SEVERE RHEUMATIC PAINS DISAPPEAR

Rheumatism depends on an acid which flows in the blood, affecting the muscles and joints, producing inflammation, stiffness and pain. This acid gets into the blood through some defect in the digestive processes, and remains there because the liver, kidneys and skin are too torpid to carry it off.

Hood's Sarsaparilla, the old-time blood tonic, is very successful in the treatment of rheumatism. It acts directly, with purifying effect, on the blood, and through the blood on the liver, kidneys anl skin, which it stimulates, and at the same time it improves the digestion.

Get Hood's Sarsaparilla today. Sold by all druggists.

HULL MAN HAD SUFFERED 20 YEARS

Valin Says He Has Never Found Anything That Equals Tanlac.

Positively I have never taken a medicine that has done me so much good as Tanlac, for it not only fixed me up all right but it has greatly benefited my wife also," recently said Joseph Valin, a well-known carpenter living at 13 Verchaire Avenue, Hull, and who has been a resident of the town for twenty years.

"During the last twenty years" he continued, "I suffered very much from stomach trouble and indigestion, and although I was taking some sort of medicine most all the time I never seemed to get any better. I can't complain of my appetite, but nothing I would eat did me any good. My food just seemed to sour and lodge in my stomach in a hard lump. I would feel so tight across the chest that I would almost choke and I was constantly spitting up gas and undigested food that left a mean, bitter taste in my mouth. I would have awful pains in my stomach and in my back right between the shoulders and would be in such misery day and night that I could hardly sleep when I went to bed. I felt tired and worn out all the time, had no life about me and never felt fit to work or do anything else

After I had read so much in the papers about the way Tanlac was helping others I thought I would try a bottle. I'm now on my second bottle and it has done me a world of good. That gas has stopped forming and I seldom notice a sign of my old indigestion now. I don't have that tight, choking feeling in my chest any more and that bad taste in my mouth is gone I am never tired and worn out like I was, and I get up in the mornings feeling fine and ready for a hard day's work.

Tanlac is sold in Brantford by Robertson Drug Store, in Paris by Apps Ltd., in Mt. Vernon by A. Yeomans, in Middleport by William Peddie, in Onondaga by Neil McPhadden.

MORE GERMAN DESERTERS
By Courier Leased Wire

Copenhagen, July 8.—Three more German airmen, deserting their country, have landed in a plant seaplane at Masnedsund on the island of Masnedo, off the south coast of Soland, Denmark, according to Vordingborg correspondent of The Politiken. The machine belonged to the second German battle fleet, and bears the number 21 B. There were no arms or ammunition, or even telescopes, on the seaplane, which indicates that the nature of the airmen's flight was surreptitious.

The Hun hand is suspected in the recent T.N.T. explosion at Syracuse, N.Y.

STRIKE ORDER REVOKED.

Chicago, July 8.—The strike of telegraphers employed by the Western Union Telegraph Company set for six o'clock to-day, did not take place, the order for a strike having been revoked by S. J. Konenkamp, president of the Commercial Telegraphers Union, after a long distance telephone conference with Secretary of Labor Wilson in Washington. Secretary Wilson asked the head of the telegraphers union not to allow interference with the transmission of messages "of vital consequence in the prosecution of the war," and Mr. Konenkamp announced that the strike had been indefinitely postponed. "The strike scheduled for to-day will not take place for the present," said Mr. Konenkamp. "It is deferred and I hope will never be called. We believe we will obtain justice through the federal government."

The strike call was issued after the Western Union declined to accept decisions of the National War Labor of complaints of employes of the company that they had been discharged because of their affiliation with the union.

IN MISERY FOR YEARS

Mrs. Courtney Tells How She Was Cured by Lydia E. Pinkham's Vegetable Compound.

Oskaloosa, Iowa.—"For years I was simply in misery from a weakness and awful pains—and nothing seemed to do me any good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so and got relief right away. I can certainly recommend this valuable medicine to other women who suffer, for it has done such good work for me and I know it will help others if they will give it a fair trial."—Mrs. LIZZIE COURTNEY, 108 8th Ave., West, Oskaloosa, Iowa.

Why will women drag along from day to day, year in and year out, suffering such misery as did Mrs. Courtney, when such letters as this are continually being published. Every woman who suffers from displacements, irregularities, inflammation, ulceration, backache, nervousness, or who is passing through the Change of Life should give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its long experience is at your service.

ers. We have been learning the game from them. Our fellows watched the veterans closely and it was a case of imitation without a second lesson."

Last night the correspondent slept on the ground with a company of American troops who played a prominent part in Thursday's great show. The story of the fight as related by one of the officers contained many new features.

"The Americans went into the line after a hard march," he said. "The Fritzes undoubtedly had no inkling that the attack was to be made. At midnight Wednesday we went forward to lie out ready for an advance at 3.10 o'clock Thursday morning.

"Many of our boys were tired when they reached the positions, and despite the fact that they were just embarking on the biggest adventure of their lives—a leap into the unknown—they threw themselves on the ground and slept soundly. It was an encouraging sign to us, for it meant that the men were not jumpy. They never did show any sign of nerves as a matter of fact.
