WHY THEY VOTE TORY.

[Continued from Page 2.]

18 J. E. Kilvert is one of the Tory members for the City of Hamilton. This man ever since his election has been on the "look-out." He now

CARRIES IN HIS POCKET

either the parchment or Sir John's promise for the collectorship of Hamilton, worth $3,000 a year. As well might you hope to stem the Falls of Niagara with a pitchfork as expect this man to give an honest vote. (Cheers.)

19 Hugo Kranz is the Tory member for North Waterloo. Berlin (according to last census, with a population of 4,056), is the county town. Mr. Kranz induced the Government to spend a large sum of public money to erect in this small county town, public buildings, and he so manipulated matters with the Government that these public buildings have been built near his own place of business, and he has thus "drawn grist to his own mill." Verily the ways of Tory politicians are a most past finding out. One thing is, however, quite plain, Hugo Kranz always answers the division bell and never fails to vote for the Government.

20. Dalton McCarthy is the Tory member for North Simcoe. He was introduced to public life by Sir John in order to infuse new blood into the Conservative party. We have seen in Parliament no development of the "new blood," except as exhibited in the wretched fiasco of the McCarthy Liquor License Acts,

BOTH DECLARED UNCONSTITUTIONAL

by the highest Court in the Realm, and both reflect no credit on Dalton McCarthy or his political chief. One thing the public records do show :—

1st. That Dalton McCarthy applied for, either for himself or his friends, 50 square miles of timber limits in the Northwest Territory.

2nd. With others, a grazing lease in this same paradise of Tory political plunderers.

3rd. His firm was engaged by the Government to prosecute some of the political prisoners in the Northwest, for which this country will pay a handsome bill of costs.

4th. His brother-in-law has been recently appointed junior judge of the county of York, salary $2,200, and revising barrister of that county, salary unknown.

5th. His brother is judge of the county of Dufferin, salary $2,600 a year.

No sane man in Canada believes that Dalton McCarthy, in view of his relations to Sir John Macdonald, and of his obligations to his Government, will ever give an independent vote.

21. C. H. Mackintosh, the Tory member for Ottawa City, is a general contract broker, a medium, for a consideration, between public contractors and the Government. He extracted from Joseph Whitehead the sum of $20,000 in order that Whitehead might get the ear of the Minister to present his honest claims. He manages the Ottawa *Citizen*, and obtained from the Government in 1884 $3,000 for printing. He is one of the corporators of the Gatineau Valley Railway, which secured

A BONUS OF $320,000

of the people's money. You can't expect that men, who thus assist in the public plundering of the Dominion Treasury, can give an honest vote. (Cheers.)

22. Lauchlin McCallum is the Tory member for Monck, by 25 majority. In 1874 he presented a claim for $8,000 against the Government for damage done his schooner by another vessel while passing through the Welland Canal. The Government of Mr. Mackenzie would not recognize the claim. The Superintendent of the Canal, the Minister of Justice, the Deputy-Minister of Justice, the Dominion Board of Arbitrators, all declared the Government was in no way liable for the alleged damages. Just before the elections of 1882 this corrupt Government, in defiance of the reports of the officials, of the Department and of the law, paid this demand. McCallum got his money, returned to his constituents, ran his election in the Conservative interest, and with the aid of this $8,000, won his election by 25 votes, and now sits in Parliament as the Independent member for Monck. I ask you if it is not a solemn farce to suppose that Lauchlin McCallum will vote against this Government, right or wrong. (Cheers.)

23. Duncan Macmillan, the Tory member for East Middlesex, applied for, and very likely obtained 50 square miles of timber limits in the North-west Territories. He is also said to have applied for a judgeship. This he has not yet received, but Duncan Macmillan hopes the time is not far off when

THIS RIPE PLUM

will drop into his open mouth. Meantime his hands are tied, his tongue silent and his vote solid in the interest of the Government.

