has got the wardenship; it yet remains to be seen whether Mr. Metcalfe will accept his removal or resign and contest Kingston for the local.

Other reports are that a session will be held in December and the elections in February, but The World is inclined to believe that the late session will be the last of the present Legislature.

Conservative Rally at the Junction.

A political demonstration will take place in the Town Park Saturday afternoon under the auspices of the Young Men's Central Conservative Club of West York, which will be addressed by Mr. J. P. Whitney, leader of the Opposition in the Ontario Legislature; Hon. N. Clarke Wallace, M.P., West York; W. F. Maclean, M.P., East York; J. W. St. John, M.L.A., Conservative nominee in West York; Col. Tyrwhitt, M.P., Mr. Magwood, M.L.A., Mr. Miscampbell, M.L.A., and others. Great preparations have been made for the event. An arch has been erected at the entrance to the park, over which is the motto in red, white and blue, "Welcome." The procession to the park will leave Humberside-avenue at the junction with the city cars at 1.30 p.m., and will be headed by the Citizens' Band. In the evening a banquet will be held at the Heydon House.

DEATHS

DIX—At Garden Island, on Sept. 15, Isabella Dix, daughter of the late Joseph Dix.

THERE IS NO COMBINE

Among the Wheat Dealers in Manitoba.

SO AFFIRMS MR. WM. SCOTT,

President of the McKay Milling Company of Ottawa.

The Rumor of Such a Combine Was a Fake, Pure and Simple—Wheat Must Reach An Export Price and the Farmer Is in No Danger of Being Cornered—Hungarians and Galicians Doing Well in the Northwest—Ottawa News.

Ottawa, Sept. 17.—Mr. William Scott, President of the McKay Milling Company of Ottawa, was seen to-day by a reporter in regard to the report that a gigantic combine of wheat dealers had been formed to defraud the farmers of Manitoba in connection with the wheat crop, and characterized the rumor as a fake, pure and simple.

"I cannot understand what can have given rise to such a report," said Mr. Scott. "I have heard of combines being formed to put up the price of wheat, but combines formed, as this one is said to be, with the intention of keeping it down, are an impossibility. Wheat must," he went on to say, "in any case reach an export price, and when this is attained the farmer is in no danger of being cornered by a combine. The Chicago market regulates the export price of wheat in this country. When our grain is shipped to the English market in Liverpool it must compete with that of other countries. I was in Montreal yesterday and was talking with members, both of the Lake of the Woods Milling Company and of the Ogilvie Company, and none of them had heard anything about the reported combine of the Manitoba wheat dealers."

Subsequently Mr. Scott sent a telegram to the Northern Elevator Company of Winnipeg, "Can you give us any information respecting reported combine?" The following reply came: "Your telegram received. Combine reports are humbug; any person acquainted with the trade in Manitoba wheat knows that it is a practical impossibility to organize a combine to control either the buying or selling. The facilities provided by the Canadian Pacific Railway Company prevent any such combination. If you have any doubt about no competition in the country come up and put out buyers; will see you get plenty of elevator accommodation. (Signed) Northern Elevator Company, Winnipeg, Man."

The Spirit of Philanthropy.

It is pleasant to be able to record the fact that the spirit of philanthropy is largely existent in Ottawa. The latest evidence of this is the gift, for a home for incurables, by the heirs of the Perley estate of the beautiful and expensive residence on Wellington-street, erected by the late G. W. Perley, for some time one of Ottawa's parliamentary representatives.

Hungarians and Galicians Doing Well.

Mr. Edouard Schultze, Austro-Hungarian Consul-General, recently made a tour of the Galician colonies in the Canadian Northwest Territories, and has expressed to the Commissioner of Immigration at Winnipeg his entire satisfaction with the condition of the Galician and Hungarian colonies. Mr. Schultze sent the following telegram to the Commissioner from Yorkton, N.W.T., on the 9th inst.:

"Have inspected colonies at Saltcoats and Yorkton, accompanied by Officer Speers from Whitewood. I am delighted with what I have seen: beautiful country, especially adapted for settlement, far exceeds my expectations; good houses, splendid farms; am very thankful for your wise policy in placing these people. Mr. Speers has taken great pains to show every advantage to the people; the colony does reflects great credit; is really wonderful. I extend to you the gratitude of my Government for what I have seen. Hungarian colony at Whitewood very prosperous."

The Globe of To-Day.

From The Simcoe Reformer (Liberal.)

The Globe sinks to the level of the smallest of the cockatoos. It appears to imagine that the last word has been said, and Mr. Tarte cleared beyond hope of contradiction by simply casting aspersions upon the Liberalism of the journals that have dared to criticize. And yet the time was, and not so long ago either, when The Globe talked of its independence and boasted that it wore the collar of neither party nor clique.

Klondy Kerr, Q. C.

The Hamilton Spectator calls James Kirkpatrick Kerr, Q.C., James Kaffir Kerr. Why not James Klondyke Kerr? He is a Klondyker in very truth. Or, if there is too much of the one sound in this arrangement, it could be made more euphonious by calling J. Klondy Kerr. He is the great Klondyker.

On Dit.

That Mr. Avern Pardoe is to be appointed Librarian of Ontario, in succession to Ald. Preston, who is to be Warden of Kingston Penitentiary.

That A. T. Wood, M.P., of Hamilton, is to be Lieutenant-Governor of Ontario.
