PHOSPHATE OF LIME!

NEWELL'S PATENT UNIVERSAL GRINDER

The public is pre-empted with a new mill which is designated as above. It can be adapted to a greater variety of purposes than *any mill* heretofore invented. The following are a few results, substantiated by experiments, which illustrate its remarkable utility:

I. Its General Capacity. This Grinder gives perfect satisfaction in the pulverization of Quartz, PHOSPHATES, Zinc, Bone, Brimstone, Chemicals, Oyster-Shells, Horn, South Carolina Clay, Chalk, Cement, Corks, Corn and other Cereals, Coffee, Spices, Leaf Sugar, Mustard and Flax Seed. Also in the Grinding of planing shavings, for packing purposes and horse bedding, the pulverization of Roots, Dye Woods, Tobacco, Rubber, Rope, Old Cloth, and the reduction of Wood to fibrous fillefor use in the manufacture of Paper.

II. Its Special Adaptations. For grinding *Flax Seed* it has no rival. A great saving of time and labor is secured by *grinding* instead of *mashing* this article. Mustard Seed is also effectively ground to powder.

III. Superior Quality of the Product. The superior quality of the products of this mill is observed in the grinding of Corn and other kinds of Grains. The process does not heat the Flour or Meal, even if grinding at the rate of 200 bushels of Corn per hour. All danger of fermentation is thus avoided. Every kind of grain is perfectly pulverized without taking from the mill any particle of grit.

IV. The Saving of Power and of Time. A great saving of power and of time in the accomplishment of any one of the uses above mentioned are thus secured. One pound of power in this mill is equivalent to hold the highest place in the esteem of all who witness its operation. The following few facts explain what is now said. Quartz is ground to remarkable fineness in the rate of ten tons per day. Corn can be ground on large Farms. It can be run with one-horse power, grinding twenty-five bushels of Corn for horse-feed per hour, and with four-horse power it will grind up to 200 bushels per hour. The grinding discs can be easily and cheaply replaced should they become worn. The weight of these machines varies from 200 to 800 pounds. They are very compact, requiring only a space three or four feet square, exclusive of apparatus for bolting. The frames are made either of wood or of iron. The price of these machines ranges from $300 to $400, subject to a 25c. to 50c. royalty for the use of them; the tariff which the mills are applied.

V. Available Everywhere. Its usefulness to Farmers, and keepers of large stables is a fact noticed. It is so cheap and so easily portable that it can be brought into general use in Villages and on large Farms. It can be so easily operated by power, grinding twenty-five bushels of Corn for horse-feed per hour, and with four-horse power it will grind up to 200 bushels per hour. The grinding discs can be easily and cheaply replaced should they become worn. The weight of these machines varies from 200 to 800 pounds. They are very compact, requiring only a space three or four feet square, exclusive of apparatus for bolting. The frames are made either of wood or of iron. The price of these machines ranges from $300 to $400, subject to a 25c. to 50c. royalty for the use of them; the tariff which the mills are applied.

A cordial invitation to *Phosphate Companies* and *owners of Phosphate lands*, to all Millers, Quartz Crushers, Chemical Manufacturers, Farmers, and others who have any interest in such improvements to call and test the machine and the samples of the materials ground at 19 St. Sacrement street, in the courtyard. *Montreal*, June, 1878.

Z. N. ARSENAULT,
Manager.

L. J. PELLETIER & CO.,
Proprietors.

HONESTY and POLITENESS.

THE RED STORE,

581 St. Catherine Street, 581

MONTREAL.

FOR THE COMING HOLIDAYS.

Tweeds, worth $1, sold at 75c.
Tweeds, worth 75c., sold at 60c.
Tweeds, worth 60c., sold at 50c.
Tweeds, worth 50c., sold at 40c.
Tweeds, worth 40c., sold at 30c.
Tweeds, worth 30c., sold at 25c.
Tweeds, worth 25c., sold at 18c.

It is now a known fact that the MAGASIN ROUGE is now ahead, many hundred points, in the great game which is now being played in the east end of the city. Customers and friends can surely put up ten against one, for it is evidently proved and accepted that they have played their part in the most skilful and qualified manner.

During the Vacation,

Dress Goods, 25c., will be sold at 15c.
Dress Goods, 15c., will be sold at 10c.
Dress Goods, 10c., will be sold at 8c.

All the balance of the Summer Goods will be sold at the average reduction.

The numerous customers of the RED STORE are specially requested to bear in mind that we keep and practice the well established motto: LIBERALITY, HONESTY and POLITENESS.
