BUSINESS IS GOOD

Encouraging Trade Reports From Various Sections of the Dominion---The Outlook Bright---State of Trade in the States.

Toronto, Oct. 5.—Bradstreet's trade review, weekly summary:

The fall trade at Montreal is showing considerable activity, and the movement appears to pretty well up to expectations. Retailers are sending a good volume of sorting orders for various lines of staple goods, and apparently they look for a considerable increase in business this month. Payments this week have been very fair.

At Quebec the wholesale trade, as a rule, report business somewhat quiet since the commencement of the week, though some renewals have been asked, payments are fairly satisfactory for the season. Owing to the lowness of the water in the St. Lawrence, west of here, it is more than probable that the docks will be fully utilized in accommodating vessels of deep draught for the discharging and loading of cargoes for the balance of the season. The bush fires in the Quebec and Lake St. John district have not done so much damage as at first reported, and with a little leniency the sufferers, it is thought, will be able to live over any difficulties.

Business at Toronto this week has been quite active. Travelers' orders call for full lines of seasonable goods to assort stocks for the fall and winter, and to cover a wide range. The general outlook for business this month is very promising. Stocks in the hands of retailers are not excessive, and large purchases must yet be made to keep pace with the demand that will be experienced before the winter comes in. Values of goods in the hands of jobbers are mostly firm, there being little or no disposition to cut prices. Payments are very fair.

There has been quite an increase in the volume of trade at Hamilton. Travelers' orders are large, and in most cases retailers are calling for prompt shipment. Payments have been better since the marketing of farm produce increased.

In London there is more activity in the jobbing trade. The large attendance of farmers at the country markets, bringing in grain and other produce, created a better and improved payment. The outlook is bright.

The royal visit at the coast cities had the effect of stimulating trade in a good many retail lines, and jobbers at Vancouver and Victoria have many sorting orders to fill as a result the past two weeks. The fall trade is picking up. Payments are only fair.

There is considerable activity in wholesale circles at Winnipeg, in spite of the harvest operations having been checked by the wet weather. Payments are not as good as expected, the delay in marketing the grain having retarded the expansion in the circulation looked for.

Trade at Ottawa is of increasing proportions. The demand for supplies for inland river points and for camp supplies is now quite active. Travelers are sending in some nice orders for sorting stocks, and the outlook for retail trade is generally satisfactory. Remittances are improving a little.

IN THE UNITED STATES.

New York, Oct. 5.—R. G. Dun & Co.'s weekly review says:

Trade channels are remarkably free from obstruction, although the movement of goods at some points is checked by insufficient transportation facilities. This is a tribute to the unusually heavy shipments which are shown more definitely by railway earnings, in September 9.2 per cent larger than last year and 16 per cent above those of 1899. Manufacturing is of such vigor that few wheels are idle, and further, wage agreements have reduced the number of strikes to a minimum. Mild weather, yacht races, and other temporary influences curtailed the volume of retail sales in this vicinity, but jobbing and wholesale concerns are preparing for exceptional transactions.

Nothing new has developed in regard to the iron and steel situation, and with mills overcrowded to overtake consumption, there is little prospect for any material change in the market for some time.

Finished steel and pig iron sales are of satisfactory volume.

Steadiness is still the feature in the textile markets. There was a tendency to hold back the placing of a new business, particularly in the cotton goods. This was attributed to the expectation of changes in the price of raw material. During September the volume of drygoods sales was well in excess of the same month last year, while the new month opens with stocks and current distribution of a favorable character. Recent advanced quotations are held, and exporters for China are unable to secure even the small reductions. New orders for woolens are slow, but buyers complain of late delivery on old contracts. Wool comes forward freely, and supplies are ample. A slight advance to 17¼ cents was reported in the average price of 100 grades on Oct. 1, according to Coates Bros.' circular.

Supplementary orders for winter footwear made the situation more satisfactory than producers anticipated, while jobbers are unable to secure goods to fill orders. Hides were violently advanced to the highest prices of the year.

