Kintail.

Mrs. Ross, who has been spending the summer here, left for her home in Lakelinden, Mich., on Tuesday.

A large quantity of spring grain in this vicinity is likely to be spoiled if the present wet weather continues.

Ashfield.

Alex Shackleton, of Algoma, is down on a business trip.

There is great competition in threshing this year, and some threshers are doing it very cheaply.

W. H. Johnston, teacher, has been re-engaged in Finlay's school for 1886 at a salary of $425.

Londesborough.

A. McQurrie is back again, having spent a few week's vacation at his home in Goderich.

Mr. Fell has been very ill with inflamation, but hopes are now entertained of his recovery.

Miss Susie Wiles, who has been working in a mill in Michigan, is home for a few weeks.

Lesburn.

The lassies hereabouts are already paying attention to their bangs and frizzes, with a view to looking their best at the Lucknow Caledonian gathering next Wednesday.

The Eagle threshing steamer, of Geo. Burrows, threshed 500 bushels of wheat on Bowescott Farm for Hugh Chisholm in half a day last week.

The I. O. G. T. lodge will give an open entertainment on the evening of the 11th inst, Friday next. A good programme of music, recitations, etc., is being prepared, and an address will be delivered by John McGillivray, B.A. A silver collection will be taken up to defray expenses. The proceeds will go towards the purchase of an organ.

Clinton.

IN GOLDEN BONDS.—A very quiet wedding took place at the residence of Mrs. Greig, Huron street, on Tuesday morning, when Mr. Thos. Jackson, jr., of the well known firm of Jackson & Son, was united "in golden bonds" to Miss Jennie Greig. This event has been looked forward to with great interest for some time by a host of the contracting parties' friends, side by side with whom the prospective bride and groom had long resided and with all of whom they were exceedingly popular. Mr. Jackson is well and widely known, he being an enterprising young business man, and one of the most popular vocalists in the county, while his wife, also a musician of some note, is widely esteemed. Rev. Mr. Stewart performed the ceremony, after which the happy couple took their departure for Detroit. The bride was the recipient of a large number of beautiful presents. We extend to them our best wishes and trust that their fullest anticipations may be more than realized. [Clinton New Era.

Dunlop.

Alex. Kirkpatrick, of Chicago, is on a visit to friends in this place.

Miss Hanlon, of Clinton, was the guest of her sister, Mrs. James Dean, of Garbraid, this week.

B. K. Allen spent a pleasant week with friends near Exeter and Brucefield.

Mrs. McArthur and daughter have returned from their Northwest trip after an absence of three months.

Mine host of the Exchange hotel has sold his vigilant watch-dog "Grip." Its departure to Ridgewood estate as a herd dog is hailed with delight by the vagrant canines of this neighborhood, to whom "Grip" was a continual terror. Some of the bachelors returning from late visits to their sweethearts will not now need to take the opposite side of the road on their return to their lonely chamber.

Benmiller.

The Misses Campbell, of Bervie, are the guests of their aunt, Mrs. A. Heddle.

The friends of Mrs. G. W. Handy will be pleased to learn that she is about convalescent.

We are pleased to see Mrs. John Mugford strong enough to take a drive in the fresh air once more.

Miss Maggie Campbell has returned to her home in Bervie, after a short visit among friends in this vicinity.

Our enterprising townsman, E. Moehring has completed his slaughter house, and started a butcher shop—a very beef-hitting thing for him to do.

Several farmers of this vicinity have threshed their fall wheat, and in many cases the yield was between 40 and 50 bushels per acre.

Ed. Gledhill, M. C. station master, Detroit, is spending his vacation with his relations among the scenes of his boyhood.

The Mayor will soon have his new hall ready for public entertainments, etc., and we hope he will not fail to secure the services of some first-class troupe for the opening.

Paramount.

Most of the fall wheat is sown in this neighborhood.

Mrs. Clarke is able to be around again after a severe attack of lumbago.

Mrs. Hudson and daughter, Bay City, were the guests of Mr. and Mrs. John Martin last week.

Messrs. Joseph Agnew, sen., and Robert Murdoch and Mrs. Struthers went on the excursion to Galt last Saturday.

Mr. Robertson and family, from near Clinton, moved into our midst last week. We give them a cordial welcome.

Albert Smith left on Saturday last for the Kincardine high school. He will likely give a good account of himself next midsummer.

