

**WELL-KNOWN ONTARIO WOMAN SPEAKS.**

Welland, Ont.—"I am most pleased to state that Dr. Pierce's Favorite Prescription has proved itself a first-class remedy. I was run-down, weak and played out, and needed a woman's tonic. I have just finished using one bottle. I feel much stronger and better. Can eat better and am less nervous. You may say that 'Favorite Prescription' is just the medicine for tired-out women. It does wonders for..."—Mrs. Geo. Flanagan, E. Main St., Welland, Ont.

**3 PRESCRIPTION IS FOR YOU.** You suffer from hot flashes or dizzy-fainting spells, hysteria, headaches, nervousness you are not beyond re-

Pierce's Favorite Prescription led to the real cause and promptly cured the disease, and thereby brought in the place of prolonged misery, has been sold by druggists for nearly 40 years, in fluid form, at \$1.00 per bottle, general satisfaction. It can now be had in sugar-coated tablet form. Sold by medicine dealers or trial box by receipt of 50 cents in stamps. Any sick woman may consult us by absolutely without charge. Write without fear as without fee, to the Invalids' Hotel, Dr. V. M. Pillsbury, President, 663 Main St., Buffalo, N. Y.

Pierce's Tablets are unequalled as a pill. Smallest, easiest to take. One sugar-coated tablet a dose. Cure Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bloating, and all derangement of the Liver, Stomach and Bowels.

**CZAR AND KAISER.**

Both Titles Mean the Same and Are Derived From Caesar.

It seems strange that two words so different in sound and spelling as czar and kaiser are the same. Both are but changes made in the course of nearly 2,000 years in the word caesar. All the Roman emperors took their title from the first emperor—our old friend of schoolboy days—Julius Caesar. When Charlemagne founded the holy Roman empire and was crowned emperor, he took the name caesar or, in the frankish form, kaiser. When the modern German empire was established in 1871 the German emperor, William I, grandfather of the present kaiser, took the same title—kaiser. Similarly the rulers of the eastern empire at Constantinople, successors to the old Roman empire, called themselves caesar. Every petty chieftain or prince in the territory surrounding the eastern empire copied the custom and called himself caesar or czar. In the course of time, however, the greatest of these, the czar of Muscovy, conquered the other czars until he was the sole or practically the sole ruler called czar. However, the king of Bulgaria, when a few years ago he had himself crowned as king, took the title of czar.

**The Gordian Knot.** As the old legend goes, the father of the Greek King Midas, once king of Phrygia, was originally a poor peasant. The people of Phrygia being much disturbed, an oracle had informed them that a wagon would bring them a king who would put an end to all their troubles. Not long after this saying, Gordius (Midas' father), suddenly arrived in the midst of an assembly of the people, riding in his wagon. At once, to the great surprise of Gordius, they made him king. In his gratitude Gordius dedicated the wagon to the god Zeus, and it was placed in the acropolis at Gordium. The pole of the wagon was tied to the yoke by a knot of bark, and a second oracle declared that whoever untied that knot should reign over all Asia. It was Alexander who untied the knot by cutting it with his sword, thus assuming himself to be the man referred to by the oracle.

Miller's Worm Powders do not need after-help of castor oil or any purgative to complete their thoroughness, because they are thorough in themselves. One dose of them, and they will be found palatable by all children, will end the worm trouble by making the stomach and bowels unteasable to the parasites. And not only this, but the powders will be certain to exert most beneficial influences in the digestive organs.

**THE DAIRY INDUSTRY.**

Interesting Figures Regarding Production of Butter and Cheese.

In a press bulletin issued from Ottawa the census and statistics office reports on the total production of butter and cheese in the creameries and cheese factories of Canada for the year 1916, as compared with 1915, the report being based upon returns collected from the dairying branches of the provincial departments of agriculture. The figures for 1915 represent approximate estimates, as the returns for that year are not quite complete. The total number of creameries and cheese factories operating in 1916 is reported as 3,446, including 993 creameries, 1,813 cheese factories, 624 combined factories (cheese and butter), and 16 condensed milk factories. The total number of patrons contributing to creameries and cheese factories during the year 1916 was 221,192, the deliveries of milk amounting to 2,600,542,987 lbs. and of cream to 157,620,636 lbs. The two chief dairying provinces of the Dominion are Ontario and Quebec. Both manufacture cheese and butter; in Ontario more cheese is made than butter; in Quebec more butter is made than cheese. In Ontario the total number of establishments operating in 1916 was 1,165, and the patrons numbered 87,325, whilst in Quebec the establishments numbered 1,984 and the patrons 79,145; so that the average number of patrons per establishment was 75 in Ontario and 40 in Quebec.

