TORONTO BOYS GET HOME

Continued From Page 1.

from British Columbia this morning. Mr. Wood was a young man when he left Toronto in 1888 for the west. He is engaged in mercantile pursuits and, like all the Toronto boys in British Columbia, has done well.

Archibald H. Smith of New York is visiting his mother at 95 Wilton avenue. Mr. Smith is a photo-engraver and when a resident of Toronto occupied positions with the Grip Publishing Co. and the Canada Photo Engraving Co. He follows this business in New York with success.

Left Here 20 Years Ago.

Col. A. P. Graham of Boston, Mass., now at the King Edward, arrived in the city yesterday. The colonel left here first 20 years ago and settled in Boston, where he is a prosperous merchant, owning one of the largest drygoods emporiums in that city. He is not only an old citizen of Toronto, but a veteran in His Majesty's army. In 1885, when the Northwest rebellion broke out, he saw active service as a member of the Q. O. R. in Captain Brown's company. He is also an ex-member of the Grenadiers and the Victoria Rifles of Montreal. Some time ago he founded the Canadian Club of Boston, under whose auspices the Hon. Clifford Sifton, Senators McKeown and Ellis and Sir Chas. Tupper have visited that city. Speaking to The World, Col. Graham expressed his pleasure at being back again to the place of his birth. He said: "The pleasure I experienced at reaching here was two-fold. I was glad to get back here, and I was pleased and astonished at the great changes that have been made. I would hardly know the old town. The improvements everywhere make it one of the brightest and most up-to-date cities I have visited. A great deal of credit is due the committee of the Home-Comers' Festival, and especially Stewart Houston and Noel Marshall, for the way in which they have advertised Toronto on this occasion. In every city I have visited on my way here from Boston posters announcing the Toronto Home-Comers' Festival were to be seen. People talked about it, and articles appeared in the papers. I don't think the citizens can thank them too much for their good work in this regard.

Found Things Changed.

"Things have indeed changed since I left here. In Boston at that time people knew very little of Canada, but to-day the American papers editorially are full of Canada. They are beginning to realize the vast resources and wealth of the land to the north of them, and dream of some day acquiring this big country. Since the founding of the Boston Canadian Club, similar associations have been established in every large American city. My intention in promoting this club was to advertise Canada and I am glad to see my week efforts bearing such good fruit. Perhaps one of the best advertisements that Canada and Toronto can have is her sons who left her many years ago and are now at the top. I don't think I know a Canadian who has not made a success over there. To-day there are 75,000 Canadians in Boston. Within a radius of ten miles of Station House there are 100,000. Many Canadians have been sent to the legislature and if they were only more active in becoming naturalized citizens there are those who would fill the mayor's chair and other positions of prominence.

"Yes, indeed, Toronto has made great strides ahead. I had the pleasure of going thru these two large departmental stores—Eton's and Simpson's—and as I am in that line of business, I have an idea of what I am saying when a state that they are without exaggeration the finest I have ever seen. They are simply wonders, both in their operation and stocks they carry, as well as the many ideas they have in vogue which are really in advance of their rivals in the States. As to the King Edward, no one could resist expressing his admiration of this magnificent pile. I have been in every large hotel in America and many on the Continent, and you may quote me as saying that this hotel will compare favorably with any of them. The people, too, of Toronto are a pleasure to meet. They are certainly abreast of the times. It would be hard indeed for the best of the Yankees to outdo Torontonians in their hospitality."

Who'll Get the Medals?

Something that adds interest to the arrival of home comers from a distance are the medals offered by the committee to the three who, in coming to Toronto, have covered the greatest stretch of ground. At present it looks like Dr. A. Smith, from Assam, India, as winner of the gold medal; W. Alton Bell of New Zealand, the silver medal, and Major Hartley of South Africa, the bronze medal.

A deputation headed by A. F. Rutter leaves to-day to meet the Old Boys from Chicago on their way to Toronto.

Master Painters Satisfied.

The Master Painters' Association met at the Temple Building last night, when reports were read concerning the coming National Association Convention and exhibition of work. The convention will be held in February, but the exhibition will take place on Aug. 11. During the evening it was reported by those present that over 200 men were working for the masters, about all they require at this season. The men who have the contracts for the schools report that they have all the men they require. The masters declare they are determined to stand by their original offer of 30c per hour as the standard wage.

Stolen Silverware Identified.

The silver table set which was in the possession of James Dwyer Detective Duncan's suspect, has been identified as a set belonging to Major Mutter of Esquimalt, which was being shipped to him from Montreal to Owen Sound. When the box car arrived at the latter place the seals were found to be broken and the cabinet of silverware missing. The police are now unable to locate the major.

