London, Wednesday, Feb. 10.

ENGLAND WILL NOT TRAMMEL HERSELF.

The following cablegram was received from London, Eng., to-day:

"In the House of Commons last night Mr. Lowther offered a motion in favor of denouncing the favored nation clause in treaties with Belgium and the zollverein countries in order to enable the establishment of preferential commercial relations with the colonies.

"Sir Michael Hicks-Beach, president of the Board of Trade, replied that the Government was disposed to go a great way to establish a real zollverein with the colonies, but the proposal was impossible without sacrificing portions of treaties highly beneficial to Great Britain.

"The motion was negatived."

This answer, and the fate of the resolution, shows that Great Britain is not disposed to sacrifice any of her opportunities to trade with other countries for the purpose of entering into a trade arrangement with her colonies. The fact is that both the great political parties in Great Britain have learned the advantages of trade freedom, and are not prepared to trammel the country with any scheme that would increase the cost of the living of the people, and thus prevent them from being able to maintain that pre-eminence as world-wide traders and money-makers which their system of free exchange has brought them. That is the meaning of the Conservative Minister's reply, that is the meaning of the manner in which the subject was shelved.

A correspondent asks if it is true that Mr. Carling has applied for a charter to establish a Good Templar lodge in the cellar of his brewery?

MR. BLAKE'S INDICTMENT.

The trade restrictionist papers are publishing garbled reports of Hon. Edward Blake's farewell address to his constituents in West Durham, issued when he retired from public life at the last Dominion election.

Mr. Blake does not take kindly to Unrestricted Reciprocity. The exact trade policy that he would prefer has yet to be defined, though some believe that it would lean nearer to Commercial Union than to Unrestricted Reciprocity.

What Mr. Blake thinks of the men now in power at Ottawa, and of the influences and results of their policy is clearly defined, though the trade restriction press take good care not to publish it. Here is the portion of Mr. Blake's letter thus suppressed:

"The Canadian Conservative policy has failed to accomplish the predictions of its promoters. ITS REAL TENDENCY HAS BEEN TOWARDS DISINTEGRATION AND ANNEXATION INSTEAD OF CONSOLIDATION AND THE MAINTENANCE OF THAT BRITISH CONNECTION OF WHICH THEY CLAIM TO BE THE SPECIAL GUARDIANS.

"It has left us with a small population, a scanty immigration and a Northwest empty still; with enormous additions to our public debt and yearly charge; an extravagant system of expenditure and an unjust and oppressive tariff; with restricted markets for our needs, whether to buy or to sell, and all the hosts of evils (greatly intensified by our special conditions) thence arising: with trade diverted from its natural into forced and therefore less profitable channels, and with unfriendly relations and growing tariff walls, ever more and more estranging us from the mighty English-speaking nation to the south, our neighbors and relations, with whom it ought to be, and it was promised that we should be, living in generous amity and liberal intercourse.

"WORSE! FAR WORSE! It has left us with lower standards of public virtue, and a death-like apathy in public opinion, with racial, religious and provincial animosities, rather inflamed than soothed, with a subservient parliament, an autocratic executive, debauched constituencies and corrupting classes; with lessened self-reliance and increased dependence on the public chest and on legislative aids; and possessed withal by a boastful jingo spirit far enough removed from true manliness, loudly proclaiming unreal conditions and exaggerated sentiments, while actual facts and genuine opinions are suppressed.

"It has left us with OUR HANDS TIED; our FUTURE compromised, and in such a plight that, whether we stand or move, we must run some risks which else we might have either declined, or encountered with greater promise of success."

THURSDAY'S BYE-ELECTIONS.

To-morrow six bye-elections for the House of Commons will be held—five in Ontario and one in Nova Scotia. The standing of the constituencies after the general election in March last was as follows:

East Bruce (Liberal), 114 majority.
Peel (Liberal), 54 majority.
East Middlesex (Conservative), 155 majority.
North Victoria (Liberal), 202 majority.
South Victoria (Conservative), 25 majority.
Halifax, two seats, (Conservative) 11,104 majority.

On Friday the election in East Elgin takes place. There the Conservative majority at last election was 54.

