THE notorious Jane Doyle turned up in Halifax, Thursday, and was promptly arrested, on the charge of bigamy. One of the city papers reporters learned of her whereabouts and let the Attorney General into the secret.

Munroe, reported at Gloucester had been lost at sea, on the 22nd of August last by the swamping of a dory while alongside of the vessel, leaves a wife and three children at Dartmouth. The deceased was a native of Souris, P E Island, and had been separated from his family for a few years past, only visiting them occasionally. Odbur McMichael, a colored barber of the place, and his son Charles, aged 20, were arrested charged with the shooting. The Titus and McMichael families are neighbors. Wednesday their children quarrelled, and in the evening Titus went into McMichael's shop, when a dispute ensued. After Titus left, McMichael's window was broken by stones Shortly after a rifle shot rang out with the above result The coroner's jury returned a verdict of death by a bullet from a rifle in the hands of Chas. McMichael, and found the said young man guilty of manslaughter.

A terrible catastrophe befel the Monastery of Petit Clairvaux, Tracadie, on the morning of the 4th inst. About one o clock the cry of fire! fire! resounded through the dormitory and the guest department and when the religious and guests arrived at the scene, they plainly perceived that all their efforts would prove futile as the baking and washing houses were enveloped in flames. A strong northerly breeze brought the flames upon the dormitory roof and notwithstanding all the energy and activity displayed, the fire raged and spread until it embraced the four sides of the Monastery. Now at this moment there is not one single vestige of the good old Monastery and its beautiful little church remaining except the bare walls. The damage done amounts to over $20,000. Out of the fine and valuable library not one book was saved. Fortunately the barn and mill were preserved. The portors lodge escaped also, and is now the only habitable building remaining of the old monastery. The disaster will be sad news to the Rev. Father Dominic, the esteemed and energetic Abbot, who is at present in Europe.—Cudot.

THE WEEK'S DIARY.

The great Columbian celebration began in several New York churches last Sunday.

Berlin and Owen Sound, Ont., had heavy falls of snow last Wednesday. There were light flurries at other places.

Lord Tennyson, England's poet-laureate, died at 1.35 Thursday morning, aged 83 years. He was buried in Westminster abbey.

A collision on the Northern Pacific R.R., between Minneapolis and Winnipeg, last week resulted in six persons being killed and twelve injured

The bark M. J. Foley, which sailed from Philadelphia, Sept. 9th for Sagua, was totally wrecked at Julia Key. The bark was built on this Island.

Fifty settlers left Montreal last week for Alberta, N. W. T., in charge of Rev Abbe Morin. They are all French Canadians and will settle in Mounville. This is the third party taken out this year by this priest.

Immigration returns for the past nine months of the present year show that 81,229 immigrants have passed through Winnipeg by way of Port Arthur, destined for points in Manitoba, the territories and British Columbia.

The schooner May Belle reports Aug. 29 was fired upon twice by a Russian schooner, 75 miles north of Behring sea. One shot pierced the schooner above the water line. Dense fog alone saved the schooner from destruction.

The financial statement for the first quarter of the present fiscal year is most encouraging. The revenue aggregates $9,014,097; the expenditure $8,763,097; the surplus $3,901,000, or nearly $600,000 greater than the surplus for the same period last year.

The Newfoundland schooner Reason has been missing since August 15th, and is given up for lost, with a crew of ten men. The captain is reported to have said before sailing that the vessel was unseaworthy and not fit to go on the banks. She was fully insured.

A big Nova Scotia eagle measuring nearly nine feet across the wings was caged on the steamer Christine which arrived at New York Saturday. The eagle took refuge on the ship's yards 100 miles south of Nantucket Shoals. Seaman George Anderson was severely bitten on the arm in capturing it.

Advices from Santos, Brazil, state yellow fever has been raging at that seaport for a month. A deplorable condition of affairs exists, the dead, in many instances, being piled in heaps in long trenches. Three hundred and forty-seven vessels are waiting to discharge their cargoes and quit the docks.

