The Provincial Wesleyan.

gers, chiefly old men, women, and children, are to be forwarded this morning, by the Assistant Emigration Officer at St. Andrews, to Montreal, by way of Eastport and Portland. They will thus reach their various places of destination in Canada much sooner than if the vessel had gone to Quebec.—*Ib.*

NEW SHIP.—A splendid ship of 1180 tons O M, and 1212 tons N. M, called the "Alexander," was towed into this port on Sunday morning last, from Quaco, where she was built by Mr. Samuel Carson, under the superintendance of Lloyd's Surveyor, for John Wishart, Esq., of this City. This fine vessel is a credit to the country, having been constructed of the very best materials, and fastened in a most excellent manner. All who have examined her, have been pleased to see such an excellent specimen of naval architecture, and we feel confident that she will be duly appreciated abroad. The A. is to be commanded by Capt Strang.—*Ib.*

MELANCHOLY.—We regret to learn that Mr William Paddock, son of Dr. Adino Paddock, of Kingston, King's County, who left San Francisco in the steamer for Panama, on his return home, mysteriously disappeared from the deck of the vessel one night while on the passage down. It appears that he had occasion to go on deck during the night, and was not missed until the next morning. He had a considerable amount of gold on his person. Mr. P. was a young man of much energy and decision of character.—*Ib*

United States

WASHINGTON, Nov. 1.—The Government this morning received voluminous despatches from Commodore Perry, giving a detailed account of his visit to Japan. The contents have not yet been made public, but are understood to indicate the complete success of his mission.

BOSTON, Oct 31. The brig Helen Jane, with advices from Omoa Sept 20th, and Truxillo to Oct 5th, arrived this morning. She reports that President Carrera, of Guatamala, took possession of Omoa on the 25th without resistance, and re-embarked again on the 27th, taking with him seven brass cannon.

BUFFALO, Nov. 1.—The recent gale has proved very disastrous on the lakes. The steamers Southerner and Minnesota, and the brigs Gerowl and Walker have been totally wrecked.

GREAT SPEED BY AN AERONAUT.—A telegraphic despatch from Lancaster Pennsylvania says:

"Elliot, the aeronaut, who made an ascension at Baltimore to-day, landed at Christiana, in this County, making a distance of 80 miles in an hour and ten minutes. The last 30 miles was done in the almost incredible time of twenty minutes. He says he reached an altitude of 4 miles, and was hurried along by a heavy gale nearly the whole distance."

IMMENSE CARGO.—The British ship Atlas cleared on Saturday at Philadelphia for Liverpool, having been loaded by Messrs. Geo. McHenry & Co, with the following cargo: 52,000 bushels wheat, 700 bbls. corn meal, and 7,000 bbls. flour. The whole is equal to 21,000 bbls. flour, being the largest cargo, exclusively, of breadstuffs ever shipped from that port.

FROM KEY WEST.—The following is an extract from a letter to the Charleston Courier, dated Key West, Oct. 22:

"We are on the borders of a famine in Key West. We are destitute of everything eatable, save fish and turtle. No flour, no corn, no rice, butter, cheese or lard; and unless the barque Ann Sawyer, now due from New York, soon arrives, we shall be in a lamentable condition. We have a wreck of sugar, and a wreck of mahogany and cochineal; but as we have plenty of the former and cannot eat the latter, our situation is unimproved. We look hourly for the James L. Day, from New Orleans, and she will bring large supplies of provisions. This state of the market is unusual for our city, and is owing to the difficulty of shipping goods from New York the last summer, occasioned by the sickness in the Bay—seamen refusing to go south on any condition."