Sunlight Soap will not injure your blankets or harden them. It will make them soft, white and fleecy. 2B

City of Hamilton

HAMILTON MAN SUICIDES

Was Heavy Loser in Stocks and Interested in A. E. Ames & Co. Failure.

VALUABLE PROPERTY REMAINED

Man Fined for Plucking Flowers to Please His Lady Friend.

Hamilton, June 29.—(Special.)—Joseph Jeffrey, one of the social lights of the city, and a man who was able to retire five years ago on his wealth, placed the muzzle of a revolver in his mouth this morning and pulled the trigger. The bullet passed thru his head, came out behind his ear, and lodged in the ceiling. He fell forward, and died a very short time afterwards. He did not go to the trouble of dressing, but sat on the edge of the bed and fired the shot. He died about 8:30.

His friends hold the Ames failure in Toronto responsible. His sister, who lived with him, knew that he was worrying about money he had dropped on the stock market. He was in no danger of poverty, however, as he had an annuity of at least $800, and owned some valuable property. He seemed to fear that thru the loss of so much money he would lose his place in society, and his life of luxury.

He was 59 years of age, and had never married. His brother, William, is a traveler for R. H. Macy & Co., New York, and Mrs. Surtees, Ottawa, is a sister.

On Its Last Legs.

The Board of Trade appears to be on its last legs. Very few members turned out for the election of officers this afternoon, and the members had to almost go down on their knees to get any one willing to take the office of president. H. N. Kittson very reluctantly consented to take the position. The other officers chosen were: C. A. Birge, vice-president; Charles Stiff, secretary-treasurer; Council, W. A. Robinson, A. Turner, F. C. Fearman, J. J. Greene, C. W. Tinsling, F. H. Lamb, H. G. Wright, A. D. Braithwaite, Thomas W. Watkins, J. M. Young, J. R. Moodie.

Happenings.

W. H. Childs was appointed steward of the City Hospital this morning.

John Murney, the youth charged with attempted rape, appeared in the Police Court this morning and was remanded till to-morrow. W. Crofton was fined $5 for plucking a geranium plant for his lady friend. Horace Farrell, Frederick Taylor and Bert Black, the wandering youths from Toronto, were told to make their way home again as fast as they could.

Martin Malone is suing Bailiff John Hunt for libel, and the bailiff has entered suit against him on the same charge.

T. J. Eagan of this city and Miss Elizabeth Marie Ryan, Kingston, were married this morning in St. Mary's Cathedral.

The Barton-street Methodists have bought a new parsonage. It is at 18 William-street.

Drink Radnor Water and Daniel Crawford's Scotch. To be had in principal hotels and stores. 246

The Toronto Daily World delivered to any address in the city or Beach for 25 cents a month.

No. 4 Bearer Company, A.M.C., is the only Toronto corps that will be asked to take part in the Summer Carnival.

The local lodges of the I.O.F. are forming a company to erect a big hall.

WHISKEY EXHIBITED IN PULPIT.

Stamford, Conn., June 29.—The Rev. J. W. Cady, pastor of the Methodist Church, created a sensation last night when he carried with him to his pulpit two flasks of whiskey. Mr. Cady used the flasks of whiskey to illustrate a sermon on temperance. He said that the liquor had been obtained by members of his congregation early that morning after the closing hours provided by law.

Mr. Cady said that for the last month it has been his custom to arise between 3 and 4 o'clock on Sunday morning and to wander thru the city. His investigations in this manner showed him that 80 per cent. of the saloonkeepers in town were doing business early on Sunday mornings. In bringing his address to a close Mr. Cady promised to disclose some startling facts after he returns from his vacation in July.

FROM CRADLE TO GRAVE.

New York, June 29.—All baby carriages must soon have union labels on them. Non-union made baby carriages are to disappear from the market since the Amalgamated Woodworkers' Union has now bestirred itself to organize all reed, rattan and willow-workers. All coffinmakers are also to be organized by the Woodworkers' Union, and the coffins must have the union labels on them. The reed, rattan and willowworkers are all to be affiliated with the Woodworkers' Trades Council.

COAL BREVITIES

Our celebrated Lehigh Valley Coal reduced to $6.50 a ton. Pea coal $5.50 P. Burns & Co., Tel. Main 131.

