Portrait and Sketch of GOLDWIN SMITH, one of Toronto's Ten Most Distinguished Citizens.

TORONTO'S LABOR BUREAU

Seems to Be a Machine for Hustling Votes.

WORKING THE WORKINGMEN

Preston's By-Play to Make Himself Solid With the Labor Vote.

He Attacks Messrs. Rust and Fellowes in Their Presence, but the Game Did Not Work—Some Information as to the Management of the Bureau—The Cattle Trade Increasing—City Hall Matters.

The grievances complained of as to the inner workings of the Labor Bureau received only an initial sifting by the committee yesterday afternoon. The pay sheets as presented to Chairman Preston seemed to leave no doubt in his mind that double the number of those who had worked on the occasional list could have een employed this last three months had their not been a leak somewhere. If such a leakage of patronage does exist, the committee will try to discover it next Tuesday evening at 7.30 o'clock. Then all the foremen will be summoned to give evidence as to their utilization of the proper channel of hiring extra labor.

The Old Game for Votes.

A large quota of determined-looking laborers were present to watch proceedings yesterday and the aldermen were not lax in taking cognizance of the fact. A sacrifice had to be offered up in their presence, and Deputy Engineer Rust and Assistant Engineer Fellowes made very convenient victims. Chairman Preston gave both officials to understand that their conduct of labor affairs would have to improve or he would be obliged to move towards doing something unpleasant to them and himself.

Work of the Labor Bureau.

Following is a condensed statement of the work of the Labor Bureau from its institution up to October : There were 3684 tickets issued, each giving three days' work, or 11,052 days' work in all. The number of men registered was 2111, and the work had been distributed among 1355 men. There are 880 registered men not working at the present day. The total registration was 7493, most of the applicants having registered a number of times.

The city foremen, according to the pay sheets, have distributed work as follows during July, August and September :

Foreman.	From Bureau.	Others.
Browley (Western Inspector)	163	207
Johnson (Eastern Inspector)	98	185
McGregor (Ward 3)	58	81
Kinzinger (Ward 6)	101	73
Butler (Ward 4)	64	69
Dunlop (Ward 5)	29	63
Gray (Ward 2)	33	82
Carette (Ward 1)	34	49
[illegible] street repairer	20	22
Gi[illegible] an[illegible]	13	88
O'Co[illegible] stre[illegible]	0	176
McG[illegible] man	43	33
Walker, [illegible] ker	10	91
Bell, [illegible]	26	52
Goodall, Queen's Park	8	355
Carlton, Queen's Park	1	85
Klunding[illegible]	0	108
Lightfoot, [illegible]	10	164
Wilkins, Horticultural Gardens	0	85
Wise, High Park	0	132

The above tabulation shows on the surface that the regular department employes, together with aldermanic proteges, if such exist, have been shown an overwhelming preference. But it is argued, on the other hand, that during those three months the regular men were quite competent to do the work. If the early spring months had been taken into consideration the proportion would have been different.

How Preston Looks at It.

Mr. Rust testified that 7500 men had been handled by the bureau. Ald Preston observed that only 3684 had beeen employed, and upbraided the deputy engineer with not changing the men. "That is unfair to the City Council," continued the chairman, "and I give you fair, square warning, Mr. Rust, that if their wishes are not better carried out, I'll take the responsibility of having something done unpleasant to both you and myself."

Mr. Rust is Right.

The deputy replied that he was responsible to the City Engineer, and not to the Council, which Ald Preston denied. Before going the deputy engineer denied having given instructions to any foreman to put on any particular man, but admitted that he might have endorsed orders to that effect from some aldermen in one or two cases.

Fellowes on the Gridiron.

In examining Mr. Fellowes, Ald. Preston remarked that the whole was a delightful system of red tape. Mr. Fellowes hid behind the foreman and the foreman behind the Engineer. Nobody was responsible. In some cases only one occasional man had been employed during the three months. In others only eight occasionals had been chosen, beside 355 others. He did not believe the Assistant Engineer was making an honest effort to carry out the wishes of the Council.

To which Secretary Fitzgerald of the Labor Bureau added a complaint that the occasionals were only paid 15 cents an hour, while the others got two or three cents more.

This left an opening for Ald. Leslie, who plaintively characterized it as a piece of injustice. Then he spoke of certain injustices in internal arrangement. Some men, he had learned, got two days' work in, then were placed at the bottom of the list, and it was often six weeks before they could get the third. He believed this could be remedied.

Secretary Fitzgerald wanted to know what could be done with a man who had got in 2 1-2 days. It was impossible to avoid this when a job would be finished.

Ald. Preston: Use your own discretion.

Christmas is Coming.

That way of doing it, however, did not satisfy Ald. Leslie, who urged that a workingman should get every hour's work possible.

This sentiment created a cheer among the men looking on, but one of them, who knew a thing or two, shouted: "Oh, shut up—that's only dust!"

Ald. Leslie then raised his voice against paying the regular civic employes 17 or 18 cents an hour, while the Bureau men got only 15 cents.

The chairman finally decided that, to thoroughly investigate, he must hear the foremen, so that after their day's work is done on Tuesday they will have to repair to the City Hall to give evidence before the committee.

