# Get Away from the Cold

**Don't spend your summer earnings carrying your stock through the winter.**

## San Joaquin Valley, California

there are twelve months every year in which the land produces something to sell. The income, per acre, easily is double the returns you are getting now. If you plant and develop orchard or vineyard this will double again. It is a land of big money crops. It is an irrigated country with the high Sierras furnishing abundant water to make fruitful the deep, rich soil. The profitable crops range from wheat and alfalfa to oranges and delicate table grapes. Dairying is profitable. The helpful hen is a sure money-getter.

As a place to make a home California is without a rival. A climate famous throughout the world. Great home markets that insure good prices for everything. Unexcelled opportunities allowing produce to quickly reach the trade centres of the East. With the development that is now assured, land values will more than double within the next five years.

I represent the Santa Fe Railway. The company has no land to sell, but it has a vital interest in seeing every acre of this great Valley cultivated and producing a maximum. We can't afford to have men fail; their success means our prosperity. That is why I am employed to find out the facts and report to you.

I have a new book folder, "The San Joaquin Valley," which, with a six months' free subscription to our Journal, "The Earth," will be sent FREE on request.

# All Aboard!

Of course you know that Winnipeg's Big Exhibition occurs on July 12th to 22nd, and of course you intend to be here.

Last year we put on the greatest show of Pianos and Organs ever seen in Canada and this year, with still greater space, our show will be bigger and better than ever.

The Doherty Piano and Organ Exhibit will occupy the entire west end centre of the North Manufacturers' Building, and we now extend to you a hearty invitation to visit us and make our exhibit your headquarters. We will have a quiet room where you may meet your friends, write your letters and make yourself at home.

Doherty Dealers and Doherty Owners from all over this great Dominion will be with us, and whether you own a Doherty instrument or not your welcome will be hearty.

In passing we will say that there will be some mighty interesting prices quoted during this Exhibition, and if it isn't possible for you to visit Winnipeg during the Big Fair, just drop us a line and we will tell you what we are going to do in the matter of prices to make this Fair memorable.

If you have a Doherty dealer near you tell him to pick out a Piano or Organ for you from our Exhibition stock. You can't go wrong if you buy a Doherty.
