OFFICIALS SURE OF SUCCESSFUL MEET

Preparations Complete for the Horse Races That Start Tomorrow

With only one day intervening before the opening of the June races, the stewards of the Victoria Racing Association have practically everything arranged and ready for the bell.

A visit to the track early yesterday disclosed the various horse owners hard at work with their charges, many being given hard workouts.

Fitzgerald had Lady Mirthful out, and she was sent a half in 51 1-8, with the jockey pulling her hard. Santee and Sharp Boy, from the Martin and Long string, were also kept busy. Diamond, who is expected to be a contender for the Derby stakes, was sent a mile and a quarter, but was not extended, his owner being satisfied with a good warming. King of the Mist, from the McCafferty string, was worked with David Boland from the same stable, but no effort was made to send them hard until the last eighth was reached, which they negotiated handily and showed no signs of tiring. Fort Wayne was worked hard and after several short spurts he was sent six furlongs, but hi stime was not caught.

In the afternoon the track was occupied by the harness racers, Starlight being out for three heats, doing the third in 2:94 1-5, the last eighth being rattled off at a 2:25 clip. Yukon the speedy little pacer, owned by Dr. Richards of this city, was also out and will very likely be a contestant in the free for all class. He is in splendid condition and it will have to be a good one that beats him. He is much steadier than last season, and went his three heats yesterday without a skip. Among the visiting horsemen nothing but praise for the local track can be heard. It is the first trip to this city for many of them and they appear to be well pleased.

The greatest drawing card is the close proximity to salt water. This is a great boon to the owners who use this remedy for reducing swellings and hardening their horses in general.

Yesterday morning, while the track was occupied by the runners, several of the owners had their other horses on the beach, and one time there were no less than ten racers swimming in the briny. A short swim and a slow jog along the sand puts new life into the racers, and with perfect weather and a good track there is every reason to expect the horses to be in condition to go the limit, and it would not be surprising if some of the track records were sent skywards.

Everything points to a record meet. Not only in the number of days but judging from the interest that is being taken in the meeting it is expected that all attendance records will be smashed. Every effort is being made to have the paddock ready by Tuesday, this addition to the racing facilities is anxiously awaited by the owners of horses, but not by some of the jockeys. It will insure a ready response to the bell, however, and the judges will not have to wait in the stand for half hours at a stretch while the spectators are jollying them.

An invitation has been extended to Premier McBride and party and, although he has not definitely decided it is expected that he will be present when the opening race is called. The horses for the first race will be called to the post sharp on time, and the driver who fails to get in his position will hear something from the judges stand. The stewards intend to make this a special point during the meet, as they realize that by so doing they will earn the thanks of those in attendance.

For Ladies' Day a special programme has been arranged, and the members of the fair sex who are spectators on that day will see some fine racing. An innovation on the local track will be started on Derby Day. On all big tracks where a Derby race is run it is the custom to decorate the jockey with a floral horse shoe, and this will be done on Thursday to the jockey who pilots the horse which wins the big purse. The final details for the meeting have been attended to, and all that remains to be done is to ring the bell and start the ponies going and there is every reason to expect a grand success.

SASKATCHEWAN HOUSE

The Redistribution Committee Decides Upon Thirty Out of Forty Seats in the Province

Regina, Sask., June 5.—The redistribution committee sat all day and decided upon 30 out of 40 seats for the province. These will be Athabasca, Regina city and annexes, Prince Albert city, Moose Jaw city, Saskatoon city, including Nutana, Maple Creek, Swift Current, Moose Jaw county, North Battleford, Battleford, Lloydminster, Redberry, Rosthern, Batoche, Saskatoon county, Hanley, Humboldt, Kinistino, Canora, Palley, Last Mountain, Touchwood, Yorkton, Saltcoats, North Qu'Appelle, Pheasant Hills, Milestone, Regina county and South Qu'Appelle.

The rural bill was considered in committee, and the salary for a municipal councillor was placed at three dollars a meeting for a maximum of fifteen meetings.

