THE SPORTING WORLD

Beau Brummel is now a strong favorite for the Derby.

Mr. F. Gebhard is reported to have bought Mr. A. Hunter's half interest in Eole for $10,000. Eole won $17,230 last year.

Dr. Carver, incensed at some remarks made by Capt. Bogardus, offers to shoot a match against the latter under any rules for any money at any place.

Mr. John Ellis, late of Clifton, Niagara falls, has opened training stables at Leslieville. He has now over a dozen horses in hand from the States and western Canada preparing for the racing season.

It is stated that Mr. Stewart C. Johnstone, of the Winnipeg Lacrosse club, has been offered and is likely to accept a position on the Canadian lacrosse team, which shortly leaves Montreal for England.

Matt Grace of the Bowery, New York, on whose premises the Fulljames-Gallagher hard glove fight took place on Tuesday night, has been arrested. The authorities are after the principals in the fight.

The London Gun club has re-elected Mr. D. Skirving as president, Mr. Robert Wallace, vice-president, and Mr. A. Chisholm, secretary. A silver cup was presented to Mr. Skirving as the best shot of the club for 1882.

Athletic English: The referee shall have absolute power in the interpretative of these rules, and his decision shall be final in all cases. Should any unforeseen differences of opinion arise it shall be referred to the referee for decision.—Harvard-Yale Regatta Rules.

We are very sorry to hear Harry Gilmour, the popular boxing instructor, is about to leave for Philadelphia to prepare for a prize-fight with George Fulljames. A very successful farewell entertainment was given him at his rooms in the Grand opera house on Tuesday evening, in which Mr. J. F. Schules displayed some of his old-time skill.

Very small cutters of narrow beam are becoming popular in English waters. These are the dimensions of the latest: Length over all, 21 ft; on load line, 16 ft. 2 in; beam, 4 ft 2 in.; draught, 4 ft.; lead keel, 2,160 lbs.; displacement, 4,100 lbs.; mast to bowsle, 13 ft.; boom, 16½; gaff, 10 ft.; bowsprit outboard, 8 ft. 3 in.; foresail yard, 15 ft.; spinaker boom, 25 ft.; area lower cruising sails, 250 sq. ft.

At a recent card party at the house of a popular London dentist the counters used were false teeth. At first the ladies present seemed very sensitive about touching the little white heaps, but as the evening wore on, the more false teeth each fair dame possessed the happier she seemed. When the counters were totalled up at the end of the game there were only three more than had been originally given out.

Regardus, the wing shot, has a twenty-acre home in Logan county, Ill. There is a small orch rd, a house that needs painting, and some rather dilapidated outbuildings. Bogar us is not rich. He made a few thousands on his foreign trip, but is saving that to bet on future matches. One son-in-law farms the place in summer, and tends bar for another man in winter. A third daughter is the wife of a saloon keeper in Chicago.

The Nautilus Rowing club of Hamilton has 120 paid-up members. Forty-eight new members joined in 1882. The officers elected at the annual meeting on Tuesday night were: P. Dewey, president; Fred. J. Harris, 1st vice-president (re-elected); H. Carscallen, 2d vice-president; L. F. Garfield, treasurer (re-elected); and C. W. Graham, secretary (re-elected). Executive committee: A. McAllister, A. Campbell, J. Mills, John Stewart and J. Dillon. Bowing committee: Frank J. Nelson, Wm. Ferris and William Wark. A hearty vote of thanks was tendered Mr. John Stewart, the popular and esteemed retiring president.

The programme for the first week of the Chicago billiard tournament is as follows:—Monday night, Gallagher and Wallace; Tuesday morning, Morris and Heiser; Tuesday evening, Carter and Maggi li; Wednesday morning, Wallace and Carter; Wednesday evening, Morris and Gallagher; Thursday morning, Maggioli and Gallagher; Thursday evening, Wallace and Heiser; Friday morning, Morris and Maggioli; Friday evening, Carter and Heiser; Saturday morning, Morris and Wallace; Saturday evening, Maggioli and Gallagher. The favorites are Carter and Wallace, with Frank Maggioli third choice. The Balke line game is easier than cushion carroms.

The two-fathom man, otherwise Mark Twain, introduced Vignaux to the audience at his billiard match in New York on Monday evening against Sexton. As usual the humor of the introducer was centred in his sublime egotism. He spoke as follows: "Gentlemen: Please give me your attention for a minute. I have been called upon by Mr. O'Connor to introduce the distinguished gentleman from abroad. If there is one thing that I understand and like better than another, it is introducing people. This time I am better fixed than when I was first introduced to the public. On that occasion a prominent citizen said that he would introduce me to the audience if I would find some responsible man to apologize for him after my lecture was over. If there is anything that Mr. Vignaux cannot do, gentlemen, call upon me, and I'll do it." The game was a 200 point balk-line one—the same as that which is to be played at Chicago—and, as already stated in The World, Vignaux won by 800 to 141.

