THE MEETING ADJOURNED

Owing to Absence of One of the License Commissioners.

Applications Received for a License for the Mountain View Hotel — Underwriters May Not Increase Their Rates—Walter H. Robinson Marries To-Day—Notes From the Ambitious City.

Hamilton, Sept. 27.—(Special.)—The meeting of the South Wentworth License Commissioners this afternoon was adjourned till Saturday, one of the members being absent. Applications for a license for the Mountain View Hotel were received from John Eagle, Copetown, and Malcolm Meston, city.

No Increase of Rates.

It looks as if the fire underwriters have no intention for the present at least, of increasing the Hamilton rates. Some months ago action was postponed till the annual meeting, which was held last Wednesday. Nothing has been heard by the local Board of Underwriters about any rise. The city is doing its best to meet the Dominion Board's requirements and any increase would be received with little grace by the business men.

To Be Married To-Morrow.

Mr. Walter H. Robinson, the well-known tenor, well known in Hamilton and Toronto, will be married to-morrow to Miss Minnie Essin at Worcester, Mass. Miss Essin has been associated with her future husband in studio work, both in Toronto and New York, where Mr. Robinson is now teaching. The wedding will be a quiet affair and Mr. Robinson and his wife will reside in New York.

Two Funerals.

The funeral of the late James Hutchinson took place this afternoon to the city cemetery. At 3 o'clock a service was held in St. Paul's Church, conducted by Rev. Neil McPherson and Dr. Lyle. The pallbearers were: J. Vallance, Bidwell Way, George Black and George A. Young for the Session of St. Paul's, and George A. McKeand and John Kenrick for St. Andrew's Society.

The funeral of Robert Powell took place this afternoon. Canon Bland conducted a service in Christ Church Cathedral and the remains were interred in the City Cemetery. The pall-bearers were members of the Army and Navy Veterans' Society and Hearts of Oak Lodge, S.O.E.

Minor Matters.

Miss Racie Boehmer of Berlin has been appointed soprano soloist of the First Methodist Church.

A number of other cases of breaking into beach residences have been reported to the police.

Dr. Bueglass and Miss Jessie E. Campbell of Ormistown, Que., were married here yesterday by Rev. Dr. Fraser.

Wesley Vansickle of Lynden pleaded guilty before the magistrate to-day to the charge of disorderly conduct and was fined $10 and $4 costs.

Mrs. Reinholt, the wife of a Hamiltonian who is on his way to the Klondike, died to-day here from heart disease.

The German Bros. in "Mr. Beane from Boston," will be the attraction at the Grand Opera House to-morrow evening.

BRICKMAKING WAS BRISKER

This Season Has Been Good, Next Will Be Better.

The World Interviews the Leading Brickmakers in East Toronto, North Toronto and Toronto Junction—The Output Large — Wages Higher — Prices Excellent—Prosperity in Bricks.

Ever since the days when the Tower of Babel was erected, brick-making has been an industry that has richly rewarded the sweat of man's brow. The industry thrives in Toronto and vicinity. When the boom was on it reached high-water mark and to-day shows excellent signs of rejuvenation.

The World interviewed the leading brickmakers of East Toronto, North Toronto and Toronto Junction, with the following result:

Wages Have Been Higher.

Mr. Thomas Sawdon, Greenwood-avenue, reports business one-third better than last year. He makes about one and a quarter millions, and will have about one-half million on hand at the opening of trade next year. Sold bricks at from $6.50 to $7.50 per thousand, about 10 per cent. higher prices than for two or three years past. Wages have been a little higher this year. He has lots of clay. Wood has been hard to get this year. He is a member of the Builders' Exchange, Thinks business will be brisk next year.

Mr. John Price, Greenwood-avenue, reports business as good. He has been able to sell all that he can make. Prices are about 10 per cent higher than last year, running from $6.50 to $8 per thousand. He made over three millions this year; will likely have about one million on hand for next year's trade. He pays out about $700 every two weeks for wages alone. He is a member of the Builders' Exchange.

Mr. Isaac Price, Greenwood-avenue, reports business very brisk this year, a big improvement over the past two or three years. He made at least 250,000 more than the previous year. Prices varied from $6.50 to $7.50 per thousand, being about 10 per cent higher than for the previous two or three seasons. Wages are also a little higher. He will have probably about 500,000 on hand for early delivery next year. He thinks business will open up with a big rush next year.

A New Firm Busy.

The Hutchinson Brock Company, Greenwood-avenue, are a new concern, this being their first year in the business. They made 1,500,000 and have sold every one of them at prices running from $6.50 to $8, per thousand. They will double the capacity next year. They have 10 acres of land, with lots of clay on it. The fact that they are going to double their output speaks volumes for their faith in the good times that are now here.

Mr. John Logan, Greenwood-avenue, says that this year has been a very good one with him, having manufactured 1,500,000 and sold all but about 250,000, which he says will go rapidly in the spring. His prices were from $6.50 to $8 per thousand. He expects to work much harder next year to supply the demand, which he is sure there will be for good brick. Wood has been scarce. He had to shut down several times this year owing to his water supply becoming insufficient. He pays out fully $5000 per season for wages. He thinks that the city should put in a water main on Greenwood-avenue for his use.