On Monday last Miss Jane Doyle, of this place, was united in marriage to Mr. Lamb, of Detroit. They left on the evening train for their new home. May they have many days of happiness.

Peter Stewart, of Lesburn, spent a few days with friends in this neighborhood two weeks ago. His pleasing manner quite attracted our young ladies, and another visit of a more pleasing nature will likely take place in the near future.

MATTERS ELECTRIC.—We have two electric batteries in our neighborhood just now, which afford considerable amusement, especially for the young people. On one occasion a young lady took hold of the strings when the machine was at full speed. The result was a tremendous jerk, a terrible shout and the poor innocent battery was landed on the floor. Strange to say no other person got badly shocked for a day or two with it, but we understand that after undergoing some repairs by the blacksmith it is ready to try the nerves of the next happy young lady who will take hold.

East Wawanosh.

At the last meeting of the council James Flynn, con. 8, West Wawanosh, claimed pay for 95 yards of gravel at the rate 10 cents per yard. The township by law only provides for the payment of five cents per yard and the council declined to pay more, and Mr. Flynn refused to accept the reduction. Campbell Hanna was allowed $5 for damage done to his fence through taking gravel from beneath it. Accounts amounting to some $395 were allowed and ordered paid. It was agreed by the council that the sum of $6,213,04 would be required this year to be raised by taxation to meet liabilities of country rate, Legislative school equivalent, township improvement, salaries and interest on railway debentures. A rate of six mills on the dollar was struck to raise this amount and by law No. 5, 1885, confirming the same was read and passed. Warrants for the collection of school rates were received from Unions Nos. 3, 6, 7, Turnberry, and 10, Kinloss, and from sections 8, 8 & 11. The council then adjourned till Oct. 5th.

Holmesville.

Mrs. Knox has quite recovered from her illness.

Mr. and Mrs. Wm. Murch have returned from visiting friends in Harriston.

Mrs. Geo. Stanley and Mrs. Cameron, of Kinburn, are visiting at Wm. Stanley's.

Miss Goodrich and Miss Tilt, of Clinton, spent last week visiting at H. Elford's.

Rev. Robert Duff and mother, of Taplytown, are visiting at Andrew Duff's.

The farmers have been greatly retarded in gathering in their harvest by the wet weather.

Miss Annie Holloway, of Toronto, who has been visiting for several weeks at John Curtis', took her departure for home on Tuesday.

Miss Minnie Elford leaves on Saturday for an extended visit to friends in Wingham, Galt and Waterloo. Miss Ida Murch will take her place at the organ in the Methodist church during her absence.

Mr. Yates, of Mitchell, has opened a harness shop here. He will also work in the shoemaking line. Such a shop is much needed here, and we bespeak for Mr. Yates a liberal patronage.

FIGHTING FOR HER HONOR.

A Widow Fatally Wounds a Libertine With an Axe.

Belleville, Ont., Aug. 31.—Martin Archibald, a farmer living in the township of Huntingdon, near Garner's hotel, went to Madoc on Saturday and returned about 2 o'clock on Sunday morning the worse of liquor. He broke into a house occupied by Mrs. Mary Adams, a widow, who lives on the road. She told him to go home, and warned him if he came in she would strike him with an axe, but he persisted and broke open the door, and seized the woman and threw her to the floor. She called to her boy, who seized an axe and struck Archibald, who then loosened his hold of Mrs. Adams. The woman got the axe and inflicted seven cuts on Archibald's head and five on the shoulder. The wounds were dressed, but it is not probable that he will recover. After the affray was over Mrs. Adams went to a neighbor's and said she had killed Archibald. The injured man is about 50 years old and has a wife and family. He had hitherto borne a good character.

The Hudson's Bay Region.

