Chicago Gossip.

Marshall, Spader & Co. wired J. G. Beaty at the close:

Market opened firm about ⅜c to ½c above yesterday, on the strength of small Argentine shipments. Selling by local longs and commission houses on resting orders forced prices down again fractionally. Pit crowd is general short at the higher prices and bearish. The news generally was bullish.

Good buying orders for investment appeared on the decline, and the market received some support on the report of higher Liverpool cables.

As the longs are pretty well liquidated, they are in a position to give aggressive support, and, with a continuation of bullish news, prices should hold pretty well at this level.

Ennis & Stoppani wired to J. L. Mitchell:

Wheat—The wheat market, taken as a whole, to-day was a very satisfactory affair, as it showed excellent recuperative powers, and, in spite of very aggressive selling by some of the local bears, closed strong at a good advance over last night. The most important bull help was the strength shown by Liverpool, in face of our weakness yesterday, and their confidence in values was further demonstrated by export sales of 250,000 bushels from this country. The domestic news was of the same monotonous character—small receipts in the northwest and at all primary markets, with export clearances in excess of last year at 312,000 bushels. The weather was cold everywhere thruout the west and southwest, and, in spite of optimistic crop talk from those sections, St. Louis and Kansas City markets were relatively stronger than ours. We believe we have had all the break we are going to get on this reaction, and that the next stopping place will be around 80 cents, as the technical position of the market is greatly strengthened by the profit-taking and short selling for the past few days, as it is evident that the wheat thus sold has all gone into strong hands.

Corn and Oats—The cold weather, resulting in larger receipts and freer country acceptances, caused weak markets in both corn and oats to-day, and had it not been for the strength in wheat, they probably would have been weaker still. Cash markets were decidedly weak. There has been some enormous profit-taking in the corn market this week, and we expect some further reaction. We are particularly bearish on oats, as we think they are the highest grain on the list.

The wheat market was very irregular all day, but with a firm average, on account of good bull support on all setbacks. This was due to light receipts, steady cables, a bullish Modern Miller review, and continued unfavorable weather news from Europe. It closed ¼c to ½c net higher. May 85c to 85⅜c, closed 85⅜c; July 84⅝c to 84¾c, closed 84⅝c.

SMALLPOX IN BARRIE.

Patient Ill for Several Days Before Case Was Reported.

A case of smallpox has been reported in the Town of Barrie by Dr. Bell. The patient had been ill for some weeks, but the case had not been reported to the local authorities by the physician in attendance. Immediate steps were taken as soon as the matter was reported to prevent a further spread of the disease. Smallpox has also been reported in East Luther Township, and a fresh centre has been discovered at Chinguacousy, Peel County.

The monthly returns for December, 1906, as received from the division registrars of 720 municipalities, with a population of 1,961,000, give the deaths registered for the month from all causes as 2106, which is a rate of 12.8 per 1000 of the reporting population, being slightly lower than in 1905.

The following table permits comparison of the returns for the same month of the years 1904, 1905 and 1906. The figures for 1906 indicate a slight excess of deaths for measles and typhoid fever, tho unfortunately the imperfect notification of cases of this disease by the medical profession does not enable the chief health officer of the province to draw any satisfactory conclusion other than that physicians not notifying are liable to a fine not exceeding $20 for each and every unreported case.

ROGER STOVEL DEAD.

Succumbs in Jamaica Where He Had Gone for Health.

A cablegram received yesterday from Jamaica conveyed the intelligence of the death of Roger D. Stovel, for many years connected with the Traders' Bank, and who, with Mrs. Stovel, their little son and Miss Birchall, a friend of the family, left in the latter part of November for Jamaica with the hope of regaining the health of Mr. Stovel. A letter received from the party the day before the earthquake stated that Mr. Stovel was very ill, and a few days later a cable message acquainted the friends of the death of the little boy. Yesterday the simple message, "Roger dead" told the story of the doubly bereaved wife and mother.

Roger D. Stovel was born in Toronto, his mother being Mrs. A. W. Smith of 480 Jarvis-street. Brothers are: C. J. of San Francisco, Roy of Seattle, and Rex, also of the U. S. Mrs. Stovel is a daughter of the late Dr. Davies of this city. Mr. Stovel was only 34 years old. He had been identified with the Traders' Bank for 15 years, and had risen from a subordinate position to that of assistant accountant in the head office. In the early period of his connection with the Traders' he was stationed in Orillia.

Missionary Reports Liberal Contributions to the Good Work.

Rev. W. Shoup, Methodist missionary to the Canadian Indians at Nelson House, Keewatin, has written the mission offices to the effect that his mission will soon be in direct communication with civilization thru the projection of the Hudson Bay Co.'s railroad, which is surveying within 10 miles from his charge. Nelson House is 100 miles north of Winnipeg. Mr. Shoup expresses much gratification at the generous manner in which the Indians respond to appeals.
