excited most earnest debates. A committee of twelve is to watch the interests of the church during the interval of the conference. They will be elected on nomination of the general superintendent. The duties of the general superintendent were defined to preside at the General Conference and not have any station. Two are to be appointed, an amendment for one having been lost. On the question of salary the committee recommended $2500 each and travelling expenses. Several amendments were offered but finally $2000 each and actual travelling expenses was agreed upon. Notice of motion was given for a committee on discipline to insert a clause or clauses insisting upon open air services to be more regularly held, also on uniformity in the mode of conducting public worship. The discussion to-day has been unusually vigorous.

HALL'S
Vegetable Sicilian
HAIR RENEWER

was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one cause: *the entire fulfilment of its promises.*

The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction.

The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but remain a long time, which makes its use a matter of economy.

BUCKINGHAM'S DYE