GREAT LEAD MINE IN IOWA.—In Clayton county, Iowa, an immence lead mine was lately discovered by Messrs. Holmes and Dickson, who have taken out 120,000 pounds of mineral within the last four weeks, and have another 100,000 pounds in sight. The lead is considered good for 1,000,000 pounds. It has now become the settled conviction, at least with a great many, that the whole country formerly reserved by the government for mineral purposes will prove to be rich in lead ore, and of the best quality.—*City Enquirer.*

ATMOSPHERIC TEMPERATURE.—According to observations taken four times daily by Capt. W Albert, in Cherry street, the average temperature of the atmosphere in this city during the month of October was 51 degrees. The warmest day of the month was Friday, the 21st, when the lowest point of the mercury between the hours of 12 M. and 7 A. M. was 57 degrees; and the coolest, Sunday the 30th, when the lowest point was a portion less than 34 degrees. The table shows variations of as many as 26 degrees in twenty-four hours. What a climate.—*New York Spectator.*

CATALEPSY.—The Providence Post says:—About three weeks ago, the wife of Mr. Henry Colvin, of Coventry, rose in the morning, complaining of a pain in her side. She soon after fell asleep, or died, as supposed. When her friends came to attend the funeral, they were struck with the remarkable life-like appearance of the corpse, and the funeral was deferred. Since then, she has laid in the same condition, and many have visited Mr. Colvin's house, none of whom can discover any signs of decay. There had been no alteration on Friday, 21st, a period of about three weeks.

A woman in Boston has commenced a suit of divorce against her husband, because he would not allow her to apply her tongue to the stopper of the molasses jug every time she used it—a privilege every Yankee woman considers sacred.—*Clipper.*

Ex President Van Buren, it is stated, has received from the Administration an appointment of umpire on behalf of the United States, in the mixed commission assembling in London, to settle British and American claims.

MOBILE, Nov. 2.—The cotton crop of this state, from present appearances, will show an increase of one-third over the estimation made six months since, on account of the fine weather.

The Board of Health of Mobile have declared the epidemic at an end.

The yellow fever was raging terribly at Alexandria, La. The best citizens of the place were dying with it.

California.

Latest advices from California are by the *Daniel Webster*, arrived lately at New Orleans, bringing dates to Oct. 16th. We are indebted to the *New York Spectator*, for the following items, as well as other news items in our columns:—

The most important news by the arrival of the Daniel Webster is that of the destruction of a large part of the city of Sonora. The loss is estimated at a million and a half dollars. It occurred on the 3d of October.

The intelligence from the mining districts continues favorable.

The Supreme Court has decided in favor of the validity of the land grants made in accordance with the Mexican law. It is said that the effect of this will be to oust hundreds from lots held by them for years, and restore them to the original grantees.

John Mitchell, of whose escape from Australia we have previously had an account, arrived at San Francisco, by way of the Sandwich Islands, with his family, on the 12th of October. He was to leave shortly for New York.

The magnetic telegraph is completed from San Francisco to San Jose.

The California papers state that large numbers of Chinese in California are about to return to their own country.

FROM MEXICO.—*Baltimore, Nov.* 1.—The mail, as late as due, is through from New Orleans.—The papers contain the details of Mexican news received from Vera Cruz, up to the 21st ult.

The battle between the Yucatan revolutionists and the Mexican troops continued eight days. A remnant of the revolutionists had fled to the mountains.

Under a strong escort, 253 robbers, murderers, pickpockets, &c., were sent from Mexico to Vera Cruz.

The Spanish ambassador was still at Vera Cruz. The particulars of his difficulty with the Mexican government had not transpired.

Horrible accounts of the depredations of the Indians in the frontier States continued to come in.

LATER FROM MEXICO.—By the arrival of the steamship Texas, we have intelligence from Vera Cruz to the 21st inst., and from the city of Mexico to the 17th inst.

The Eco del Comercio of Vera Cruz publishes in a supplement of its issue of the 19th an account of the complete suppression of the revolution in Yucatan.

The cholera still ravages Oajaca, and other places in the department.

The *Trait d'Union* publishes correspondence giving the particulars of the destruction of the French colony of Jicaltepec, on the 28th of August, by a violent storm.

A decree of the government provides that no Mexican can travel from one city to another in the Republic, without being supplied with a passport.

It is rumored that difficulties have arisen between the Spanish Minister and the Government of Mexico, and that the former had demanded his passport, and was to leave on the 25th inst. The *Orden* admits the existence of a misunderstanding, but states that the Minister has not demanded his passports, and has only suspended diplomatic intercourse until he hears from Spain.

Santa Anna had imposed a tax of 1 real on each package of foreign goods imported into Mexico, to be devoted to the support of schools.

Messrs. Lino Alcorte and Mariano Salas have been appointed Generals of Divisions. General Jarero has received the appointment of President of the Supreme Tribunal of the Army and Navy, vice Lino Alcorta, Minister of War.

