Chicago Gossip.

Marshall, Spader & Co. (J. G. Beaty), King Edward Hotel, at the close of the market to-day:

Chicago, April 8.—Wheat—The impending government report kept a good many buyers out of the market and prices declined steadily all day. There was pretty general short covering on the decline, but the close was at nearly the bottom.

The government report due Monday is expected to show a very marked improvement in the condition of the winter wheat over the last one; it will also show that the crop came thru the winter in splendid shape and that the conditions for seeding in the northwest are perfect.

The market is in a condition to sell lower Monday as a large number of local bears are not short much wheat and if they put out their lines again it will cause a good break.

Ennis & Stoppani wired to J. L. Mitchell, McKinnon Building:

Wheat—The grain market the past week has fluctuated within a narrow range, due principally to a desire on the part of traders to keep aloof until the May wheat deal is removed from the market, not knowing just what effect a wild movement in this option, in either direction, would have upon the more deferred months. There has been a fair trade, confined chiefly to the local element and of a scalping nature. The position of the growing crop could hardly be improved upon. The weather has been exceptional and many estimates, based on state reports in the neighborhood of 500,000,000 bushels, are freely made. Sowing in the Northwest has progressed under the most favorable conditions and something very unusual will have to occur to produce a harvest result, anything short of a record-breaker. The seeming scarcity of cash wheat that will grade in this market is due to the May manipulation and we feel that on the whole no one need go hungry on this score. Despite the bearish influences which surround the more deferred options, the general financial condition of the country makes the speculative element look with favor upon the long side, which certainly must be reckoned with. For this reason we incline to the opinion that purchases on the down turns will show quick profits for the present.

Corn—Corn was extremely dull with tone easy. Liverpool prices were ¼c to ½c higher. Talk of expected lighter receipts from the west had little influence to-day, as cash interests were reporting so little demand for shipment or export. There was moderate selling in late trading, influenced mainly by decline in wheat, but on the whole the corn market showed fair resistance and we look for a better market next week.

Oats—The market for oats followed corn to some extent, but not relatively as weak. Shorts were selling and cash grain houses were doing some buying.

Provisions—The trade was chiefly between packers and market ruled fairly steady.

Rossland Ore Shipments.

Rossland, B.C., April 8.—The Le Roi No. 2 has under contemplation the execution of between $50,000 and $60,000 worth of development work.

The announcement by Professor R. W. Brock, that a good appropriation has been secured for the structural geological survey of the camp and that the important work will be commenced on May 1, is cheering news. That it will lead to the finding of new areas of pay ore seems a foregone conclusion and the outlook is good for the resumption of work on the "O.K.," which has lain dormant for the past seven years.

The shipments for the week ending to-night were: Le Roi 2800 tons, Centre Star 2556, War Eagle 1410, Le Roi No. 2 50, ditto milled 1200, Spitzee 180. Total for week 7690; for the year 96,904.

FIRE DANGER AT THE ISLAND.

No Water Service, Altho Season is Now Under Way.

At this afternoon's meeting of the fire and light committee, Ald. McBride will bring up the question of fire protection at the island. On Saturday night there was a blaze in the marsh around the lighthouse which cast a wicked reflection but did little damage. But if it had been a windy night there is no telling what might have happened among the scores of frame buildings, to say nothing of the Children's Hospital. And if a fire had gained headway the only means of fighting it would have been a bucket brigade, for, altho the season is open, boats running and people visiting and working at the island, the water service has not been turned on. Thousands of dollars' worth of property at Hanlan's Point are in danger. If a fire should occur after 6 o'clock just now, the fire department would be unable to find any means of conveying apparatus to the point.

Moral: Let the city get a fireboat.

A MENACE TO NIAGARA.

New York Tribune: In The Popular Science Monthly for April, Dr. John M. Clarke, state geologist of New York, considers the danger to which the cataract of Niagara is exposed by the utilization of its power for industrial purposes. When the two companies which are at work on the American side of the falls have availed themselves fully of their charter rights, they will together take from the river 16,300 cubic feet of water per second. At least three of the companies to which similar privileges have been granted in Canada show signs of activity and determination. If, as Dr. Clarke thinks is probable, they should go to the legal limit, they would consume more than 32,000 cubic feet a second, raising the total consumption to 48,000 cubic feet. Estimates of the capacity of the river, made by United States engineers, range from 220,000 to 280,000 cubic feet, or only five times the quantity for the abstraction of which permission has been given already.

