A BUDGET FROM OTTAWA.

Judicial Appointments—The C. P. R. on the Grab—Departmental Doings.

OTTAWA, Oct. 6.—The following appointments are gazetted: Charles R. Horne, judge of Essex county; W. F. A. Boys, senior judge of Simcoe county; Henry Lemm, official arbitrator of Canada vice Hon. Isaac Buchanan, deceased.

The Canadian Pacific railway company have called a meeting to authorize the sale of that portion of the road between Perth and Smith's Falls to the Ontario and Quebec railway and to acquire the lease of the Ontario and Quebec railway as extended, and to acquire the Credit Valley railway and a portion of the Atlantic and Northwestern railway.

Preliminary civil service examinations will be held at Moncton, N. B., Quebec, Montreal, Ottawa, Belleville, Toronto and London on November 30. Applications must be sent in before November 18.

The surplus of the dominion for the first three months of 1883-84 is $2,249,029, the revenue for that time being $8,380,981.

The amount to the credit of depositors in the postoffice savings banks of the country at the end of August was $12,219,615 35.

The Interior department is not at present considering applications for ranches in the Northwest, and it is understood will not grant any more leases for some time to come, as there is a sufficiently large area now under lease to answer all purposes.

Advices have been received from several quarters announcing a number of successful "finds" of silver in the Rocky Mountains by prospecting parties who went out last spring.

Mr. Vankoughnet, deputy minister of Indian affairs, is at present in the Northwest on a tour of inspection of Indian agencies.

Three Cases of Blood Poisoning.

ST. THOMAS, Oct. 6.—Two bad cases of blood poisoning have lately occurred near Morpeth, one from the bite of a cat on the hand of the daughter of John Smith, and the other from a spider bite on the arm of Henry Bury. Both patients are doing well, but it is thought the girl will lose the use of her hand. Wm. Bullock of Bismarck, who got poisoned by wearing colored hose, is still unable to walk without crutches, though he has been under treatment for several months. He talks of entering an action for damages against the storekeeper who sold him the socks.

"Nasal Respiration."

We should always breathe through the nostrils and not by the mouth, as the latter tends to weaken the lungs and produce inflamstion of the throat and bronchial tubes. If you have already contracted any disease of the respiratory tract such as laryngitis, bronchitis, catarrh, asthma, consumption or catarrhal deafness which is produced by catarrh, you should at once consult the surgeons of the International Throat and Lung Institute who make a speciality of these diseases and who use the spirometer invented by Dr. M. Souvielle of Paris, ex-aide surgeon of the French army, the only instrument by which medicated air can be conveyed to the lungs through the nasal passages and without the aid of heat. Hundreds suffering from diseases of the lungs and throat are being cured monthly by these surgeons, who without the aid of this new and wonderful instrument the spirometer would certainly die.

This great institution which is daily increasing its magnitude now has 28 physicians and surgeons connected therewith and offices in London, Eng., Montreal, P. Q., Toronto, Ont., Detroit, Mich., and Winnipeg, Man.

Physicians and sufferers are invited to try the instruments at the office free of charge.

Persons unable to visit the institute can be successfully treated by letter addressed to the International Throat and Lung Institute, 13 Philips' square, Montreal, or 173 Church street, Toronto, where French and English specialists are in charge.

The business portion of Passumpsic village was burned yesterday. Loss $20,000.

—Scene on entering drawing room: Lady visitor—What a beautiful suite of furniture you have got, and how nicely upholstered, it does credit to your house both as regards style and finish. Lady of house—Yes, I am very well pleased with my suite; last week I had occasion to pass the upholstering warerooms of T. P. Cummings & Co., 349 Yonge street, I saw this suite in their window, the price only being $75, I was convinced at once I could not do better elsewhere.

Senator Sherman says that if Ohio goes republican next Tuesday, an Ohio man will be president in 1884.

—This week a gold medal and diploma at the Hamilton fair was given to the Lightning Wanzer "C" and F machines, over all Canadian and American machines. Catarrh—A New Treatment.

From the Weekly (Toronto) Mail, Aug. 24.

Perhaps the most extraordinary success that has been achieved in modern medicine has been attained by the Dixon treatment for Catarrh. Out of two thousand patients treated during the past six months fully ninety per cent have been cured of this stubborn malady. This is none the less startling when it is remembered that not five per cent of patients presenting themselves to the regular practitioner are benefited, while the patent medicines and other advertised cures never record a cure at all. Starting with the claim now generally believed by the most scientific men that the disease is due to the presence of living parasites in the tissue, Mr. Dixon at once adapted his cure to their extermination—this accomplished, he claims the catarrh is practically cured and the permanency is unquestioned, as cures effected by him two years ago are cures still. No one else has ever attempted to cure catarrh in this manner, and no other treatment has ever cured catarrh. The application of the remedy is simple and can be done at home, and the present season of the year is most favorable for a speedy and permanent cure, the majority of cases being cured at one treatment. Sufferers should correspond with Mr. A. H. Dixon, 305 and 307 King street west, Toronto, Canada, and enclose stamp for his treatise on Catarrh.