One Way to Score a Point.

The sub-committee of the Board of Works, appointed to enquire into the complaints of the residents against the driving of cattle by drovers on Bathurst street sat for a few minutes yesterday afternoon. There were three present: Chairman Crane, Ald. Woods and Ald. Saunders. Ald. Crane could see no solution except in stopping the drovers. Ald. Woods wanted to give the drovers a hearing first. Ald. Crane insisted, so Ald. Woods thought there was nothing for it but to break the quorum, which he did by leaving the room.

City Hall Notes

The Mayor has written a reply, mentioning Canada's many advantages as a residential country, to Mrs. Clare Clayton of Yelverton Villa, Twickenham, England. Mrs. Clayton is a well-to-do lady, who had heard a deal about Toronto, and talks of leaving England for the benefit of her boys.

The Works Department will quiet the fears of the Toronto Radiator Company that their heavily-ballasted building will fall if the subway contractor excavates on Dufferin-street before their building is underpinned.

The Dingley bill, it would appear by the statistics, has not stopped, as was intended, the trade in cattle between Canada and the United States. The abolition of the cattle quarantine is probably responsible for the following favorable showing of cattle handled at the Western Cattle Market:

Cattle, 9 months,	1897	107,858
Cattle, 9 months,	1896	78,335
Sheep, 9 months,	1897	57,999
Sheep, 9 months,	1896	64,433
Hogs, 9 months,	1897	135,262
Hogs, 9 months,	1896	130,743

Operations at the new City Hall are being delayed by a dispute between Mr. Brown, the glazing contractor, and the Pittsburg Glass Co., about the quality of glass to be supplied.

The smallpox patients, Whitney and Bulleyment, have billed the city for $120 damages, caused by loss of clothes. Dr. Sheard thinks the case ridiculous.

Option in the Josie.

Mr. Thomas Ricards, the English expert, has obtained a 60-day option on the Josie mine at Rossland. The company shall pay to the Josie Mining Company £10,000 in cash and place in the treasury £40,000 in cash as the proceeds of the sale of stock at par to that amount. The Josie Company is also to receive £100,000 in fully-paid stock.

F. C. Loring was asked to figure what, in his opinion, the Josie stockholders would get for their shares. He estimated it thus: For every dollar in stock held by members of the Josie Company the new company gives stock worth 69.14 cents at par. The £10,000 in cash will net to Josie stockholders 7.14 cents per share, although no part of this will be paid to the stockholders until the company's debts are first settled. Of the £40,000 of cash to be turned into the treasury, the Josie stockholders will own two-fifths, which is equal to 11.4 cents per share, making a total of 87.68 cents per share.

Smelter for Vancouver.

A Vancouver correspondent writes: The offer of Mr. W. H. Remington of Salt Lake City to put up a 300-ton double-stack ore smelter near Vancouver, in consideration of a municipal bonus of $100,000, payable by the city at $1 a ton on the output, has induced the Rothschild-Evans syndicate of London, Eng., to "go one better," and offer to put a 350-ton smelter near Vancouver, on the harbor front, if the city will grant a bonus of $65,000, payable at $1 a ton.

The Council will, if the British offer be sufficiently guaranteed as to the promoters' financial soundness, recommend it to the taxpayers for ratification.

The C. P. R. and Rossland.

It is said that the C. P. R. proposes entering Rossland via the Centre Star Gulch. The route is to be down the Columbia from Robson to Murphy Creek, and thence westerly to the gulch, and so on to Rossland.

The chemical reduction works for the treatment of $6 to $15 ore is to be completed at once. Its capacity is to be 100 tons daily.

25 Mines at Rossland.

There are now 25 mines being actively developed in the immediate vicinity of Rossland, and they are employing over 650 men.

$25,000 a Month.

The payroll of the Le Roi now numbers 246 men, and aggregates $25,000 a month.

Michipicoten ore is turning out well. Capt. Currie has two assays of samples of quartz from several of the big leads upon which he took up claims a few weeks ago, and they have turned out well. One sample went over $25 in gold and another $11.40 in gold and silver to the ton.

Elected Their Officers.

A meeting of the Epworth League of Bathurst Methodist Church was held on Thursday evening, when the following officers were elected for the ensuing year: Honorary president, Rev C O Johnston; president, Mr D Scott; first vice-president, Mr Almond; second vice-president, Miss Carscallen; third vice-president, Mr Perkins; fourth vice-president, Miss Sommerville; recording secretary, Mr C M Johnston; corresponding secretary, Miss Green; treasurer, Mr Thomas; pianist, Miss Crooker; assistant pianist, Mrs Cuthbert; junior superintendent, Miss Carter.

LUETGERT WAS MOROSE.

The Rebuttal Evidence for the Prosecution Had a Rather Chilling Effect Upon Him.