Now, the water is much shallower on the New York side of Niagara than it is west of Goat Island, and "a competent hydraulic engineer," who is not mentioned by name, believes that the withdrawal of 40,000 cubic feet would leave the American fall dry! Whether these figures are altogether correct or not, it is indisputable that the American fall would be exhausted long before the rest of the cataract, and that such a consummation may be witnessed within the next five or ten years is within the bounds of credibility. Up to the present time the effect of operation of the pioneer corporation has been scarcely perceptible, but a too extensive imitation of its enterprising example can have but one result.

Dr. Clarke refers to the suggestion that an effective check might be put upon future encroachment by an international agreement. Much could be said in favor of the proposition if it should be found to be practicable. The Empire State is debarred by the federal constitution from making treaties, but, theoretically, if not actually, the national government has supreme control over the navigable waters of the country, and might find a way to prohibit the grant of further charters by the legislature of New York. After all, perhaps, the best remedy is to appeal, as Dr. Clarke has done, to public opinion, and thus bring the necessary pressure to bear upon the authorities of the state whenever a crisis is threatened. If leaders of thought in Canada would be equally energetic, the desired object would be surely attained.

Ithaca, April 8.—Commander Miss Eva Booth of the Salvation Army lectured before 2000 students of Cornell University to-night at the close of the "red crusade" conducted with nine meetings in the city.

YORK COUNTY AND SUBURBS

DEADLY LEVEL CROSSING

Street Car Fatality Narrowly Avoided at St. Clair Ave—Gates Out of Order.

Toronto Junction, April 9.—The property committee of the public school board met last night, with Chairman Fullerton presiding, and Trustees Hall, Dodds, Kipping, and J. F. Goedike (chairman of the board) present. The matter of improving the school buildings was gone into thoroly, and there was close paring in order to provide for the proper sewering of Carlton-street without increasing the assessment. The following are the figures for last year, and this:

	1904.	1905.
Annette	$ 650	$ 350
Western-avenue	400	200
Carlton	400	2,000
St. Clair-avenue	200	100
Paid to town treasurer	1,200	....
	$2,850	$2,600

It was decided to repay the town $2000 on moneys advanced by the latter last year. These estimates were sent on to the public school board, which meets in Western-avenue School on Tuesday evening. All the members of the teaching staff are expected to be present, and it is proposed to have a similar meeting every three months.

Two important questions confront Toronto Junction Public School Board: (1) The necessity of providing increased accommodation for the rapidly-growing school population; and (2) the disposal of St. Clair-avenue School, which is now practically isolated from the rest of the town by the C. P. R. yards and shops and the Union Stock Yards. Building in that corner of the town is necessarily at a standstill, but elsewhere houses are being erected at a rapid rate. The board of health has been agitating for an isolation hospital for several years, and it is believed that the St. Clair-avenue School would fill the need. The sale of this building would assist the board very materially in solving the first problem. If it were practicable, the removal of the building to the east side of Keele-street, in the neighborhood of Mulock-avenue, would accomplish the same purpose.

A gold-headed cane, accompanied by an illuminated address, was presented to Bro. W. H. Allison, general chairman of the C. P. R. telegraph system, Division No. 7, at a largely-attended meeting of telegraphers in Thompson Hall last night. Afterwards all adjourned to Kilburn block and had supper.

Setting fire to dry grass by mischievous boys gave the firemen several runs yesterday. Two alarms were rung from Box 23, Pacific and Humberside, where the burning grass set fire to the sidewalk. In the same way fire caught in the fence around St. Clair-avenue School yesterday, and was put out by the firemen. A house occupied by Mr. McKinley in the southern part of the town also caught fire from burning grass, whilst the family were away, but fortunately Mr. Massecar and others saw it in time to prevent any damage beyond a slight scorching.

Acting upon instruction, Deputy Chief of Police Flintoft arrested William Reid last night and locked him up until the arrival of city policemen, who took him to Toronto. Reid, who is still in his teens, was convicted in the Junction Police Court a couple of months ago of stealing a watch from a man named Stoneman, who works in the Gurney Foundry.

