## RASPBERRIES EASIER BUT SUPPLY SMALL

### Down to 12 Cents a Box Retail —Wholesale 10 Cents a Box —Local Market Today.

While the supply of berries was comparatively small on the local market this morning, the number of buyers was still smaller, and as a result prices were a little weaker than yesterday.

At the opening 13c a box, or two for a quarter, was quoted to retail purchasers, but before noon 12c had been reached. Wholesale prices were two cents better.

Twenty loads of hay were offered at $10 to $11 50 a ton. Eleven dollars was the ruling figure, however.

Oats are a little stronger at $1 27 to $1 32 a hundred.

## TWENTY TWO SPECIAL CONSTABLES SWORN IN

### Men Employed at the Carworks Are Made Special Officers by the G. T. R.

The Grand Trunk appears to be preparing for any trouble along the line during the strike. This morning twenty-two men, employed at the carshops appeared before Squire Chittick, and were sworn in as special constables.

They will continue to work in the shops, but will be available for duty at any time if trouble should crop up.

Another batch of fifty will be taken to the court house to go through the same ceremony this afternoon.

## TEMPERANCE LEAGUE HONORS MR. M'DERMID

### Resignation of Efficient Secretary Is Deeply Regretted by All.

At a recent meeting of the executive committee of the London Temperance League, the president, John M. Gunn, in the chair, the following resolution was moved by H. H. Wallace, seconded by James H. Bowman, and carried unanimously:

"Resolved, that we accept the resignation of D. A. McDermid as secretary of our league, to take effect on the 30th of July, 1910, and that we desire to place on record our deep sorrow and regret at his departure from our city, but rejoice that he is to assume a responsible position in a wider and more extended field of labor, having the same noble purposes and aims which have banded us together here as a temperance league. We cannot in justice to our retiring secretary, allow the strong ties that have bound us so happily together these last few years to be severed without honestly and faithfully expressing our thoughts and feelings at this juncture. In him we found a man of strong honesty of purpose, God-fearing and conscientious in the discharge of his duties, with a moral courage and determination in the right that made even his opponents respect and esteem him. His brave efforts amidst adverse criticism, hostile feeling and often gross misrepresentation, supported by other staunch members of our league for the suppression of the canteen in our military camps, is a matter of public knowledge and appreciation far and wide, besides hundreds of other minor cases of his advice and assistance so generously given to the poor sufferers, broken-hearted wives and mothers, through the curse of strong drink, that never appears in the public press that we may safely say his good deeds will only be fully known in the great hereafter. In our separating now, we know that every officer and member of our league wishes him godspeed and every success in his new sphere of action, trusting to a continuation of that divine grace which has hitherto led and directed him, and which can strengthen and support him in the future duties of life. In conclusion we commend him and his work, to that divine power which doeth all things well, with the confidence and assurance that when the joys and sorrows of this present life are ended he may receive an abundant entrance."

provements badly, they will have to issue new petitions, and pay the increased price. That is apparently all there is to it."

**A Remedy.**

At the next meeting of the council it is quite probable that Ald. Richter will bring forward his arrangement for allowing a percentage on pavements, and readjust the whole local improvement situation. He will suggest that the city pay one-third from boulevard to boulevard, the property-owners to pay the rest.

There are several who agree with him now, although they did not favor the proposal at first. It is thought that more permanent roads will be built, lessening the cost of street maintenance.

Chicago, July 27.—Unless Mayor Busse today consents to the exhibition of the Jeffries-Johnson fight pictures in Chicago, Aaron J. Jones will institute mandamus proceedings in the courts against the mayor and Chief of Police Steward in an effort to compel the issuance of the necessary permit.

Jones, who has paid $60,000 for the exclusive rights to the Reno fight pictures in Illinois, reached his decision to take the matter into the courts after making a formal application yesterday, first to the chief and then to the mayor, for the required permit.

## PAVEMENT WORK IS STILL FURTHER DELAYED

### Construction on Dundas and Richmond Streets in About Three Weeks.

The Dundas and Richmond street pavements will not be commenced for two weeks yet, in all probability, three.

The London Street Railway Company are awaiting their steel, and they were informed that it would not arrive until about the middle of August.

In the meantime, there is a great deal of complaining. The streets are in a most deplorable condition, and merchants are quite bitter over the delay.

Some of the aldermen are proposing to compel the company to lay its tracks as they stand, and not wait for the new steel. They claim that when it does arrive the company can take its time in installing it.

"The Barber Company is ready to commence work at once," said Mr. Jerry Castle, their representative. "We would like to get the work done before the Fair if we could, but if there is much more delay, the streets will all be torn up at a time when the city should present a good appearance."

It is understood that the board of works will insist upon some progress being made with reference to this work at once.

## DR. COOK IN NEW YORK WILL BE HEARD AGAIN

### The Discredited Pole Hunter Is Himself Again—His "Records Coming."

New York, July 27.—Dr. Frederick A. Cook, the discredited polar explorer, is living within a short distance of New York. He has been in town several times lately and is in fine health, weighs 170 pounds and has recovered from the mental sufferings caused by the repudiation of his claim of having discovered the pole. He will soon be heard from again in his own behalf.

At least so says Captain Bradley S. Osbon, head of the Arctic Club of America, who is the doctor's closest friend. Captain Osbon said tonight: "Dr. Cook's records which he left at Etah, will arrive in this city late in September or early in October and then he will again present himself to public view and will back his record up.

"No, I can not say who is bringing the records to him, nor can I disclose the doctor's whereabouts, but he is within easy hail of New York and is living happily with his wife. He will make good with the American public and America's unbiased scientific men."

This statement came about because of an announcement that a magazine of travel and exploring, with which Captain Osbon is connected, sent a letter to another magazine—which has been printing Peary's story of his pole-finding — challenging the latter publication to produce scientific proofs of Peary's feat. The travel magazine claims that many of its scientific readers complained that Peary's story in the other publication gave no actual proof whatever of his having reached the pole.

Therefore the travel magazine suggests to the other that Peary submit his proofs to a committee of four consisting of a civil engineer, a hydrographer, a navigator and an explorer.

If this is done, it is said the magazine which now backs Cook will abide by the committee's decision, favorable or unfavorable. If the decision is that Cook was right in claiming to have discovered the pole the doctor is to bring suit for libel against Peary and others who maligned him. If the verdict is the other way the Brooklyn doctor is to forever hold his peace.