It is a fallacy to assert, it is a false thing to assert, that Unrestricted Reciprocity will have any injurious effect upon British connection. Extracts are printed in newspapers from American journals, in which they affirm the opinion that Unrestricted Reciprocity will involve annexation, and I do not wonder that we find these statements when the Premier of the Dominion says so; when his Ministers say so, when his organs all over the country say so. When they have been saying all that for months, I do not wonder that the journals of foreign nations and the statesmen of foreign nations may believe them. We do not believe them. They are instrumental largely in making these statements themselves by their own disloyalty.—[Premier Mowat.

WOULD DOUBLE HIS EMPLOYES.

The Mayor of Chambly, Que., S. T. Willett, in a recent address, declared that he had $200,000 invested in his woolen factory, and that he was now losing money under the present protective tariff, which he had always opposed, and which gave the wholesale merchants an undue advantage over the manufacturers. He declared that if Unrestricted Reciprocity was adopted he would double his factory, and would employ 600 hands instead of 300 as at present. And why not? Are not Canadian men and women just as good workers as the men and women in the United States? And do not our business men have as much brain power as their neighbors over the border? No man of sense will answer these questions in the negative.

The Toronto Telegram, referring to the shameful offers of bribes to constituencies by perambulating stump orators of the high tax order, says: "If a Government through its Ministers or agents is free to corruptly influence constituencies, in justice to all the election laws should be modified. A candidate ought to be as free to corruptly influence an individual with his own money as a Government is to influence communities with the nation's money." That is so. It is less a crime to offer one man $5 to vote for a candidate than to tell a community that it cannot have justice done it unless its citizens vote a certain way, whether or not their consciences warrant the procedure. Every Canadian with the spirit of a mouse should resent such rascally attempts to debauch the electorate.

THE "PROFESSOR."

At St. Thomas, Mr. Foster, the confessed "man of weakness" in the Dominion Government, derided reciprocity, and argued that the Dominion is better off with restricted trade than it would be under reciprocity. In less than a week, he is found in Washington, hat in hand, looking for a reciprocity in trade that he knows the United States Administration has already declined to concede, because it would be "jug-handled." What, as has well been asked, does Mr. Foster believe in, anyway? The fact is there are too many men in the present Ottawa Government simply as a means of obtaining a luxurious livelihood.

The Hamilton Herald (N. P. organ) mournfully tells us that "old Conservatives are sighing for Sir John. They say that he would straighten out everything in a week." The sighing is in vain; but everyone must admit that it is a long cry from Sir John Macdonald to the man who keeps himself in hiding at Ottawa.

DR. GRANT ON PREMIER MOWAT.

Mr. Wm. Harty, the Liberal nominee for the representation of Kingston in the Legislature, has the indorsation of Principal Grant, of Queen's University. Dr. Grant writes: "One object should be to have wise, pure and economical government, and when we have a man like Mr. Mowat at the head of a Government, it is the duty of Conservatives—I say it advisedly—to strengthen his hands." Mr. Drennan is the Conservative candidate.

THE NEED OF THE HOUR.

Mr. N. W. Rowell, the talented young Londoner who recently began the practice of his profession in Toronto, took the lead in the great trade debate between the Young Liberals and the Young Conservatives in that city, and the result was a decided majority of the crowded audience voted in favor of the Liberal trade policy which Mr. Rowell espoused. One big point which Mr. Rowell scored was the demonstration of the blighting effects of high taxation on the population of the Dominion. Taking the Maritime Provinces as an illustration, he showed that they had increased 1⅞ per cent., whereas in the land of Egypt, an ancient country, population had increased 23½ per cent. In this country of magnificent natural resources, there is something radically wrong, said Mr. Rowell, when a comparison like this is possible. To right it, we need our taxes reduced and the shackles on our commerce loosened.

Sixteen pulp mills have been kept idle for months through lack of reciprocal trade relations with the United States. Many other manufactories suffer from a similar cause.

Lord John Russell, speaking of the effect of the policy of "protection" in England, on the eve of its abolition, said:

"The system has been proved to be the blight of commerce, the bane of agriculture, the source of bitter division among classes, the cause of penury, fever, mortality and crime among the people."

