WHEAT FUTURES ADVANCED

Sharp Rise in Cereals at Chicago Yesterday.

The Public and Traders Took the Government Crop Report as Bullish in Tone—Heavy Depreciation in Condition of Spring Wheat During the Month of June—Local Live Stock Item—Notes.

World Office,
Wednesday Evening, July 11.

In Liverpool to-day the quotation on July wheat options was only nominal, but the September delivery advanced nearly 1d per cental. Liverpool maize declined ¼d to ⅝d. Flour easier.

Chicago wheat futures advanced nearly three cents per bushel to-day and retained two-thirds of the rise at the close. Chicago corn futures advanced over a cent per bushel. The rise in both cereals was on buying on Government crop report, which was considered bullish.

Stocks of wheat at Port Arthur and Fort William on July 9 were 1,520,202 bushels, as against 1,845,583 bushels a year ago.

Receipts of wheat at Minneapolis and Duluth to-day, 165 cars, as against 413 cars last year.

Government Crop Report.

The United States Government crop report, issued yesterday, is bullish in character. It shows condition of winter wheat on July 1, 1900, as 80.8, against 82.7 a month ago, and 65.6 on July 1, 1899, and 85.7 on July 1, 1898. Spring wheat condition on July 1, 1900, 55.2, against 87.3 a month ago, 91.7 on July 1, 1899, and 95 on July 1, 1898.

Corn condition July 1, 1900, was 89.5, against 86.5 a year ago, and 90.5 two years ago.

Statistician Brown of the New York Produce Exchange, according to indications reported by Agricultural Department July 1, estimates crops as follows: Winter wheat, 333,769,000 bushels, against 296,679,000 in 1899. Spring wheat, 176,589,000 bushels, against 250,624,000 bushels. Total wheat, 510,356,000 bushels, as against 547,303,000.

The Government report on oats indicates about 725,000,000 of bushels, or 50,000,000 less than indicated in June.

Chicago Gossip.

J. J. Dixon has the following this evening from Chicago:

Wheat opened strong with good trade. There was some setback early in realizing sales and selling for short account. Later, under large volume of trade, values were advanced sharply, but not fully maintained. Cash demand was very good in Kansas hard and bids were nearer market for No. 1 Northern. Primary receipts were slightly over half last year. Southwestern markets all reported good cash demand at premium over futures. Market has good undertone and looks higher.

Corn—Prices have been firm and generally higher, at one time selling ⅝c over yesterday's close, with a large trade. Country acceptances were extremely light, and cash demand good. There was some selling around the opening by crowd on increased acreage as shown in Government report. Buying, however, by commission houses and shippers, together with reports in Kansas and Nebraska, the maximum temperatures yesterday being 98 and 76 to 77 this morning early, with the forecast for clear and hot weather to-night and to-morrow, turned early sellers buyers. There was some realizing by local traders at the top, causing some setback. Clearances fairly large, 615,000; receipts 439 cars, against 385 estimated; 425 estimated to-morrow.

Oats—There has been a fairly good outside trade to-day, with commission houses and shippers the buyers. Prices closed about ⅝c over yesterday. Government report was bullish. The strength in wheat and corn has also been a factor; cash demand good.

Provisions opened steady and then ruled weak and lower on selling by commission houses and local operators. On the decline packers bought freely of September product. Estimated hogs to-morrow 29,000.

THE CATTLE MARKETS.

No Change in Cables—Lower Tendency in New York.

New York, July 11.—Beeves—Receipts, 2415; steers and fat cows steady; bulls, 10c to 15c off; medium and common cows, 15c to 25c lower; steers, $4.70 to $5.85; bulls, $3 to $4.40; cows, $2 to $4.25. Cables unchanged. Shipments, 5316 quarters of beef. Calves—Receipts, 5014; slow trade; market

CANADIAN ISSUES BUOYANT.

Sharp Upturn in Several Stocks on Wall Street.

Western Assurance and Canadian Pacifics Higher—An Advance in Union Pacifics—Dun's Statement of Canadian Business Failures for the Second Quarter of 1900—Notes.

World Office,
Wednesday Evening, July 11.

Canadian securities manifested an improved tone and upward tendency to-day. C.P.R. sold up to 89⅝, and closed fractionally higher than yesterday. Western Assurance, which sold at 127 yesterday, brought 129 to-day, and closed 128¾ bid, with 130 asked. The liquidation in this issue, due to the calling up of unpaid capital and the reduction of the dividend rate, seems to be over. Central Canada Loan brought 135, and Canada P. & W.C. sold for 112. On the Montreal Board, Royal Electric advanced sharply, and the Street Railway issues were steady to strong. Mining issues quiet but steady.