Dr. Thomas Armstrong has removed his office to the corner of Carlton and Yonge-streets. Office hours 10 a.m. to 12 a.m. and from 2 to 4 p.m. Stomach, bladder and rectal diseases. ed

The annual departmental examinations began in the various High Schools thruout the province yesterday. There are about 6000 pupils writing, and the examiners two weeks hence will have about 60,000 answer papers to pass judgment on.

If you want to save money now is the time to order your coal. Try our Plymouth coal and you will burn no other; $6.50 per ton; pea, $5.50. James H. Milnes & Co., 86 King street E. 'Phones Main 2379 and 2380. 246.

Some 40 boys from the West End Y.M.C.A. started yesterday morning on a two-weeks' vacation on the Lake Shore near Bronte. The boys anticipate a good time under the care of Mr. Tait and a half dozen competent leaders.

The new iron palace steamer (Captain Foote) City of Owen Sound starts her daily trips to Grimsby Park and Jordan Beach on July 1. The steamer leaves the Yonge-street wharf at 8 o'clock a.m.; returning, leaves the park at 5 p.m. Special holiday rate has been fixed at 50 cents, return, including admission to the park. This is one of the most pleasant sails on the lake.

Lorenz Sees Oysters.

Atlantic City, N.J., June 29.—Dr. Adolf Lorenz, the distinguished surgeon, to-day expressed a desire to visit the habitat of the oyster and learn just how the bivalve is grown. Dr. Augustus Wilson got a launch belonging to Chief Engineer Weisenthal of the local fire department and took Dr. Lorenz into the oyster grounds.

Died in Galt.

Galt, June 29.—Angus McBean died on Sunday afternoon. He was 76. While he did not seek office, he was a prominent figure in township politics, and was a Justice of the Peace. He was a life long Liberal and a member of Knox Church.

WILL BUY A ROCK CRUSHER

Board of Works Gets Thru Proposal to Bridge Ferrie and Wellington-Streets.

FRICTION ON HOSPITAL BOARD

George Roach Resigns Because His Colleague Wanted to Be Called "Colonel."

Hamilton, June 29.—The City Council sat long beyond the time limit to-night, but there was more talk than actual results. When the aldermen got thru making amendments to the Board of Works' report it looked like a war map. A gyratory rock crusher will be purchased for $1285, and a long list of streets to be macadamized was referred back. The recommendation of Ald. Kerr's committee that Ferrie and Wellington streets over the G. T. R. be bridged was adopted without a division. The opponents of the Hamilton, Caledonia and Lake Erie Railway got the naming of Augusta and O'Reilly streets as a route for the road knocked out. The request of the Bell Telephone Co. to erect poles on various streets was referred back for further consideration and an effort will be made to come to terms with the company for the payment of a poll tax. A special committee was appointed to proceed with the bay front improvements. The Council adjourned until July 27.

Wouldn't Call Him Colonel.

The resignation of George Roach, who has been chairman of the Board of Hospital Governors ever since the board was organized seven years ago, was not dealt with to-night. It is said that the chairman resigned owing to friction with his colleague, Lieut.-Col. Moore. On his side the colonel complains that the chairman persisted in addressing him as plain Mr. Moore, refusing to give him his title as colonel. He says Mr. Roach was discourteous to him in other ways.

CABINET DIVIDED ON G.T.P.

Continued From Page 1.

ment there was a stipulation forbidding amalgamation with a United States railway, but Mr. Blair didn't think it mattered much whether or not there was an anti-amalgamation clause, as the company couldn't amalgamate with another company without the sanction of parliament. He explained that where permission was given to build thru Minnesota, to save expense and hasten construction of the line between Port Arthur and Winnipeg, and which understanding was entered into between Messrs. Mackenzie and Mann and the government, if at any time it was deemed advisable to have the line all in Canadian territory, they would build across the Lake of the Woods, if given additional government assistance.

Mr. Tarte insisted that when the government was pledging nine million dollars of public money in assisting this railway it was only right to secure all possible safeguards against amalgamation with a United States corporation, whose object would be to divert our trade.

Mr. Blair contended that it would be impossible to put a clause in a charter that would prevent a railway sending freight to a destination in the United States.

Put in a Clause.

Mr. Tarte insisted upon the advisability of inserting a clause to prevent amalgamation with an American railway.

This brought Mr. Sifton to his feet. He said he sympathized with Mr. Tarte in his desire to have Canadian products transported thru Canadian channels. But he also agreed with Mr. Blair that the practical way to effect that was to make the Canadian the most advantageous route. He submitted that there was no more danger of the Canadian Northern amalgamating with an American road because it went thru 50 miles of the State of Minnesota to reach Fort Arthur than there was of the C.P.R. Railway amalgamating with an American corporation because it ran thru part of the State of Maine to reach St. John.