The total production of creamery butter in Canada in 1916 is returned as \$2,564,130 lbs. of the value of \$26,966,357, as compared with 83,824,176 lbs. of the value of \$24,368,636 in 1915. Comparing the relative production of the provinces, the production in 1916 is highest in Quebec with 34,323,275 lbs. of the value of \$11,516,148, as compared with 24,680,109 lbs. of the value of \$8,031,998 in Ontario. These two provinces together produce about 70 per cent. of the total creamery butter of Canada. Of the other provinces the production and value of creamery butter in 1916 were in relative order as follows: Alberta 8,521,784 lbs., value \$2,819,248; Manitoba 6,574,510 lbs., value \$2,038,109; Saskatchewan 4,310,669, value \$1,338,180; Nova Scotia 1,586,679 lbs., value \$505,000; British Columbia 1,243,292, value \$497,316; New Brunswick 709,932 lbs., value \$236,194; and Prince Edward Island 613,880 lbs., value \$184,164. The average price per lb. of creamery butter for all Canada works out to 33 cents in 1916, as compared with 30 cents in 1915. By provinces in 1916 the highest price was in British Columbia 42 cents and the lowest in Prince Edward Island 30 cents. In the other provinces the price per lb. for 1916 was as follows: Nova Scotia, 32 cents; New Brunswick, 33 cents; Quebec, 34 cents; Ontario, 33 cents; the prairie provinces 31 cents.

The total production of factory cheese in 1916 was 192,968,597 lbs., of the value of \$35,512,530, as compared with 183,878,898 lbs. of the value of \$27,587,775 in 1915. By provinces the lead in production is taken by Ontario with a total quantity in 1916 of 126,015,870 lbs. of the value of \$23,312,935, Quebec being second with 51,906,750 lbs. of the value of \$11,245,104. These two provinces together account for 98 per cent. of the total production of factory cheese. The production and value of factory cheese in the other provinces in 1916 were as follows: Prince Edward Island, 2,121,736 lbs., value \$499,495; New Brunswick, 1,181,664 lbs., value \$210,692; Manitoba, 850,728 lbs., value \$158,931; Alberta, 745,122 lbs., value \$154,454; Nova Scotia, 34,727 lbs., value \$16,959, and British Columbia, 18,00 lbs., value \$3,960. The average price per pound of factory cheese for all Canada works out to 21 cents in 1916 as compared with 17 cents in 1915. In 1916 the average price is highest in British Columbia, 25 cents. In Quebec and Ontario the average price is 18 cents, and in Alberta it is 21 cents.

**SURGERY FOR AUTO TIRES.**

Be Sure There Are No "Broken Bones" Before Mending the Surface. Surgery for a tire, in so far as it affects only the tread or skin, is simple, but after a rupture of the surface you should make certain that no "bones have been broken" before proceeding with the treatment. It must be remembered that the layers of canvas cemented together—in a fabric tire—or the individual layers of cord—in a cord tire—form the main supporting skeleton, or framework. The rubber tread merely protects this framework from wear, as the tough skin on the ends of the fingers protects the bones and delicate nerves.

It often happens that a cut from a sharp stone or piece of glass is sufficiently severe to penetrate the entire thickness of rubber covering on the tire and to extend through to one or two layers of canvas. If under these conditions only the surface is vulcanized, or "healed," but little will be accomplished, for the supporting fabric will be weakened at this point through the separation of the one or two layers, and a blowout will eventually result, even though the tire, so far as its external appearances are concerned, is

perfect at this point.

A cure of this nature requires the services of an experienced tire surgeon. For a new section of fabric must be applied and vulcanized into place, or the broken ends of the cord must be fastened together in a manner requiring more or less expert work.