* * *

Forget's cables to-day quoted G.T.R. first preferred at 85⅝, second at 55⅝, third at 21½; C.P.R., 92¼; Hudson Bay, 23⅝; Amalgamated Copper, 81⅝.

* * *

Montreal Street Railway earnings for Tuesday, $5400.54, an increase of $113.36 over corresponding day of 1899.

Notes by Cable.

Consols advanced 1-16 in London to-day.

In London, American securities opened good, with prices in most cases higher. Later there was a decline and the market showed a disposition to wait for New York's lead. The close was dull.

Amount of bullion withdrawn from the Bank of England on balance to-day was £228,000.

In London, India Council bills were allotted to-day at 1s 3 15-16d.

Berlin exchange on London, 20 marks 43¼ pfgs. for cheques. Discount rates short bills, 3½ per cent. Three months' bills, 4 per cent.

In Paris, 3 per cent. rentes, 99f 97½c for the account. Spanish fours, 71.61½.

On Wall Street.

New York, July 11.—The bull manipulation in Union Pacific turned the market from a reactionary course to-day and made the tone during the latter part of the session of the Stock Exchange strong throughout. The later strength was not sufficient in all cases to entirely wipe out the earlier losses, but they were in all cases much reduced. There were times during the day when Union Pacific was practically the only stock which stood firm against the tide of reaction. The Government crop report was favorable to the stock, in that good conditions were reported for the corn crop and a larger yield than expected was also reported for the winter wheat crop being harvested. The Government crop report was an influence in the stock market all day. St. Paul's heavy decrease in earnings for the first week in July added to the weakness in the Granger group, and there were sharp declines in all the prominent members of the group. The corn-carrying roads were relatively firm and the bears, who have sold short in the Southwestern on the crop prospects, were driven to cover. With this exception and some strength in the local traction group and in Sugar and Tobacco, the market became generally heavy. But the persistent strength of Union Pacific finally encouraged a growing bull following, which manifested itself first in Rock Island and then developed in Southern Pacific and Missouri Pacific. In spite of the continued strength in the wheat market and the sharp advance in the price of corn, the market continued pretty steadily upwards from that time until protecting by room traders in the closing dealings caused the irregular tone at which the market closed. There were extreme advances in the market. Rock Island is up 1¾ and Missouri Pacific and Southern Pacific a large fraction. Otherwise the net changes in the leading railroads are small and mixed. St. Paul loses a point net. The decision of international houses not to ship gold on to-morrow's steamer had some favorable effect. Large receipts of gold from the Klondike are fast becoming available for the reserves of New York banks, and the shipment of $1,500,000 from Australia will shortly be added.

Offerings of Government bonds for exchange into the new 2's have shown an increase of late and the payment of premiums on these offsets the demands of the sub-treasury on the banks. These conditions quiet apprehensions over the future of the money market.

J. J. Dixon has the following to-day from Ladenburg, Thalmann & Co., New York:

After an irregular opening, the market gained strength as the day advanced, and in the afternoon the sharp rise in Union Pacific issues made its influence felt in the whole list, while a large part of the business represented operations of professional traders. Commission houses generally reported a slight increase in orders, and signs of reviving interest on the part of the public. Accompanying the rise in Union Pacific were rumors that the next dividend would be 2 per cent., but there was no official utterance on this subject, and the rumors probably were based on unofficial calculation that the figures for the year to be submitted to the directors' meeting early in August will show over 8 per cent. earned on the common stock. St. Paul sagged behind the stocks of the other crop roads, on account of the decrease in earnings for the first week of the month. N.P. was heavy in the morning, but subsequently rallied well. London was not a factor. Demand sterling, $4.86½ to $4.86¾.

Union Pacifics.

We learn net income of Union Pacific from all sources for the year ending June 30, excluding only land sales, amounts to something in excess of twenty millions. Deducting from this fixed charges for the whole system of eight millions approximately, leaves available surplus in excess of twelve millions. Preferred dividend called for about four millions, in round figures, so that there is left for common surplus in excess of eight millions, being equivalent to over 8 per cent. The board will meet about the first week in August and unless something unforeseen develops it will place common on a 4 per cent. basis of dividends.

Railway Earnings.

St. Paul earnings, first week of July, $682,023, a decrease of $110,248.

Missouri Pacific increased $38,000.

Ontario & Western, $75,592; increase of $184.

Texas, $118,307; an increase of $2600.

M.K.T. increased $23,000.

The Money Markets.

The local money market is steady. Money on call, 5½ per cent.

The Bank of England discount rate is 3 per cent. Open market discount rate, 2⅝ per cent.

Money on call in New York at 2 per cent. to-day.

Foreign Exchange.

Buchanan & Jones, 27 Jordan-street, Toronto, stock brokers, to-day report closing exchange rates as follows:

	Between Banks. Buyers.	Sellers.	Counter