Mr. Tarte, picking up a map, pointed to Duluth as possessing the greatest grain elevator system in the world, and asked if Mr. Hill might not think it worth while to buy the Canadian Northern and all its works at Port Arthur in order to increase the traffic at Duluth.

"As for the C.P.R. route thru Maine, most of us in Quebec, altho we supported the government at the time, strongly objected to that part of the scheme," said Mr. Tarte, "and the hon. gentleman also thinks that was a mistake. Why does he wish to repeat it in this case of the Canadian Northern?"

Both Mr. Sifton and Mr. Fielding admitted that the clause forbidding amalgamation with the C.P.R. had no legal value, but simply indicated the conditions under which the assistance was given.

Mr. Haggart declared that it was against Canadian policy to allow any American railway to gain the slightest control over a railway in Canada. A primary requisite in every charter was that a majority of shareholders should be British subjects. If the government had not considered this phase of the question it should have done so.

A. E. Kemp drew attention to the fact that the removal of canal tolls has caused more grain to be shipped down the St. Lawrence in a single week than was last year shipped during the whole season. He said the lack of Canadian bottoms on the Great Lakes was responsible for diverting such a large quantity of grain to Buffalo.

Leighton McCarthy pointed out that in the Grand Trunk Pacific bill a clause had been inserted requiring freight originating in Canada to be delivered to a Canadian port.

The clause respecting control of bills was held over.

T. O. Davis moved an amendment to clause seven that the government should have power at any time to take over the lines covered by the guarantee of bonds.

Mr. Blair said he could not consent to this amendment until he had consulted with his colleagues. The clause was allowed to stand.

A Splendid Opportunity.

The water fete, on the evening of July 2, will, without doubt, furnish the most enchanting scene it has been our pleasure to witness for many a year. The best possible way to view this wonderful exhibition on that night is to take the steamer Chippewa. This magnificent boat of the Niagara River Line will leave her wharf at 8:30 and will cruise around lake and Bay, stopping at such points as will render the best view of the exhibition. There will be music on board, and best of all there will be no chance of overcrowding, the management having decided to limit the number of tickets sold. Particulars and tickets, which are 50c each, at 54 East King-street, the head office of the company.

RETAIL MERCHANTS TO INTRODUCE INNOVATIONS

Association Trying to Secure New Street Cleaning Apparatus, Adopts New Electrical Invention.

Numerous reports from committees were received by the general executive of the Toronto branch of the Retail Merchants' Association at their meeting last night. President John Wilmot was in the chair. A communication was received from the Home Comers' Festival Committee requesting the association to appoint three members to represent them on the Festival committee. The association regretted that they had not been advised at an earlier date, but will make an effort to assist the home comers' committee. These gentlemen were elected to act on the committee: John Hargreaves, S. Corrigan and D. M. Trowern.

A report was read relating to the hanging of the union cards in the butcher shops of the city. It was decided to refer the report to the municipal committee and they will discuss the situation with the Trades and Labor Council.

New Way of Street Cleaning.

The municipal committee presented a report regarding the cleaning of the streets, which thought that, the Commissioner Jones was doing his best to keep the streets clean, present methods were not the best, and they recommended an experiment with an apparatus manufactured by a Buffalo concern which takes in water at high pressure from the hydrants and retains the force when sprinkling the streets, thereby washing them thoroly. Its appearance is very much like the ordinary water tank and it is drawn by horses. The manufacturers will send three machines to Toronto on trial providing the duty is paid by the association. Mayor Urquhart is in accord with the association's views and has wired Hon. Mr. Fielding to see if the duty will be refunded in the event of the city deciding not to purchase. If so, an experiment will be made.

Will Try New Electrical System.

The executive listened to the report of the municipal committee regarding the advantages of the New Stark electrical system, by which heat, light and power can be secured at greatly less than the present cost. The committee saw the system in active operation at Dentonia farm and pronounced it a splendid success. The cost of telephone is declared to be 50 per cent. cheaper than prevailing rates; power 40 per cent. cheaper and light about the same as is charged for gas. Over one wire is transmitted electricity to supply heat, light and power, operating electric lights, telephones, telegraph and electric bells. The association will make strong efforts to secure the system for their members' stores in Toronto.

Will Have Monster Picnic.

Reports were received from sixteen different committees who have in charge the arrangements for the monster Retail Merchants' Association picnic, which will be held at the exhibition grounds on July 15. Extensive preparations have been made for this big outing, and it is expected that over 25,000 people will be on the grounds. The picnic consists of all sections of the association in Toronto.

