Good Blood

Is essential to health. Every nook and corner of the system is reached by the blood, and on its quality the condition of every organ depends. Good blood means strong nerves, good digestion, robust health. Impure blood means scrofula, dyspepsia, rheumatism, catarrh or other diseases. The surest way to have good blood is to take Hood's Sarsaparilla. This medicine purifies, vitalizes, and enriches the blood, and sends the elements of health and strength to every nerve, organ and tissue. It creates a good appetite, gives refreshing sleep and cures that tired feeling. Remember,

Hood's Sarsaparilla

Is the best—in fact the One True Blood Purifier.

Hood's Pills cure Liver Ills; easy to take, easy to operate. 25c.

Sheep and Lambs—Receipts, 6,278; sheep quiet, but steady; lambs fairly active and steady; sheep, $2 50 to $4 25; lambs, $4 75 to $6 25.

Hogs—Receipts, 2,468; higher, at $4 20 to $4 50.

TORONTO.

Toronto, Aug. 13.—Trade was active at the Toronto cattle market today, and nearly everything was sold, in spite of the fact that offerings were heavy. The receipts were 86 cars, including 3,100 sheep and lambs, 1,700 hogs, 25 calves and 14 milch cows. Cables on cattle, weak. Export cattle, a little weaker; prices ruled from 4¼c to 4½c, the latter for extra choice cattle weighing 1,450 lbs. Butchers' cattle steady; common were selling off $2 per head; some were left unsold. But the choice all sold freely at 3c for good cattle, and prices ruled from 2½c to 3¼c. Bulls were in demand for export, and not many offered; prices ruled at 3½c to 3¾c. Stock bulls are not wanted.

Stockers and feeders—The buying for Buffalo was slow, and prices were unchanged at 2¾c to 3¼c for stockers, and good feeders sold at 3½c to 3¾c.

Sheep and Lambs — Export sheep were in fair demand and sold at 3c to 3⅝c. Bucks brought 2½c. Butchers' sheep were dull at 3c. Lambs were a little steadier, selling at $2 75 to $3 25 each, and some extra choice at $3 50 each. To bring the latter figure they must be of extra quality and weight.

The demand was good for choice veals, and all sold readily at $3 to $6 each.

Milch Cows and Springers—The demand was active and the market was firm at $20 to $40 each, and choice cows are wanted.

Hogs were about steady at 6c for the best selections. Other hogs were unchanged.

CURE FOR DROPSY.

Only a Positive Symptom—Not a Disease of Itself—Cured by Dodd's Kidney Pills.

Campbellford, Aug. 9.—An unlooked for and remarkable recovery from advanced stage of dropsy is just made public here. It is the case of Mrs. John Weese, wife of the widely-known veteran stage proprietor, whose life, for months, had been depaired of. From the accumulated water peculiar to this disease she became so helpless as to be unable to drag one foot after the other. She now appears on the street, and says she is as well as ever in her life. And claims that after all other means had failed, she thanks Dodd's Kidney Pills for her unexpected cure.

The Foresters have decided to have their big excursion to Detroit this year via Canadian Pacific Railway. The special train of ten of their best first-class coaches will leave the Adelaide street station next Monday morning at 7 o'clock, and Richmond street station at 7:15, arriving in Detroit at 10 a.m. Tickets, $1 75; good for two days. b

Notice! A few baby carriages and refrigerators will be sold cheap for cash. Parties wanting anything in this line will do well to see them at 95 and 97 King street. WM. TRAFFORD.

BECHAM'S PILLS—No equal for constipation

HEALTHY STOMACH!

Happy Man!—Nothing Experimental About Using the Great South American Nervine—What It Has Done for Thousands It Can Do For You.

Here Are Strong Words From a Reliable Business Man—Read Them.

I have been a great sufferer from indigestion and dyspepsia. I tried many remedies, but obtained very little relief. I saw South American Nervine advertised, and concluded to give it a trial, and I must say I consider it the very best medicine I have ever used. I obtained great relief from the first few doses. I have only used two bottles, and am happy to say it has made a new man of me. I strongly recommend it to fellow-sufferers." C. PEARCE, Drygoods Merchant, Forest, Ont.

President and Czar.

Arrangements for M. Faure's Visit to St. Petersburg.

Prince of Wales Dislike for Emperor William Increasing.

Lady Somerset Withdraws Her Resignation as President of the W. C. T. U.

[Special Saturday Cable Letter to The Advertiser.]

London, Aug. 14.—The arrangements for the visit of President Faure to St. Petersburg are practically completed. He will leave Dunkirk on Wednesday afternoon on board the French warship Pothuaa, escorted by the Bruix and Surcouf, and will arrive at Cronstadt on Monday, Aug. 23. The first day of the French president's sojourn in Russia will be devoted to his reception at Cronstadt and at Peterhof, to the exchange of official visits, a banquet at the Peterhof Palace, and a gala performance at the Imperial Theater.

The president and the czar will start for St. Petersburg on Aug. 24. At the Russian capital M. Faure will be welcomed by the municipality of St. Petersburg, and will receive in audience delegations from the principal cities of the empire. He will also on Tuesday lay the corner stone of the French hospital. In the evening the president will give a banquet at the French embassy in honor of the czar. There will be a grand review at Krasnoe-Selo on Aug. 25, followed by a grand military dejeuner. After a review of the combined French and Russian squadron in Cronstadt roads, the president will bid farewell to the czar and czarina, and will return on board the Pothuaa, which will start immediately for France, reaching Dunkirk on Aug. 31st.