Staple products have declined moderately, as a rule, with the exception of cotton and pork products. The variation was widest in corn, as might be expected, as that cereal was inflated much more than any other commodity. Cotton was easier until the official report appeared, when the low condition caused a sharp advance. A severe decline occurred in refined sugar in the local market, while at points where domestic beet sugar competes the reduction was still greater.

Reports show liabilities of commercial failures in the United States for September, $8,261,373, against $10,024,318 last year. Failures this week number 205 in the United States, against 268 last year, and 37 in Canada, against 23 last year.

BRADSTREET'S REPORT.

Bradstreet's report says: While speculative markets, except for cotton, show reactionary tendencies, general distributive trade and industry are active, and a heavy volume of business is going forward. The cereals are very generally weak and lower in all markets.

The feature of the week in cotton was the publication of the government's report showing the lowest condition, with one exception, in 18 years. Coming at a time when all the unfavorable features had been discounted, the market quickly responded in a ¾c advance in futures and ½c in spots. Print cloths have been firm, with little doing at the recent advance. Staple cottons have been rather quiet, as regards new demand, but jobbers report a good business in prints, which are rather scarce, and leading manufacturers of ginghams are heavily sold ahead.

New business in woolen goods is quiet, but the mills are busy on winter-wear orders, and a large volume of their spring output has been booked.

Wool is steady, former prices are insisted upon, and consumption is heavy.

Demand for boots and shoes is active, but the high price for hides and consequently of leather, causes complaint of small margins of profit. Sole leather is 1c per pound and calf½c per pound higher than last week at Chicago.

Iron trade reports are the best of the year. Foundry and Bessemer pig iron are very active at Chicago and Pittsburg. Bessemer is 25c higher since January. Finished and structural mills are two to three months behind on orders, and rail orders already booked insure activity far into next year. Tin broke early in the week, but firmed up without, however, regaining the loss of about half a cent a hundred. Spot copper is reported firmer at London, while futures are weaker, but are unchanged and rather dull here.

Wheat, including flour exports, for the week, aggregate 6,195,749 bushels, as against 6,470,352 last week and 4,459,167 in this week last year. Wheat exports, July 1 to date (14 weeks) aggregate 84,848,280 bushels, as against 46,165,393 last season. Corn exports are 13,626,834 bushels, as against 43,103,896 last season.

Failures for the week number 175, as against 197 last week, 177 in this week a year ago, 146 in 1899 and 163 in 1898. For the week there have been 29 failures in Canada, against 34 last week and 18 a year ago.

BANK CLEARINGS.

New York, Oct. 4.—The following are some of the weekly clearings, as compiled by Bradstreet's, for the week ending Oct. 3, with percentages of increase and decrease, as compared with the corresponding week last year: New York, $1,345,207,746; increased 39.2 per cent. Chicago, $189,885,848; increased 15.8 per cent. Boston, $145,000,890; increased 21.0 per cent. Philadelphia, $116,923,760; increased 23.4 per cent. St. Louis, $43,799,220; increased 52.5 per cent. Pittsburg, $43,800,130; increased 43.6 per cent. Baltimore, $22,776,168; increased 4.8 per cent. San Francisco, $26,502,663; increased 7.6 per cent. Cincinnati, $18,193,650; increased 19.13 per cent. Kansas City, $19,429,520; increased 30.6 per cent. Buffalo, $6,531,774; increased 18.6 per cent. Rochester, $2,507,620; increased 11.6 per cent. Syracuse, $1,296,384; increased 24.3 per cent. Binghamton, $320,200; decreased 29.4 per cent. Montreal, $17,457,209; increased 20.2 per cent. Toronto, $12,118,142; increased 16.1 per cent. Winnipeg, $3,167,804; increased 55.8 per cent. Halifax, $1,544,904; decreased 10.8. Vancouver, $927,385; decreased 31.2 per cent. Hamilton, $1,273,444. St. John, N. B., $844,814. Victoria, B. C., $391,484; decreased 32.6 per cent. Quebec, $1,495,742.

A New Departure

A New, Effectual and Convenient Cure for Catarrh.