The Fireman.

No hero of olden time,
No valiant knight of story,
In sun or storm of distant clime,
Reaped greater meed of glory
Than he, unknown to birth or fame,
Whose sole reward is but a name—
The gallant Fireman.

None bolder faced the cannon's roar
When bolts of hell flew thick and fast,
As through the ranks the death-shot tore,
And won the bloody crest at last,
Than he whose deeds no songs proclaim,
Whose bugle-blast is but a name—
The dauntless Fireman.

None braver tended couch of death
When Pestilence strode o'er the land,
And watched the gasping, dying breath—
Strong of nerve and gentle of hand—
Than he who fights the scourge of flame,
Whose civic crown is but a name,
The fearless Fireman.

About our hearts a scroll is twined—
A heritage our love shall prize—
Greater than Kings or heroes find,
Because inscribed, SELF-SACRIFICE;
And there he lives, enshrined in fame,
Whose talisman is but a name—
The honored Fireman.

STREET LOAFING.

(To the Editor of The World.)

SIR: Some months ago you took occasion to animadvert upon the growing increase of vice among the rising generation, more particularly as regards the east end of the city, as shown by the number of recorded cases in the police court and other tribunals. Since that time there does not appear to have been any apparent diminution, and it must be regarded as a matter of regret by every respectable citizen that so far from the city becoming more orderly and law-abiding, it is almost daily growing worse. During the past few months several assaults, some nearly resulting in graver crimes, have been committed on King street and the Kingston road, the thoroughfare mostly used by eastern pedestrians and considered the safest. Notwithstanding, however, the rowdyism that is thus rampant in the eastern section of the city; notwithstanding the numerous comments and expostulations by the press and the public, but little appears to have been done to remedy the evil, in the shape of police protection, and apparently nothing to annihilate or remove the cause, which is street loafing. While loafers are allowed full sway of the streets and leave to do as they please by force of numbers, and while the police are absent when needed, of what use is it to prosecute the few detected crimes resulting from this cause? This course seems like a continual battle with the past, while the present is raising up fresh and greater enemies to contend with in the future. The spring list of crimes is not yet to hand. But it is coming as sure as spring itself. The mildness of the last few Sundays has served in a great measure to bring out those parasites of society whose habits are not altogether dissimilar from those familiar to the student of natural history. Heat generates both, the advent of spring being particularly favorable to the evolution of the former species. By all means let the evolution continue. Let it continue until the last has become by process of law a full-fledged jail bird. Thus will Toronto have peace, and thus only.

A Hearty Recommendation.

Jacob A. Empey, of Canamore, states that he has taken Burdock Blood Bitters with great benefit in a lingering complaint, and adds that he would gladly recommend it to all.

There was a young lady in Worcester
Who could crow quite as well as a rorcester,
She could whistle and sing—
Do aim at anything
That boys can, except
That she wasn't adept
At climbing with no one to borcester.

Orin Catlin, 49 Pearl street, Buffalo, N. Y., says: I tried various remedies for the piles but found no relief until I used Dr. Thomas' Eclectric Oil, which entirely cured me after a few applications.

A. D. Weeks, druggist, of Uxbridge, says he never sold any pills that gave such universal satisfaction as the National Pills, and adds, "I sincerely believe them to be the best in the market, and can safely recommend them to my customers."

A lady in Chicago had her face enameled in a smile. Invited next day to a dear friend's funeral, she was obliged to smile through the whole performance. Moral: Beauty unadorned is best.

Dr. W. Armstrong, Toronto, writes: "I have been using Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda for Chronic Bronchitis with the best results. I believe it is the best Emulsion in the market. Having tested the different kinds I unhesitatingly give it the preference when prescribing for my consumptive patients, or for throat and lung affections."

Mr. W. J. Guppy, of Newbury, has used Burdock Blood Bitters, in his family with good effect, and says that Rev. J. R. Smith, has used it, and speaks of it in high terms of praise. It is the great blood purifying tonic that acts upon the bowels, the liver, the kidneys, the skin, and the blood.

"Yes," he said, describing dinner at a certain hotel, "it was just about the worst I ever sat down to. Everything was cold except the ice-cream, and a piece of cake fell on my foot and lamed me for a week."

The cheapest medicine in use is Dr. Thomas' Eclectric Oil, because a very little of it is required to effect a cure. For croup, diphtheria, and diseases of the lungs and throat, whether used for bathing the chest and throat, for taking internally or inhaling, it is a matchless compound.

The great source of consumption and many wasting forms of disease, is scrofula lurking in the system. The true specific for this condition if found in Burdock Blood Bitters; that medicine purifies the blood and builds up the enfeebled system.

They were talking over music and the drama at the table of their host, who, as they were already aware, owed his fortune to his own unaided exertions. "You are fond of Rossini?" asked one of his guests. "Passionately," replied the host. "How do you like his Barber?" "Don't know, sir—never patronized the man; have shaved myself for the last forty years."

