ALLIED OFFENSIVE TO END WITH WAR

Battle of Somme Will Last Great Deal Longer, Says Frederick Palmer.

FIERCER FIGHT AHEAD

Fighting Next Year Will Be Much More Expensive in Lives.

New York, Nov. 17.—Frederick Palmer, the war correspondent designated by the British war office to represent the entire press of the United States, returned today on the Holland-American line steamship Nieuw Amsterdam for a rest before going back to the front.

It is Mr. Palmer's opinion that the allied offensive against the Germans in the battle of the Somme will end only when the war itself ends, that it will be continued for two, perhaps three years. He was told by the staff of the allies that they had no expectation of breaking the German line this year.

He said that aeronautic activity in England is such that he has seen as many as fifty airships fly across the channel in one day to replace the great losses of air machines at the front. Every day, he added, at least thirty-five machines cross. He made the journey himself in an aerial ship known as the "Channel Bus," which flies back and forth daily.

Of the work of the "tanks" at the front, Mr. Palmer spoke in highest praise, saying that their charges upon the trenches have saved thousands of lives.

Greater Than Verdun.

"There is only one historical comparison for the Somme battle—Verdun," said Mr. Palmer.

"It has long since passed Verdun in intensity of the fighting, in numbers engaged, in losses in killed and wounded and in volume of artillery.

"In the Somme sector 6000 British French and German guns have been in action on the same day. Within one period of twenty-four hours there have been at least 150,000 casualties, counting those of both sides. So far in this engagement at least 1,500,000 men have been hit. Next summer the British are prepared to lose 1,000,000 men if necessary, and they will have twice their present gun power.

"When will the war be over? I only know that next year will be bloodier than this. The week before I left France I talked with General Joffre and Sir Douglas Haig, and with such army leaders as Sir Henry Rawlinson on the Somme and Gens. Nivelle and Mangin, who planned and executed the brilliant attacks which recovered Forts Douaumont and Vaux at Verdun. Their idea was the same that I have found everywhere—a fight to a finish."

HEALTH INSPECTORS HAVE LIVELY DEBATE

Unable to Come to a Decision on Matter of Overlapping.

Overlapping of provincial and civic health inspectors was again discussed at length when yesterday a conference was held between Dr. J. W. S. McCullough, provincial board of health, and representatives of the city council and the board of education.

At the conclusion of a lengthy and at times rather animated conference it was decided to refer the matter to a sub-committee of one member from each of the bodies interested, the members to be appointed later.

NORWAY HOUSE SHORTAGE.

Christiania, Oct. 30.—The shortage of available dwelling-houses, with still more serious prospects for the winter, is reported from various places in Norway. In certain districts city authorities have resorted to extreme measures to provide shelter for those unable to find houses. The city council of Bergen has begun to expropriate unoccupied houses, but the number of these is inadequate. The aldermen of Trondhjem have requested authorization to expropriate not only vacant houses, but also clubrooms and similar localities. The Christiania authorities are considering the expropriation and use as dwellings of taverns and even places devoted to religious gatherings.

CUNARD LINE TO ENGLAND

The Cunard Line at 53 Yonge Street, announce a new schedule for their steamers from New York to London and Liverpool. The Andania will sail Nov. 20 to London; Pannonia, Nov. 25th to London; Laconia, December 2nd to Liverpool; Orduna, December 9th to Liverpool; Ascania, December 19th to London, and Carpathia, December 16th to Liverpool. Excellent accommodation may still be obtained for these Christmas sailings altho the company anticipates the steamers will be well filed on sailing day. A. F. Webster & Son, General Agents, will be glad to give all information.

TO VISIT FACTORIES.

Kingston, Nov. 17.—The board of education is considering a plan to have one afternoon each month set apart for the visit of pupils in junior and senior fourth classes to local industries with the object of having the pupils learn something of the work.

MADE SUPREME SACRIFICE.

Kingston, Nov. 17.—Gunner Harry Scott, 22, was killed in action with the Queen's Battery.

USED SEDITIOUS WORDS.

Cobourg, Nov. 17.—At the supreme court sittings here, Walter Blood, of Port Hope, was found guilty on a charge of having made seditious statements last June at Port Hope. The judge deferred sentence until Dec. 9.

FOOD PRICES TOO HIGH.