24 Sir John Macdonald is the Tory member for Carleton, and Premier of the Dominion, and as such draws $9,000 a year out of the public exchequer, besides sundry sums for travelling expenses, cab hire, incidentals, including Secret Service money. His brother-in-law was long, and if alive still is, a pensioner at the public crib. His nephew draws $1,800 as a civil servant. His son is solicitor of the C.P.R., worth nearly $20,000 a year. He not long ago obtained $360,000 from Sir Hugh Allan, and $250,000 from a great railway corporation. He has bled, freely bled, public contractors for election purposes. He has, by corruption and maladministration, provoked two rebellions and saddled Canada with the cost of them. He has achieved the unenviable notoriety of being the most corrupt politician since the days of Walpole. With a corrupt Premier and a corrupt Administration you can expect nothing but corrupt followers. (Cheers.)

25. Alex. McNeill is the member for North Bruce He secured his election in 1882

BY AS INFAMOUS A GERRYMANDER

of the constituency as ever was perpetrated. Two townships of North Bruce which gave a Reform majority of 550, were, at a special instance of Mr. McNeil, detached from North and hived in West Bruce, and even then he only secured his election by 100. This man is not the free choice of the people; he is a member of Parliament by Act of Parliament passed by Sir John Macdonald, and it is as much as his political life is worth to vote against the Government; and he won't do it, even though this reckless Administration parcelled out every dollar of the public resources and every acre of the public domain among their camp followers. (Cheers.)

26 Dr Orton, the Tory member for Centre Wellington, secured his appointment as physician to the C P.R., from which he derives an income of about $10,000 a year. Like Darby Bergin, Dr. Orton is a versatile genius. He was not satisfied with a princely income received through the C.P.R. He applied for fifty square miles of timber limits on the Bow River, and fifty square miles elsewhere in the North-west Territories, and in March, 1882, he obtained from the Government 320 acres of rich coal lands Men under such obligations to the Government; men who share with the Government the odium of dividing up among them the public lands of Canada; men who are *particeps criminis* with the Government in plundering the country of its most valuable assets, dare not vote against the Government. (Cheers.)

27, J. C. Patterson the Conservative member for North Essex, was the agent if not more than agent, of George Campbell, in 1882, to procure a valuable timber limit on Lac des mille-lacs.

28. M. N. Pruyn, the Tory member for Lennox, elected in 1884, had

EARELY WARMED HIS SEAT

in the House of Commons, when he forced Sir John Macdonald to appoint his young Tory nephew, Judge of the County of Oxford, over the heads, and to the intense disgust of old and prominent members of the bar in that county. He got his reward early in his political career, and Sir John controls his vote with absolute safety.

29 Thos. Robertson, the Tory member for Hamilton, has been a persistent applicant for a judgeship at the hands of Sir John. He fully expected, indeed I believe, was promised, the last vacancy in the Superior Court Bench, but old John O'Connor got the inside track. He is now willing to accept any position. Do you expect Thomas Robertson, with these fat offices dangling before his eyes, to vote against a Government willing to provide for him at the public expense in his old age? If you do, then you don't know Thomas Robertson as well as I do. (Cheers.)

30. Alex. Robertson is the Conservative member for West Hastings. He secured his election through the Trent River Navigation, cost to the people of Canada, when completed, $6,000,000. Rather an expensive member of Parliament. But this Tory patriot preferred something more tangible, and so in August, 1884, he obtained 50 square miles of timber limits on the Columbia River. Sir John Macdonald holds this man's vote in the hollow of his hand.

