THE MANITOBA SCHOOL QUESTION.

The Manitoba school question is being sifted down to a few understandable propositions. In the light of the speech of the Premier in the Senate on Monday and of Mr. McCarthy and Mr. Costigan in the Commons yesterday these propositions may be laid down:

1. That the Catholic minority of Manitoba were deprived of ceratin constitutional rights in regard to education.

2. That the Privy Council of Canada, having passed the Remedial Order, is also bound to pass some kind of remedial legislation for the benefit of this minority in case Manitoba should herself refuse to remedy their grievance.

3. That the Conservative party has no desire to pass such legislation; would much rather prefer that Manitoba offered of her own accord to make some remedy—any reasonable compromise, as Mr. Costigan pointed out. The issue is not whether Manitoba wants Separate schools or not, but whether the Catholic minority has been deprived of any rights, and the courts say they have.

At this stage it looks as if Manitoba will refuse to do anything, and that after a reasonable time has been given her to consider the whole question, say by the session of 1896, Parliament might be asked to pass a law which would exempt Catholics from paying Public school taxes in Manitoba. How Parliament could go much further no one sees. Parliament, for instance, could not administer a Separate school law in Manitoba if it passed one.

It could only at the most, as stated above, exempt Catholics from Public school taxes. It could in this remedial legislation and certainly would declare that Manitoba had complete jurisdiction over any Separate schools to regulate them, to prescribe text books and examinations for teachers, etc. But even to pass this mild remedial legislation will be a strain, in so far as the Province of Ontario is concerned. As The World said weeks ago, non-interference is the wisest course.

THE PLANT PAID FOR IN THREE YEARS

The mere threat on the part of the city to establish its own electric lighting plant had the effect of bringing down the price from $108 to $74, which amounts to a saving of $34,000 a year on one thousand lamps. The actual installation of a plant of our own will prove even more beneficial to the city. We pay yearly to the Gas Company about six hundred thousand dollars, and probably half that sum to the electric light companies for power and light supplied private individuals. If the establishment of a civic plant has the effect of compelling these companies to reduce their rates by only ten per cent. we can save yearly $90,000. That is a low estimate to make of the saving that will be effected. As soon as the companies see the city possessed of the facilities for furnishing light at the lowest possible cost, instead of securing a reduction of ten per cent., we would more likely get the benefit of a twenty per cent. reduction. This is the great argument in favor of the city establishing its own plant. If we had the means of dealing with the Gas Company, the same as we have of dealing with the electric light companies, we would soon see the former on its knees and offering gas at 75 cents a thousand feet. At most, the installation of a new plant means the expenditure of $275,000. This sum is $25,000 in excess of what the best procurable plant need cost. We say it is no exaggeration to state that the saving that citizens would effect by introducing competition would in three years wipe out the whole cost of the plant. Independent of this, however, we will actually save anything from $10,000 to $20,000 at the outset if we operate our own plant, instead of giving the contract to an independent company. We can certainly make our own light for $65 per lamp, which, with a 1300-light system, means a saving of $13,000 a year. But it is altogether likely, in the course of a year or two, we will be able to produce a light for $50. In this estimate there is, of course, included a sinking fund that will entirely wipe out the costs of the plant. Citizens should not be led by Mayor Kennedy's alleged warning. We will never have a better opportunity than the present for breaking up the light monopoly that now has Toronto at its mercy. If we ever intend to get rid of it, we must make a beginning some time, and the sooner we make a move the better. Mayor Kennedy is willing to commit the city to a debt of $1,000,000 in the construction of a trunk sewer, which is five or ten years ahead of our ability to pay for it, and the same number of years ahead of our requirements. On the other hand, he opposes a scheme that does not involve one-quarter of the expenditure, and that will not load us up with any debt, but will be a source of profit from the very day it is installed. The Mayor's principal argument is based on a philanthropic consideration of the company that now holds the contract. He claims it would be wrong for the city to disturb the vested rights which, he alleges, that company enjoys in the lighting of the city. The Toronto Electric Light Company has expended a very small capital in acquiring its present plant. Such large profits have been made out of the city's business that the company has been enabled to set aside every year almost enough to buy its own plant as they went along, and at the same time to pay the shareholders good dividends. During the present year, for instance, the company will clear $40,000 from its contract with the city alone. This is the kind of a picnic they have had for the past ten years, and to talk of interfering with vested rights is pure guff. Toronto is handicapped at the present time by having as its chief executive officer a gentleman who is so considerate of the interests of private individuals, as against the general welfare of the citizens as a whole.

Much distress and sickness in children is caused by worms. Mother Graves' Worm Exterminator gives relief by removing the cause. Give it a trial and be convinced.

LAUNCH OF THE MAJESTIC

COLLINGWOOD'S MAGNIFICENT NEW BOAT NOW AFLOAT.

The Latest Addition to the Great Northern Transit Company's Floating Palaces Baptized by Miss Long as She Slid Into Her Element—Description of the Ceremony and the Boat.

Collingwood, April 23.—To-day was a gala one for the town of Collingwood, it being the occasion of the launching of the Majestic, the new steamer of the Great Northern Transit Company. For some months the vessel has been in course of construction, the keel having been laid on Nov. 8, 1894, in the magnificent dry dock here, which is said to be the finest on the northern lakes. The company has already a fleet of four splendid steamers running between Collingwood and the Sault, and their latest acquisition, the Majestic, is one of the finest ever built in this country, and a credit to the Canadian ship building industry.

Among the score of visitors at the launching were: Messrs. D. Creighton, H. P. D. Armstrong, Thomas Long, George A. Anderson, Archibald P. Rankin, G. Irving, C. Gormally, W. E. Belcher, W. J. Douglas of Toronto, George Lancefield, C. A. Starrett and James R. Allen of Hamilton. John Long, Charles Cameron, Mayor Calery, A. W. Nettleton, Capt. R. D. Foote, Capt. James Wilson, H. Y. Telfer, F. F. Telfer, Capt. Jacques, Capt. John Wilson, Thomas Collins, John D. G. Cooper, O. H. Stevens, Rowland, Capt. Collins, J. W. Brady, D. Williams, Robert Burdette, A. K. Williams, W. T. Tower, Dr. Stone, Dr. Stephen, W. A. Hogg, Capt. Bassett, W. A. Henderson, Capt. Ganley, Thomas Hebblewaite, F. C. Rounthwaite, D. E. Buist, Henry Robertson, John Chamberlain of Collingwood, W.M. Dickson of Stayner, Hugh Chisholm of Meaford, Hugh Cleland, M.L.A., of Meaford, W. Kough of Owen Sound, Capt. John Simpson of Owen Sound, J. E. Mather of New Lowell and many others. The genial and popular manager, Mr. Charles Cameron, received the outsiders and entertained them at luncheon at the Central Hotel.

The Baptismal Ceremony.

The baptismal ceremony was performed by Miss Mary Long of Toronto, daughter of Mr. Thomas Long. Miss Long was charmingly attired in a tailor-made gown of grey cloth, with a vest of gold and white brocade, and a beautiful chapeau of pink and fawn. She was accompanied by the Misses Burns of Collingwood.

At 2.49 the steamer was afloat, and at the moment she moved off Miss Long broke, against her bow, the quart bottle of Clicquot, which, decorated with streamers, hung over the side.

The newly-named Majestic was then towed out into Georgian Bay, in the waters of which she will ply for many years to come. The Collingwood Band was stationed on the hurricane deck and played martial airs during the ceremony.

With her great white hull and newly-painted decks and countless yards of bunting floating on the breeze the new vessel was indeed a goodly sight.

After the christening Mayor Callery delivered a speech in praise of the enterprise of the Great Northern Transportation Company, which had done so much for the progress of Collingwood and for the advance of the marine interests in the northern lakes. Other speakers were W. M. Kough, president; Messrs. J. Long and David Creighton.

Her Officers.

The officers in charge of the Majestic are: Captain, P. M. Campbell; first mate, W. M. Bemrose; second mate, Isaac Woolner; engineer, W. M. Lewis; purser, Samuel Hewitt; steward, Charles Lymon.

The directors of the company are: W. M. Kough, Owen Sound, president; John J. Long, Collingwood, vice-president; Thomas Long, Toronto, secretary-treasurer; Charles Cameron, general manager; A. B. Pratt, accountant.

How She Is Built.