History has been repeating itself in recent years in Canada.

A CUT IN WAGES

Discussing the trouble in the moulding trade in Hamilton, by means of which several hundred men are thrown out of work, and the effects of the protective duties on the trade, the Halifax Record says:

What are the consequences.

1. An immediate increase in price which fell on every person using a stove in Canada.

2. A rush to take advantage of the increase in price by the creation of new foundries, not in Hamilton, but in other parts of Canada as well.

3. Over-competition on an extremely limited market, compelling some foundries to shut down, others to cut down wages. Workmen strike.

Present position: Capital wasted by being drawn into business to greater extent than business requires, workmen either idle or forced to work for reduced wages.

There is not an employer nor an artisan in Canada who does not know that this indictment is true. The high tax policy has been a distinct injury all round.

The ADVERTISER every now and then receives anonymous letters, intended for publication. It is just as well for writers to remember that the editor does not even read communications unaccompanied by the genuine names and addresses of those sending them.

The annual meeting of the Canadian Press Association is to be held at Ottawa March 3. It is to be hoped there will be no "festivities." The time is needed for business and general discussions, if the annual meeting is to be worth attending. We hope President Pattullo will not allow this meeting also to be spoiled by invasions upon its time more honored in the breach than the observance.

In regard to the answer given to "Subscriber," it may be stated that a member of the Legislative Assembly of Ontario may be elected a member of the House of Commons, but if he sits or votes as a member of the House of Commons his seat in the Legislative Assembly is thereby vacated, and he is liable to a penalty of $200 a day for each day he sits or votes in the Assembly thereafter.

PREFERS THE GOOD OLD SAXON.

[Hartford Times.]

Speaking of the misuse of the word "lady," how would this Bible text, Genesis ii., 22, sound written in this way? "And the rib which the Lord God had taken from gentleman made he a lady, and brought her unto the gentleman."

MUST GO DOWN, THEN.

[Toronto Telegram, Ind. Con.]

Canada wants to see political sin punished. If the Dominion Government chooses to go down with Langevin and Chapleau rather than help shove them into the gulf alone, than is its lookout.

ONE THING CERTAIN.

(Philadelphia Times.)

No man can tell what may happen in some respects, but if woman's suffrage comes, and a female candidate is ever elected President of the United States, she'll at least not wear her grandmother's bonnet if she has to be impeached for it.

HAGGART'S MISFORTUNE.

[Toronto Week, Independent.]

His greatest misfortune is that he has not been able to shun the breath of scandal, which, even when unmerited, tends greatly to impair the usefulness of a public man, whose reputation, as well as his moral character, should, if possible, be free from the shadow of suspicion.

FIRST TO REACH.

(Brantford Expositor.)

The London ADVERTISER is now the first of the day's papers that reaches the Expositor sanctum of a morning. With short and crisp editorials, and the news columns both snappy and reliable, it makes a splendid appetiser. What's the matter with the London Appetiser for a newspaper heading?

WHAT THE PEOPLE LOSE.

[Chatham Banner.]

Detroit grocers advertise they will this morning give 25 pounds best granulated sugar for $1. A Michigan farmer coming into market with a bushel of beans can exchange them for 40 pounds of sugar. A Kent farmer trading off his bushel in Chatham gets only 18 pounds of sugar. Yet the farmers of Canada are told they ought to be contented, and praise the N. P.

COMING INVESTIGATIONS.

[Ottawa Free Press.]

There will be plenty of work for the Parliamentary committees at the coming session. Mr. Lister will renew his charges against Mr. Haggart. Mr. Tarte will bring serious accusations against Sir Adolphe Caron, and Mr. Davin will endeavor to prove that Mr. Dewdney, the Minister of the Interior, made a lot of swag out of the selection of the Regina town site.

CLERKS WHO DID NOT CLERK.

The United States is always ahead of us in postal reform. For years the carriage of a letter to all parts of the States and Canada has only been 2 cents, and a further reduction is looked for soon.—[London ADVERTISER.

Cheap postage was out of the question altogether during the Haggart regime. The working expenses were too high owing to the paying of salaries to female clerks who didn't clerk to any great extent, but who nevertheless had their checks indorsed by "J. G. H."—[Brantford Expositor.

