Suffering Stopped.

The sufferings caused by constipation cannot be numbered. All of these troubles can be permanently cured by Laxa-Liver Pills. One Laxa-Liver Pill every night for 30 days, cures constipation and biliousness.

"Savage and Brutal."

Press Comment on Zola's Sentence.

The French Minister Sustained by a Vote of 428 to 54.

Britain Will Surrender None of Her Interests in West Africa.

Friendly Settlement With the French More than Probable.

The Spanish Talk of Preparing for War—Affairs in Rhodesia.

THE CHINESE LOAN.

London, Feb. 25.—Half the Chinese loan, amounting to £3,000,000, was fully under-written yesterday afternoon. Some of the applications had to be rejected. The issue price is 90, and the interest from the loan is 4½ per cent. It will be offered publicly a week hence.

A dispatch from Hong Kong says that Mr. Drummond, an Englishman, of Shanghai, has been appointed legal and foreign adviser to the Viceroy of Nankin, the southern capital of China, with the assent of the Tsung-Li-Yamen.

NEW ZEALAND WITHDRAWS.

London, Feb. 25.—The Daily Mail announces that "New Zealand has deserted the Imperial Institute, which was founded in 1887 as a record of Queen Victoria's golden jubilee. In the main its aims were to be the formation of a complete collection of the natural products of the British empire, the establishment of commercial intelligence to work and supplement the display of the specimens and the practical adaptation to both to the purposes and advancement of trade. The formal inauguration took place in May, 1893. Vast quantities of specimens of products from all parts of the empire are in the galleries and the institute, which is one of the chief sights of London.

IN THE TRANSVAAL.

London, Feb. 25.—Mr. Joseph Chamberlain proposes that in future the differences between the British South Africa Company and the natives must be submitted to the secretary of state, whose decision will be binding. The administrative council of Southern Rhodesia is to be augmented by four elected members to the council, and sufficient of the company's nominees to insure the company a majority, and the control of the high commissioner will be based on information by the imperial resident commissioner. Mr. Chamberlain has also agreed that there shall be separate administrators for Matabeleland and Mashonaland, and that there shall be only one executive council. The Government of Cape Colony has approved Mr. Chamberlain's proposals.

The morning newspapers and parties concerned raise a chorus of approval over Mr. Chamberlain's scheme, which begins with the conversion of the Rhodesia into a crown colony. The scheme does not affect Northern Rhodesia, which is left for future consideration.

FRENCH GOVERNMENT SUSTAINED.

Paris, Feb. 25.—In the Chamber of Deputies it was decided to request the premier, M. Meline, to discuss immediately the interpellations of MM. Hubbard and Gautier relative to the conviction and sentence of M. Zola. M. Hubbard (Radical) asked whether Generals Pellieux and Boisdeffre had intervened at the trial by authorization of the minister of war.

M. Meline replied: "Popular democratic justice has given a verdict after a military court, and the country accept it. Gen. Billot (the minister for war) gave no order to the generals summoned to testify before the tribunal of the country. One general has been accused on account of his utterances. Undoubtedly he spoke a word too much, but you must remember the frightful charge thrown in his face." Continuing, M. Meline said the charges made against the army were unjust, and he asserted that there was not a single officer who had been guilty of plotting against the country, even in his dreams, adding: "Our officers are haunted by other dreams." (Cheers.) "If, after yesterday's verdict," the premier further remarked, "the agitation continues, we shall know that the matter has been made a party question.

The premier accepted a vote of confidence in the government, and approving of the declarations of the government.

Gen. Billot, the minister for war, indignantly protested against the insinuations that had been made against him, asking for the passage of the order of the day pure and simple, which was adopted by 428 to 54 votes.

WAR TALK IN SPAIN.

