NO HEAT WASTED

You get every bit of heat from every drop of fuel that you put into the Perfection Oil Heater.

The heat begins with the touch of a match. There's no waiting for a fire to get under way. No fuel wasted. Then, when you've had warmth enough, you turn the Perfection out. Again, no fuel wasted. It's heat concentrated, used only where and when needed. For best results use ROYALITE COAL OIL.

Cheaper than coal or wood even when these are cheap. At hardware, furniture and department stores.

3 Styles: $4.75, $5.25 and $6.75
