SHIPWRECK.—We regret to learn by telegraphic despatch, to the owners here, that the fine new ship, Welsford, Isaac Hatfield master, which sailed from this port on the 18th December for Liverpool, was totally lost off Cape Race, N. F., on the 25th, and that out of twenty-six souls on board, only the mate and two seamen were saved. This melancholy accident has caused much sensation in this community, as several of those on board are connected in this and the adjoining Province. We subjoin a list of the officers and crew:

Isaac Hatfield, Master, Wm. Journey, Mate, Gilbert P. Kearney, Second Mate, all of Weymouth, N.S.; Robert Brown, Carpenter, of St. Martins; Thos. Kearney, Steward, of St. John; John Miller, Cook, of St. John; Wm. Pritchard, Boatswain; Geo. Lingham, Martin Finlanson, Alex. Finlanson, Thos. Ward, Alex. Stewart, Wm. Kelly, William Denman, Wm. Conners, John Campbell, Jacob Lent, Thos. Nicholson, Jas. Allen, John Ryan, Wm. Dunn, Wm. Thornton, John Rawlins, Wm. Thomson, Thos. Jones, Geo. Anderson, Seamen.

THE LOWERS ROCKS ON OTA.—It is comparatively a few years since humanity, instead of being regarded as a feeble sentiment which we should endeavour to alleviate by every means in our power, was considered a heinous crime, for which no punishment could be too severe. Up to the year 1792, miserable lunatics in France were confined in cells six feet square, to which air and light were admitted by the door alone; the food being introduced by a sort of sifter. The only furniture consisted of narrow planks, fastened in the moist walls, and covered with straw. At one asylum—the Salpetriere, in the department of La Seine—rats found their way into the cells, which were on a level with the drains, and often attacked and severely wounded the lunatics, and sometimes occasioned their death.

At some of the institutions in England, as late as 1770 the inmates were exhibited to the public for money. The admission fee being two pence a visitor; and no longer ago than 1800, lunatics supposed to be under the influence of the moon were bound, chained, and even flogged, at particular periods of the moon's age, in order to prevent a renewal of their violence. Some German physicians suggested still more atrocious modes of punishing them. They wished for machinery by which a patient just arriving at the asylum, and after been drawn with frightful clangor over a metal bridge across a moat, could be suddenly raised to the top of a tower and as suddenly lowered into a dark and subterraneous cavern; and they avowed that if the patient could be made to alight among snakes and serpents, it would be still better. Another invention was a circulating swing, which was recommended to the profession as a "safe and effectual remedy," and by means of which the melancholic patient, fast bound on a couch or chair, was rotated at various rates up to 100 gyrations in a minute.

St. John, N. B., Dec. 29th, 1856.

MR. JOHN G. SHARP,—

Dear Sir,—I consider it due to the public and yourself that the extraordinary virtues of your "Balsam of Hoarhound and Aniseed" should be more generally known than it has yet been. It is now two years since I was first induced to make use of it, at that time I was suffering very much from an obstinate cold and most distressing cough, with hoarseness to such a degree that I could scarcely speak. I had used "Wister's" Balsam, and other popular remedies without receiving the least benefit, as advised I procured a bottle of your Balsam, and to the astonishment of myself and friends, I had not taken two doses of it when I was greatly relieved, and before the bottle was half used I was perfectly cured. Several times since I have had colds accompanied by troublesome coughs, but have never had to take more than two or three doses to obtain a complete

There are also, many of my acquaintances who have used it with like benefit in their own persons and their families, who I know are willing to make statements similar to the above.

I am, dear Sir, yours sincerely,
WILLIAM NAGLE.

HOLLOWAY'S PILLS.

The blood furnishes the material of every bone, muscle, gland and fibre in the human frame. When pure, it secures health to every organ; it necessarily produces disease. HOLLOWAY'S PILLS operate directly upon the elements of the stream of life, neutralizing the principle of disease, and thus radically curing the malady, whether located in the nerves, the stomach, the liver, the bowels, the muscles, the skin, the brain, or any other part of the system.

USED THROUGHOUT THE WORLD.

HOLLOWAY'S PILLS are equally efficacious in complaints common to the whole human race and in disorders peculiar to certain climates and localities.

ALARMING DISORDERS.

Dyspepsia, and derangement of the liver, the source of infirmity and suffering, and the cause of innumerable deaths, yield to these curatives, in all cases, however aggravated, acting as a mild purgative, alternative and tonic; they relieve the bowels, purify the fluids, and invigorate the system and the constitution at the same time.

GENERAL WEAKNESS—NERVOUS COMPLAINTS.

When all stimulants fail, the renovating and bracing properties of these Pills give firmness to the shaking nerves and enfeebled muscles of the victim of general debility.

DELICATE FEMALES.

All irregularities and ailments incident to the delicate and sensitive organs of the sex are removed or prevented by a few doses of these mild, but infallible alteratives. No mother who regards her own or her children's health should fail to have them within her reach.

SIENTIFIC ENDORSEMENTS.

The London "Lancet," the London "Medical Review," and the most eminent of the faculty in Great Britain, France and Germany, have eulogized the Pills and their inventor.

Holloway's Pills are the best remedy known in the world for the following diseases:
