Remarks. These two bands numbered 94 in Statistics. They are Southens and have whiskey and are very intemperate. They money their fires would be put out of the Christian Island Indians who gave 1857. and have [illegible] in six years. They have no cattle & only raise corn & no annuity or Interest Money. They are very much addicted to drinking told me about a year ago that unless the Govt gave them some annuity and they would go away. They live on the Island through the kindness them kind to cultivate on their coming from the United States.