The ravages of the Indians in the frontier states are more horrible than ever. In Zacatecas and Durango, these wretches torture their victims with an infernal ingenuity of malice; but numerous expeditions have been fitted out against them, which promise to be rather too much for them.

The gold hunting expedition to Sonora, under the leadership of Paredes, has proved a failure. On the other hand, it is stated that a highly productive mine has been discovered on the banks of the river Papagayo, near the city of Acapulco.

The cholera has made its appearance in the State of Guerrero, and has committed fatal ravages among the poorer classes.

We have been favored with the subjoined extract from a private letter to a friend in this city. It will doubtless be perused with interest.

"Gen. Gadsden, our Minister, is getting along smoothly with this Government. It is agreed that neither American nor Mexican troops shall occupy the disputed territory in Mesilla Valley while negotiations are pending. This was proposed by Santa Anna, and readily accepted by Gen. Gadsden. The best feeling at present seems to prevail in the Government toward Americans.—*New Orleans paper.*

LATER FROM TEXAS.—We have Galveston papers of the 19th of October and Houston of the 21st.

There were a few recent deaths by yellow fever at Galveston, although business had resumed its usual activity.

At Houston there were thirty-seven deaths by fever for the week ending the 19th of October.

MORE NEWS OF A WARLIKE CHARACTER.—Lieut, McNutt, in charge of the Ordnance Depot in this city, has received an order from Col. Craig, Chief of the Ordnance Department, to get ready three six pounder bronze guns, and one twelve pound bronze howitzer, fully equipped, to await the order of General Smith.—*Western Texan.*

The towns of Jefferson and Marshal were literally filled a few weeks since with fugitives from Shreveport, escaping from the epidemic that has been ravaging that town. Several cases of yellow fever were brought to Marshall, but the disease was not communicated to a single person. Jefferson, says the Herald, is unusually healthy, and business has been remarkably brisk.—*Houston Tel. Oct 21.*

EDUCATION IN TEXAS.—The Flag of the Union says:

We have about 480 common schools in the state. These schools are in the charge of teachers, who are competent generally to bestow a knowledge of the initiatory branches of practical education. We have 21 high schools and colleges chartered by our Legislature, 18 female institutes, and 13 male. None of these are classical in their course, and consequently we are not dependent upon our enlightened sister states for the mental accomplishment of our youth.

SOUTH AMERICA.—On the 21st of July Gen. Urquiza resigned his powers as Director-General of the Argentine Confederation, which resignation it was thought Congress would accept. Dr Mariana Fraguerio, a citizen of Codova, was spoken of as his probable successor.

Respecting the treaty for free navigation of the rivers Uruguay and Paraguay, a correspondent of the Courier and Enquirer says:

The late treaties signed by Gen. Urquiza with the Ministers of England, France and the United States, regarding the Parana and Uruguay, were sent to the House of Representatives, now in session, where they created some sensation, and the Government of the Provinces immediately issued a protest against the ratification. In the House an extended debate took place, and Gen Urquiza and the Foreign Ministers were all placed in the same category, as trying to destroy the Province of Buenos Ayres, and the influence she has exerised for so many years.

A correspondent of the Journal of Commerce says that the province of Buenos Ayres has issued a protest against the treaties, on the ground that she is an independent power, and has not been consulted in the matter.

THE GOLD MINES OF PERU.—The New York Express publishes from a letter received in New York the following extract:

LIMA, Sept. 25, 1853.—"I know of no political troubles. In regard to the Bolivian troubles, they are never spoken of here.

"The accounts from the land near the Amazon in regard to mineral wealth, are truly great—Quick-silver, copper, silver and gold are in the greatest abundance. If a tenth part of what is told be true, then it will be enough to draw a great emigration to this country."

HAVANA.—The U. S. mail steamship Crescent City arrived this morning. She left Havana on the 1st inst., at nine, A. M. She encountered very heavy weather during the greater part of the passage.

There was a large amount of shipment in the harbour of Havana, and trade in exports was reported brisk.

The ravages of the cholera and yellow fever had been effectually stayed in the interior and Southern ports of Cuba, and the island is reported as enjoying its usual health.