31 John Charles Rykert, the member for Lincoln, is a waiter on Providence, or rather on the Government. Charles is willing to turn an honest penny every day in the year. But he is a man of large ideas and prefers doing things by wholesale, and so, having brought the proper kind of pressure to bear on the Government, he obtained for his friend John Adams the Cypress Hills limit, the finest timber limit in the whole North west, for $5 a square mile, or $250 in all; in a few months this limit was sold for $100,000, and the handsome profit of $99,750 was pocketed by some one. Charles also obtained for his friends, and I have no doubt he has a finger

DEEP IN THE PIE,

thirteen half-sections of the finest coal lands in the Northwest. J. C. Rykert is no more the free representative of a free people than one of King Thebaw's court officials. He dare not give an independent vote. (Loud cheers.)

32. Dr. Sproule represents East Grey in the Commons. His brother was an applicant for a timber limit in the Northwest. Another relative, a brother I believe, is one of the corporators in the Farmers' Northwest Land and Colonization Company, and he is mixed up with one Graham for a timber limit of 50 square miles on the Carrot River. Dr. Sproule is but clay in the hands of the chief potter. (Cheers.)

33. Walter Shanly, the Tory member for South Grenville, is perhaps the best specimen of an honest Tory, if there is such a thing, in the House, but even Walter Shanly has more than once been in the service of Sir John's Government, and can't therefore be depended on to aid in stemming the tide of extravagance rapidly driving this country to ruin.

34. Joseph Tasse is the French Conservative member for Ottawa. His whole life has been spent in the Tory kitchen, feeding on the crumbs that fall from the Government table. He controls the French paper *La Minerve*, and last year drew from the public purse $1,600 for printing, and over $4,000 for printing the report of the Chinese Commission. He also controls *Le Canada*, and last year drew for printing said to have been done by this paper $481. His brother and nearly all his relatives are feeding at the public crib. A man who receives so many casual advantages from a Government so liberal with the public funds, can

HARDLY AFFORD THE LUXURY

of an independent political thought.

35. George Taylor represents in the Conservative interest South Leeds. He, too, cast longing eyes on the vast coal and timber lands of the Northwest. He accordingly applied to this Government, who distribute with no sparing hand the public estate among their followers, for both coal lands and timber limits. This did not exactly gratify the ambitious views of Mr. Taylor. He lives in Gananoque, a small town and with a limited population. In the Conservative interest he persuaded the Government to build

AT THE PUBLIC EXPENSE

costly public buildings in this country village. This is not all. Last session Parliament voted a sum of $20,000 to dam the Rideau Canal in order to supply water to the mills and factories in Gananoque in which Mr. Taylor and his constituents are deeply interested. George Taylor is the bond slave of Sir John, and dare not vote against the Government.

36. Mr. Ward, the recently elected member for East Durham, secured before his election, in the names of his infant relatives, valuable timber limits in the North west. He is safe to vote for the Government every time.

37. Clarke Wallace, the Tory member for West York, is the head, middle, and tail of the York Farmers' Colonization Company, which obtained from the Government 61,220 acres of the most fertile lands in the whole North west. Clarke Wallace, as might be expected, is

AS SERVILE A FOLLOWER

of Sir John as today sits in Parliament. He has 61,220 reasons for justifying the Government in their most reckless and corrupt actions. (Applause.)

38 Peter White, the Tory member for North Renfrew, has long aspired to the position of Minister of Agriculture. He has so far failed in his efforts, but meantime he has induced the Government to pay out of public funds a debt of $85,000 due by the town of Pembroke in his county, on account of the Canada Central Railway, and has managed to capture for the Pontiac & Pacific Railway, of which he is a prominent director, a bonus of $272,000. To expect Peter White to condemn the Government for wanton waste of the people's money is to expect moral impossibilities. (Cheers.)

39. Thomas White is the Tory member for Montreal by way of Cardwell. He is the present Minister of the Interior, and as such draws $8,000 a year, including sessional allowance. His family own the Montreal *Gazette*, which last year drew out of the public purse $19,000 for printing, a large portion of which was charged 4 or 14 times more than current rates for the same class of work.

MR. THOMAS WHITE V. THE MAIL.

