CHILLY TIMES FOR TRADE.

COLD, SNOW AND BAD ROADS CHECK MOVEMENT OF SPRING GOODS.

All Lines Dull Except Hardware—Retailers Don't Want to Look at Summer Wear—Light Buying of Groceries—Stocks of Wheat in Sight—Stocks of Hog Products—Market Reports.

Continued cold weather has had a depressing effect on the drygoods business of the week. The usual lot of small sorting orders have been received, together with a few orders for fall staples. The sorting business is not, however, what the trade expected to be doing at this season. Retail stocks have been broken only to a slight extent, and until warm weather supervenes no spring trade of any considerable extent may be expected. Warm sunshine is now the great desideratum, and it may come any day. When it does local drygoods warehouses will hum with activity. In the meantime retailers are putting the finishing touches to their stocks. A good number of small orders have come in during the week. Spring dress goods, laces, ribbons, gloves, hosiery, silks, velvets, have been going out in a small way. Spring suitings and overcoatings have also been in fair request. Prices are firm and unchanged. Stocks in Canadian woolen and cotton mills are reported sold up closer than for years owing to a brisk domestic demand. There has been another decline of ½c cent per lb. in raw cotton during the week, but it has not affected manufactured articles to any appreciable extent. Payments have been better during the past few days, but are still under the average.

GROCERIES.

The grocery trade has been backward this week. The dulness is attributed to the bad state of country roads, which, it is stated, are yet quite impassable in many districts. At present there is a very light demand for all staple lines, but with the establishment of easy communication between the country retailer and his customers a season of active buying is expected to set in. Notwithstanding unusually limited business prices remain firm. During the week sugars have had another advance. Yellows are quoted now at 4c to 4⅛c and granulated $5.10 to $5.25. Teas are unchanged. Stocks of Japans are getting into smaller compass and on the arrival of this season's crop there will probably be a very small quantity carried here. The prices of canned tomatoes and corn have advanced in American markets to within 5c a dozen of an export basis. Prices here are: Tomatoes, 83½c to $1 a dozen; corn, 85c to $1.40; peas, 85c to $1.40. There is no change in the situation of canned meats or salmon. The recent decline of 1½c in No. 6 green Rio on the New York Coffee Exchange has had no effect on prices here, as the decline is looked on as merely a temporary fluctuation. Valencia raisins, off stalk, are quoted at 4¾c to 5¼c and layers at 6½c to 7c. Figs, dates and other lines of dried fruit are quiet and unchanged. No special feature has developed in spices. Tobaccos steady and in fair request. Payments are still unsatisfactory.

HARDWARE.

The increased buying which set in on April 1 is still well maintained. A very satisfactory demand is reported for harvest tools. In fact, there has been such an influx of orders that shipping rooms have been unable to get out the goods fast enough. Nails are now going out in car lots, the retailer thus taking advantage of the 5c rebate regulation. Input in has advanced 1c per lb. and is now quoted at 2½c to 2¾c. Other metals are unchanged. Antimony is steady and stocks carried here are light. Payments are showing some improvement during the past few days.

BOOTS AND SHOES.

The cold weather and snow of the past week has practically put a stop on business. Retailers do not want to look at any more spring goods until they see some indications of spring weather. Sales of all kinds of spring wear, especially tan goods, have been very light of late. Payments are fair.

LEATHER.

Dealers report a good steady demand for black and sole leather from local and eastern boot and shoe factories. Some of the factories are working over time, and all are cutting up a large quantity of leather. Some export business has been done this week. The usual enquiries have been coming in from England, and a small amount of business has resulted from them. A car of Spanish sole went to England on consignment. Prices are steady and unchanged:

Manufacturers' sole	No. 1	19c per lb
" "	" No. 2	18c "
" "	" No. 3	16c "
Jobbers' sole	No. 1	24c "
" "	" No. 2	22c "
" "	" No. 3	20c "
Slaughter sole, according to selection		22c to 24c "
Heavy harness, according to selection		24c to 28c "
Light harness		18c to 24c "

HIDES AND SKINS.

A quiet trade has been done in hides and skins at unchanged prices. The few lambskins that are coming in are selling at 15c to 20c each. Calfskins are bringing 9c for No. 1 and 7c for No. 2. Sheepskins are quoted at $1.20 to $1.40, according to size and the amount of wool on them. Prices paid at country points for hides are 4c to 4½c, according to condition of stock. Toronto inspected butchers' hides are quoted at 4½c for No. 1, 3½c for No. 2 and 2½c for No. 3. Buff selections are quoted at 5½c for No. 1, 4½c for No. 2 and 4c for No. 3.

WOOL.

This is the dull season of the year. There is nothing new to note this week. A fair quantity of pulled wool is coming forward, for which there is a fair demand from manufacturers. Receipts of fleece wool are nil, with no demand to speak of. Prices, as follows, are unchanged: Clothing wool, 21c to 22c; combing, 19c to 20c; super, 21c to 22c; extras, 25c to 27c; rejects, 17c; pickings, 9c.