Former Millionaire's Plight

Chicago, June 5.—A despatch to the Tribune from Milwaukee says: C. J. L. Meyer, first president of the Chicago & Northwestern railroad, former mayor of Fond Du Lac, at one time a business partner of the late Senator Sawyer in the wholesale lumber business, former millionaire and prominent politician, and now a resident of Chicago, yesterday applied to Agent Gustav Frells Frellon, agent for the associated charities, for admission to the Milwaukee county poor house. Two daughters, both married to wealthy men, failed to reply to his requests for aid, it is said. A son who lives in Chicago is too poor to care for his father. By his removal to Chicago two years ago, Mr. Meyer has forfeited his right to admission to the county poor house, but Mr. Frelion will make an appeal in his behalf to his wealthy sons-in-law. Mr. Meyer has refused money aid. He is 71 years old, and was once prominent in the councils of the Republican party, having twice been a delegate at large to national conventions.

New York, June 6.—Geo. Lockner, a seventeen-year-old boy of Syracuse, N. Y., was the winner of the twentieth Irvington-Milburn bicycle road race held today over the famous old twenty-five mile course. Lockner had a handicap of four and a half minutes, and his time was 1 hour, 12 minutes. H. L. Lind of the Empire City Wheelmen, with a six minute handicap, was second, and W. M. Watson Clupel, of West Orange, N. J., was third, with a handicap of three minutes.

EXTRA FIRE WARDENS HAVE BEEN APPOINTED

Forty-Six Assistants to Serve in Different Parts of the Province

Forty-six assistant fire wardens have been appointed for the season, by the chief commissioner of lands and works. These men are all, or nearly all, connected with some lumber mill or manufacturing establishment which is directly interested in preventing the spread of forest fires. They serve without pay, and have in the past rendered great service by their co-operation with the regular fire wardens, both in the prevention and extinguishing of fires and the detection of offenders against the Bush Fires Act.

The appointments were made yesterday and letters of instruction were forwarded to the appointees, of which the following is a specimen:

Lands and Works Department, Victoria, 1908.

Sir,—I beg to inform you that, upon recommendation, you have been appointed an assistant fire warden for your district for the season of 1908.

I am sending you herewith a copy of the laws governing the protection of the forests from fire, with the request that you kindly peruse the same, in order to acquaint yourself with the requirements thereof.

The district fire warden for your locality is Mr. ——, whose headquarters are at ——, and it is desired that you do all you can from time to time to co-operate with him and place him in possession of any necessity or apprehended danger, and advise him regarding same, as your knowledge of local conditions will, of necessity, be of much assistance to him.

Should you wish to have some posters to set up in localities where you think same would be placed, kindly communicate with your district warden and he will furnish you with a supply.

I might perhaps add that there is no salary attached to this position, and the appointments are made with the sole object of endeavoring to have as large a portion of the district as possible under supervision, as it has been found that with the co-operation of a number of assistant wardens, who are themselves practical lumbermen and woodsmen, and in the nature of things, entirely in sympathy with forest protection, the object in view is materially advanced.

FRED. J. FULTON,
Chief Commissioner of Lands and Works.

The names of the new assistant fire wardens, and the districts for which they are appointed are:

Arrowhead.

Comaplix—A. F. Dudgeon, A. G. Findlay, Ed. McGahran, Martin James, Jas. Ruxton.

Baynes Lake—F. W. Adolph, W. Griffiths.

Cranbrook—Simon Taylor, Robt. J. Taylor, J. F. Bridges, A. F. Dulmage, M. Horie, E. S. Home.

Wattsburg—A. E. Watts.

Nakusp—Robt. Stevens, Jas. Cameron.

Ymir—Harry Allen, Geo. Odbert.

Shuswap—August Hoppe, H. Linton.

Revelstoke—F. E. Sine, J. G. McCarthy, G. F. Lindmark.

Jaffray—A. K. Leitch, Alex. St. Eloi.

Ryan—G. A. Leitch, D. Cofield.

Wycliffe— Harvey Staples, Chas. Quick, D. R. Yates.

Moyie—Jas. A. Johnston.

Mayook—R. B. Benedict, Geo. W. Keast.

Waldo—C. D. McNab, H. H. Ross, J. W. Ross.

Proctor—R. B. Herron, J. Gibbons.

Elko—A. F. Krapfel, C. Burgess.

Wardner—Peter Lund, David Breckenridge.

Fort Steele—Wm. Carlin.

Golden—J. D. McCormack, E. S. Saunders.

Trout Lake—J. D. Kennedy.

Kaslo—C. Hanson.

KOOTENAY MINES

Sampling of the Queen Victoria Mine Near Nelson By Capitalists—Activity in the Slocan

Nelson, B. C., June 5.—An important development is taking place with regard to the Queen Victoria mine, situated on Kootenay river, about 9 miles west of Nelson. This is a property with one of the largest showings in the country of low grade copper ore. During the past month eastern and English capitalists have been making a very careful sampling of the mine and today there were shipped to the Northport smelter 100 tons of ore. On the result of this reduction will depend the future of this property. There is sufficient ore, if it is of pay grade, to justify the erection of reduction works at the foot of the hill close by the railway. Thus, by reducing its own ore in a similar manner to that of the Boundary mines there is a chance of a steady profit if worked on a sufficiently large scale.

From Silverton comes the report that the Buffalo has restarted work, that the Standard is shipping, the Vancouver and Hewitt are increasing their forces, and of the resumption of the Alpha. This last is a property owned by Spokane people and now placed under the management of Bruce White. It is a significant sign of the times that the Alpha, which was one of the first shippers from the Slocan district 20 years ago, has been closed for thirteen years. There is no doubt that the continuation of the lead bounty is stimulating production among the lead mines of the Slocan.

WINNIPEG'S BONDS

Hope Lies in Fact That Other Issues Have Fallen Flat at First and Subsequently Succeeded

Montreal, June 5.—A London cable says: The failure of the public to take Winnipeg's new bond issue is not an isolated case. Yesterday, for instance, the underwriters had to take 96 per cent of the Rangoon £500,00 6 per cent bonds at 96. All facts considered, Winnipeg has been ably financed to get such an excellent price, and no doubt, as in the case of the city of Montreal issue, the balance left on the underwriters' hands will be absorbed by the public in the near future. The new scrip of other recent issues, which fell to a discount on the failure to place the stock with the public at the outset, rapidly recovered and now sells at a premium.

New York, June 5.—Three of the yachts racing from Marblehead to Bermuda were sighted on June 4, at 6 a. m., about forty miles east of the Nantucket lightship by the oil tank steamer Rotterdam, which arrived here today. The names of the yachts could not be ascertained.

GENERAL ASSEMBLY DISPOSES OF WORK

College Affairs and Other Matters of Importance Are Dealt With

Winnipeg, June 5.—At the session of the general assembly this morning a telegram was read announcing the death of Dr. Findlay, superintendent of home missions. Moderator Duval at once dispatched a message of condolence and a committee was appointed to deal with the matter.

Very little business was transacted at the general assembly this morning, but what was done was important. Considerable time was spent at the opening of the fifth sederunt in accepting the resignation of Dr. McLaren as principal of Knox college, Toronto. Dr. McLaren is the oldest member of the assembly, having been in the work of the Presbyterian church in various capacities for fifty-nine years. The assembly placed on record a deep sense of the value of the services tendered to his church and country during a long and honorable life.

An encouraging report was presented from the infant college at Vancouver. In future this college will be called Westminster hall. A satisfactory report was also printed from the board of Ottawa ladies' college.

Temperance and moral reform and statistical reports were also dealt with in the forenoon, and the delegate from the Bible society was received. This p.m. the general assembly is lunching at Manitoba hall, where Mr. Chapman, representing the Presbyterian church in the States, is the guest of honor.