H. B. M. sloop of war Vestal sailed from Havana on a cruise, early on the morning of the first inst.—*N. Y. Spectator.*

FROM THE PLAINS.—ST. LOUIS, November 1st. A party of citizens arrived here last night, from the Plains, who went out with Major Fitzpatrick, sent to distribute annuities to the Indians. Maj. Fitzpatrick succeeded in making treaties with the Camanches and Kiowas, stipulating to give the two tribes, for a limited period, $10,000 per annum. In return, the tribes grant to the United States a right of way over their lands for rail or other roads; free passage, unmolested, of all emigrants; and liberty to establish military forts on the Missouri, &c.

The Indians also further stipulate to surrender immediately all American or Mexican prisoners. The Major also obtains from the Sioux, Chyennes, Arapahoes and Rectarcis, amendments to a treaty made by Col. Mitchell, at Fort Laramie. The Indians, throughout, manifested a friendly disposition. The Pawnees, whilst hunting on the prairies, had been troublesome to some emigrants.—*Baltimore Clipper.*

GUATEMALA.—By way of Mexico, we have news from Guatemala to the 9th ult. The eldest son of President Cavera died on board one of the men-of-war which were carrying the Guatemala troops to the coast of Honduras. President Cavera had taken possession of the port of Chacalagua, in Honduras, and of its fort, which contained 80 pieces of artillery. He had likewise seized upon the town of Omoa, after which he returned to Zampa, and has no doubt ere this reached Guatemala.

SANDWICH ISLANDS.—From the Sandwich Islands intelligence had been received of the removal of Dr. Judd as Minister of Finance, and the appointment of E. H. Allen, late U. S. Consul, in his place.

The telegraph reports that some steps had been taken toward the annexation of the Island to the United States; that the "French and British Consuls had protested to the Kink against such an act, and the American Commissioners had replied in a firm but dignified manner."

B. F. Angell, U. S. Consul, has been officially received by the Kink, to whom he made a short speech, in which he said that the Hawwiian Minister of Foreign Affairs had informed him that the course of his predecessor in office had given entire approbation to the Hawaiian Government, and he hoped that he might be equally successful. Mr. Angell assured the King of the continued friendly feeling of the United States government and people and that they would preserve inviolate the treaty stipulations. The Kink replied in appropriate terms, thanking Mr. Angell for these assurances.—*Ohio Journal.*

GRINNELL'S ARCTIC EXPEDITION.—Letters have been received from England, announcing the arrival of the American Arctic Expedition, under command of Dr. E. V. Kane, U. S. N., at Upernavick, in Greenland, and their departure from that place for the head waters of Smith's Sound. Captain Inglefield, with the screw steamer Phœnix, with stores for Sir Edward Belcher's squadron, reached Upernavick three days after Dr. Kane's departure, and reports that Doctor Kane had secured the services of Peterson, the Esquimaux interpreter, who was with Penny on a former voyage.—*New York Spectator.*

HUMANE AND LIBERAL.—The Cunard Mail Steamship Company have presented to Mrs. Maxwell, widow of Mr. Maxwell, second officer of the screw steamer Andes, one hundred pounds sterling, and to Mrs. Hutchins, widow of Capt. Hutchins, of the same steamer, five hundred pounds. It will be remembered that Mr. Maxwell was washed overboard by a sea which struck the Andes, and Capt. Hutchins was so injured that he died before reaching land. The widow of the latter has four children; Mrs. Maxwell has no family.—*Ib.*

The British ship Liverpool, bound from Shields, with coal, for New York, was lost at sea, (no date,) and the captain, his wife, a female passenger, and thirteen of the crew perished. The first mate and four of the crew were picked up by the ship Clara Ann, bound from Cardiff, for New Orleans, at which port they arrived on the 28th ult.—*Ib.*

PREPARATIONS FOR WAR.—The Chinese are buying up American vessels and American seamen for the war. The San Francisco Herald says: "In addition to the ship Hamilton, we learn that several large vessels have recently been purchased by Chinese merchants, and are now being fitted out in this port, for the opposite coast of the Pacific. They will be navigated by American seamen, but will sail under the Chinese flag. This will enable them to visit Japan, and we are disposed to think such is the purpose of the owners. It is said they are desirous of reaching Jeddo about the time Com. Perry's squadron has brought the Islanders to terms."