News About Town.

It is the current report about town that Kempe Balsam for the throat and lungs is making some remarkable cures with people who are troubled with coughs, sore throat, asthma, bronchitis and consumption. Any druggist will give you a trial bottle free of cost. It is guaranteed to relieve and cure. The large bottles are 50c and $1. zxv

"The proof of the pudding is in the eating." K. D. C. has been tried and tested, and has proved itself to be the king of medicines, the greatest cure of the age, and the only perfect dyspepsia remedy on the market.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

ARE NOT a Patent Medicine. They are a BLOOD BUILDER, TONIC and RECONSTRUCTOR, as they supply in a condensed form the substances actually needed to enrich the Blood, curing all diseases coming from POOR and WATERY BLOOD, or from VITIATED HUMORS in the BLOOD, and also invigorate and BUILD UP the BLOOD and SYSTEM, when broken down by overwork, mental worry, disease, excesses and indiscretions. They have a SPECIFIC ACTION on the SEXUAL SYSTEM of both men and women, restoring LOST VIGOR and correcting all IRREGULARITIES and SUPPRESSIONS.

EVERY MAN Who finds his mental faculties dull or failing, or his physical powers flagging, should take these PILLS. They will restore his lost energies, both physical and mental.

EVERY WOMAN should take them. They cure all suppressions and irregularities, which inevitably entail sickness when neglected.

YOUNG MEN should take these PILLS. They will cure the results of youthful bad habits, and strengthen the system.

YOUNG WOMEN should take them. These PILLS will make them regular.

For sale by all druggists, or will be sent upon receipt of price (50c. per box), by addressing

LONDON CITIZENS
Are Talking About the New System.

177 Dundas St., London, Dec. 28, 1891.
I have used Dr. J. Eugene Jordan's Histogenetic Medicines for different members of my family, with good results, during the past year, and cheerfully recommend the remedies to the citizens of London, feeling convinced that Dr. Jordan's theory of reaching diseases is the correct one. N. F. YEO.

389 Waterloo St., London, Dec. 28, 1891.
Having used Dr. J. Eugene Jordan's Histogenetic Medicines in my family with good results, I cheerfully recommend them to the citizens of London, and strongly advise all sufferers to give them a trial. Dr. Jordan's system, in my opinion, is the best system of medicine on earth. I speak from experience, having paid hundreds of dollars for other doctors' medicines, receiving little or no benefit. My wife is a new woman since she began using Histogenetic Remedies. I will be pleased to answer any inquiries.
JOHN YOUNG, liveryman.

Histogenetic Medicine Association:
Gentlemen,—This is to certify that I have suffered with rheumatism for the past 25 years. At five different periods I have been so bad that I had to remain in bed for several months at a time. This summer I was suffering severely with pain all through my body, constipation, headache, drowsiness, etc. I began taking Histogenetic Medicines on June 15 and continued for eight weeks. I began to improve at once; pain left me gradually. I do not feel it at all, except a very little at change of weather—nothing to speak of; just a gentle reminder. Constipation and headache cured us, and no return of either since. It is now six weeks since I stopped taking the medicines. I feel better now than I have for years, and I heartily recommend the people of London to try Histogenetic Medicines, as they did more for me than all the doctors' prescriptions or other medicines that I had taken before.
JAMES JACK.
London, 569 York street, Sept. 19, 1891.

Call or write for free medical book explaining the Histogenetic system. All information free. The principles used in the preparation of the medicines are as necessary for our existence as the air we breathe. The medicines have no taste—grand for children. Grip cured in a short time. Specific for inflammation of the lungs; almost impossible to die from that trouble if medicines given promptly at the start. Cost you nothing to investigate the system. It is a reform, and therefore the duty of every one to know something about it.

OFFICE HOURS—9 a.m. to 6:30 p.m.
Open Saturday Nights.

Histogenetic Medicine Ass'n
Rooms 2 and 3 Albion Block, Richmond Street, London,
—AND—
19 Yonge Street Market, Corner Yonge and Gerrard Streets, Toronto.
Please mention ADVERTISER when writing or calling at office. zxv