At 2:30 the home missions, eastern division, report was presented, and Mr. Chapman then delivered an address.

Reports on Sabbath schools, Sabbath school publications and young people's associations concluded the session. In the evening foreign missions and Indian work were taken up.

The business committee this morning fixed the order of business for the next few days as follows:

Saturday—Aged and infirm ministers' fund, widows' and orphans' fund. Monday—Time and place of next general assembly; future of Queen's college; church life and work; French evangelization work. Tuesday—Union committee's report; Sabbath observance; systematic benevolence.

At last evening's session thirty-one ministers from outside Canadian Presbyterian churches applied for admission. Rev. Mr. Pringle, of Dawson City, and Rev. Mr. Grant, formerly of Dawson City, presented the needs of the church in Yukon district.

The committee on Queen's college changes met yesterday and paved the way for the university to retain connection with the church. Principal Gordon's address cleared the atmosphere.

CHINESE FLOURISH IN TERMINAL CITY

Some Further Illuminating Figures at Commissioner's Inquiry

Vancouver, June 4.—Holding property in Chinatown worth half a million, paying an annual tax to the city of over $5,000, is the prosperous condition of Sam Kee, according to his manager, Shun Moon. Sam Kee is one of the best known as well as one of the wealthiest of local Chinamen.

Mr. Kee replaced for his tenants, all the broken windows at a cost of $600. His total bill was $847, although the figures given by the manager showed a loss of $1,000.

The total receipts of his rice mill and general supplies store last year reached $180,000, of which $30,000 was net profit.

Two Westminster avenue Chinese silk merchants who appeared in support of small claims, also showed a prosperous annual business, each averaging total receipts of $20,000. The customers of both were chiefly "white ladies" they declared.

"I think your customers have got you into extravagant ways," said the commissioner to one, reducing his claim of $200 to $150. For firearms $25 was deducted. The other $25 taken off represented expenses of sending his family to Victoria for safety from the rioters.

"Might as well have sent them to Washington," said the commissioner.

Man Hung Lo, with a restaurant at 313 Carral street, in proving his $200 claim sighed audibly when he gave particulars of one of the items, a charge of $80.

"That for food to throw away."

"Too bad," sympathized the commissioner.

"Yes, it all too bad—not keep any longer."

"What did it consist of?"

"Ducks, six dozen, and lot of chickens I have in that night—for special party—and lot of other feed."

"Why didn't you give the ducks away, or bring your friends in for a feast?"

"Everyone too frightened. Ducks go bad. I throw all away."

Fifteen claims remains to be examined. The commissioner will, however, conclude his work this week.

The Guinness Murder.

Laporte, Ind., June 5.—Sheriff Schmeltzer, this afternoon resumed digging on the Guinness farm, endeavoring to learn if there is any foundation for that part of the confession of Julius Truelson as to the alleged burial of Maeos O'Reilly and Frank Reidinger. Benjamin Carlin of Chicago came to Laporte this afternoon to view the unidentified bodies buried in the potter's field. The bodies were exhumed to permit her to identify one of the bodies, if possible, as that of her husband, who disappeared two years ago, saying he was going to meet a rich widow.

Germany and Penny Postage.

Berlin, June 4.—The deepest public interest has been manifested in the announcement of the approaching reduction in the postage rates between the United States and Great Britain to two cents an ounce. A high official of the German postoffice was questioned today regarding the possibility of extending this reduction to Germany. He expressed himself as in favor of the idea, but he pointed out the financial difficulties from which both the United States and Germany would suffer should such a reduction with Germany be carried out.

MENTAL BREAKDOWN OF LORD TWEEDMOUTH

Unable to Fulfil His Official Duties and Ordered to Take Rest

London, June 5.—The veiled rumors of the physical and mental condition of Lord Tweedmouth, Lord President of the Council, which were held in parliament circles as partly accounting for his indiscretion in the correspondence with Emperor William with regard to the naval policy of Great Britain while he was First Lord of the Admiralty, now are referred to more openly as "the dark cloud that has swept down upon him while still in the prime of manhood," and it is announced that he has been ordered to take the rest cure in the country owing to a sudden nervous breakdown.