The dimensions of SS. Majestic are: Length 227 feet, beam 35 feet 10 ins., depth of hold 13 feet 4 ins., tonnage 1600. She is built entirely of white oak and steel, the main deck is of British Columbia Douglas fir, the material used in the British men of war; 65 tons of 3-4 steel were used in her keels and arches, 55 tons of 3-4 round iron bolts. The hull was built by the Collingwood Dry Dock and Wrecking Company. The superintendent and designer was S. D. Andrews. The Majestic has steam capstans, one forward and one amidship; steam steering gear and steam windlass (ocean type) for anchors on main deck, built by Fisher & Co., Prisley, Scotland. Hoisting engine connections furnished by W. Kennedy & Sons, Owen Sound. She has also two square fire-box boilers, with steam dome 10 feet by 18x9, with 124 tubes, 3 1-3 ins. by 11 feet in all, steam pressure 136 pounds to square inch; 1 fore and aft compound marine engine of latest design, cylinder 28 and 54, with 36 in. stroke; shaft in three pieces, thrust, tunnel and propeller; shaft made of solid forged ingot steel 11 1-2 ins. in diameter; 6 thrust rings of horse-shoe type, with four feed and air pumps connected, also pumps for fire; propellor of steel and iron and steel rudder, estimated horse-power 1200. Designed by Messrs. Logan & Banks of Toronto and Cleveland, designers of machinery of Northwest, Chippewa, etc., and built by John Inglis & Son, Toronto,; water-pressure on all time for fire service.

A Majestic Equipment.

The electric-light plant, consisting of 1 30 horse-power engine, and 1 Edison compound-wound 12 K.W. dynamo of latest design, carrying 275 16 candle-power lamps; lights on main deck, in every stateroom, in cabin and on promenade deck, etc., was installed by the Canadian General Electric Light Company of Toronto, under the supervision of Electrician S. A. Campbell. The cabins were built by Wilson Bros. of Collingwood of latest design, finished in white gloss satin, comprising 120 staterooms and officers' quarters, etc., with capacity for 200 passengers, promenade deck 200 feet long, 19 feet wide. The radiators, sanitary fittings, etc., were supplied by J. Robertson & Sons, range, steam table and kitchen furnishings supplied by Wrought Iron Range Company.

The Wabash Railroad.

Is now acknowledged by travelers to be the only true route to Chicago. St. Louis, Kansas City, Texas, Mexico and all West, Southwest and Pacific Coast points. Tickets sold at lowest rates to all points in America. Tourists and teachers should bear in mind that the Wabash is the only line that can take passengers to Denver via St. Louis and Kansas City and return them via Chicago, or vice versa. By going our way you pass through six states of the Union, in the finest equipped trains in America. All particulars from any railroad agent, or J. A. Richardson, Canadian Passenger Agent, northeast corner King and Yonge-streets, Toronto.

Dyspepsia and Indigestion is occasioned by the want of action in the biliary ducts loss of vitality in the stomach to secret the gastric juices, without which digestion cannot go on; also, being the principal cause of headache. Parmelee's Vegetable Pills taken before going to bed, for a while, never fail to give relief and effect a cure. Mr. F. W. Ashdown, Ashdown, Ont., writes: "Parmelee's Pills are taking the lead against ten other makes which I have in stock."

HASTINGS' NEW SHERIFF.

Trades and Labor Council to Interview the Ontario Cabinet.

The Ontario Cabinet met yesterday and appointed George F. Hope Sheriff of Hastings. Mr. Hope is a son of the late sheriff.

A deputation of the Trades and Labor Council will wait on the Cabinet to-night in reference to the appointment of an official arbitrator and a female inspector of factories.

The Gilmore Concerts.

There is much in store quite beyond the ordinary in the Gilmore Band concerts that are to take place at Massey Music Hall on Monday and Tuesday next, April 29 and 30. The band itself has a splendid lot of work cut out for it to do. Mme. Natali, the opera prima, will sing; Herbert L. Clarke will play (for the first time) "The Canadian Patrol," written especially for the three crack Toronto regiments, the Q.O.R., the Grenadiers and the Kilties, and for each its own particular march past is introduced. This production has been reserved especially for Toronto. Victor Herbert will also lay aside his baton and appear as artist. Aldis J. Gery will introduce a concert grand auto-harp, also a unique and beautiful performance. Perhaps the most extraordinary performances are those of little Frieda Simonsen, the child pianist. Marvelous things are written of this inexplicable child. She is but 11 years old, yet plays with all the splendid mental grasp and mechanical skill of a mature artist, a Beethoven concerto, a symphony. She plays without flaw in time, note or expression the greatest works. The plan opens tomorrow morning.

Miss Yaw Ill.