Of catarrh remedies there is no end, but of catarrh cures there has always been a great scarcity. There are many remedies to relieve, but very few that really cure.

The old practice of snuffing salt water through the nose would often relieve,

and the washes, douches, powders and inhalers in common use are very little, if any, better than the old-fashioned salt water douche.

The use of inhalers and the application of salves, washes and powders to the nose and throat to cure catarrh is no more reasonable than to rub the back to cure kidney disease. Catarrh is just as much a blood disease as kidney trouble or rheumatism, and it cannot be cured by local treatment any more than they can be.

To cure catarrh, whether in the head, throat or stomach, an internal antiseptic treatment is necessary to drive the catarrhal poison out of the blood and system, and the new catarrh cure is designed on this plan, and the remarkable success of Stuart's Catarrh Tablets is because being used internally it drives out catarrhal infection through action upon stomach, liver and bowels.

Wm. Zimmerman, of St. Joseph, relates an experience with catarrh which is of value to millions of catarrh sufferers everywhere. He says: "I neglected a slight nasal catarrh until it gradually extended to my throat and bronchial tubes and finally even my stomach and liver became affected, but as I was able to keep up and do a day's work I let it run along until my hearing began to fail me and then I realized that I must get rid of catarrh or lose my position, as I was clerk, and my hearing was absolutely necessary.

"Some of my friends recommended an inhaler, another a catarrh salve, but they were no good in my case, nor was anything else, until I heard of Stuart's Catarrh Tablets, and bought a package at my drug store. They benefited me from the start, and in less than four months I was completely cured of catarrh, although I had suffered nearly all my life from it.

"They are pleasant to take, and so much more convenient to use than any other catarrh remedies that I feel I cannot say enough in favor of Stuart's Catarrh Tablets."

A little book on cause and cure of catarrh will be mailed free by addressing F. A. Stuart Co., Marshall, Mich., and the tablets are sold by all druggists in the United States and Canada.

THEIR LAST HUNT!

Two Boys Who Went for Ducks Probably Drowned---Two Men Seriously Hurt by Yard Engine.

Port Rowan, Oct. 5.—Two boys, Clarence Rockafellow and Arthur Bantum, went out in a small clinker during a heavy gale on Wednesday morning to shoot ducks, and have not been seen since. Their boat was found filled with water, about two miles out from the shore, anchored, with a vest and pair of shoes in it. On Thursday a party spent all day dragging the bay, and failed to recover the bodies. A pair of pants, a pair of shoes and a gun were brought up from the bottom of the bay near where the boat was found. The boys' ages respectively were 16 and 14.

STOLEN RIDE COST BOTH FEET.

Flint, Mich., Oct. 5.—Oliver Conklin, aged 20, attempted to steel a ride from Imlay City to Flint. When he jumped off in the Grand Trunk yards, in this city, he fell underneath the wheels, and both feet were crushed so badly that amputation was necessary.

SECTION MEN SERIOUSLY INJURED.

St. Catharines, Oct. 5.—S. Nunimaker, of Jordan, G. T. R. section foreman, with his men, was doing some work on the track east of here yesterday morning, when a switch engine came down the grade at a rapid rate, striking Nunimaker and one of his men. Both men are now in St. Catharines hospital. They are badly hurt.

A CROSSING ACCIDENT.

Windsor, Ont., Oct. 4.—Mr. and Mrs. Richard Wigle, of Maidstone township, drove their horse in front of an east-bound car last evening about 8:33. The buggy was smashed into fragments and the harness torn into shreds. The horse escaped without injury. The occupants were carried into a doctor's residence, where their wounds were dressed. Mrs. Wigle was severely cut about the head and body, her scalp being cut in several places. One rib was also broken. Mr. Wigle escaped with a few bruises.

DIED FROM HIS INJURIES.

Howell, Mich., Oct. 4.—Leonard Hook, who was attacked by a vicious bull yesterday, died last night. The bull has been dehorned. Hook's collar-bone was broken in two places. His faithful dog attacked the bull, and undoubtedly saved his master from instant death.

DROWNED IN BEHRING SEA.

Ottawa, Oct. 4.—A press dispatch from Seattle brought the first news to John Culbert, of this city, that his son, James Edmund Culbert, was drowned in Behring Sea some time in August, along with three other men, and that his body had been washed ashore near Nome. Mr. Culbert had been away from the city for some time, and was known to be in the north on mining business.

HANGED WITH A CHAIN.

Detroit, Oct. 5.—Hugh Potter hanged himself in the woodshed of his mother's home at 636 Clinton street, about 12 noon yesterday. He had been out of work about two weeks, and was evidently laboring under considerable despondency. He went into the woodshed at noon, placed a steel chain around his neck, and hanged himself to a beam. His dead body was discovered about half an hour later. He was about 30 years old.

OTHER CASUALTIES.

At Flushing, Mich., John Carmer, aged 68 years, a farmer, living north of this place, dropped dead. He attended the fair and was just leaving for home.

At Rogers City, Mich., Hiram Richards, aged 17, son of E. D. Richards, while employed in Bertram's lath mill, was accidentally hit by a bolt from a lath saw and was brought home and died two hours after, while sitting in a chair.

SHOT IN MOTHER'S ARMS.

Toronto, Oct. 4.—A terrible accident occurred this morning at the residence of Mrs. Chater, 304 Lippincott street, by which her brother, a little nine-year-old boy, shot and instantly killed the 19-months-old girl baby of Mrs. Chater in her mother's arms. The boy came into the dining-room of Mrs. Chater's residence with a message for her, and after delivering it he lifted up a gun that was lying in a corner, and began examining it. Then, not knowing it was loaded, he pointed it at Mrs. Chater and the baby in her arms and fired. The bullet struck the child in the head and killed it instantly. The police, after inquiry, decided that the terrible affair was entirely accidental.

PURELY ACCIDENTAL.

Montreal, Oct. 4. — Of the three seriously injured men, as a result of the railway accident yesterday, Baggageman Nellies has a broken leg and arm, with internal injuries. His case is considered serious. Fireman Dodds, whose face is burned and an arm dislocated, is in a favorable condition, as also is Mail Clerk Lachance. The coroner's jury's verdict this afternoon was that the deaths were accidental, and no one to blame. In his endeavor to prevent a collision, which he knew to be certain unless providentially prevented, the dispatcher ordered a spare engine to endeavor to catch up to on of the trains and attract its attention.

DRAGGED TO DEATH.

Clinton News-Record: One of the most distressing accidents which has ever happened in Goderich township took place on Wednesday forenoon on the Bayfield line, in which Thomas A. Elliott, youngest son of Mr. Gabriel Elliott, lost his life. He was coming to Clinton with a load of apples for shipment—there were 18 barrels on the wagon—and shortly after descending the small hill at Herbison's corner, the sad affair took place. No human eye-witnessed it, so what caused it will never be known. It is supposed that the team took fright, and in trying to check them one of the bridle-bits was broken, and the team ran away. * * * He appeared to have been dragged for some distance, pieces of his clothing being found by the way. He was fearfully injured about the body and head and was dead when picked up.

KILLED BY A HALF-BREED.

Buffalo, Oct., 4.—Daniel Mack died today from the effects of a blow on the head with a billiard cue, alleged to have been inflicted by Leon W. Lonsdale last Saturday during a quarrel. Lonsdale is a half-breed Indian from Canada. He is locked up.

MURDERED BY A MOB.

Nashville, Tenn., Oct. 4.—A special from Huntingdon says: A gang of eight or ten broke into the jail last night and shot to death a negro named Walter McClennon, who had been arrested for an assault committed upon C. P. Dalton, a prominent citizen. There is much indignation over the murder, and the man who is said to have led the mob has left the country.

THREE SUICIDES.

Schenectady, N. Y., Oct. 4.—There were two suicides in this city this morning. The first was Grace A. Barrett, a strikingly pretty 19-year-old girl. She took a vermin poison, and after her condition was discovered by a member of the family, she refused to tell why she had taken the poison. All efforts to save her life proved futile. The second suicide was E. R. Smith, aged 62, of Atlanta, Ga. He was despondent because he did not have enough money to return home. He used a razor on his throat to accomplish his purpose.