MAGNIFICENT DECORATIONS

are projected at St. Petersburg, including a Faure fountain in the middle of the historic Kasan square, which will remain a permanent memorial of the president's visit. A medal which President Faure will distribute to the guard of honor and to the various functionaries attending him during his visit to Russia bears on one side the profile of an effigy of the republic and the words, "Republique Francaise." On the obverse side is a wreath of laurels surrounding the date, August, 1897. Three hundred medals of this description in gold and platinum, 80 of silver gilt and 20 of dull gold have been struck. Referring to the visit of President Faure, the Russian newspapers are full of a scheme to benefit France by sending stalwart Russians to inter-marry in France and stem the falling birth rate of that country.

WALES' DISLIKE FOR WILLIAM.

The Prince of Wales' visit to Marienbad was not due to any necessity to take stronger waters for his gout, and gossip has it that his trip was due to his strong increasing dislike for Emperor William. Truth, however, says the prince's trip was due to the arrangements made by the emperor to entertain the King and Queen of Italy and a number of princes and princesses at the Schloss of Hamburg, beginning in September, and to the Prince of Wales' desire to escape the inevitable round of functions during the autumn maneuvers, for which the Duke and Duchess of Connaught have accepted the emperor's invitation.

THE BEYREUTH MUSICAL FEAST.

Among those present at the musicale feast at Beyreuth this week are the Prince and Princess of Wales (as Lord and Lady Renfrew), the Grand Duke of Hesse, Ladies Lonsdale and Battersea, and Mr. A. J. Balfour. The performances of 1897 have been characterized by the presence and influence of many of London's smart set. The charms of the anti-conventionialism of the earlier years have largely vanished, and with them the cheap prices, which this year are 33 to 50 per cent above those of 1896. The next Wagner festival will be held in 1899.

MARQUIS OF LORNE A DRAMATIST.

The Marquis of Lorne, son-in-law of Queen Victoria, is engaged in finishing a four-act play of a Scottish historical character, in which the Argyll Campbells figure.

LADY SOMERSET.

Lady Henry Somerset, as a result of the vote of the executive committee of the British Woman's Temperance Association, requesting her to do so, has withdrawn her resignation of the presidency of that organization, which she tendered as a protest against the refusal of the branch associations to follow out her wishes that they should not approve of or sign petitions against the renewal of the contagious diseases act for India.

CHESS TOURNEY.

The Berlin chess tournament, which is expected to rival the recent contest at Nuremberg and Budapest, will begin on Sept. 12. Prizes are offered, ranging from £100 to £5, and a "brilliancy" prize will be awarded by Baron Rothschild, of Vienna, who is a chess enthusiast.

Bishop Talbot, of Rochester, and Canon Gore, will spend the months of September and October in the United States representing the Christian Social Union at the international convention of the Brotherhood of St. Andrew, to be held in Buffalo.

TO REPRESS THE ANARCHISTS.

Since the assassination of Premier Canovas Del Castillo on Sunday last, the authorities of Scotland Yard have been exercising the most active supervision over the anarchists of Great Britain, and they have been in constant communication with the police authorities of Paris, Rome and Madrid, and other capitals. The number of detectives stationed at the various ports have been doubled, and new arrivals are constantly shadowed. But in spite of these precautions the commissioner of police, Sir Edward Bradford, has given permission for a public meeting in Trafalgar Square on Sunday, Aug. 22, to "denounce the revival of torture in Spanish prisons." In answer to the surprise and indignation of the public at the granting of a permit to hold this meeting, the Scotland Yard authorities declare that Sir Edward Bradford did not know that it was the anarchists who had applied for it. The newspapers say it is certain that there will be trouble if the meeting is held, as the people here are waking up to the necessity of a stern repression of the anarchists.

A SCANDAL ENDED.

A long existing scandal has been ended by a complaint upon the part of Sir John Brunner, the well known philanthropist, of Liverpool, and member of parliament for the Northwich division of Cheshire, who drew the attention of the home secretary, Sir Matthew White Ridley, to the habit of transferring the women prisoners from the Liverpool jail to Knutsford prison in big gangs, chained together like slaves. It developed from the inquiries made by the home secretary into the subject that as many as 32 women, in one gang, have thus been paraded. Orders have been issued to stop this practice.

THEATRICAL NOTES.

The next London season does not begin until May, and the indomitable Colonel Mapleson promises to hold sway at Covent Garden for a part of the winter, but does not yet furnish specifications, except that Andre Chemers' operas, which were produced under his management in New York last year, will be his mainstay.

Mr. Dillingham has engaged Alfred Kendrick, who is at present with Ben Greet's Shakespearian company in the provinces, to support Julia Marlowe in America next season. Mr. Kendrick has made a name as a Shakespearian actor, especially in the part of Romeo, and there was considerable competition between Mr. Dillingham and Mr. Robertson, who wanted him for his coming season at the Lyceum, for his services, but the American has now secured the contract.

DROPS IN WHEAT.

New York, Aug. 13.—Wheat values today tumbled 2c from last night's close, and 3c from yesterday's high point of 90⅝c for September. The decline was attended by heavy unloading of long wheat. It piled into the market from all quarters, influenced by weakness abroad, particularly at Paris, where flour prices broke 75 points from last night. The bear traders here were prepared for the decline, but the rank and file of bulls opposed it vigorously, and even succeeded in forcing September at the opening up from 89½c to 90c. It was useless, however, for with the unsatisfactory news from abroad, and loss of bull leaders at Chicago, prices declined, and the weakness continued, with few reactions, right up to the close. The lowest price on September was 87¾c, and the final quotation 88c.