Miss Yaw, who was announced to sing in the Massey Music Hall to-night, became suddenly indisposed yesterday, and Dr. Adam Wright, who is attending her, positively forbade any risk which might be encountered by her fulfilling the engagement. The concert was, therefore, postponed until Friday night, when it is expected the lady will have entirely recovered.

The Toronto Vocal Club Concert.

The plan for this popular concert opens to the public at 2 p.m. to-day at Gourlay, Winter & Leeming's. This concert is the last of the season fixed at popular prices, and will no doubt draw a full house to Association Hall Thursday night. The assisting artists are: Miss Bessie Bonsall, the phenomenal contralto; Miss Annie Louise White, favorite elocutionist, and Mr. Paul Hahn, the young talented cellist.

A New Industry in Canada.

R. S. Williams & Sons Co., Ltd., piano and church organ manufacturers, have added to their immense business the production of the smaller instruments, such as violins, guitars, mandolins, auto harps, zithers, in fact, every kind of stringed instrument known to the trade. This new industry places the consumers in Canada on an even footing with those of other countries, as it is the intention of Mr. R. S. Williams, jr., who has charge of this branch of the business, to give both wholesale and retail customers the full benefit of the 25 per cent. duty, as well as the freight, or in other words, to sell the goods in Canada for the same figures at which they sell across the line.

The Artist auto-harp, which has had such a wonderful sale of late, may be taken as a fair sample of the general success the Williams Co. have met with in every department of their works. The output of the Artist auto-harp, we are informed, is 300 instruments per week.

All the goods are made under the direction of a skilled foreman, and the work is divided into different branches, so that by constantly doing the same thing the men achieve a perfection in their work which is not attainable when this division of labor is not attained.

A visit to the head office and warerooms of the R. S. Williams & Sons Co., Ltd., No. 143 Yonge-street, Toronto, or to any of their branches at London, Hamilton, Brantford, Chatham, Kingston, Brockville, Ottawa, would be well repaid.

An Address to Deaconesses.

The large hall at Wycliffe College was crowded last night when His Lordship the Bishop of Huron delivered a stirring address on behalf of the deaconesses and their work. Mr. N. W. Hoyles presided and addressed the meeting. Rev. T. R. O'Meara of Trinity Church also delivered an address on practical work done by the probationers of the college.

The closing examinations of the college are now in progress, and the closing exercises and distribution of prizes will take place on May 7.

The Anniversary of Batoche

The Batoche Column of the Northwest field force met in the new Armories last night to forward the arrangements for the smoking concert to be held in St. George's Hall on May 10, in celebration of the tenth anniversary of the Battle of Batoche. A large amount of business was transacted and the meeting adjourned till the 6th prox.

East of the Don.

The ladies of the W.A. belonging to St. Matthew's met in very large numbers in the De Grassi-street school room yesterday afternoon. Mrs. W. F. Summerhayes presided. The late entertainment has proved most successful, and the ladies anticipate being able to place a very considerable sum to their credit in furtherance of the objects of the society.

The local branch of the St. Andrew's Brotherhood met in the Church room, First-avenue, last night. There was an excellent attendance and an excellent paper was read by one of the members on the work of the brotherhood.

The C.O.F. met in Poulton's Hall yesterday evening. There was a large attendance of members of the order.

The excursion of Winchester Lodge, Canadian O.F., has been definitely fixed to take place on Queen's Birthday to the Falls.

There is danger in neglecting a cold. Many who have died of consumption dated their troubles from exposure, followed by a cold which settled on their lungs, and in a short time they were beyond the skill of the best physician. Had they used Bickle's Anti-Consumptive Syrup before it was too late, their lives would have been spared. This medicine has no equal for curing coughs, colds and all affections of the throat and lungs.

Tobacco Habit Cured in One Week.

Years ago this would have been pronounced a miracle; now it is an everyday experience. Think of a tobacco slave of 30 or 40 years being cured of the tobacco habit in a week. Dr. Price's Tobac-Cure is guaranteed to cure this habit in every form. No Cure, No Pay, $1 a box. Sold by George A. Bingham, Druggist, 100 Yonge-street.

Fire at the Island.

The blaze at the Island last night was occasioned by a marsh fire between Ward's and the R.C. Yacht Club house.

Anniversary of Fish Creek.