During the exercises of dedicating the World's fair buildings 25,000 people will be crowded into the manufactures' building, the largest number ever assembled under one roof At one end of the building a chorus of 5,000 voices will be massed to shout national anthems and sing the dedicatory ode.

Wednesday night six armed negroes robbed Ben Watkins' store, near Terry, Miss., and killed Watkins. They then went to James Davis's house, killed Davis and a negro who lived on the place. After robbing another store they stole three horses and escaped. Bands of negro outlaws are riding country stores in western Mississippi.

A riot took place at Three Rivers, Que., Monday, when the residence of American Consul Smith was stoned and the windows broken. The official had sent a report to his government to the effect that Three Rivers was nothing more than a pest hole and the people exceedingly unclean. The city council has asked for the consul's recall.

The 400th anniversary of America's discovery will be celebrated at Quebec, to-day, with great eclat. A grand musical service will be held in the Basilica, His Eminence Cardinal Taschereau officiating. During the Mass one hundred guns will be fired from Dufferin terrace by a detachment of artillery, and in the evening a literary and musical soiree will be given under the auspices of the Institut Canadien.

Judge Chauveau rendered judgment Monday in three cases for malfeasance of office against ex-Premier Mercier in connection with the disposal made of subsidies to the Baie Des Chaleurs, Hereford and Montreal and Ottawa railways—holding that there was matter for indictment against the ex-premier in all three cases, and ordering the records to be sent before the grand jury of the criminal sessions.

Bob and Grant Dalton and two others of the gang, the city marshall and two other citizens were killed. Emmet Dalton, cashier of the first national bank, and one other citizen was mortally wounded; two citizens slightly injured. The sixth member of the gang escaped. The money obtained by the robbers was recovered.

Attention has lately been attracted to the subject of the unclaimed funds which have been accumulating in the national exchequer for the past two or three centuries by the fact, recently developed, that the new Royal Courts of Justice have been built mainly with the surplus interest on the funds. In 1871 the funds in Chancery amounted to nearly $250,000,000, and some years since Mr Gladstone found it convenient to borrow $250,000,000 of the suitors' money as a national loan.

London newspapers are discussing the advisability of abolishing the office of poet Laureate. All agree England has no poet worthy to succeed Tennyson. Swinburne, it is said, could not consistently assume the office because of his democratic opinions. Wm. Morris who ranks next to Swinburne is equally impossible, being a socialist. If any selection be made it will probably be from among Lewis Morris, Sir Edwin Arnold, Alfred Austin and Robert Buchanan.

Donald McCush and Andrew Thompson, two of the crew of the schooner Maria, seized by Russians, August 12, off Copper island, rescued Victoria, B. C., Wednesday via San Francisco. These two men escaped and will, if possible, induce the government to send relief to their companions, whose condition they describe as deplorable. They say the Russians won't keep the prisoners if they have to feed them. "We heard at Petropaulovsky of one British hunter who tried to row away in an open boat rather than remain longer. When ordered to stop by the Russian patrol, he refused, but was shot dead and his body pitched over board. We were told the cruisers had orders to continue seizing as long as there was a schooner in northern waters and to blow up, or settle any island vessel that could not be conveniently taken care of."

Thomas Lucky, son of James Lucky, who with his wife and daughter were burned to death in their house several miles from South Falls, Ont., has been arrested for setting fire to his father's house. The young man was seen in the vicinity of his home and then traced to Smith's Falls. His clothes are stained with blood, and it transspired that young Lucky was just released from the Central prison, Toronto, where he went for stealing a fur coat. His father at the time of his arrest refused to aid him in his trial, and his son then swore vengence. Saturday, old man Lucky, with his wife, daughter and dog, were discovered in one of the rooms of his house, the outside doors fast locked and the place in flames. The bodies could not be reached and were cremated. Young Lucky stoutly denies having been implicated in the horrible affair, but their is a strong chain of circumstantial evidence against him.

Sporting Notes.

Hal Pointer lowered his record to 2.07¼ in the free-for-all pace at Chillicothe, O., Friday.

At Lexington, Ky., Monday, the 2-year-old race record was lowered to 2.18¼, by William Penn.