It is understood that Lord Tweedmouth is not likely again to be seen in the House of Lords, and is not in a condition to write a letter of resignation.

Arrangements have been made to carry out his duties as Lord President of the Council by a commission until the end of the parliamentary season, when a further reconstruction of the cabinet will occur.

FOREST PROTECTION

Precautions Against Fire Will This Year Be on Better Basis—Campers to Be Looked After

Vancouver, June 5.—The forests of the coast region of British Columbia will be protected from fire this summer in a more comprehensive manner than ever before, as more wardens are being employed, and their jurisdiction is far more extended than in the past. W. C. Gladwin, chief fire warden, has opened his headquarters office in Vancouver, and this week the appointments of all the deputy wardens have been made and already some of the men have proceeded to their posts. The others will be at work next week.

Owing to the fact that some three or four of the most destructive forest fires experienced last season were the result of neglect and carelessness of campers, extra precautions will this season be taken in connection with the supervision of camping parties. Instructions have been issued to particularly watch campers and any party responsible for the starting of a bush fire will be rigorously prosecuted.

The following appointments of deputy fire wardens have been made in the districts mentioned: J. S. McKinney, from Point Grey to Port Moody; W. H. Mackie, from Point Atkinson to Port Moody; George McCauley, south side of the Fraser river from Point Roberts to Hope mountains; John Wren, north side of Fraser from Port Moody to Yale; Allan McLean, Point Atkinson to Welcome Pass; John Drainey, Jervis inlet north to and including Texada island; R. M. Pallatt and F. D. Markland, from Lund to Rivers inlet and the head of Vancouver island; Wm. Jennings, Skeena and Prince Rupert districts.

ANNAPOLIS DISASTER

Fatalities Now Number Nine—Fears for Recovery of General Passenger Agent Slaughter

Annapolis, Md., June 6.—The list of fatalities resulting from the collision last night on the Washington, Baltimore and Annapolis railway near Camp Parole was at a late hour tonight increased to nine by the death at the emergency hospital of Harry Jacobs, whose skull was fractured. That the death list will be still further increased is not improbable, as the physicians greatly fear for the recovery of William E. Slaughter, general passenger agent of the road.

The identification of Mrs. Green, of Washington, was said this afternoon to be a mistake. Samuel T. Rawlings, of Washington, viewed the body of the young woman attired in a ball dress and said it was his niece, Miss Martha Rawlings, of Washington.

OKLAHOMA FLOOD

Raging Creek Carries Away Many Houses in City of Enid—Water Twelve Feet Deep

Enid, Oklahoma, June 6.—Following six hours' rainfall, Boggy creek, running through the city, widened today from 20 feet to two thousand feet, flooding almost the whole of Enid, carrying away fifty houses, flooding stores and endangering lives. The water is twelve feet deep in Main street, covering ten blocks of the business centre.

Good Templars' Wishes.

Washington, June 5.—The fourth day's session of the International Grand Lodge of Good Templars was begun today. The convention has placed itself squarely on record against compromise in anti-saloon movements, such as "model" saloons, these being declared failures when undertaken either by ecclesiastical bodies or by governments. The only remedy, it was resolved, was the total suppression of the liquor traffic. A resolution also was adopted to present a memorial to the Prince of Monaco, urging the abolition of gambling at Monte Carlo, and the sale of liquor in the principality.

Opium Inquiry.

Vancouver, June 6.—It is understood that before he travels east, Mackenzie King proposes to visit Chinatown and make further private inquiries into the opium manufacture and traffic. He also proposes while visiting Victoria to see whether there are any more manufactories of it there. Mr. King has another commission to undertake on his return east, having this time an inquiry at Quebec into the conditions of the textile trade. Ow Yang King and the other visiting Chinese who are present in the city left this afternoon for a visit to Harrison Hot Springs.