In the Blue Books respecting the Department of Marine some interesting information may be obtained from the report of the commander of the Hudson Bay expedition, Lieut. A. R. Gordon, R.N. Sailing along the coast of Labrador, which is a very large country, the expedition encountered a very heavy snowstorm in July. Hudson Bay is an inland sea four times as large as all our great lakes put together, is comparatively shallow, full of fish, whales and seals, and never freezes over. Porpoises are numerous and easily secured, and furnish from two hundred and fifty to four hundred pounds of blubber each. The traffic in ivory is very valuable, as elephants, or rather mammoths, were once common in the north. The finest salmon and trout are plentiful at the mouths of the streams. With firs and minerals added, the Hudson's Bay trade is a most important and profitable one. Our readers will not be surprised to hear that the United States has for a quarter of a century been taking advantage of these facts, and reaping a good and never failing annual harvest. The United States vessels carry in unlicensed goods and compete with the Hudson Bay Company and there is even a regularly established American trading post in opposition to the British Company's. When a whale is secured the American rewards the Eskimo with liquor, to their great detriment. As the native population is diminishing, drink will hasten the process of extinction. Commander Gordon urges upon our Government, that in negotiating with the United States, the importation of spirits should be absolutely prohibited, and the great value of Hudson's Bay trade and fishing should be well considered in concluding any treaty of reciprocity.

Meteorological Report for the Month of August, 1885.

It rained on 16 days; amount of rainfall, 62.5 cubic inches, equal to 6¼ inches on the level.

Greatest rainfall during 24 hours on the 3rd; 27 c. i., equal to 2¾ inches on the level.

Greatest velocity of wind during 24 hours on the 3rd; wind, west; weather cloudy; 504 miles, or 21 miles per hour.

Least velocity of wind during 24 hours on the 30th; wind, S. W.; weather cloudy; 73 miles, or 3 miles per hour.

Thunder and lightning on 7 days.

Prevailing winds N. to N. E., light in character.

No. of clear nights, 6.

No. of cloudy nights, 25.

G. N. MACDONALD, observer.

Goderich, Sept. 2nd, 1885.

A Record Not to be Ashamed of.

The *Citizen* says: "Gritism is at a discount all over the country." Let us see if that is true! In Dominion politics the Liberals have won since the session of 1884 the counties of Megantic and Levis. In Ontario Provincial elections they have won since the general elections—West Middlesex, Muskoka, Lennox and West Algoma; they lost none. In Quebec Provincial politics they have won since the general elections—Jacques Cartier, Three Rivers and Kamouraska; they lost none. In Nova Scotia they have captured a Government since the session of 1884. In New Brunswick they have also captured a Government and carried nearly every vacancy that had occurred. The Conservative outlook is excellent! No wonder the organs become intoxicated with joy when a Tory beats a Tory, as in Cardwell. Victories have not often fallen to the Tory lot in these latter days.—[Ottawa Free Press.

The Passover Wine.

A member of the editorial staff of the *Methodist Times*, London, gives a very interesting account of what he saw and heard at a modern celebration of the Jewish Passover, at the house of an orthodox Jew, to which he had been invited on the occasion. We give the closing paragraph:—"Supper being ended, I said, amongst other things, to an intelligent and affable Rabbi, who sat next me, 'May I ask with what kind of wine you have celebrated the Passover this evening?' 'With a non-intoxicating wine,' he promptly replied. 'Jews never use fermented wine in their synagogue services, and must not use it on the Passover either for synagogue or home purposes. Fermented liquor of any kind comes under the category of "leaven," which is prescribed in so many well-known places in the Old Testament. The wine which is used by Jews during the week of Passover is supplied to the community by those licensed by the Chief Rabbi's Board, and by those only. Each bottle is sealed in the presence of a representative of the ecclesiastical authorities. The bottle standing yonder on the sideboard from which the wine used to night was taken was thus sealed. I may also mention that poor Jews who cannot afford to buy this wine, make an unfermented wine of their own, which is nothing else but an infusion of Valencia or Muscatel raisins. I have recently read the passage in Matthew in which the Paschal Supper is described. There can be no doubt whatever that the wine used upon that occasion was unfermented. Jesus as an observant Jew, would not only have drunk fermented wine on the Passover, but would not have celebrated the Passover in any house from which everything fermented had not been removed. I may mention that the wine I use in the service at the synagogue is an infusion of raisins. You will allow me, perhaps, to express my surprise that Christians who profess to be followers of Jesus of Nazareth can take what he could not possibly have taken as a Jew intoxicating wine, at so sacred a service as the Sacrament of the Lord's Supper.'"

Get your bill-heads printed at the SIGNAL office. We turn out neat work, at low rates, and it will pay you to use printed stationery purchased from THE SIGNAL printing house.

During this season a frequent watering of special plants may be done to advantage. A tablespoonful of ammonia to a gallon of water will be found an excellent invigorator for reviving weak and unthrifty plants.