The same result as a broken bone may be obtained by what is known in tireology as a stone bruise. This is caused by a sudden impact against a blunt object, such as a curved or round corner of a stone, which in itself is not sufficient actually to cut the thread of the tire, but which imparts so severe a strain to the fabric, or carcass, that several of the layers of canvas may be broken or bruised. This is a frequent cause of mysterious blowouts, which seem to come from within a tire having its surface in perfect condition.

**TRAINING THE CHILD.**

The Most Essential Factor Is In Having a Normal Home.

A student of sociology recently said in a public address that the most essential thing in the training of a child was a normal home. This sort of home ought to be common. Yet investigations show that a large number of homes must be considered abnormal. Such are poverty stricken, overcrowded homes, and such are the servant filled homes of the wealthy. It is the large well to do middle class who should and who do supply most of the so called normal homes.

It has been found that many homes which might be normal are not so and that the parents usually are to blame. Parents are quarrelsome, a favored child is allowed to bully the household, the mother is indifferent to the home, the father is ugly, discipline is too lax, the children are ignored, parents reverse each other's decisions—these are some of the defects in the abnormal home. They are defects which are singled out because they betray no gross weakness in the parents and could be eliminated by a little patience and thoughtful effort.

The environment of a child in its early years undoubtedly has a good deal to do with forming its character. It seems as if parents ought to heed this fact and to exercise such self denial and self control as may be necessary to make the home a place where the child can be sure of finding peace and just treatment. There are many homes that for familiar reasons are entirely without the scope of these considerations.

But the observations noted apply with reasonable pertinence to the numerous American homes in which the parents are well behaved and self respecting, but who are too selfish or too thoughtless to give due attention to the very important matter of providing a tranquil and helpful home for the little ones.

**ROLL OF HONOR**

Men From Watford and Vicinity Serving The Empire

- 27TH REGT.—1ST BATTALION  
Thos. L. Swift, reported missing, since June 15, 1915, Rich. H. Stapleford, Bury C. Binks, L. Gunn Newell, killed in action, Arthur Owens, F. C. N. Newell, T. Ward, Sid Welsh, Alf Woodward, killed in action M. Cunningham, M. Blondel, W. Blun, R. W. Bailey, A. L. Johnston, R. A. Johnston, G. Mathews, C. Manning, W. G. Nichol, F. Phelps, H. F. Small, E. W. Smith, C. Toop, C. Ward, J. Ward, killed in action, F. Wakelin, D. C. M., killed in action, T. Wakelin, wounded—missing, H. Whitesitt, B. Hardy.

Lorne Lucas, Frank Yerks, Chas. Potter.
- 33RD BATTALION  
Percy Mitchell, died from wounds Oct. 14th, 1916; Lloyd Howden, Geo. Fountain, killed in action Sept. 16, 1916, Gordon H. Patterson, died in Victoria Hospital, London.
- 34TH BATTALION  
E. C. Crohn, S. Newell, Stanley

**KEEP YOUR HOLIDAY HEALTH**

Make it your business to always look and feel as well as you do at the end of your vacation. Sunshine, fresh air and exercise are nature's great restorers and the health gained during a holiday should carry you well along to the next vacation.

It is most important that the blood be kept cleared of impurities. This is the business of the Kidneys. One hour's incapacity on the part of the Kidneys and the blood begins to get clogged with poisons which are carried to all parts of the body—giving rise to one or more of the following symptoms:—

Rheumatism follows the crystallizing of uric acid in the muscle tissues and joints. Uric acid poisons should be eliminated by the Kidneys.

Swollen joints and ankles indicate the immediate need for Gin Pills. Pains in the sides and back and through the groins, constant headaches, restless nights, derangements of the urinary system, stone and gravel, puffiness under the eyes and frequent chills—all these should be taken as warnings and a treatment with Gin Pills taken at once.

50c. a box or 6 boxes for \$2.50, or a free sample will be sent upon request to Limited Drug & Chemical Co. of Canada, Montreal, Toronto, or to the U.S. address, Na-Dru-Co Inc., 202 Main St., Buffalo, N.Y.