Chicago, Oct. 8.—The closing day of the rebuttal evidence of the prosecution in the Luetgert trial opened this morning with a continuation of the crisp impeachment evidence produced yesterday. Prof. George C. Dorsey, Field Columbian Museum, chief osteological expert for the State in this trial, was called to dispute the evidence of Dr. H. W. Allport, the principal expert for the defence. The youthful-appearing professor was loaded with information, and had some hot shot for Dr. Allport and the other scientific gentlemen whose testimony, if accepted in full, practically branded him as a stupid novice.

Policemen Called.

As a preliminary to Dr. Dorsey's onslaught, policemen were called to-day to impeach certain witnesses for the defence who had identified a picture of Mrs. Luetgert as that of a woman seen in Kenosha, Wis., on May 3, 4 and 5. Detective Edward Wallbaum testified that Watt Schooley of Kenosha said he had not noted the appearance of the strange woman he saw in Kenosha May 4 enough to be able to identify her, much less a photograph. Prof. Lark de la Fontaine was called upon to impeach the evidence of Prof. Long of the Northwestern University with reference to bones. He expressed views upon the subject in scientific terms directly at variance with the ideas of Prof. Long.

Prof. Dorsey followed Prof. De la Fontaine on the witness stand, and had just got his impeaching battery in good working order when it was discovered that Dr. Allport was not in court. The defence desired that the chief osteologist of Luetgert's side of the case be in court to hear himself "roasted," and Prof. Dorsey was withdrawn temporarily.

Frank Odorofsky, alias "Smokehouse Frank," related circumstances following the disappearance of Mrs. Luetgert, which tended to further impeach Mary Siemmering.

Luetgert Was Morose.

The utter annihilation of the testimony of Mary Siemmering yesterday, together with impeachment of William Charles, Luetgert's business partner and confidential friend, seems to have had a chilling effect upon the defence. Luetgert was morose, and he admitted to a jail guard that the case looked bad for him at present.

The State rested its case this afternoon after a prosecution lasting seven weeks. Court was adjourned until next Monday, when the defence will probably put on a few rebuttal witnesses. Then the arguments to the jury will begin. These will last six days.

BELLEVILLE ITEMS.

Bush Fires Driving Out Deer and Bears—Gold Mining Operations.

Belleville, Oct. 8.—Bush fires are running in the northern townships, and deer and bears are coming into the front settlements.

The Canadian Gold Fields Co. have bought the Deloro gold mines, which they have been working. They will erect a very large plant and operate the Deloro and other mines on an extensive scale.

It is reported that the electric street railway has been purchased by an English syndicate, who propose to extend it to Tweed.

Railway Notes.

On Oct. 15 the Grand Trunk will place an advance of two cents per 100 pounds on the freight rate on grain from Toronto, and other points in proportion to New York, Boston and the Maritime ports.

The C. P. R. is also making some changes in its freight rates east.

General Manager Hays of the Grand Trunk has gone to Chicago.

Costly Furniture by Auction.

Messrs. Chas. M. Henderson & Co. will sell by public auction on Thursday, Oct. 21, at the residence, No. 294 Jarvis-street, all the rich and costly household furniture, Mason & Risch upright pianoforte, drawing room and reception furniture, etc., being the property of the late Dr. W. T. Aikins. No doubt this sale will be well attended, as the furniture is all of a high class.

A Lone Man Burned Out.

Glencoe, Ont., Oct. 8.—About 2.30 this morning the residence of Squire Simpson, Concession-street, together with the contents, was totally destroyed by fire. Mr. Simpson was alone in the house and narrowly escaped suffocation. Loss about $1800, partly covered by insurance. Origin of fire unknown.

Locking Resumed.

Port Dalhousie, Oct. 8.—A special from the break at 7 p.m. says: Locking was resumed at the head lock, Thorold, today, at noon, boats being allowed to lock down the canal. The steamer Haskill of the Ogdensburg Line was the first boat with a barge fleet to follow.

Our I's and....
....Other Eyes.

Our I's are just as strong as they were fifty years ago, when we have cause to use them. But we have less and less cause to praise ourselves, since others do the praising, and we are more than willing for you to see us through other eyes. This is how we look to S. F. Boyce, wholesale and retail druggist, Duluth, Minn, who after a quarter of a century of observation writes:

"I have sold Ayer's Sarsaparilla for more than 25 years, both at wholesale and retail, and have never heard anything but words of praise from my customers; not a single complaint has ever reached me. I believe Ayer's Sarsaparilla to be the best blood purifier, that has been introduced to the general public." This, from a man who has sold thousands of dozens of Ayer's Sarsaparilla, is strong testimony. But it only echoes popular sentiment the world over, which has, "Nothing but words of praise for Ayer's Sarsaparilla."

Any doubt about it? Send for "Curebook" It kills doubts and cures doubters. Address J. C. AYER Co., Lowell, Mass.

FUR FASHIONS

We want to reach everyone who intends to wear furs this fall and winter.

And who does not?

Furs are a necessity for comfort, and you cannot be fashionably dressed without them.

Here's a store given over to furs from front to rear, side to side—and such furs, made by ourselves as practical and experienced furriers.

Rich and rare garments in Seal and Persian Lamb Jackets are a special for early October buyers.

Careful attention is given to mail orders. Out-of-town buyers needing furs should write us. Handsome card souvenir of new styles free on application.