Madrid, Feb. 25.—The Imparcial takes the Spanish Government to task for its apathy, "contrasted with the patriotic feeling of the country," and warns the nation against the "hypocritical Yankee policy, which really aims at the independence of Cuba." Continuing, the Imparcial remarks: "President McKinley may make and reiterate protestations of friendship and pacific intentions, but his actions contradict his words. While the president of the United States is cajoling us with words, he sharpens his dagger to stab us behind. While talking concord he utilizes his Sundays in unusual United States war preparations at the docks, and cancels the furloughs of marines. Can we trust those who are preventing the pacification of Cuba and fomenting rebellion and filibustering expeditions, sending warships under the pretext of friendship and preaching peace? We must prepare for war. There is no time to acquire new warships, but we should fit out immediately what we have. Other policy than preparedness is only to play the Americans' game, which is to exhaust our resources and gain the independence of Cuba without risking anything. How long does the government mean to favor the American plans? How long will the agonizing nation tolerate the apathy of the government?"

This language from a semi-official organ is much commented upon. The Pais frankly declares that Cuban independence is imminent.

GOOD LIBERAL GAIN

In the Cricklade Division of North Wiltshire.

London, Feb. 25.—A bye-election was held yesterday in the Cricklade division of North Wiltshire, in consequence of the resignation of the "Unionist" member of the House of Commons, Mr. Alfred Hopkinson, Q.C.

Lord Edmond George Fitzmaurice (Liberal) was elected by a majority of 489.

BRITAIN'S MILITIA.

The Country May Have to Adopt Compulsory Military Service.

London, Feb. 25.—The House of Lords has been debating the question of increasing the strength of the militia. Lord Lansdowne, secretary of state for war, declared, on behalf of the government, that the military system of the country rested upon the principle that the crown had the right to require every citizen to bear a part in the defense of the kingdom.

That liability, he said, had long been dormant, but it was nevertheless real. He foresaw a time when the country would be driven to the adoption of compulsory military service in some shape.

IN WEST AFRICA.

Mr. Chamberlain Explains the Situation—Britain's Interests Will Not Be Sacrificed.

London, Feb. 25.—Mr. George N. Curzon, replying in the House of Commons to a question, said Russia's pledge respecting free ports in North China was conveyed in the following note: "Count Muravieff, the Russian minister for foreign affairs, expressed great surprise at the agitation which appeared to prevail in England, both in the press and in official circles, on the subject of the recent events in China, where English and Russian interests could not be seriously antagonistic. Count Muravieff observed that various English statesmen of position had recognized that it was perfectly natural Russia should wish for an outlet for her commerce on the coast of the North Pacific. Any such ports will be open for the commerce of the world, and England, whose trade interests are so important in this region, would share the advantage."

In reply to a question as to the West African situation, Mr. Chamberlain said he expected a friendly and satisfactory settlement, but under the agreement with France, he could not give details until the negotiations in Paris were ended. Speaking generally, he would say that the competition of other nations had compelled Great Britain to adopt a more forward policy in the hinterlands of her African colonies. Mr. Chamberlain asserted that the cabinet was united in its African policy. He believed the country also was united, and that while ready to make concessions for the sake of maintaining peaceful relations with foreign powers, the country would not allow important British interests to be sacrificed.

Mr. Chamberlain said further: "It is a lamentable fact that we allowed ourselves to be forestalled in Sierra Leone and Gambia; and the government determined that the same fate should not attend the Niger and the Gold Coast. Consequently, it decided to raise a frontier force to occupy the hinterland of those territories. The creation of this force is necessary, whether the difficulties with France are satisfactorily settled or not."

Mr. Labouchere's motion to reduce the colonial vote was then rejected by a vote of 224 against 27.

During the discussion of supply, Mr. T. Gibson Bowles (Conservative), member for King's Lynn, complained of the grant of £5,000 for the inquiry as to the Bering Sea seals. He described the mission as "unnecessary and impracticable."

Mr. Curzon, under secretary of state for foreign affairs, replied that the United States Government had constantly urged Great Britain to revise the Paris regulations earlier than the treaty provided. Great Britain had always replied that the question must be decided on the evidence of experts. An expert inquiry was then suggested; a commission was appointed, and it was subsequently decided to continue the commission.

Mr. Michael Davitt (Anti-Parnellite) said he thought the United States had been badly treated by England, and not England by the United States.

"SAVAGE AND BRUTAL."

Press Comment on the Zola Sentence—France in the Hands of a Military Government.

London, Feb. 25.—The editorials in the London morning papers pay a unanimous tribute to M. Zola's splendid courage and public spirit when fighting against the heaviest odds.