To-day, Wednesday, April 24, is the 10th anniversary of the Battle of Fish Creek, fought between General Middleton's forces and the rebels. Among the surviving members of the 90th Battalion who now live in this city are Lieut.-Col. Buchan, Privates Grant, George McAllister and W. H. Canniff, the last-named being seriously wounded in the hot engagement.

Holloway's Corn Cure destroys all kinds of corns and warts, root and branch. Who then would endure them with such a cheap and effectual remedy within reach?

THE VOTE ON CIVIC LIGHTING

COUNCIL FIX UPON SATURDAY, MAY 25, AS THE DATE.

The Proposal to Construct a New Watermain From the Intersection of Bathurst-College-streets to the Roseihll Reservoir Carried—Island Leases—Factories on the Esplanade.

The City Council had a special meeting at 4 o'clock yesterday afternoon to consider the proposed bylaws for improving the waterworks system, also the proposed bylaw for establishing an electric lighting plant.

The Mayor presided. These members were absent: Ald. Scott, Hallam, Frankland.

Petitions against the submission of the civic lighting bylaw were presented by Ald. Bell, Crane, Bates and Sheppard.

Waterworks Bylaws

Ald. Lamb introduced the bylaw for $135,500 for a 36-inch main from the intersection of Bathurst and College-streets to the Roseihll reservoir.

Council went into committee with Ald. J. J. Graham in the chair.

Ald. Davies said this large expenditure should not be incurred in view of the large amount the city had expended in steam fire engines and other appliances for fighting fires. He moved a motion to this effect.

Ald. Lamb replied at length, and cited the Engineer's figures in justification of the need of this 36-inch main. The provision of this main was to lessen the risk of damage to some of the large mains by excessive pressure and to provide for the steadily increasing water consumption in the northern district of the city, which the present 24-inch main cannot meet efficiently. Ald. Davies' amendment was lost on this division: Yeas—Ald. Davies, Shaw, Jolliffe, Sheppard, Bates, Rowe, Blong—7. Nays—Ald. Lamb, Dunn, Allen, Saunders, R. H. Graham, Scott, McMurrich, Oliver, Bell, J. J. Graham, Burns, Hubbard, Crane, Leslie—14.

Ald. Lamb's motion was then put and carried.

The bylaws for $90,500 for other mains, branch pipes, etc., passed both committee and council unanimously.

The next bylaw for $75,000 for a new 6-foot steel intake pipe also passed unanimously.

The Civic Lighting Bylaw.

Ald. McMurrich moved for the issue of debentures to the amount of $227,000 for establishing an electric lighting plant.

The Mayor read a long speech against the project. He denied that he was the advocate of the Toronto Electric Lighting Company; but he felt that it would be a grave mistake at this juncture to adopt such a policy. Hence he sounded this note of warning. In the present state of electrical science it would be unwise for the city to invest its money in such an undertaking.

His Worship said the city would be better employed in providing a better system of water, or the construction of a trunk sewer. By submitting the civic lighting bylaw the passage of the waterworks bylaws would be jeopardized.

Severe on the Mayor.

Ald. Burns, with warmth, replied to what he termed the Mayor's fallacious arguments. "It seems to me that the Chief Magistrate of this city should be the first person to submit to the people the expenditure of such a large outlay." The agitation of this question has resulted in a wonderful saving to the people already. The arguments of the Mayor are childish in the extreme. Civic lighting was no risky experiment. The revenue to the city would far more than repay the outlay. The Mayor could rely on the figures of the City Engineer for the expenditure of millions on his favorite tunnel scheme, but he threw discredit on the Engineer's figures for the instalment of an electric lighting plant.

Ald. Davies was heartily in favor of a civic plant, and argued that the price of gas to the people which would follow should recommend it to the ratepayers.

After more than an hour's discussion the bylaw passed both committee and council unanimously.

Ald. Shaw and Lamb moved that the voting take place on Saturday, May 25.

Renewal of Island Leases.

Ald Saunders presided yesterday at the meeting of the committee on Island leaseholds. It was decided that no renewals be made en bloc, but that all leases shall be renewed to existing holders, no person to lease less than 50 feet or more than 100 feet, unless it be shown that additional land is necessary for building, the plan of which must be approved. No sub-leasing of land will be permitted. The following leases will at once be renewed, on acquiescence with the committee's terms: Mrs. McMaster, B. B. Osler, Mrs. C. A Phillips, Colonel Sweny, W. H. Perran, Villiers Sankey, Richard Dinnis, Mrs. Duggan. The Property Committee subsequently adopted this report.

