OLD TIMER SHOWS CLASS.

George King, a well known north country runner, aged 66 years, won the £100 professional 220 yards at London on Sept. 15th. The English press describes it as a wonderful feat, considering his age.

OFFICIAL CLOSING OF TENNIS SEASON.

The official closing of the Lawn Tennis and Croquet Club, and presentation of prizes, takes place to-morrow afternoon. The courts will remain open for play however as long as weather permits.

ATTEMPT SWIM CHANNEL TO-DAY.

Epanislauf Indritsanov, a native of Latvia, will attempt to swim the English Channel to-day, and will stretch at seven o'clock this morning. He is a man of ponderous physique, weighing 280 pounds, and has a 60 inch chest. He is being coached by T. W. Burgess, the English swimmer, who was successful in swimming the Channel.

FAMOUS ENGLISH CRICKETERS COMING THIS SIDE.

The famous Marylebone cricket club will send a team to Canada early next year, says the Halifax Herald. Lord Chelmsford, president of the club, says that to judge by the Norman Seagram team which has just closed its tour in England, cricket has many zealous followers in the Dominion; and his club feels encouraged to return the visit of the Canadian players.

ST. JOHN'S CHAMP DEFEATED.

Mr. Eric Jerrett, who holds the St. John's title for Tennis this year, went down to defeat at the hands of Mr. J. Hambling of the Western Union Staff at the big bay tournament held at Bay Roberts last week. The sets were 6-2; 6-2. A return meet is being arranged we understand to take place on the St. John's courts.

SHOOTING SEASON OPENS TO-DAY.

While some are gone to-day to shoot the wary patridge, most of us are obliged to stay at home and shoot the same old game—"the bull"—for which there is no close season. Now that the season is really open perhaps we'll see some excellent birds of shots at the game to-night—and least let us hope so.

SCOTCH CURLERS FOR HALIFAX THIS WINTER.

The Toronto Globe says:—The Ontario Itinerary of the Scottish curlers who will visit Canada during the coming winter has been arranged by the executive committee of the Ontario Curling Association. No dates have been fixed because the exact date of the arrival of the Scotsman is not known. The expectation is that they will land at Halifax early in January. After spending five days in Halifax and possibly two at the Sydneys, the Scots will go to Moncton, Quebec, and Montreal. Why not the genial and energetic secretary of the Curlers try and induce them to visit Newfoundland? What say, Mr. Salter?

McCAULEY BREAKS RECORD.

Victor McAuley (who it will be remembered defeated Bell in the 10 mile race at Halifax last year) established a new record for the Maritimes on Sept. 15th, when he ran the 5 mile race in 25.46 breaking Freddy Cameron's record of 26.1⅘ made at Amherst ten years ago. The local record is Bell's (on turf) whose time is 23.12.

THE ALIBI.

They'll talk about the cripples,
And the sundry other things,
That keep their team from winning
to-night's game of ball;
They'll tell a hardluck story
That would make the angels weep,
When the frost is on the pumpkin in
the Fall.

Radio Concert.

LOCAL ARTISTS SING.

Another coicert was broadcasted from the Marconi Company's office last night and was enjoyed by many listeners in. Several well known local astistes gave their services. They included Messrs. J. Ross, A. Bulley, J. Canning, T. H. O'Neill and Bert Howe. Mr. J. J. Collins, of the Marconi Company, is negotiating for the Station at the C.L.B. Armoury, formerly operated by the late F. L. Southgate, which could be used for long distance broadcasting.

Orphans' Day.

AN APPEAL FOR THE LITTLE ONES

Editor Evening Telegram

Dear Sir,—I am sure that once again you will only be too pleased to lend your columns to a plea for the little orphans at Belvedere, in whose interests the annual collection will be taken up on next Sunday at all the city Catholic churches. Indeed, lately, the news journals in general have been very generous towards the different orphanages of the city and have freely offered their space, frequently at a monetary loss to themselves, and this prompts me now to make a short appeal to our Catholic friends to keep foremost in their minds the dire necessity that they are expected to offset in part, by their generous assistance next Sunday. Certainly, this call has never been made in vain as it is characteristic of our people, both Catholic and Protestant, alike, that the needs of the city orphanages are not overlooked. Blow high or blow low; in prosperous times, or in times of adversity, let the clarion cry go forth that the orphanages need something and many willing hands are outstretched with the necessary help. The writer has made some inquiries at the Belvedere institution recently and was staggered to find that with a normal capacity of 100 children, the good ladies in charge there were catering to the wants of 165 little ones, and this is truly an abnormal tax on their very limited facilities. True it is, too, that some building improvements are being effected and these have been a long felt want, and it is mainly through the united efforts of the recently formed Ladies' Association, the building now being erected can be financed. In years gone by, very little was known and less was said about the needs of Belvedere, and a few well-intentioned people began to think that Belevdere was a self-supporting centre that owned an air of exclusive wealth, but the silence was due more to the natural reticence of the good nuns rather than to anything else, and those of your readers, Mr. Editor, who during the past years visited the institution have been very much impressed with the special needs of the orphan children's home. Let those who may doubt my words, spend but one quarter of an hour in the building and both their heart and their purse strings will be gladly opened. In brief, then, this appeal is more of a reminder than anything else, to our Catholic people particularly, that Sunday next is the Orphans Day at all their churches. There used to be a saying in war times that had great effect. "Give, give; give more; give till it hurts," and if ever there were another time where this is applicable, it is on Sunday next for the little innocent babes of Belvedere. I thank you sincerely, Mr. Editor, for the space allowed,

Yours truly,
FRIEND OF THE ORPHANS.