Thirty-four liquor licenses will be dealt with by the West York License Commissioners at their meeting on April 19. The meeting will be held in the town hall, and explicit instructions will be given to each applicant.

The degree of doctor of divinity has been conferred upon Rev. George C. Pidgeon, pastor of Victoria Presbyterian Church.

A special meeting of the town council will be held to-morrow night to deal with the bylaw to extend the fire limits.

The officers and directors of the Toronto Sand-Lime Brick Company will be elected at a meeting to be held in T. J. Smyth's office, East Dundas-street, to-morrow night.

There are 56 cars of cattle at the Union Stock Yards to-night.

The St. Clair-avenue level crossing of the G. T. R., C. P. R. and Toronto Suburban Railway was the scene of a miraculous escape. The gates at the crossing appear to be out of order, so they were up last night when the Davenport car came along with a half-dozen passengers, and the latter missed death by about five feet.

"I never want to be nearer death," said ex-Policeman Robert Harper, who was on the car. "It just made my hair stand on end when the train's searchlight blazed suddenly upon us and the train rushed past within five feet of us." There will probably be an investigation.

Rev. Mr. Morris, Rev. Mr. Starr and Rev. Mr. Jackson preached anniversary sermons in Davenport Methodist Church to-day. The anniversary entertainment will be held to-morrow evening.

Weston.

The regular meeting of the High School Literary was held on April 7. The Budget, their semi-monthly periodical, was read, and a selection from the Pickwick papers, a solo and short speeches by Mr. Kennedy, Miss Lougheed and Miss Brown, were given. Miss Brown spoke very appropriately on resigning her position as editor-in-chief of The Budget. Souvenir numbers of the paper have been gotten out at no small amount of pains or expense. Copies can be had either from the editorial staff or at the Postoffice Drug Store, Weston.

North Toronto.

H. Harvey has purchased a lot of 100 feet on Heath-street, Deer Park, and will erect a residence on the property.

H. Clapperton has commenced the erection of two large residences on Castlefield-avenue, Eglinton.

The Mount Pleasant Cemetery authorities are said to have mapped out a large section of new territory for disposal as burial lots this season. The lots will be in the territory thru which North Toronto and Deer Park ratepayers are asking a road to be opened. At a special meeting of the North Toronto Council on Wednesday night, Councilor Murton will point this out and ask that a plan for the proposed road be at once procured, and that the lieutenant-governor-in-council be asked to intervene to prevent the Cemetery Trust from proceeding with the sale of lots until terms can be arranged for a street opening.

With the addition of $100,000 to the town's assessment this year, it is figured out that the rate of the last two years could easily be reduced a mill on the dollar. The town has now the lowest tax rate of any municipality surrounding Toronto, and on a moderately low assessment. One of the largest ratepayers in the town on Saturday stated to The World that the citizens of North Toronto had had the advantages of a splendid council since its separation from York Township. To this, and especially to Mayors Fisher and Davis, he thought the low tagation was due. "I have known many municipalities," he said, "but I have never seen one as free from grafts as North Toronto."

Aurora.

Alex. W. Brodie, financial agent for T. H. Lennox, has given out the statement placing the election expenses of Mr. Lennox at $570.83.

Col. Warling of Sharon has been appointed license inspector for North York, succeeding A. J. Hughes. The appointment has given general satisfaction.

J. M. Willis, accountant in the Ontario Bank and town treasurer, has been granted three months' leave of absence. Mr. Willis has been in ill-health for some time.

Anniversary services were held in connection with the Methodist Sabbath School yesterday. Rev. R. J. Fallis of Newmarket occupied the pulpit morning and evening.

The Toronto and York Radial Railway Company will shortly erect a commodious station in town.

Division court will be held here on Tuesday, Judge Morgan presiding.

Word was received to-day of the death in Chicago of Edwin Radcliff, son of Rev. Thomas Radcliff, at the age of 21 years. Deceased had been attending the Moody Bible Institute since last October. His father left for Chicago on Saturday, but was unaware of the nature of the illness. The young man was employed in the postoffice here for several years and was widely known and respected. The funeral will take place on Tuesday afternoon, but the place of interment will not be decided until the arrival of the body.