A LADY OF OUR ACQUAINTANCE,

Mrs. Pownell, No. 18, Stanton St. New York.

☞ Was troubled with Liver Complaint for a long time, and after trying many remedies, was advised to try Dr. M'Lane's Celebrated Liver Pills. She did so, and says that with one box she was effectually cured.

Indigestion, Stoppage of the Menses, Costiveness, and general irregularity of the Bowels, are diseases originating in the same prolific cause, as is also that dreadful scourge DYSPEPSIA. Those who are afflicted with any of the above enumerated diseases, may rest assured that the source of all their maladies is in the Liver, and for its correction the best remedy ever offered to the Public is Dr. M'Lane's Celebrated Liver Pills. Try them. The money refunded if not satisfactory.

P. S. The above valuable remedy, also Dr. M'Lane's Celebrated Vermifuge, can now be had at all the respectable Drug Stores in the United States and British Provinces.

☞ Purchasers will please be careful to ask for, and take none but Dr. M'LANE'S LIVER PILLS. There are other Pills, purporting to be Liver Pills, now before the public.

Agents in Halifax, WM. LANGLEY and JOHN NAYLOR. 12

☞ The Boston Chemical Washing Powder acts like a charm in cleansing clothes: try it and save labor. See advertisement.

NOTICE TO SABBATH SCHOOLS.—In consequence of recent arrangements, the Book Steward is prepared to furnish Sabbath Schools or families with selections of books, from Sabbath School Catalogue, to the amount of Five Dollars or upwards, *at the American selling prices*, adding only the difference of currency. By this liberal arrangement it is hoped that Sabbath School Libraries may be greatly enlarged.

W. CROSCOMBE.

Halifax, 25th Octr., 1853.

N. B.—The Books referred to above, are issued under the auspices of a Committee appointed by the General Conference of the Methodist Episcopal Church in America.

W. C.

☞ A Poetical piece from Buctouche directed to a printer of this city has come to hand.—Our rule is to publish nothing, without the name of the author is given us in *confidence*, to which we intend to adhere. We have no connection with any Printing Office except that of the *Provincial Wesleyan.*

☞ The Rev. Dr. EVANS, of Charlottetown, P. E. I., drops us the following words of encouragement: "The *Provincial Wesleyan* is a favourite with its patrons on this Island, and I hope your already respectable list of subscribers will soon be considerably augmented. As an auxiliary to ministerial effort, it is of acknowledged value; while as a Family Paper, and a vehicle of General Intelligence, it is believed to excel all its Colonial contemporaries."

☞ A fire occurred on Saturday morning last, on the premises of Mr. James Adams, Chandler, of this city, by which his Store and £150 worth of Soap, were consumed.

☞ "Closet Musings, No. 2" in our next: also, Obituaries from English Settlement, and Moncton.

☞ Mr. Beckwith was the successful candidate at the recent election for King's Co.

☞ See new advertisement of Wesleyan Book Room to day.

☞ School Books, in common use, on hand at the Wesleyan Book-Room.

Letters & Monies Received.

(See that your remittances are duly acknowledged.
VOL. V.

Rev. Dr. Evans, (with enclosure—100s. to your credit for *Wesleyan*—new sub.); Rev. R. Tweedy, (two new subs. viz., for Messrs. J. Pond 5s., A. McLean 5s.—total 10s.); Mr. R. Snodgrass, Canada, (10s., the paper has not come to hand); Rev. F. Smallwood, (new sub.); Rev. C. Lockhart, (new sub.—5s. for Mr. J. Pierce); Mr. R. B. Weldon, Moncton, (5s. for M. A. McPhee—new sub.)

Marriages.

On 27th October, by the Rev. Mr. Uniacke, Mr. John Frederick Robart, of St. Mary's, to Miss Mary Ann Cook, of Country Harbour.

At Annapolis, on the 26th ult., at St. Luke's Church, by the Rev. Edwin Gilpin, Mr. H. H. SWYMMER, of Louisville, Kentucky, to MARGARET, second daughter of Alfred Whitman, Esq., M. P. P., of Annapolis Royal.