Nelson went against his world's record of 2.13¼ over a half-mile regulation track at Trenton, N. J., Thursday, and lowered it to 2.11¾.

J. S. Mitchell, of the N Y A C., on Saturday, threw the 16 lb hammer 145 feet 9½ inches, beating his own world's record of 141 feet 9 inches.

Next Saturday the opening game of football for the trophy, will take place at Halifax. The Wanderers and Dalhousies will be the competing teams.

Windle rode a mile on Hampden Park Springfield, Mass, Friday, with a flying start, in 2 02 3-5, and on Saturday rode a mile, standing start, in 2.05 3-5,

The Capitals and Shamrocks having won the same number of matches, have decided to play the final match for the lacrosse championship on the M. A. A. A. ground at Montreal, next Saturday.

Should the bicyclist Johnson's records be accepted by the Racing Board, it will set all the prominent racing men at work on the kite shaped tracks. Johnson is 20 years old and weighs 140 pounds.

Simple figures do not give one any idea of the speed at which a bicycle must go to attain record result. A quarter of a mile in 27 seconds means only an inch or two less than 49 feet a second. To do this the pedals must revolve three times a second. This gives some idea of what record breaking is.

The rowing match race between the eight of the club of Parisian Oarsmen Cercle de Laviron and the London Rowing Club's eight took place on the Seine, Thursday. The course was two miles. The Frenchmen won easily by a length. The result was a complete surprise to the English spectators.

The following appeared in the St. John Evening Gazette, of Saturday:

The first they won by 127 runs, the second was lost by 24 runs, and the third was drawn on account of cold weather. All Philadelphia made 133 in their first and did not bat in their second.

In the races at Yarmouth, N. S., Friday, the St. John mare Annie Sprague, won the 2 year old class. Time 1.38; half mile heats The farmers race resulted in J A Hatfield's Nellie Winning two heats. Time 2 38 and 2 37. James Robertson's Fred winning the next two heats (time 2 34½ and 3 04) and Charles Ditman's Millemaid, winning the next two (time 3 04½ and 3 01) The money was divided equally between the three horses. The free-for-all trotting was taken by the St. John horse Stanley in three straight heats: best time 2.37; with R E Feltus', Bridgetown, horse Sir Brenton, second. The pacing stallion Jee Howe, 2.23, tried to beat 2 23 for a purse of $50, but the high wind was unfavorable for fast time and he only made 2.30¼.

Jos. McGill, who built and owns the the Shelburne, N. S., schooner "Kingfisher," which is now employed as a fishery cruiser, and recently visited this port, is out with a challenge to race any schooner in Canada on any suitable day between the 20th and 25th of October, over a course, from Point Pleasant Buoy in Halifax harbor, around the automatic buoy at the entrance to Lunenburg harbor, and back to Point Pleasant buoy, sailing outside of Sambro both going and returning, for from five hundred to one thousand dollars a side. Capt. John Hayes, of the Halifax pilot schooner Petrel, will accept the challenge for the Petrel if Mr. McGill would bring his vessel to Halifax and agree to sail under the rules and regulations of the Nova Scotia Yacht Squadron The Kingfisher is 107 tons, the Petrel is 50.

Scrofula was once supposed to be the touch of royalty. To-day, many grateful people know that the "sovereign remedy" is Ayer's Sarsaparilla. This powerful alterative extirpates "the evil" by thoroughly eliminating all the tumorous poison from the blood. Consumption, catarrh, and various other physical as well as mental maladies, have their origin in

SCROFULA

When hereditary, this disease manifests itself in childhood by glandular swellings, running sores, swollen joints, and general feeblenessof body. Administer Ayer's Sarsaparilla on appearance of the first symptoms.

"My little girl was troubled with painful scrofulous swelling under one of her arms. The physician being unable to effect a cure, I gave her one bottle of

Ayer's

Sarsaparilla, and the swelling disappeared."—W. F. Kennedy, McFarland's, Va.

"I was cured of scrofula by the use of Ayer's Sarsaparilla."—J. C. Berry, Deerfield, Mo.

Sarsaparilla

and was cured."—H. Hinkins, Riverton, Neb.