The fire brigade was given a run this evening to a bush fire, which started at the head of Spruce-avenue. The damage done was but trifling.

Swansea.

On Sunday the service at St. Olave's Church were of an unusually interesting character, Mr. Ferguson, student, in charge, reading the lessons. A quartet from Trinity College sang "Te Deum in Laudamus," and the canticle "O All Ye Works," with much expression, and the "Jubilate Deo" was nicely rendered. An impressive sermon was delivered by Mr. Breckon of Trinity College. Mr. Ball presided at the organ. Special arrangements are being made for Palm Sunday and Easter week.

Richmond Hill.

To-night at the regular meeting of the Epworth League, Rev. Mr. Grant will give an address on "Christian Liberty."

At the last meeting of the Agricultural Society a purse of $40 was added to the farmers' trot in the speeding class.

A camera club has been organized in town, with the following officers: J. H. Sanderson, president; J. Hormen, vice-president; J. W. Osborne, secretary-treasurer. Associated with these officers will be Miss Lhufeot and Miss Snitzer. There will be monthly exhibitions of work done, together with lectures, papers and criticisms. The first meeting was held on Saturday evening.

The Women's Missionary Society will give an entertainment in the school room of the Methodist Church on Tuesday evening.

Richmond Hill lacrosse enthusiasts propose to put a strong team in the field during the coming season.

MOVEMENTS OF ROYALTY.

Rome, April 9.—It is stated on reliable authority that at the meeting of Emperor William and King Victor Emmanuel at Naples on Friday Morocco was not discussed.

Port Mahon, Island of Minorca, April 9.—King Edward and Queen Alexandra, who sailed from Marseilles Saturday, arrived here to-day and were given a demonstrative welcome. They continued on their cruise this afternoon.

Messina, April 9.—Emperor William spent the day with his family. He was greatly pleased to find Prince Eitel completely recovered. From the Italian battleship Dandola the emperor sent a wireless message to the King of Italy thanking him for his magnificent reception. He will leave to-night for Corfu.

Madrid, April 9.—King Alfonso, accompanied by Senores Montitegui and Cobian, respectively, ministers of war and marine, and their suites, left to-night for Valencia, where the students' strike has ended.

Energetic police measures have been taken, and it is expected that the King will be warmly welcomed.

COMING TO TORONTO.

(Canadian Associated Press Cable.)

London, April 9.—The tenth party of emigrants this year which the Salvation Army is sending out will leave London to-night for Canada. The party will be personally conducted to Toronto by Salvation Army officers.

In addition to the ordinary emigrants, the party comprises men from the army's colony at Hadleigh and other public institutions.

WHEN THE KING VOTED.

(Canadian Associated Press Cable.)

London, April 9.—Replying to a correspondent, Lord Knollys says the only time the King, when Prince of Wales, voted in the house of lords was on behalf of the deceased wife's sister's bill. He never voted against Mr. Gladstone's home rule bill.

PROFESSOR ACCUSED OF ARSON.

Fort Worth, Texas, April 9.—Professor T. R. Dunlap, aged 52, who has been vice-president of Jarvis College at Thorpe Springs, Texas, has been arrested on a charge of arson.

On the night of March 20, the main building of the college was burned.

Artemus Pitcairn Dead.

Pittsburg, April 9.—Artemus Pitcairn, aged 56, vice-president and controller of the Pittsburg Plate Glass Co., died at his home tonight, of pneumonia.

He was one of the best known men in the plate glass business in the country.

Chief Justice Knight Dead.

Cheyenne, Wyo., April 9.—Jesse Knight, chief justice of the supreme court of Wyoming, died to-day. He was one of the founders of the Masonic consistory in Wyoming.

The April meeting of the Toronto Diocesan Board of the Woman's Auxiliary will be held in the schoolhouse of the Church of the Ascension, Richmond-street, on Thursday. As there will be no afternoon session, the meeting will begin punctually at 10 a.m.

The Avenue B.B.C. defeated the Reliance B.B.C. on the old athletic grounds by 12 to 3. Battery for the winners—Sikins and Delcourt.