On Sunday, the 13th inst, by the Rev. J. McMurray, Mr. James WARNER, to Miss Jane HENRY.

On the 9th inst., by the Rev. William T. Cardy, Mr. William PAUL, to Miss Mary Ann TOTTEN, both of St. John, N. B.

On the 26th ult., by the Rev. R. Knight, at the residence of the bride's father, Mr. Sylvanus W. LAMERAUX, of Carleton, to Miss Alice C. FITZGERALD, of Portland, N. B.

At Chelsea, Mass., Oct 29th. Mr. Silas CUREY, to Mary E. WOODWORTH, both of Nova Scotia.

Deaths.

At Hamilton, Bermuda, on the 31st ult., of Fever, in the 67th year of his age, Edmund WARD, Esq., formerly of this city, and for many years proprietor and publisher of the "Halifax Free Press" and "Temperance Recorder" newspapers, successively. Deceased had resided Bermuda from New York, but a few days prior to his last illness, on a visit to the family of his only surviving son, Mr. Robert Ward, who had also been attacked by the prevailing epidemic

At New York on the 9th October, Henry S. WILSON, aged 9 months, son of James S. Wilson, of Halifax, N. S.

At the R. N. Hospital, Bermuda, 19th ult., of fever, Mr. John PATTERSON, aged 27, a native of Scotland.

At the Hospital, Prospect Hill, Bermuda, 20th ult., of Fever, Hospital Sergeant SHAND, R. A.

At Ireland Island, Bermuda, 25th ult., of Fever, MARTHA, eldest daughter of Capt. W. H. Jervis, R.N., age 18 years

At St. George's, Bermuda, 27th ult., of Fever, MARGERY, wife of J. S. Hunter, Esq., M. D., Mayor of that town, aged about 23 years.

In Pembroke Parish, 27th ult., of Fever, Mr. George PERCY, of Halifax, N. S., aged 19 years.

In the same Parish, of Fever, Mr. David McKOY, of Scotland, aged 20 years.

On Friday evening, 11th inst., very suddenly, Mrs. Louisa INNES, widow of the late Francis Innes, merchant of this city, aged 50 years.

At Annapolis Royal, on the 28th ult., John S. WATSON, Esq., Apothecary, formerly of Morayshire, Forrest, Scotland, aged 50 years. His remains were followed to the grave on the following Sunday by almost all the inhabitants of that town, by whom he was universally respected. He has left a wife and six small children to mourn the loss of a kind husband and tender parent.

At West Branch, East River, Daniel GRAHAM, Teacher, eldest son of Mr. Alexander Graham, West River, aged 18 years. The deceased was a young man of mild and amiable disposition, he acquired and early taste for science and literature, in which he had made great progress. He has left a mourning father and a desolate mother to mourn the loss of a beloved son.

On the 11th inst, HENRY H. eldest son of the late T. P. Williams, of St. John, N. B., aged 20 years.

At Woodstock, N. B., at the residence of her son, Mrs. Mary GROVER, relict of the late Robert Grover, of Halifax, N. S., in the 83rd year of her age.

On the 22nd Oct., at the residence of B. Smith, Esq., Douglas, Mr. Thomas W. COLE, in the 29th year of his age. His end was calm and peaceful through faith in the Redeemer of the world.

At Victoria, Australia, in the 19th year of his age, much regretted by all his acquaintances, PETER BROWN, eldest son of Capt Peter Coffin, formerly of Barrington, N. S.

At Sackville, Mass., (17 miles from Boston, after a lingering illness borne with pious resignation to the Divine will, Capt. Albert H. Foot, a native of Yarmouth, N. S., and for many years a First-class Shipmaster out of the port of Liverpool, G. B. Deceased has left a widow and 3 children to mourn their irreparable bereavement.

On Monday, 14th inst., Mrs. Ann DRICHMAN, aged 46 years.

At Digby, on Thursday, 10th inst., J. H. FITZRANDOLPH, Esq., in the 47th year of his age.

At Southsea, aged 82 years, ELIZABETH, relict of Provo Featherstone Wallis, Esq., formerly of Halifax, N. S.

At Nine Mile River, on the 8th inst., Mrs. Catherine SAYRE, aged 70, relict of the late Francis Smith, of Maitland.