Packers Versus the Leather Trust.

The Canadian market for hides depends just now on the outcome of the contest between Chicago packers and the leather "trust." This "trust" has been organized and has a capital stock of $100,000,000. One of the features of the leather business, as conducted by the "trust," is to be the reduction of competition in buying raw material. A regular buying committee, who will do all the buying for the "trust," is to be appointed, and by decreasing competition in buying it is thought that prices will rule lower. Chicago packers are exercising a contrary influence on the market. They are holding out for higher prices, and in the meantime are allowing stocks to accumulate. It is estimated that there are now 750,000 hides in store in Chicago. Representatives of the "trust" made a bid for 150,000 a few days ago, but packers refused the offer. The action of the Chicago holders is keeping the market firm, but should they accept lower prices there will probably be a break in the Canadian market.

Grocery Credits.

"I see that a statement is made to-day," said a Front-street grocery man, "to the effect that almost any man with $100 can come in and get $400 or $500 worth of credit and that the trade will be glad to supply him. The statement is simply rot, as the whole street knows. Speaking for ourselves 65 per cent. of our trade is a cash business."

A Place for a Favorite.

Chief Inspector Ball of the City Health Department has resigned.

THE JAIL STEWARD

Must Keep the Books and Do Without a Horse and Rig.

In reply to a question submitted to the Property Committee recently, the duties of the jail steward, to which position Mr. John McMillan was recently appointed, were defined at a meeting of a sub-committee of the Property Committee at the City Hall yesterday afternoon.

The importance of the business lies in the settlement of the dispute between the governor and steward of the jail over who should keep the books. The Governor insisted that the steward should do the bookkeeping, and the sub-committee has supported his views.

Because the telephone and street car service to the jail now gives necessary convenience in ordering goods, the sub-committee recommend that the horse and vehicle for the use of the jail steward be dispensed with and the allowance therefor discontinued.

The appointment of John McMillan as jail steward at $1200 a year was recommended.

Reduction in Price of Gas.

The Consumers' Gas Company has decided to reduce the net prices of gas from April 1, inst., as follows:

For 200,000 feet and under a year, from $1.12½ to $1.05 1000 cubic feet.

For over 200,000 and up to 500,000 cubic feet a year, from $1.05 to $1 1000 cubic feet.

For over 500,000 cubic feet a year, from $1 to 90 cents 1000 cubic feet.

For heat and power, supplied by separate meters, from $1 to 90 cents 1000 cubic feet.

St. Augustine's Church.

The cottage meeting at 564 Parliament-street will have unusual attractions on Thursday evening at 8 o'clock. Mr. J. C. Davis and Mr. J. McLeish will hold forth in song and speech, and Miss F. Davis, who is leaving for Bishop Taylor's work, will give a farewell address.

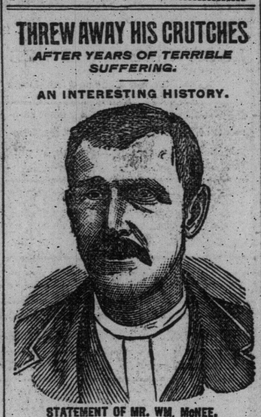
THREW AWAY HIS CRUTCHES

AFTER YEARS OF TERRIBLE SUFFERING.

AN INTERESTING HISTORY.



STATEMENT OF MR. WM. McNEE.

For eight years I was troubled with a sore on my leg which resulted from having it broken. The doctors kept me in bed five months trying to heal it up, but all to no purpose. I tried all sorts of salves, liniments, ointments, pills and blood medicines but with no benefit. In 1883 it became so bad that I had to sit on one chair and keep my foot on another for four months. I could not put my foot on the ground or the blood would rush out in a stream and my leg swelled to twice its natural size.

ELEVEN RUNNING SORES

developed on it which reduced me to a living skeleton (I lost 70 lbs. in four months). Friends advised me to go to the Hospital; but I would not, for I knew they would take my leg off. The doctor then wanted to split it open and scrape the bone, but I was too weak to stand the operation. One old lady said it had turned to black erysipelas and could never be cured. I had never heard of Burdock Blood Bitters then, but I read of a minister, Rev. Mr. Stout, who had been cured of a severe abscession in the leg by B.B.B., after medical aid had failed, and I thought I would try it. I washed the leg with the Bitters and took them according to directions. After using one bottle I could walk on crutches, after taking three, I threw away the crutches, took a scythe and went to work in the field. At the end of the sixth bottle my leg was entirely healed up; pieces of loose bone had worked out of it and the cords came back to their natural places again. That was nine years ago and it has never broken out since. I can walk five miles to-day as fast as anyone, and all this I owe to B. B. B., which certainly saved my leg, if not my life. I cheerfully recommend it to all sufferers. Give B. B. B. a trial, it will cure you as it did me.