New Brunswick Railway.

St. John, N. B., June 5.—The Hazen government today appointed Hon. P. A. Landry, a supreme court judge; A. A. Tweed of St. Stephen, and Fulton McDougall, banker, of Moncton, as a commission to inquire into the affairs of the Central railroad. Lieut.-Col. L. G. Loggie of Chatham was appointed deputy surveyor-general to succeed the late W. H. Flewelling.

St. Petersburg, June 6.—Bourcier St. Chaffrey, the conductor of the French car in the New York to Paris automobile race, arrived here today by rail on his way to Paris. He said he left his car at Vladivostok.

Everything Ready-to-Wear for Ladies and Children

Campbell's

The Home of the Dress Beautiful and Exclusive

June Frocks for Little Folks

At Special Low Prices

Our display of Children's and Misses' Frocks for this season has created universal admiration, we now give an opportunity to turn that admiration into possession. It is early to make special prices on juvenile summer finery, but we are doing so during the early part of this week—parents should seize the golden opportunity.

CHILDREN'S DRESSES, in dainty English prints, old rose, blue and fawn crash, latest Buster Brown styles, for children from two to six years, special price 75¢

VERY ATTRACTIVE STRIPED CRASH FROCKS, in pretty blues, old rose, etc., finished with short sleeves and low necks, for children from four to eight years. Special price ..... 75¢

BUSTER BROWN GINGHAMS, in blue and white, and pink and white checks, short sleeves, low necks, tastefully trimmed with embroidery, for children from four to six years. Special price $1.00

SAILOR SUITS in crash, and gingham dresses in old rose and checks, for children from four to eight. Special $1.25

Children's and Misses' Summer Hosiery and Underwear at Most Moderate Prices

The Ladies' Store **Angus Campbell & Co.** LIMITED. 1010 Co'rt St.

NEW DEVELOPMENT IN SOUND RATE WAR

Seattle Company Arranging Plan to Cut Into Vancouver Business

Seattle, June 5.—The Puget Sound Navigation company will retaliate against the C. P. R. on the latter's entering the traffic from Seattle to Vancouver direct by putting on a 50-cent rate from Vancouver to Victoria without having to place a vessel under British register. The American company will run a boat from Bellingham to Victoria, the Rosalie probably, calling at Roche's Harbor, on San Juna island, where connection will be made with the steamship Iroquois, on the Seattle-Vancouver run, and the transfer of passengers made.

This will give a six-hour run from Vancouver to Victoria by the American boats, and the schedule will be arranged so that the run is made both ways in daylight. Officials of the Puget Sound Navigation company state that as the C. P. R. has been able to maintain its rate of $2.50 on the Canadian side of the line so far in the rate war, they have been at a handicap. When the American company cuts into the $2.50 traffic with a 50-cent rate the cost of the rate war will be made more burdensome to the big Canadian corporation.

"We will lose money, of course," said an official of the Puget Sound company, "but the C. P. R. will lose $10 to every dollar we do. At first the transfer of passengers will be made at Port Townsend, until we can complete our wharf arrangements at Roche's Harbor. The Canadian company has made it difficult for us to get a transfer of one of our boats to British register, and this method of meeting the situation will be satisfactory to us. We expect also to develop a substantial traffic between Bellingham and Victoria."

HINDU FARM SCHEME

Purchase of Property at Chilliwack for Cultivation is Planned to Help Out Idle Men

Vancouver, June 5.—The Hindu leaders of Vancouver are arranging to develop a community plan that will remove "from our midst" the indigent brothers who beg from house to house and who have no prospect of getting work.

The plan, already partly developed, is that Hindus shall purchase property at Chilliwack and there start farming on a scale large enough to provide food and entertainment in body and mind for the surplus of the millions of the coral strand that have found refuge in Vancouver.

It's the happiness of the whole big world,
It's sunshine loud are heard;
It's made life happy, healthy and bright,
It's Rocky Mountain Tea taken at night.

C. H. Bowes, Agent.