Wedding Bells.

Wedding Bells . . . . . (. . .

MORRISSEY—LEONARD.

A quiet but pretty wedding was solemnized at the R. C. Cathedral, Monday evening, Sept. 18th at 5 p.m., by the Rev. Monsgr. McDermott, when Miss Agnes Mary Morrissey, daughter of Mr. and Mrs. P. S. Morrissey, 45 Parade Street, was united in the holy bonds of matrimony to Francis J. Leonard. The bride, who was given away by her father, was beautifully attired in a wedding gown of pearl satin trimmed with pearls with bridal veil and wreath of orange blossoms, and carried a beautiful bouquet of white carnations and maiden hair ferns. She was attended by her sister-in-law, Mrs. Peter Morrissey, who wore pink silk crepe de chene with over dress of white Georgette and hat to match. The groom was ably supported by Mr. Peter Morrissey, brother of the bride. After the ceremony the bridal party motored around Bowring Park, then to the home of the bride's parents where a sumptuous supper was served. Owing to the recent bereavement in the bride's family only the relatives and immediate friends of the bride and groom were present. The presents received were numerous and costly, showing the esteem in which both were held. At 9 p.m. the happy couple left by motor for Manuels, where the honeymoon will be spent. We wish them many happy years of wedded life.

Fire on Freshwater Road

SEVERAL HUNDRED DOLLARS DAMAGE.

Yesterday afternoon a fire, supposed to be started by a blow lamp, which some painters were using, caused considerable damage to the residence of Mr. G. H. Press, Freshwater Road. An alarm sent in at 4.40 brought the Central and East End Fire Companies to the scene. Upon their arrival flames were issuing from the front entrance of the house. This with the bath room and hall was badly damaged by the blaze while the contents of the parlour and dining room were spoiled by water and smoke. The firemen worked like trojans and after about fifteen minutes strenuous efforts the "all out" sounded. The damage amounts to several hundred dollars.

The Spruce Bud Worm.

PEST MULTIPLYING.

Editor Evening Telegram.

Dear Sir,—Your discovery of the Spruce Bud Worm at Whitbourne prompts me to say the pest is also found at Terra Nova River. The presence of the creature at that far off point might suggest a joke to the flippant ones of the Advocate, but sane people look upon it as being too serious for joking. The neighbourhood of St. John's is badly infested from Donovans to Logy Bay.

I have reports saying it is at Brigus, C.B. It is even found in the homes of the people and in offices near Water Street. Of course it can do no harm in town unless it attacks certain shade trees, but I mention this to show how widely prevalent it is, and to confound those who say it has been on Nagle's Hill twelve years. The rapidity with which the larvae multiplies and invades surrounding territory disproves at once any foolish statement which tries to show the insect has been here so long.

Yours truly,
ARTHUR ENGLISH.

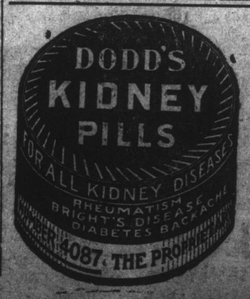
Postal Association Meets

REDUCTION OF SALARIES DISCUSSED.

The regular monthly meeting of the Postal Association took place last night in the annex of the L.S.P.U. Hall, Duckworth Street. President G. B. Lloyd occupied the chair and considerable business was transacted. The matter of approaching the Government regarding their salary reductions were also discurred and the Government will again be petitioned on the subject.



Earl Spicer, Baritone.

A splendid opening of the Musical season in St. John's will be the occasion of the two Vocal recitals to be given on Thursday 5th and Monday 9th October, by Mr. Earle Spicer, baritone. Both recitals will be given in the Methodist College Hall and the proceeds are to be devoted to charitable organizations. Mr. Spicer has already appeared before a St. John's audience, when he kindly assisted in the vocal recital given by Miss Marjorie Hutchings in June of last year. The audience on that occasion were most enthusiastic over the different numbers rendered by Mr. Spicer. During the past two years in England Mr. Spicer has been most favourably received at all his engagements judging from the many flattering press notices he has received. His voice is a baritone of large range and considerable power and beauty, and he also possesses a pleasing personality which stamps him as an artiste who will, ere long, be recognised as one of the foremost vocalists of the day. At his recitals here Mr. Spicer will be assisted by well known local artistes and the arranging of the programmes are in the capable hands of Messrs. Gordon Christian and Moncrieff Mawer.