Factories on the Esplanade.

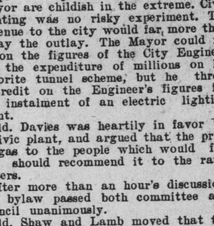
The Property Committee yesterday sent on to council the application of the Cobban Manufacturing Company for lease of a portion of the Esplanade front. This site is on the north side of Lake-street, between Bay-street and a proposed street. The Assessment Commissioner considered that $1036 per annum was a fair value for a term of 21 years. This would be at the rate of $3.50 per foot per annum. Several of the members of the committee objected to any factory sites on the water-front at this spot, preferring that it be laid out as a park. Ald. Sheppard said the fairest plan, if they were to have factories here, was to offer the sites by auction.

Stonemasons' Grievances.

A deputation from the stonemasons complained that they were not being given work on the Court House. The old question of differences between the masons and cutters cropped up.

Chairman Dunn said that these differences must be settled before they could expect Architect Lennox to consider their claim for work. A sub-committee was appointed, consisting of Ald. Saunders, Sheppard, Burns and Dunn to confer with the architect on the matter of complaint. The sum of $500 was voted for levelling the made ground in the Esplanade and the erection of a light fence.

CATARRH AND COLDS RELIEVED
IN 10 TO 60 MINUTES.



One short puff of the breath through the Blower supplied with each bottle of Dr. Agnew's Catarrhal Powder diffuses this powder over the surface of the nasal passages. Painless and delightful to use, it relieves instantly, and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsilitis and Deafness. 3

A FATHER'S STORY.

TELLS HOW TWO DAUGHTERS REGAINED HEALTH AND STRENGTH.

One Was Declared by Physicians to Be in Consumption, and Her Early Death Feared—The Other Also Showed Symptoms of Going Into a Decline—Both Again Enjoy Perfect Health.

From The Prescott Journal.

On a beautiful farm in the Township of Oxford, seven miles from Kemptville, resides Mr. George Pettipiece and family. A correspondent of The Journal met Mr. Pettipiece in a drugstore, enquiring for Dr. Williams' Pink Pills. He made the remark to the proprietor that he had such faith in them that he never allowed his house to be without them. This led your correspondent to ask why he praised them so highly, when Mr. Pettipiece told the following wonderful story: He said that his daughter, Miss Margaret, aged 20, owes her life to Pink Pills. About two years ago she was taken ill with a severe cold, which terminated in a dry, hacking cough, and from that time she began to decline. She gradually grew weaker and weaker, until she had to take to her bed. She was under medical care, but did not in the least improve, and we made up our minds that consumption had fastened upon her, and that her life was but a question of a few months at the most. We read much in the papers concerning Dr. Williams' Pink Pills, and thought that perhaps they might benefit her, as all else seemed to fail. After taking the pills for a while a change for the better was noticeable, much to our joy and satisfaction. Thus encouraged she continued to take Pink Pills for several months; by the end of this time she was fully restored, and there is not now a healthier girl in the township. About the time she began taking the Pink Pills her eldest sister also began to grow pale and sickly, and showing the same signs of decline. She also used the Pink Pills, with the same beneficial results. "I believe," said Mr. Pettipiece, "that but for Dr. Williams' Pink Pills one or both would be in the grave, and you can therefore understand why I am so enthusiastic about this medicine and why I always keep Pink Pills in the house. You can print this if you wish, and you can say, too, that it but faintly conveys the feeling of gratitude I have for what this medicine has done for me and mine."

Dr. Williams' Pink Pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are for sale by all druggists or may be had by mail from Dr. Williams Medicine Company, Brockville, Ont., for 50 cents per box, or six boxes for $2.50.

Marvelous CONSUMPTION
80,778
CASES OF
G. H. MUMM & CO.'S
Extra Dry
OR
44,764
Cases more than any of the 31 other brands of
CHAMPAGNE,
Importations to U.S. for 1894.

Diamond Hall

"DIAMOND" CUT GLASS.

We have recently added to our already magnificent stock of WEDDING GIFTS a very choice line of DIAMOND Cut Glass in the following pieces --OLIVE DISHES, BON-BONS, Creams and Sugars, Water Bottles, Berry Bowls, Flower Holders, Claret Jugs, etc.

Also new lines in POTTERIES of the Crown Derby, Doulton and Royal Worcester brands.

In Sterling Silver Gifts our stock never was so complete.
