EXTREMES MEET.—In our last number we inserted "the proof" of the "Episcopal Methodist miracle," and stated that it favoured strongly of Romish fictitious supernaturalisms. The following account of an equally probable Romish miracle we copy from the *Nottingham Journal*. "A MIRACULOUS PICTURE.—The Popish prints are full of wondrous tales of a picture of the Virgin at Rimini, which is reported to move its eyes in a miraculous manner. The following account is abridged from the letter of a correspondent of the *Ami de la Religion*:—"On Saturday, the 11th, of May, it was observed that a picture of the Virgin Mary, which is worshipped in the small church of Santa Clara, at Rimini, under the title "Mother of Mercy," and which is painted on canvass, framed, and glazed, had moved its eyes. On the following day, being Sunday, the miracle was again observed, when a great crowd collected in the chapel of the Madonna, and the most violent excitement of devotion ensued in the spectators. To convince the unbelievers, the picture was taken out of the frame, the glass removed, and the bare canvass exposed, and still the picture went on moving its eyes, and continued to do so several times on its way from Santa Clara to the great Church of St. Augustine, to which it was carried in procession. A number of miraculous cures were effected, among them blind persons received their sight. The Bishop of Rimini proceeded to examine into the case, and certified the miracle, which is attested, by other Bishops and dignitaries of the Romish Church and, moreover, by the Commandant of the Austrian garrison, who and with him two officers—came in a scoffing mood, but such was the effect of the miracle upon them—left their decorations with the virgin as votive offerings. A subsequent account states that the Bishop of Cesena, after sending two of his canons, and not being satisfied with their report, came himself and after having been prostrated in prayer before the image for a few instants, he saw the eyes of the miraculous Madonna opening, and fixed upon himself, and during five minutes he was enabled to contemplate the seven wonders of paradise, till he was obliged to turn away his eyes, being unable to endure the brilliancy of what he saw!"

The Annual Conference of Pastors or Preachers of the Prussian Evangelic church has just been held; it has voted an address of congratulation and support to the Bishop of Exeter for his conduct in the Gorham Case, as they consider it a precedent deserving of imitation.—*London Times.*

ST. LAWRENCE HALL.—This truly elegant building, which is drawing on rapidly to its completion, is the admiration of all, and adds greatly to the beauty of the city, and will no doubt add to the reputation of its Architect, W. Thomas, Esq. The shops already opened at the N. W. corner of the building are equal in the elegance of their fixtures and general appearance to any in the city, and that is saying very much. Last week a large and richly-toned bell, weighing over 2000 lbs., was hung under the dome, imported by T. D. Harris, to whom the city, and certainly Churchmen, are indebted for the means of obtaining bells of any size on very favourable terms.

REPORTERS IN THE HOUSE OF ASSEMBLY.—BREACH OF PRIVILEGE.—On Thursday evening last, one of the Reporters from the *Globe* finding himself very much annoyed by Mr. Christie, M. P. P., for Gaspé, talking and laughing in the House with some ladies, whose gallery is immediately in front of the Reporters' Box, respectfully said to the member "will you be kind enough to allow me to hear the speaker." On which Mr. Christie directed the Sergeant-at-Arms to take the Reporter into custody, and continued talking as loudly as before although the Sergeant did not obey the orders given him. In about an hour afterwards the member for Gaspé met the Reporter in the lobby as he was leaving the House and asked him if he was the person who had insulted him. The gentleman replied:—"I only asked you to allow me to perform my duty, and I do not conceive that to be an insult." Mr. Christie then asked an apology, which the reporter declined to give, on the ground that he had intended no offence, and that the hon. member was not at the time in his place. The member for Gaspé took Mr. Prince to witness, that instead of an apology, the reporter had said that he (the member) was out of his place, which ended the intervie." Mr. Christie afterwards complained of the alleged insult to the House, when the reporter was called to the Bar of the House and repimanded by the Speaker. On the following day (Friday), a meeting of the Publishers and Reporters was held, when amongst other resolutions setting forth that notwithstanding the existence of an obsolete privilege of Parliament, to the effect that persons not members shall only be admitted to the House on sufferance, nevertheless that in all Legislative bodies in free countries, provision was made for the reporting of the debates. It was resolved, That the decision of the House that it is a breach of the privileges of that body deserving of marked censure, for a reporter courteously to request silence of a member outside the bar of the House, is such a gross act of disrespect to the Press and interferes so directly with the fulfilment of their duties to the public, that the members of this meeting feel it incumbent on them to protest against it, by withdrawal from the House.