Do no violence to the liver and general system by repeated doses of mercury in the shape of calomel and blue pill. Many persons thus dose themselves even without the advice of a physician. The best substitute for such pernicious drugs, and the use of which is never followed by disastrous effects upon the general health, is Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure, which permanently tones the stomach, regulates the bowels, purifies the blood, and gives a healthful glow to the cheek.

"Kind words can never die," and there are none but kind kind words spoken regarding Hagyard's Yellow Oil, that old reliable remedy for external and internal use. It cures rheumatism, deafness, croup, sore throat, and all soreness and wounds of the flesh.

Teacher—"What bird did Noah send out of the ark?" Smallest boy in the class (after a pause)—"Dove, sir." Teacher—"Very well. But I should have thought some of you big boys would have known that." Tall pupil—"Please, sir, that boy ought to know, sir, cause his father's a bird-ketcher, sir."

Mr. Henry Harding of Toronto writes: My little daughter, 7 years of age, has been a terrible sufferer this winter from rheumatism, being for weeks confined to her bed, with limbs drawn up, which could not be straightened, and suffering great pain in every joint of limbs, arms and shoulders. The best of physicians could not help her, and we were advised to try Dr Thomas' Eclectric Oil, which was done, and the benefit was at once apparent; after using two bottles the pain left, her limbs assumed their natural shape, and in two weeks she was as well as ever. It has not returned.

Mrs J. G. Robertson, of Toronto, was cured of general debility, loss of appetite, etc. She says "that life was burdensome until she used Burdock Blood Bitters." She also states that "she feels better than for years, and cannot praise Burdock Blood Bitters too much." The best medicine known for all diseases of blood, liver kidneys.

They were passing through the Natural History museum, and were about entering one of the rooms devoted to ornithological specimens, when one of them stopped back with a look of horror in his visage. "Oh, don't go in there!" he exclaimed. "Why, what's the matter?" asked the other. "Matter! those bills! they send a cold shudder through me."

Mr. W. Maguire, merchant, at Franklin, writes: I was afflicted with pain in my shoulder for eight years—almost helpless at times—have tried many remedies, but with no relief, until I used Dr. Thomas' Eclectric Oil. After a few applications the pain left me entirely, and I have had no pains since.

"Ladies of all ages who suffer from loss of appetite; from imperfect digestion, low spirits and nervous debility, may have life and health renewed and indefinitely extended by the use of Mrs Lydia E. Pinkham's remedies for all complaints incident to the female constitution. We have not only a living faith in Mrs. Pinkham, but we are assured that her medicines are at once most agreeable and efficacious.

"No, aunt," said young Folkestone, "I don't get on well at all with Clara. And, by the way, there's one thing I don't like. I think she puts chalk on her face." "Oh, that's nothing," replied Aunt Goodwin, laughing. "A nice soldier you would make, now wouldn't you? If you can't face powder, George, how can you expect ever to get into an engagement?"

Mr. A. Fisher, of the Toronto Globe, says: "It is a great pleasure in recommending Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure to the public. I have suffered from dyspepsia for some time, and have tried several remedies without receiving any benefit. Being recommended to do so, I used one bottle, and must say that I find the result perfectly satisfactory, not having been troubled with this distressing disease since, and would recommend others similarly afflicted to purchase a bottle at once and try it, as I am satisfied they will receive benefit from its use."

NEW PARLIAMENT BUILDINGS.

(To the Editor of The World.)

SIR: Your independent journal is doing good service in directing our attention to the erection of new legislative buildings and public offices to keep the records of the province safe, and also to be an evidence of our enterprise, as the central province of the dominion. Quebec and New Brunswick have now handsome and convenient buildings for the civil service (recently built). The Mowat government lost a fine chance after getting the finest site arranged for and free from the city in the Queen's park; but politics come in everywhere, and to please D. D. Hay and other county members, and to give them grants for roads and bridges, etc, Mr. Mowat gave way until the election was over, instead of insisting upon doing right on its merits, and upon this we must appeal to every one who is not wilfully blind. The state of Wisconsin has central buildings, spacious and convenient, that cost over $1,000,000, and its resources are not equal to ours; and the province of South Australia has voted four millions sterling for new buildings—$20,000,000—a place that only began to exist as a colony fifty years ago. Every traveler who visits Ontario's capital is astonished at the miserable government buildings, when schools, church and colleges, etc, are so handsome. Surely the legislators of our province should have as good a house to meet in as the very commonest school, and unless Mr. Mowat carries out what has been proposed, he must give way to others who will do so. There is too much trying to please everybody and waiting for outside political support. Let patriotism and right inspire every member of the new parliament to make our senate house safe and respected by visitors, and an exponent of our public spirit, in which every citizen of Ontario will take an interest.

COCOA.
GRATEFUL—COMFORTING
EPPS' COCOA
BREAKFAST.
"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*