He is the man who, recently, in West York, according to the *Mail's* report of his speech, declared that the Halfbreeds of the North-west had no grievances to redress, and this in the teeth of the solemn declaration of the *Mail*, made on the 8th July last, after the rebellion was suppressed, and the criminal negligence of the Administration proved in Parliament:—"That the Metis had good ground for grievances," that the Department "for years and years steadily refused to move in the matter," that the negligence of the Government "was gross and inexcusable, and contributed to bring about the insurrection," and that the Department of the Interior (in other words Sir John Macdonald) "was wrong, and should be censured," and in the face of the countless petitions of the Halfbreeds to the Government during the last seven years setting forth their complaints and demanding redress, and in the face of the repeated remonstrances of the Catholic and Anglican Bishops of Prince Albert, the North-west Council, and the leading men in the Territories to the same effect, crammed in the pigeon holes of his own Department But then, you know, Thomas White is the man who declared that a journalist was justified in lying if the political exigencies of his party required it, and so he lied accordingly. (Great cheers.)

40. John White is the Tory member for East Hastings He was the champion of the Orange Bill, in 1883-4. He declared that if the Orange Bill did not pass he would vote against the Government. The Orange Bill did not pass, and he has not voted against the Government, and why? He applied for 50 square miles of timber limits in the North west. He is the leading spirit in the Shell River Colonization Company, and through his influence this company obtained a grant of 30,624 acres of picked lands in the North west. He is one of the heroes of the Prince Albert Colonization Company, and in that Company John White.

OBTAINED A BLIND SHARE,

valued at $33,000, for which he gave nothing except the promise of his influence with the Government to secure to the Company four townships of choice lands in the North West. He and Mackenzie Bowell's son-in-law succeeded to a charm. They obtained a township on which 29 Halfbreeds lived, 13 of whom fought at Batoche in defence of their homes. This grant to this Company made by this corrupt Administration was one of the causes of the rebellion. A rebellion that ended in the death of 200 Canadians, the wounding of 200 more, the spilling of much blood, the ruin and destruction of many half breeds' homes, and the expenditure of over five millions of money. The Orange Bill may perish; the resources of the country may be squandered by a reckless Administration, but John White will hold on to his timber limits, and his blind shares, and vote for the Government every time. (Great cheers.) I regret, Mr. Chairman, that time will not permit me to deal with the remaining Tory members for Ontario, nor with the supporters of the Government from the other provinces just now. I can, however, assure you that the records of Parliament show that 55 per cent. of them stand on precisely the same plane as those whose names I have mentioned. In view of this fact I ask the electors of this county, Are you prepared to sustain a Government in power, who have treated the vast and fertile regions in the North west of us as a sort of dumping off place for Tory political dead beats? Are you prepared to support an Administration, who have divided among

THEIR POLITICAL HACKS,

out of Parliament, a vast portion of the resources of this country? Are you prepared to vote confidence in men who, for the time being, misgovern the country, and who have availed themselves of the power given them by a confiding people, to parcel out among their camp followers in Parliament a large portion of the public domain? Sir, I believe the response, welling up in every honest Canadian heart will be an emphatic No. If otherwise, all I desire to say is that if the past condition of affairs continues

FOR TEN YEARS LONGER

the ruins of Canada will not be worth preserving. (Great cheers.) I have thus shown you how the Government of Sir John Macdonald has corrupted the constituencies and the representatives of the people. I have shown you how the public affairs of this country have been mismanaged during the last seven years; how the national debt has swollen to enormous proportions; how the annual expenditure has increased from 13 to 35 millions in 18 years; how the public resources have been wasted, how the public treasury has been plundered; how the public domain has been parcelled out among the party hacks, and now we ask the aid of the honest electors of Canada to assist us in stemming this terrible tide of mismanagement; extravagance, and corruption sweeping o'er this fair land from the Atlantic to the Pacific Ocean in hurling from place and power this incompetent and corrupt Administration, and in replacing it by one led by the Hon Edward Blake, the ablest public man today in Canada.