FIREMEN WILL DECORATE GRAVES

Will Observe Anniversary of McIntosh Disaster as Memorial Day.

The members of the Fire Department will observe Friday, July 10, as memorial day, it being the first anniversary of the fatal McIntosh fire. A meeting of firemen was held at Lombard-street Station last night, and it was decided to decorate the graves of the firemen who have laid down their lives in the line of duty since the organization of the paid department in 1874. Twelve men have fallen, namely: Chief Ardrigh, who died from injuries received at The Globe fire, and Firemen Gilbert, Evers, Deacon, Bertram, Bowery, Nolan and the five who were crushed to death last July—Firemen Clark, See, Kerr, Russell and Collard.

The ceremony will be simple, but will be a sincere tribute to the memory of the departed comrades. The wreaths will likely be taken on a hose wagon, accompanied by a detail of firemen, and placed on the graves. A committee was formed last night to complete arrangements, including Foreman W. J. Smith (chairman), and Foreman W. J. Swift of Lombard-street Station; Foreman James Ashfield of No. 10; Foreman George Ford, of No. 15, and Firemen William Johnston, No. 2; John Taggart, No. 8, and Frank Milligan, No. 10. A movement may follow to erect a monument to perpetuate the memory of the dead heroes of the Toronto Fire Department.

FRAZEE INQUEST ADJOURNED.

Parents and Other Important Witnesses Still in Quarantine.

Following the decision of the Court of Appeal finding parents who allow their children to die under Christian Science treatment guilty of manslaughter came the inquest held last night by Coroner Young on the death of Hilda Frazee, whose death, it is alleged, occurred under somewhat similar circumstances on June 9.

As the Frazee family and the Allisons and Geddenes, two other families in the neighborhood, whose children are alleged to have been infected by the Frazee child, were still under quarantine, an adjournment was made until July 27. Dr. Shutt, medical inspector, Drs. Johnson and Caven, who conducted the post-mortem, Dr. Ferguson, who lives in the neighborhood, J. B. McGill, the undertaker, and the principal of the Lansdowne School were examined, but important evidence will not be reached until the next sitting.

SAFE ON ENGLAND'S SHORE.

The Canadian Bisley team, under command of Col. Percy Sherwood, arrived at Liverpool yesterday on the Ionian, of the Allan Line. Other Toronto passengers were Dr. Grasett and Mrs. (Dr.) Charles O'Reilly and Dr. Brefney O'Reilly.

OUR MIDSUMMER CLEARING Piano Sale

We are showing on our floors several very handsome and costly pianos, that, while to all appearances new, have had some slight concert or home use. They have been used so little that in no instance do they differ from new, yet to dispose of them quickly we are making surprising price reductions. There never has been, nor can there be, a better opportunity to obtain a thoroughly reliable and artistic piano at a moderate figure.

$340 Mendelssohn for $235

7 1-3 Octave Medium Size Mendelssohn Upright Piano, in very handsome walnut case, with full-length music desk, hand-carving on panels, automatic fall board, three pedals, muffler, etc., height 4 feet 6 inches.

$375 Dominion for $244

7 1-3 Octave Cabinet Grand Dominion Upright Piano, case in handsome burl walnut, with full length music desk, and automatic fall board, heavy iron frame, best ivory and ebony keys, three pedals, etc., height 4 feet 9 inches.

$400 Gerhard-Heintzman for $278

7 1-3 Octave Upright Gerhard Heintzman Piano, in rich mahogany case, of very ornate though plain design, has full-length swinging music desk, three pedals, best ivory and ebony keys, etc., height 4 feet 6 inches.

$425 Gerhard-Heintzman for $295

7 1-3 Octave Upright Gerhard Heintzman Piano, boudoir grand scale, handsome walnut case, with full-length automatic swinging music desk and Boston fall board, has patent tone-pulsating bridge, acoustic rims on sounding board, etc.; has never been used; has simply been on display in an agency warerooms, which we have closed out; height 4 feet 6½ inches.

$500 Gerhard-Heintzman for $342

7 1-3 Octave Cabinet Grand Colonial Gerhard Heintzman Piano, case of beautiful design, in very handsome Circassian walnut; has extra heavy iron frame, patent tone-pulsating bridge, best Wessell, Nickel and Gross action, with lost-motion patent, etc., three pedals, height 4 feet 9 inches. This piano has been used for only two concerts.

Come early and come prepared to buy. If you delay a single day the very instrument you most want may be sold.

Courlay, Winter & Leeming 188 Yonge St., Toronto.