TORONTO AND LAKE HURON RAIL ROAD.—A proposition to raise the £100,000 required to carry on this undertaking by means of a rate on the City, giving each rate-payer script in the Railway to the amount of the tax paid by him, has been submitted to Benjamin Holmes, Esquire, M.P.P., for his opinion. In his reply, he says, "The simplest and best means of carrying out your suggestions would be, it strikes me, that the Corporation open a set of books, giving credit therein to each rate-payer for the sum on him levied or otherwise contributed—and whenever such rate-payer desires to transfer such payment, the Corporation should issue to him a certificate transferable without endorsation or any other formality whatever, debiting the same to his account, and that the holder of such certificates at a subsequent period should have issued to him or them a share or shares in the stock of the Railroad whenever the money represented by such certificates should amount to the requisite sum, and by this arrangement the sums paid in annually could be sold or transferred if desired, and thus be made available as property to the holder." John Cameron and William Proudfoot, Esquires, entirely concur in the opinions expressed by Mr. Holmes.

MURDER.—It appears that a few Orangemen, returning peaceably from Brantford to their homes, a few miles from Caledonia, were attacked by about forty men, and that a party named James Campbell, hearing the row, gallantly came to the rescue of the smallest number, and after manfully punishing the aggressors, was shot through the neck, and died in consequence. An inquest was held before R. Young, Esq., and a verdict of wilful murder returned against the assassins. A man named Michael Dougherty has been arrested and lodged in our Gaol on a warrant for murder. We also learn that another of the small party has died since from the effects of the blows. Since writing the above, a person named John Rourke, has also been committed on a similar charge. —*Hamilton Gazette.*

Huron District.

The anniversary of the battle of the Boyne was commemorated by the Orangemen of the Town, by a dinner. There was no walking in procession, no party color displayed, or party tunes played, on the occasion; but from the feeling evinced after the cloth was removed, it was very evident that, although the outward and visible sign may have been suppressed, the feelings of their hearts remained unchanged.—*Huron Loyalist.*

Niagara District.

The St. Catherines and Centreville lodges of Orangemen met on the 12th July in the Welland Valley, without any display beyond a large silk flag which floated in the breeze to mark their place of *rendezvous*, but even this was removed on Mr. Rykerts requesting it as a personal favour to himself without going into the question as to whether it was contrary or not to the party Procession Act.

LAYING THE CHIEF CORNER STONE OF A COURT HOUSE AND GAOL, CAYUGA.—On Saturday last the Chief Corner Stone for the Court House and Gaol, for the County of Haldimand, was laid in the Town of Cayuga, by David Thompson, Esq., M.P.P. The site selected is on a beautiful eminence; commanding a delightful view of the different windings of the Grand River, as well as of the surrounding country. It would be injustice to the Radical Warden of the District, to omit noticing the truism with which the inscription, engrossed on parchment, and put in the bottle which was deposited beneath the stone, concluded. Whether he may not unwittingly have passed the line which separates the sublime from the ridiculous, our readers must determine. "Let all men believe and proclaim that this building is erected for the protection of Society, and not for the oppression of Man."

Eighty-two vessels passed through the Welland Canal, in the week ending July 16.

Canada East.

Accounts have been received from the French Canadian party who left Beauharnois some nine months back for California. They are the first that have been received, and are by no menas encouraging. After going through the greatest hardships, the party had arrived, and were then on their way to the mines. All deeply regetted the step they had taken, and saw little prospect of getting sufficient money to return.

CANADA AND MAINE RAILROAD.—The Contractors upon the Portland and Montreal Railroad are making fast progress in that work on both sides of the boundary line. On the Canadian side, we are informed that they have 1200 men at work. The road so far as completed is leased and run by the American contractors. On the United States side of the line 10 miles of the road beyond Paris is graded, and they are now laying the rails; the remaining 12 miles to Bethel, will be ready for the rails in about six weeks.

The *Montreal Herald* has published a useful map shewing the Railroads completed and projected in that part of Canada.

ST. ANDREWS AND QUEBEC RAILROAD.—This important undertaking is really "going a-head." The indomitable perseverance and energy of the contractors, the Messrs. Myers, overcome every obstacle, no rock is too hard or too large, they disappear like magic before their powerful agent—in fact to use a homespun phrase, these gentlemen are the right sort of material? possesing the knowledge skill and means, to carry on a great work. From the point at the lower end of the Town to Chamcook a beautiful level road has been made, and between Chamcook, and Bartletts the line is now nearly cleared and in many places graded. We expect that the ten miles contracted for will be completed within three months.—*St. Andrew's Standard.*