Mr. Cameron resumed his seat amidst great cheering.

Mr. Geo. McKenzie moved a resolution expressing the utmost confidence in the ability, integrity, and statesmanship of the Hon Edward Blake. He related some incidents of the Tory misgovernment in the Northwest, and said that the member for East Huron, Mr. Farrow, evidently did not know anything about the government of that country.

Mr. S. G. McGill seconded the resolution, which was carried amid loud cheers.

A vote of confidence in the Mowat Government was moved by Mayor Neelands, and a vote of thanks to the speakers moved by Mr. Morton was carried, and the meeting closed with cheers for the Reform leaders and the Queen.

Bornmiller.

Reed and Penn have completed the contract they had taken from Messrs. Baer, of wood cutting.

Thomas Slattery is the latest addition to the population of this section, he having moved into Widow Myers' house on the hill.

John Snyder has got hold of one of H. Habel's engines. What he intends to do with it is not known yet.

Ashfield.

Rev. G. R. Turk, of Lucknow, delivered his grand lecture on the "World's Leaders" on Friday evening last in the "Hall," 8th con., under the auspices of the Lorne Council, R. T. of T., No. 161. This is the first of a series of lectures which will be given during the winter months, and those who did not attend missed a rich intellectual feast. Mr. D. E. Cameron, banker, of Lucknow, acted as chairman, which position he filled to the delight of all. The next lecture will be given by Mr. D. E. Cameron on "The Future of Canada," on Feb. 12. The name of the lecturer is a perfect guarantee that it will be well worth attending.

The Ashfield Literary and Debating Society held another debate on Thursday evening last in the school house, on the 7th con., which was crowded to its utmost capacity. The president, John Griffin, after calling the meeting to order, made a short speech, congratulating one of our members, W. Stothers, on his election to the deputy reeveship of the township, since our last meeting, and remarking that wherever there was talent it would show itself sooner or later. After the business of the society had been transacted, Mr. H. McPhee was called to the chair. The debate, which was, resolved "That Married Life is Happier than Single" was proceeded with, Mr. F. McCarty was captain of the affirmative side and Mr. John Kilpatrick of the negative. There was a great deal of comical points brought forth by each side The chairman then congratulated the society on its success so far, and said he saw the making of some grand speakers here. He then gave his decision in favor of single life, that side having brought forward the most points. Another debate will be held in two weeks on the subject, resolved "That the Printing Press has been a greater benefit than the Steam Engine," Mr. Jos. Griffin taking the affirmative, and Mr. W. Hackett the negative.

Auction Sales.

All parties getting their sale bills printed at this office will get a free notice inserted in this list up to the time of sale.

Important auction sale of hemlock lumber, shingles, and a span of good working horsee, at Harris mills, Cransford, Ashfield township, 2 miles from Dungannon. by John Knox, auctioneer, commencing at 1 o'clock, p.m., on Wednesday, Jan. 27th., 1886. See posters.

1886.

Harper's Young People.

AN ILLUSTRATED WEEKLY.

The position of HARPER'S YOUNG PEOPLE as the leading weekly periodical for young readers is well established. The publishers spare no pains to provide the best and most attractive reading and illustrations. The serial and short stories have strong dramatic interest, while they are wholly free from whatever is pernicious or vulgarly sensational; the papers on natural history and science, travel, and the facts of life, are by writers whose names give the best assurance of accuracy and value. Illustrated papers on athletic sports, games, and pastimes give full information on these subjects. There is nothing cheap about it but its price.

An epitome of everything that is attractive and desirable in juvenile literature.—*Boston Courier.*

A weekly feast of good things to the boys and girls in every family which it visits.—*Brooklyn Union.*

It is wonderful in its wealth of pictures, information, and interest.—*Christian Advocate*, N.Y.