Business Revived.

Mr. Walker Morley, Queen-street east, is one of the oldest brick makers in the business at the present time. He has been resting for the past few years, but started again last year, when he made about 750,000. He will have a good supply when trade opens up next spring. He sold last year's make at prices ranging from $7 to $8.50 per thousand. He has every confidence that trade will be much better next year. He can increase his output next year to fully three or four millions.

The last gentleman seen was Mr. Joseph Russell of Queen-street east. He says business has been booming this year. He made 4,000,000 this year, as against 2,500,000 the previous year. Prices were about 10 per cent. higher, but wages have also been higher. He will have about 1,000,000 on hand for the commencement of next year's business. He pays out fully $2000 every two weeks during the season. Every indication points to a very large trade for next year.

Davisville Yards Good.

Mr. James Pears, owner of the Davisville brickyards on Eglinton-avenue, has felt the improvement of times and makes no bones of disclosing the fact.

"Business," said he, "is 50 per cent. better than it was two years ago, when it was about as bad as it could be. There is a pretty good demand for brick at the present, the price ranging from $6.50 to $7 per thousand. We did get $8 per thousand when the boom was on, but the price went down after that to $5.50. With the demand in sight, brick should advance at least $1 per thousand in the spring."

During the past year this firm have turned out nearly one and three-quarter millions, and will carry only a small proportion over for spring. Mr. Pears has little fears of his supply of clay giving out, having practically an unlimited quantity.

The three Bracondale manufacturers were seen and expressed opinions as follows:

R. Ruttledge said: "I have made about 675,000 during the past season, of which probably 250,000 will be left over for spring. Our stock is in demand quite as fast as we can get it out, and the price averages about 50c per thousand better than last year."

Mr. Ruttledge attributed part of the demand to the large factory being erected for the Massey-Harris Company and did not care to foretell the prospects for next year. The raw materials at these works are used up.

Good Business Next Year.

The demand for bricks, in the opinion of Mr. William Greensides, was only just middling, but he thought that at the opening next year things would be pretty busy. An advance would likely take place then, but would only last until the new season's make of brick could be got on the market. Some years ago the price was $1.50 per thousand higher than now, while the present price is better by $1 than that of a couple of years ago. Mr. Greensides calculates that his bed will last five or six years more, and this year 850,000 brick have been made by him.

Mr. Charles Lines could not be seen, but his foremen concurred in the opinions of Messrs. Ruttledge and Greensides as to price and demand. Nine hundred thousand brick have been made here, of which about 600,000 are on hand. The supply of clay is estimated to hold out about three years.

Industry at the Junction.

At Toronto Junction there are five brick factories—those of J. Brown, M. Wakefield, Charles Mason, George Townsley and William Pears. The output last year was one and a half millions; this year it will be seven millions.

Last year there was very little demand for brick and the factories were carrying old stock. William Pears, who made 650,000 last year, will make two millions this year. M. Wakefield, who was selling stock on hand last year, will make three millions this year. J. Brown, who made none last year, will make 900,000 this year.

The demand for bricks at the present time is good. The expected market for next spring is excellent. The state of trade to-day, compared to what it was two or three years ago, has increased threefold, and is still increasing gradually. Brick last fall sold for $4.50 per thousand; to-day it sells for $5.25.

Butwell's brickyards on Bloor west and at Humber Bay make about 800,000 a year. They may increase their output this year about 25 per cent.

Baby Farm Inspection.

Staff Inspector Archaboid has adopted a new system of inspection for the city baby farms. Each member of the Morality Department has had a division allotted to him and is required to go around and inspect the various licensed baby farms in his district. A report will be made each week to the Staff Inspector as to the number of inmates and the condition in which they are kept.

A harvest thanksgiving service will be given in St. Jude's Church, Wexford, on Thursday evening next, 29th inst., at 7.30 o'clock. An address will be given by Rev. C. H. Shortt, Toronto. Special music.

Severe Headaches

Resulting from Catarrh Cause Great Suffering

The Great Blood Purifier, Hood's Sarsaparilla Cures.

Sufferers from any disease caused by impure blood should never be discouraged about taking Hood's Sarsaparilla because other medicines have failed to give relief. Remember Hood's Sarsaparilla cures when all others fail. Read this statement:

"C. I. Hood & Co., Lowell, Mass.:

"Dear Sirs:—I think it my duty to let you know what Hood's Sarsaparilla has done for me. I was suffering with severe headaches daily and also with catarrh. One day a paper was left at my house and in looking it over I read of your great medicine's value to my fellow sufferers. I reasoned that if it cured them, why would it not cure me, although I must own I had some doubts about it, as I

Had Tried So Many

so-called cures which had failed even to relieve me. At last I procured a bottle and after taking all the medicine the headaches had left me and my catarrh trouble was much better. I continued taking Hood's Sarsaparilla and have derived so much benefit from it that I would advise any one troubled with impure blood to try Hood's Sarsaparilla, the great blood purifier. I feel better now than I have for years, thanks to Hood's Sarsaparilla." MRS. E. GREY, 27 St. Nicholas St., Toronto, Ontario. Remember

THE TRICKS OF FRENCHMEN

Shown Up by Articles in The London Daily News.