The Times says: "The sentence is an appalling outcome of the whole affair, which must cause the profoundest misgivings among all Frenchmen capable of serious reflection."

The Daily News characterizes the sentence as "savage and brutal," and says it is a condemnation not only of Zola, but of the republic itself, adding: "The jury yielded to the military dictation, which now over-rides law, and France is virtually in the hands of a military government."

Paris newspapers call for a revision of the Dreyfus trial, and declare that the country is entering up "a new era of religious proscription, which will deliver the republic to the priests."

The Aurore declare it is "proud to be stricken with a glorious defender of liberty."

The Siecle says: "M. Zola will expiate in prison an act of courage and protestations nobly accomplished. His work will live."

Accounts are conflicting as to the course M. Zola will take. The London Times understands that he will appeal. The Daily News hears that he will not. Should an appeal be taken it would not come before the court of cassation until after the next general elections, when it is probable that a new ministry will be in power.

Brussels, Feb. 25.—The Soire publishes a sensational statement to the effect that the German Government possesses ten bordereaus written in the same handwriting as that attributed to Dreyfus, and intends speedily to publish one, which will reveal the true traitor. The statement is discredited.

SPAIN BOUGHT HER VICTORY.

Paid $600,000 to Philippine Leaders to Stop Fighting.

San Francisco, Feb. 25.—The Philippine rebellion was repressed, but the news comes to Hong Kong, where 35 of the rebel leaders sought refuge, that the Spaniards gained the victory not by force of arms, but by a subsidy of $600,000 and a safe conduct out of the country.

The general impression at Manilla is that the insurgent leaders will use this money to purchase improved weapons, and that when all preparations are made another revolution will begin.

WAR TALK

Indulged In, as a Sequence to the Maine Disaster.

Norfolk, Va., 25.—The rumor that the government is securing from railway companies estimates of their capacity for moving troops and munitions of war between Atlantic and gulf ports, and the interior is officially denied by Vice-President St. John, of the seaboard air line, whose road was mentioned in the reports.

St. Louis, Mo., Feb. 25.—General Wm. H. Powell, of Belleville, who is a personal friend of President McKinley, said that while at the capital he discussed the Maine incident with its possible results with the chief executive. "The president stated to me," said the general, "that he was only waiting for a complete report of the naval board of inquiry, and that should it report that our sailors had met their death through Spanish treachery, he was prepared to act at once and in a manner which would meet the approval of every loyal American citizen."

Washington, D. C., Feb. 25.—Representative Boutelle, chairman of the committee on naval affairs, referring to the rumors of treachery, in connection with the Maine disaster, said: "I feel that any man who, by spoken or written public utterance, adds a spark to inflame public sentiment at this juncture is as guilty as the man who would touch a match to the powder magazine of a vessel. This is time for the calmest judgment instead of unguarded talk of a war which would entail the loss of hundreds and thousands of our people."

The increase of artillery force of the country by two regiments, as provided for in the senate bill, was agreed on by a sub-committee of the house military affairs committee.

GOLD MINE SUPPLIES.

How They Are Being Sent to the Mines at Dawson City and Neighborhood.

Ottawa, Feb. 25.—A letter received from Major Perry, who is now the officer at Skaguay, representing the Canadian Government, says: Inspector Wood left on the 4th inst., with 32 men, 43 horses and 36 dogs, for Fort Selkirk, to join Major Walsh. The White Pass trail is now in good condition, supplies being taken over by horses and sleds, which go right through from Skaguay to Bennett. At Bennett there are 50 tons of supplies over the pass. Between there and Lake Laberge there are about 30 tons more, and Major Perry took up with him 30 tons more, which are by this time over the pass, so that the Canadian Government has now in Yukon country or on its borders 110 tons of supplies, 150 dogs and about 100 horses. An order has gone forward for 40 police to proceed from the summit into Canadian territory with the United States relief expedition to Northern Alaska. The 50 foot soldiers of the United States army who are accompanying the United States relief to assist it through are to be admitted unarmed, their arms to go through Canadian territory to Circle City as baggage. The government at Washington are not so squeamish, and have issued permission for Canada's police to go up the Stickeen River within United States territory under arms if they wish. This force, consisting of 20 men, leave Vancouver tomorrow for Stickeen and Telegraph Creek, to maintain order on the route in Canadian territory and see that all foreign goods going in pay duty.