Kingston, Nov. 17.—The Trades and Labor Council say that the prices of coal, bread and milk are too high here and ask that these commodities be handled by the municipality.

NO AGREEMENT REACHED IN McINTYRE MERGER

Meeting of Directors After Discussing Knotty Problem, Adjourns for Week.

Directors of the McIntyre group of properties concerned in the much discussed merger met yesterday, but appear to have been able to arrive at no decision. The meeting was lengthy and at the close Col. A. M. Hay, president of the McIntyre stated that the merger had been discussed and that an adjournment had been made for a week.

The last time a meeting of this nature was held an arrangement satisfactory to all parties concerned was not discovered, the obstacle, it is understood, being the basis of valuation for the incorporation of the Jupitor property. This difficulty, presumably, was not overcome at yesterday's meeting.

The shares of the three properties concerned, McIntyre, Jupiter and McIntyre Extension all made advances on the Standard Stock Exchange yesterday in anticipation of the expected amalgamation announcement.

NEW MANAGER OF DAVIDSON ARRIVED

Word was received from Porcupine last night that Mr. F. G. Stevens, the new general manager of the Davidson Gold Mines, Ltd., had arrived in the camp and taken over the control of operations at the mine. An aggressive development program, in line with the plans outlined at a recent meeting of the directors, is to be carried on, the idea being to develop the ore body on the 100, 200 and 300-foot levels to the greatest possible extent in order to provide for milling requirements. It is expected that a stamp mill will be put up early next year.

Mr. Stevens was particularly impressed with the spectacular surface showings on the Davidson, notably those in an open cut on the main vein, about 400 feet north of the shaft. Owing to the fact that there is very little snow on the ground, a thoro examination of the surface indications has been possible.

Cross cutting is proceeding on the main vein on the 300-foot level, but the wall rock has not yet been reached. It is anticipated that the ore body will yield a very extensive tonnage, as it has already been demonstrated to have a considerable width.

ON VACUUM GAS.

Nor is oil the only profitable asset of this company, says H. B. Wills in his market letter, for, as the incorporate name implies, gas is another product, and here again Vacuum Gas & Oil, on its leases near Tillsonburg, is striking it rich. Already one gas well of a capacity of 750,000 cubic feet daily has been brought in, and this product sold to the Medina Gas Company at an advantageous figure. Another, and of very much greater capacity, is expected to be brought in early next week, while contracts are being let to drill several others in this vicinity.

Just how long Vacuum Gas & Oil will remain an independent company is problematical, as already scouts for Standard Oil are reported to be in the field watching what is going on, and there is no doubt an effort will be made to obtain control. This may possibly be accomplished, but if so, a high price will be demanded and obtained, as Frank L. Culver and Murray Alexander are as shrewd bargainers as any in the Rockefeller corporation and likely the only way this could be gained is in the open market.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients for 50 cents a large bottle, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Business is Good

Toronto reports to Bradstreet's say that, in spite of continued price increases, which have carried nearly all staple commodities over highest previous prices, the tone of business is quite satisfactory, and that all lines of industry are very busy, and, in fact, are limited only by the shortage in the labor market. Retail business has already begun to assume a holiday aspect, as, like the last two years, there has been considerable buying of gifts for shipment overseas. Stores are assuming a gala appearance. Drygoods lines are active, and, in spite of advances again this week on all kinds of textiles, the demand is as strong as ever. The turnover of wholesale houses is apparently limited only by the deliveries they are able to secure from mills, and woolens are especially difficult to secure from British centres. Hardware lines are active, with munitions business still a prominent feature. Hardware retailers report a good business in seasonable lines, and prices are still on the upgrade. Food commodities continue to soar, with cheese going at over 24 cents on the boards, which is a new record in the history of the Canadian cheese-making industry. Canned goods and dried fruits are much higher than when they were placed on the market last season.

Money is plentiful, and commercial obligations are being well met.

Hamilton reports to Bradstreet's assert that the business situation there is fully as good as it has been earlier in the season. Displays of Christmas goods are more and more noticeable, and the buying of men's wear, altho less extensive, is remarkable, in view of the smaller number wearing civilian attire. Labor is still very scarce, and employers are paying bonuses to their employes to retain their services. It has been noted lately, however, that there has been a movement of labor from country to city. Both wholesale and retail business is brisk in all lines. It is believed there will be plenty of coal forthcoming to meet all local requirements.