Yours truly,
WM. McNEE, St. Ives P.O., Ont.

Lower English and American Markets—Local Stocks in Better Demand—A Nervous Feeling—New York Stock Gossip—Cotton Easy—Business Embarrassments.

Looks as if some of the narrow margin speculators in local stocks will get shook out.

Northwest Land rallied quickly yesterday on a few buying orders.

A grain broker who has just returned from Chicago says the clique has not yet let go of the May deal.

Consols are at high water mark—99 1-16 for money and account.

Cotton opened up strong, but the close indicates that the shorts are still powerful. May closed at 7.57c, June at 7.65c and July at 7.72c.

Grand Trunks are firmer at 50⅝ for first preference and 30⅝ for second preference.

Receipts of hogs at Chicago yesterday were 20,000; estimated for to-day, 15,000. Prices 5c to 10c higher.

Yesterday's New York sugar quotations were: Sugar steady; standard "A" 4 15-16c to 5 1-8c; confectioners' "A" 4 15-16c to 5c; cut loaf and crushed, 6⅝c to 6 11-16c; powdered, 5 3-16c to 5⅝c; granulated, 4 15-16c to 5⅛c.

WEDNESDAY EVENING, April 19.

There was more doing in local stocks to-day, and the tone showed some improvement, but the feeling is still very nervous. If the money stringency continues it may bring prices to a still lower level. Commercial Cable and Bell Telephone were the weak features of to-day, the former selling down to 142 straight and the latter closing at 147 bid. A few buying orders to-day brought Northwest Land up again; the decline of yesterday, is more than recovered. C.P.R. is also better. Consumers' Gas, Toronto Electric Light, Hamilton, Commerce and Montreal all closed at advances on yesterday's close. Merchants' and Standard closed at a decline. Total transactions to-day were 965 shares, among which was a 500 block of London and Canadian. Quotations are:

TIPS FROM WALL-STREET.

Munro, Miller & Co. of New York, send the following despatch over their private wire to their Toronto office:

NEW YORK, April 19.—The stock market opened excited and irregular, the Gould stocks being the weak feature. Distillers was weak on the announcement that there had been a disagreement among the directors and on sales for western account. Missouri Pacific was lower on a rumor from St. Louis, unconfirmed, that steps might possibly be taken to place the road in the hands of a receiver. National Cordage was strong and in good demand. St. Paul was also strong and advanced on purchases by commission houses. Holders of grangers should remember that it is now only 12 days before the opening of the World's Fair. This exhibition means undoubtedly exceptionally larger passenger earnings for the Lake Shore, R.I., B.O., St. P. and other roads. The bears in the grangers cannot expect to make any headway without the support of insiders, and there is little probability that they will get it at this juncture. There is a rumor to the effect that the violent fluctuations in Manh. reflect the dissolution of a pool. There is a like rumor about Chicago Gas. Brown Bros. have advanced sterling rates to 4.88 to 4.93. When George J. Gould was asked about the probable appointment of a receiver for Mo. P. he said, "There is not the slightest particle of truth in the matter. It is made out of whole cloth. The floating debt is $4,000,000 and is held by Mr. Russell Sage and myself."

Grain and Produce.

Wheat—Continued weakness of British markets and lower prices in all grain centres on this continent was the feature to-day. Local trade is very dull, the feeling depressed and prices are erratic. A small lot white wheat west sold to-day at 66c, and in the afternoon 6 cars of red wheat were sold at 68c. Spring is quoted at 69c and goose at 60c. Manitoba are dull and prices easy. The demand from Ontario for Manitoba wheat is almost nil.

Rye—Nominal at 54c outside.

Peas—A lot of 5000 bushels sold C.P.R. west at 57c.

Oats—Steady. White sold west to-day at 31c and are quoted on track at 32c.

Barley—Very quiet. No. 1 is quoted nominally at 44c, No. 2 at 40c and No. 3 extra at 37c to 38c.

Buckwheat—Still was selling at 50c outside.

GOSSIP FROM CHICAGO.

R. Cochran received the following from Kennett, Hopkins & Co.:

CHICAGO, April 19.—Wheat opened weak on report of rain in Kansas. There was good buying that started the price up, but the weakness in May wheat which sold off 2c to 73½c, checked the bullish feeling in July. Many traders believe clique is getting out of May, and while this is going on they would rather be short of July. Although they admit that conditions favor an advance, weekly Government weather bulletin emphasizes the damage in Nebraska, Iowa, Kansas and Missouri, and impairment in Texas is indicated. Prospects for spring wheat seeding are shown to be discouraging. The fact that the Pope has ordered prayers for rain throughout Italy indicates that the situation there is bad. It is said the drouth is also severe in Southern Europe and Russia. The crops have suffered great damage. Corn and oats weak on improved crop prospects. Provisions better; looks as if long side on soft spots would be winning one.