"THE number of servants and the lack of service which one finds in most houses," says an old member of New York's "Four Hundred," who has reached his anecdotage, "reminds me of a story I once heard of the great Lord Shaftesbury—then at the height of his fame—looking mournfully at the dying fire and empty coal-scuttle on a cold day in his study, and saying ruefully: 'It will go out; were I to ring for the butler, he would say it was the business of the head footman; the head footman would blame the underfootman, and among them all the scuttle would remain empty. I won't ring; I'd rather put on a topcoat.'"

Worms cause feverishness, moaning and restlessness during sleep. Mother Graves' Worm Exterminator is pleasant, sure and effectual. If your druggist has none in stock, get him to procure it for you.

HAZELINE is a wonderful skin food. Every woman can obtain a beautiful complexion by its use.

ONLY 25 CENTS.

Cairncross & Lawrence,

PHARMACISTS,
216 Dundas Street, London.
Branch—Corner Richmond and Piccadilly

IN LABOR'S FIELD.

Deliberations of the American Federation of Labor—Appeal from Cotton Operatives.

Washington, Feb. 25.—The executive council of the American Federation of Labor, which has been in session for the past three days, has adjourned. Those present were President Samuel Gompers; F. J. McGuire, of Philadelphia; James Duncan, of Baltimore; James O'Connell, of Oil City, Pa.; John B. Lennon, Bloomington, Ill., and Frank Morrison, of Chicago. The council considered a number of matters, including the strike now in progress in the New England mills. It was resolved to give the strikers all possible aid. President Gompers was instructed to undertake an organizing trip through the west, and Vice-President O'Connell will go on the same mission through the south.

New Bedford, Mass., Feb. 25.—An important appeal is issued by the council of cotton mill strikers in this city, and upon the nature of the response will depend whether or not the mill hands will return to work under the cut-down. The appeal is issued to the "men and women of New England," and asks for financial assistance to maintain the strike. It sets forth that about 400 families, comprising 2,000 men, women and children, are slowly starving to death, and that unless aid is forthcoming within a short time the strike will have to be abandoned. The appeal adds: "The manufacturers are waiting, fully alive to this fact."

TELEGRAPHIC BREVITIES.

The rate of discount on the Bank of England remains unchanged at 3 per cent.

Morris Bancroft, of Buffalo, the American Express Company's messenger, who shot himself accidentally Wednesday morning, died at Flower Hospital, New York.

The commanding officers of the Toronto regiments have come to an agreement with the committee of the Canadian horse show for the purpose of holding a combined military tournament and horse show in the armories during the first week in May.

Among the passengers who arrived in New York Thursday by steamer Trave, from Bremen and Southampton, was Bishop J. B. Von Auser, whose reports on the German mission stations in China have attracted considerable attention. Bishop Auser is passing through the country to assume charge of his work at Shan Tung, China, where the German forces are in control.

About 9 o'clock Thursday morning Mr. Holland A. Whyte, of the Sun Life Insurance Company, Hamilton, while on his way to his office, saw the dead body of an infant lying on the sidewalk on MacNeb street, near Hunter street. The body was stark naked. P. C. Lowry placed the body in a box and took it to the morgue. Coroner Woolverton expressed the opinion that the infant was born prematurely. It had breathed, it is thought, however. There were no marks of violence on the body.

DEATH OF DAKOTA'S STRONG WOMAN.

Milnor, N. D., Feb. 25.—Justine Charlotta Wray, wife of F. Wray, residing six miles northeast of this place, died very suddenly of broncho-pneumonia. Mrs. Wray was 33 years old, and the strongest woman in this part of the country, being able to lift a bushel and a half sack of wheat from the ground into a wagon with one hand. She was the mother of six boys, two of whom are infants about ten days old.

When old coins are so worn that it is hard to make out the inscription, the coin may be gradually heated, and in almost all cases the inscription will appear.

Good Times Coming.

Under the use of Scott's Emulsion all the organs and tissues take on new life. The mind acts with more vigor, the heart beats stronger and the blood is greatly enriched.