A washout occurred on the West Shore Road Sunday night two miles south of Catskill. At midnight the Pacific Express was partially wrecked by it. The engine was thrown on its side. Engineer Cole was killed and the fireman badly injured. No passengers were injured.

Replying to an address presented to him asking for his influence on behalf of Riel, Col. Ouimet, the Tory M. P. for Laval and colonel of the 65th Battalion, and who is also the gentleman who left his regiment under peculiar circumstances in the Northwest, said: "The hanging of Riel would be a great political blunder, and he promised that he would be in the House of Commons the friend of the Metis, as he had been in the Northwest." Was it because he was a friend of the Metis that he left his command and journeyed back to Ottawa? [London Advertiser.

The remains of Douglas Graham, the hero of Burns' famous tale of "Tam o' Shanter," were interred in the burying-ground at Kirkoswald, about four miles southwest from Maybole. A small stone slab, bearing an inscription, was erected in the graveyard after his demise to mark the spot where the body of the redoutable farmer was buried. The vicissitudes of the weather during the lapse of time, having, it was observed, so seriously deteriorated the memorial as almost to render the incription indecipherable, it was deemed advisable to have it thoroughly renovated. Funds for the purpose were readily obtained, and an Edinburgh architect, who was employed to do the work, has with the view of preserving the original stone intact, succeeded in effecting the object desired in a very creditable manner. It may be stated that Souter Johnny, Tam's boon companion, found a last resting place in the same burying ground, so that the two cronies are—even in death—not far separated.

$100, Traction Engine Prize.

From the Ontario Reformer, August 28th.

We are informed that the manufacturers of Traction Engines, except the proprietors of the Hall Works, have declined to compete for the $100 prize offered by Capt. McMaster, Vice-President of the Toronto Industrial Association, and that therefore the Association are about to withdraw the prize.

The proprietors of the Joseph Hall Machine Works promptly informed the Secretary of the Association that they would compete for the prize, and have gone to very considerable expense to do so. We cannot see the justice of withdrawing the prize. In some lines of cattle only one exhibitor has been present, and yet the prize was not withdrawn. The fact that the manufacturers of so CALLED TRACTION ENGINES do not feel inclined to meet the New Traction in a fair contest, under the direction of competent and disinterested judges, is no reason for withdrawing the prize. The Hall Works Engine will, however, be on hand at the Exhibition, ready to submit to any tests that may be demanded.

Mr. Glen, M. P., General Manager of the Hall Works, informs us that they will couple a Ten Horse Rubicon Traction Engine to any 16 Horse Power Traction Engine made in Canada, and if the 10 Horse Rubicon cannot draw the 16 Horse of any Canadian make backwards, they will abandon their claim to the $100 prize.

Hog Cholera in Essex.

Detroit, Mich., Sept. 1.—Prof. Grensides, of the veterinary deprtment of the Ontario college, has been in Colchester township, Essex county, at the request of W. D. Balfour, M. P. P., investigating the hog cholera. He pronounces it the genuine article, and will make a full report. The only known preventive is to feed carbolic acid. About 75 per cent. of the hogs affected die. At least 1000 have died or been killed in South Essex, and the disease keeps spreading.

Loans and Insurance.

WE ARE LENDING MONEY AT 6 (six) per cent. Private funds. Also agents for "Credit Foncier."

CHOICE FARMING LANDS
—IN—
HURON COUNTY, MICHIGAN.
The soil is a rich clay loam, easily cultivated and well watered by numerous living streams, is especially adapted to the growth of Wheat, (yielding from 20 to 45 bushels per acre), Oats, Barley, Peas, Corn, and root crops, and is unsurpassed for Hay and Grazing purposes.
The climate is temperate, 10° below being the coldest in the last cold winter. Hence fruit is grown with great success. With four Rail Roads and Lake Steamers touching at her numerous ports, transportation is the cheapest and Markets the Best. Schools are numerous and Church Privileges within easy reach.
Good Turnpike Roads lead through all these Lands to Market Towns.
These Lands are Easily Cleared, (the Cost not exceeding from $3 to $10 per Acre), and can be Bought at Low Prices and on Easy Terms. Address
GEORGE A. MAYWOOD, Bad Axe, Mich.
Or SAMUEL POLLOCK, Goderich.