German Ambassador Sent a Report of the Dreyfus Affair to His Government—The Document Was Intercepted at the Frontier and Photographed — M. Casimir-Perrier Was Disgusted and Resigned the Presidency.

London, Sept. 27.—The Daily News this morning commences the publication of a series of articles, which, it alleges, explain the Dreyfus affair. To-day's article concerns the resignation of M. Casimir-Perrier of the French Presidency, which is described as a strange, sad story. The article says: "The persons in the secret are the Kaiser, Count Von Munster, M. Dupuy, M. Hanotaux, General Mercier, General Boisdeffre, Col. Schwarskoppen, Count Esterhazy and the late Henry Sancherr.

"Besides the French Ministers others had the dossier in their hands.

"In December, 1894, a detailed report of the Dreyfus affair, which Count Von Munster sent by the usual courier to the Kaiser, was interrupted and photographed at the French frontier. Yet it reached the Emperor without delay a few days later. This fact became known to the Information Bureau at Berlin, and Germany ordered Count Von Munster to demand his passports, for the offence was regarded as robbery, and an offence to the Emperor on the principle of extra territoriality. When Count Von Munster made this demand at the Palace of the Elysee, President Casimir-Perrier was overwhelmed with the suddenness of the revelation and was beside himself. In an extraordinary scene he gave his word of honor, repudiating all connection with or knowledge of the affair, and solemnly promised to prevent a repetition of it.

"Count Von Munster was satisfied, and sent a second report of this interview. This document was similarly intercepted and photographed, the negative arriving at the French Foreign Office within 48 hours. Some days later on, Jan. 12, 1895, Count Von Munster called at the Palace of the Elysee, and suddenly announced that Germany would mobilize her troops forthwith, unless satisfaction was given for this new insult. A dramatic scene followed. Count Von Munster collapsed into a fauteuil, a prey to violent feelings, reproaching M. Casimir-Perrier with having dishonored him in the eyes of the Emperor.

"M. Casimir-Perrier was crushed, and could not reply at first, but presently said: 'Tell your Emperor I myself will give him satisfaction. I do not want to sacrifice the country. I will leave the Presidency. I pray His Majesty to be satisfied.'

"Two days later M. Casimir-Perrier resigned."

Shall We Submit?

Editor World: The same men who a few months ago did all that lay in their power to prevent the running of Sunday cars are now striving with all their might to deprive their fellow-citizens of the pleasure of drinking a glass of beer or a glass of wine. These men evidently begrudge others the enjoyment of any little pleasure which does not harmonize with their own narrow views of life. As with the Sunday car question, so it will, or should be, with the question of prohibition. Vote them down and stop their intemperate tongues, the evil of which is greater than that which they seek to crush. The benefits which mankind derives from the use of wine and beer are greater by a hundred-fold than the evil which arises from the abuse of the same. Is it reasonable to expect that 99 persons shall deprive themselves of that which is both a pleasure and a benefit to them, because the one person drinks to excess? Does the minister of the Gospel forego a portion of his salary that the poor man and his family shall be benefited thereby? I think not. This class of men who would stop the Sunday cars and close up the wine store would also, if they could, close up the theatres and the music halls, and follow this up by putting a gag into the mouth of him who laughs on Sunday. How, I would ask, did these men become possessed of so much wisdom that they should know better than other men how to live and be happy?

Sydney Smith.

The Tyranny of the Prohibitionists.

Editor World: There can be no objection to a man persuading another against drink, but the prohibitionist is not content with persuasion and example. He wants to prohibit a man from drinking anything he himself does not like. Now, this is gross tyranny—so gross that it is difficult to conceive its originating in the mind of any man born on British soil. What right have you to dictate to me what I shall or shall not drink? This world was not intended—as Carlyle has it—to be a lubber land of roast beef and plum pudding, in which everybody is to be happy. It is a school for character, and if you take away freedom you take away manhood. The temperance cause is a great cause, but these mad fanatics are rendering it contemptible and shameful. A cause can only be advanced by sense, by justice and by truth. Your temperance crusader is too often a shallow-brained fool. Thus we have windy talk as to drink being the cause of every evil there is in the world, as though evil possions were unknown to human nature before the introduction of the saloon. Our teetotal fanatics forget the Armenian horrors and the soldiers of the Prophet, who are one and all strict abstainers. Thus we are told drunkenness is increasing, when as a matter of fact we know that it is decreasing rapidly, and would soon disappear, so far as it is in the nature of any evil to disappear, were the question dealt with by broad-minded, practical men of sense, and not given over to be experimented upon by every noisy idiot who considers that his mission in life is to take care of everybody's morality but his own.