Utica, N. Y., Oct. 4.—Norman R. Pegg, secretary and treasurer of the Norwalk Hat Company, committeed suicide by hanging this morning. He had been prominent in business circles in this city for years. There was no known cause for the deed.

AUTUMN RHEUMATISM CUTS OFF THOUSANDS OF VICTIMS.

Paine's Celery Compound

BANISHES PAIN AND AGONY AND CURES PERMANENTLY.

A Long-Standing Case Cured After Use of Three Bottles of the Marvelous Compound.

Why suffer the excruciating pains of rheumatism and allow yourself to become crippled and useless when thousands of others are banishing the terrors of the disease by the use of Paine's Celery Compound.

The wonderful cures effected by Paine's Celery Compound for almost incurable sufferers must be known to you. Your friends and neighbors can tell you of many rescues from suffering and death after use of the great compound. Your physician, if he is honest with you, will recommend its use. Past failures with other medicines should not utterly discourage you or cause you to think that Paine's Celery Compound is no better than the many medicines you have used.

Paine's Celery Compound is the true and only specific for every form of rheumatism; it cannot disappoint you if you give it a trial. Do not allow any dealer to suggest a substitute for Paine's Celery Compound. Substituting is practiced by dishonest dealers for the reason that other medicines pay larger profits than Paine's Celery Compound. Mrs. Elizabeth King, Cedar Hill, Victoria, B. C., says:

"I have been troubled with rheumatism all my life, and about eight years ago I had a very severe attack, almost losing the use of my right arm. A friend recommended the use of Paine's Celery Compound, and kindly gave me a bottle. I was so much benefitted by that one bottle that I took three more, and was quite cured. Since then it has been almost my only medicine for all the ailments that I experience from time to time, and all my family have found some benefit from it. I am 65 years of age, I live on a farm, get up early in the morning, and am equal to a good day's work."

Pimples and Blotches

How unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up—the whole system does. You can quickly bring about the improved condition by using Ferrozone. Poisons are driven out of the blood, organs grow stronger, the blood richer, the nerves stronger. Pimples and blotches disappear, color becomes good. Glad! just try and see how much joy can be gotten out of a box of Ferrozone. At W. T. Strong & Co.'s.

Over one-third of the manufactured goods which are made in France are the products of female labor.

IN NATURE'S STOREHOUSE THERE ARE CURES.—Medical experiments have shown conclusively that there are medicinal virtues in even ordinary plants growing up around us, which give them a value that cannot be estimated. It is held by some that Nature provides a cure for every disease which neglect and ignorance have visited upon man. However this may be, it is well known that Parmelee's Vegetable Pills, distilled from roots and herbs, are a sovereign remedy in curing all disorders of the digestion.

The Santa Fe Railroad company has surveyed for building 815 miles of railroad in the southwest.

Recipe for Catsup.

This will have the natural red color of the tomatoes, and it will not sour. Full directions and a bottle of Parke's Catsup Flavor, enough to do one to two bushels of tomatoes, for 25 cents. You add the flavor last of all, and it is, therefore, retained; does not darken the catsup like spices will. Sold by all grocers and druggists.

Many western mining sections are being supplied with electricity brought from fifty to seventy-five miles.

Mrs. Winslow's Soothing Syrup.

Has been used for over FIFTY YEARS by MILLIONS OF MOTHERS for their CHILDREN WHILE TEETHING, with PERFECT SUCCESS. IT SOOTHES the CHILD, SOFTENS the GUMS, ALLAYS all PAIN, CURES WIND COLIC, and is the best remedy for DIARRHŒA. Sold by Druggists in every part of the world. Be sure and ask for "Mrs. Winslow's" Soothing Syrup.

HEART "STARTS"

Does the slightest effort excite the Heart, quicken the breathing, induce suffocation, fluttering, palpitation or excruciating pain-spasms? You need no surer symptom of disease, for when the heart "starts" the heart is sick.

