Mining Issues Attain New Records---Market is Boiling Over

SNOW FALL TIMELY FOR WINTER WHEAT

With Fears for Crops Safely Banished, Prices Reacted at Chicago.

CHICAGO, Feb. 3.—Wheat prices sagged to-day as a result of heavy snow dispelling cold weather danger in the winter crop belt. The market closed unsettled at a decline of ¼to ½ cent net. Corn finished ⅛ to ¼-cent up. Oats unchanged to a shade higher and provisions dearer by 2½ to 12½c.

Ohio, as well as the southwest, had a share in the snowfall that discouraged the wheat bulls. Toledo sent word that the crop outlook was fine—the best so far this season. Greatly increased offerings of cash wheat to arrive at Kansas City and here reflected similar conditions. Other depressing factors were huge world shipments and the smallness of the visible supply decrease. Assertion that 35 boatloads had been taken by exporters at the seaboard brought about a slight upturn in the last 15 minutes. In this connection a good deal of notice was taken of the small impression that the declines here have made on values across the Atlantic.

Strength in Corn.

Corn attracted remarkable support on account of statements that owing to drought the Argentine export surplus would be less than half the previous year's total. It was also current gossip that farmers were selling but little at country stations west. On the other hand business in oats proved slim and fluctuations not more than a shade.

Provisions rallied owing to purchase of 3,000 tierces of lard by brokers thought to be acting for packers. The world stock of lard showed only a small increase compared with a liberal gain a year ago.

Oats	14,235,000	9,814,000	9,645,000

Compared with a week ago, the visible wheat shows a decrease of 106,000 bushels, corn an increase of 427,000 bushels, and oats a decrease of 169,000 bushels.

During the corresponding week last year wheat decreased 2,845,000; corn increased 1,378,000 bushels, and oats decreased 1,096,000 bushels.

CHICAGO GOSSIP.

J. P. Bickell & Co. had the following:

Wheat—A small decrease in the visible of 106,000; the indifferent cash demand, and offerings of cash wheat to this market by the southwest, also checked bullish enthusiasm. Outside trade was not heavy, and local pit sentiment not radically bullish. We advise sales on any further upturns.

Neill, Beatty & Co. had the following:

Wheat—It was not the one-sided market in wheat many of the local bears expected after the first hour. In addition to the better weather and crop news, the trade had heavy world's shipments and a slightly lower Liverpool market as bearish features. It will take something new in the shape of bull news at home or abroad to start a renewal of the good buying of last week.

Erickson Perkins & Co. had the following:

Wheat—The increase in world's shipments, the same coming chiefly from South America and the Black Sea, is apt to cause a weaker feeling in Europe, and from now on we expect to see clearances from North America show a decided lessening. A possible crop scare, therefore, seems to be about the only thing left on which the speculative buyer can base such operations.

Corn—It is rather late in the season for corn to be hurt by dry weather, while all our advices from seaboard exporters indicate that no new business at least is possible on the basis of present values. Sentiment continues bullish, and prices are easily advanced.

LIVERPOOL GRAIN EXCHANGE.

LIVERPOOL, Feb. 3.—The easier American cables on Saturday and the heavy world's shipments were offset by the unfavorable political news, and the market at opening was unchanged to ¼d lower. American shipments continue large, with Plate offerings liberal and Euxine shipments increasing; but, notwithstanding these, there was an undercurrent of strength, and prominent firms supported, owing to the rapid absorption and the decreasing stocks here.

Corn opened unchanged and later declined ⅛d for the American grade. There were large world's shipments to Liverpool, with freer American offerings. The Plate grade was well supported on the continued dry weather in Argentine.
