been very wet, and has given farmers a great opportunity to break more raw prairie and get into shape for next year's crop. In the early part of the season, almost as soon as seeding was over, wet weather prevented summerfallowing, so many farmers did their breaking first, and are now at their summerfallowing. This method is not approved of as it does not give sufficient time to cultivate for moisture and mulch on large areas, where only a small power outfit is available. Summerfallowing to give best results must be plowed early and then worked all through the summer.

All grain crops are looking good, wheat and oats are nicely headed, and with favorable weather from now on till harvest, a bumper crop, similar to last year's, will be the reward.

OXFORD CO., ONT.

WOODSTOCK, Aug. 2.—Very hot, dry weather prevails. The heat affected the grain very much, and most of it will be light. There has not been a drop of rain for five or six weeks, and the ground is very hard and dry. No plowing can be done until it rains. Corn is doing well these days, but it is late. The most of it was seeded late. Pastures are badly burned up, but the most of the farmers depend on feeding, so that helps the cows a great deal. Flies are very bad just now.—A. M. McD.

HOLSTEIN-FRIESIAN NEWS

Farm and Dairy is the leading exponent of dairying in Canada. The great majority of the members of the Canadian Holstein-Friesian Association are readers of the paper. Members of the Association are invited to send items of interest to Holstein breeders for publication in this column.

The Het Loo Herd at the W. L. Shaw Stock Farm Newmarket

WE ARE HERE with the cream of the old herd. We number forty-six head all from Het Loo. We belong to the biggest herd ever sold privately in Canada. Why? Because we have quality of the kind that spells profit. Our production record was big and our breeding unexcelled in Canada.

WE LEFT none of our quality behind. We have .....

.....

with us, and they equal the best. Pontiac Korndyke Het Loo is still our herd header, and there are .....of his daughters in our family.

WE'LL STAY at Het Nova and near the top of the Holstein ladder, because we have the quality and breeding, and because we can have at our new home everything that will help us to do it. A model stable, the best of feed, the best of care and the greatest of comfort.

COME AND SEE US OR WRITE