Dr. Agnew's Cure for the Heart is a heart specific. Under it's sway, any or all of these sensations of distress will vanish like dew before the morning sun. It is winning golden encomiums every day as a never-failing treatment. One dose gives relief in thirty minutes. A few bottles will cure the most stubborn case. 11

THERE WAS NO MYSTERY!

'Mrs. Hall' Explains 'Husband's' Masquerading as a Male.

Found It Gave Her Freedom of Action and Insured Safety in Traveling.

New York, Oct. 5. — The story of Miss Caroline Winslow Hall, who died on the steamer Citta di Torina last Monday, and who for years had masqueraded in men's clothing in Italy and elsewhere, as told by Miss Rosalia Baldelli, who has passed as Hall's wife, is interesting.

Miss Baldelli, or "Mrs. Charles Winslow Hall," as her "husband" called her, is unable to speak English, and converses in Italian through an interpreter. She is of medium size, has dark hair and eyes, and is quite of an Italian type. Seated in the saloon of the ship she said, with an occasional outburst of tears: "I met Caroline Winslow Hall ten years ago while living in Milan, Italy, where I was engaged as a teacher in a government school. She told me that she was an American, that her name was Caroline Winslow Hall and that her home was in Boston. She explained that she was attending an art school, having come to Italy for the purpose of studying art.

"We were mutually attracted almost at once. She was very engaging and fascinating, of much intellect, and I felt drawn toward her. One day she told me she had no sisters or brothers, and that she desired me to take the place of a sister. From that time we were together almost constantly. She was then attending the Brera Art School in Milan. The students were nearly all young men and Miss Hall therefore adopted a man's coat and trousers as a working costume, as did the other female students.

"After she left the art school we traveled through Italy and elsewhere together. It was not until 1897 that she decided to assume the guise of a man, because she believed we would be subjected to less annoyance if she wore men's clothing. She assumed the name of Charles Winslow Hall, and said that I should take the name of Guisepanni Hall, her wife. We traveled for three years more, and at no time was her sex questioned.

"Just before her death she told me she desired me to have all her property. I do not know what I shall do now that she is gone, for I loved her so."

Miss Caroline Hall was an admirer and imitator of Rosa Bonheur, the famous animal painter. She was the daughter of John R. Hall, a well-known Boston architect.

"Miss Hall was eccentric," said a relative, "and that is all there is in the whole matter. She left here to go abroad when she was about 17 years old. Her mother, a Boston woman and very fond of art, went with her and remained abroad about five years before returning to this country.

"Miss Hall had been abroad all the time for the last 20 years, except for a time about nine years ago, when she accompanied her mother on one of her trips home. She and her mother have a country place just outside Milan, where Miss Hall enjoyed her outdoor life and spent much time shooting and hunting. She was a good shot with a rifle, and when on her hunting trips she was accustomed to dress in men's clothing. That gave her much more freedom, of course, and nothing was thought of it over there.

"In fact, I believe her change to men's clothing as her permanent dress came about because of her liking for the hunting costume; for she was not regarded by any of her relatives as anything but sound in mind. There was no insanity about it. The Italian woman mentioned in the morning dispatches, I believe, was an artist friend of Miss Hall, who had spent much time with her at Milan, and who worked with her in her art."

The Best.

IT PAYS BEST IN THE END.

Have you seen the catalogue of the CANADA BUSINESS COLLEGE, CHATHAM, ONT.?

If not, you are not yet familiar with the best Canada has to offer in the lines of BUSINESS TRAINING, SHORTHAND OR PENMANSHIP.

We have supplied more teachers for other business schools than all other Canadian business colleges combined.

394 of our pupils secured good positions during the past year. Send for this list and handsome catalogue.

Good board for ladies at $2 per week; gentlemen, $2.50.

We pay railway fare up to $8.

If circumstances will not allow you to attend at Chatham, you can get INSTRUCTION BY MAIL IN BOOK-KEEPING, SHORTHAND OR PENMANSHIP from Canada's greatest school of business, by addressing

D. McLACHLAN & CO., Chatham, Ont.
