courage and promote the prosecution of the mining interests of the country. I have caused fertile tracts of land in various parts of the Province to be surveyed and set apart for settlement under the provisions of the Act of last session for that purpose, and I am happy to inform you that there is every prospect of most beneficial results from your legislation on this important subject. The propriety of offering additional inducements to the young men of the Province to settle upon our vacant lands is worthy of your consideration, and accordingly a measure relating thereto will be laid before you.

Mr. Speaker and Gentlemen of the House of Assembly:

The sums placed at my disposal at the last Session have been prudently expended and I shall direct detailed accounts of the income and expenditure of the past year to be laid before you at an early day together with the estimates and expenditure for the current year.

Mr. President and Honorable Gentlemen of the Legislative Council:

Mr, Speaker and Gentlemen of the House of Assembly:

The Common Schools Act of 1871 having been impeached as unconstitutional I am happy to inform you that it has been sustained by the unanimous adjudication of the Suprems Court and in the event of appeal to the Judicial Committee of the Privy Council I recommend that provision be made for its defence before that tribunal. A special case on that Act having been prepared by the Dominion Government for the opinion of the law officers of the Crown in England, and a copy thereof having been forwarded to during the recess for the remarks of my Government thereon I at once brought the case under their consideration and transmitted to the Secretary of State full remarks in vindication of the Act, at the same time communicating a protest against any such reference, and claiming the absolute right of the Provincial Legislature to deal with such matters.

The national rivalry and competition in the emigration field of Europe at the present time call for renewed and unremittin effort on behalf of this Province, and so far as our means will enable us we hope to secure such a portion of sober and industrious emigrants year by year as will rapidly augment our agricultural products and contribute at the same time to supply the increasing demand for labor in every department of industry.

A full report of the proceedings of my Government during the past year which I shall direct to be laid before you will show that due attention has been paid to this matter and that the prospects for the present year are highly encouraging.

Your attention will be called to certain amendments of the law in relation to the administration of justice and I feel assured that in all your deliberations you will be guided by that wisdom and prudence which will best promote the public welfare.

The address in reply will be moved by Harrison of Sunbury and seconded by Ryan of Albert.

RECEPTION OF ODD FELLOWS.

The St. John Odd Fellows had a grand reception and were driven to the hotels in a coach drawn by four horses.

Shipping Notes.

The Schooner Ada, Belyea, master, at Vineyard Haven on the 23rd inst., from New York, for this port, reports, was run into by an unknown schooner while at anchor in the harbor, during the night, and had her mainboom carried away.

The Schooner W. A. Gibson, now at Baltimore has been chartered for Martineque to carry a cargo of coal at $6 per ton.

The Brigantine Regina, which arrived at Halifax on Monday evening last from New York, had on board a locomotive for the Intercolonial Railway.

The Brigantine Thomas Albert, Wood master, at Halifax, 23rd inst., from Cienfuegos, reports, on the 18th inst., in a heavy sea, the wheel became unshifted, and port had to be made with temporary steering gear. On the 21st, during a heavy gale, had main-stay-sail carried away. About same date passed portion of cargo of a vessel floating in the sea.

Shipbuilding at Parrsboro.—The Amherst *Gazette* gives the following account of shipbuilding at Parrsboro and vicinity:—

Parrsboro.—By Young, a schooner, about 300 tons, carpenters'; E. Phinney, a brigt., 500 tons; Yorke & Son, a brigt., 400 tons; McNaughton, a schooner, 300 tons; McGilvray, a schooner, 350 tons; Huntley's, a schooner, 300 tons.

Ratchford River.—D. Pettis and others, a brigt., about 500 tons; James Hatfield, a schooner, 300 tons; John Hatfield, J. Pettis, &c., a vessel of about 400 tons; also 3 frames already moulded, to go to Windsor.

At Advocate there will be three or four vessels of large size put on the stocks in the spring.

The Brigantine Nebo, (of Sydney, C. B.) Babin, master, on her passage from Sydney for St. Johns, P. R., with coal, was run into on the night of the 10th ult, during a severe squall, by an unknown vessel. The Nebo lost eight sails, seven spars, half her rigging, one anchor and fifteen fathoms of chain. broke one knee, one beam, five planks on the starboard bow, covering board, bulwarks, top gallant forecastle, sprung bowsprit, and received other damage; had two boats damaged; three men wounded, and lost most of her water. She was left almost a wreck and in a sinking condition, seven hundred miles from land, on a dark stormy night in a rough sea. By great exertions the crew covered the broken places with tarred canvas, and by keeping three men continually at the pumps the vessel was kept afloat. Fortunately she had a strong favorable wind which enabled her to reach St. Thomas, where she arrived on the morning of the 20th the captain and crew being exhausted from work and the vessel almost unmanageable. The other vessel proceeded on her way.

Yellow Fever at Rio Janeiro.—The yellow fever is raging at Rio Janeiro, Capt. Reed of the bark Adelaide Norris, well known to many of our shipping merchants, having sailed in and out of this port, has been carried off with the fell disease.

The Osborn.

In another column will be found the advertisement of the Osborn Sewing Machines. The manufacturers of the Osborn have been awarded a great number of prizes, medals and diplomas, and claim for it many superiorities over other machines. The Osborn will perform all the duties of a first class machine, and sells at a reasonable price. The agents in this city, Messrs. Crawford Bros., have secured one of the handsome stores in the Y. M. Christian Association building, which will be ready for occupation about the first of May. In the meantime they are doing business at No. 121 Union street, where they have a good assortment of sewing machines for the inspection of would-be purchasers.

The Schooner Bessie Black, Ludlow, master, which sailed from this port yesterday, has been chartered for Caibarien and back to a port in the United States, by A. T. Clark, Esq., formerly of Cuba, now doing business in this city.

Odd Fellows.

From forty to fifty Odd Fellows left for Fredericton this morning to institute Victoria Lodge, No. 13. Nearly all indulged in accident policies, good for two days, and the agent did quite a lively business.

Another Accident on the Intercolonial.

The express train from Halifax which left Amherst at 7.30 last evening, met with a serious accident which might have resulted fatally but was happily unattended with loss of life or limb. This morning when the train was about two hundred yards this side of Hampton Bringe a defective rail broke, it is supposed under the weight of the engine, which, however passed over safely with the baggage and second class cars. The broken rail struck the wheel of the postal car and threw it from the track breaking the connection with the second class. The first class car was also thrown from the track. The train was going at a high rate of speed at the time, and for some distance the two cars ran along on the sleepers and then fell over the embankment. The passengers, some of whom were sleeping, were aroused quicker than they wanted to be, and started for the doors. When the cars turned over several of the passengers were thrown violently against the sides. All were more less bruised and cut. The conductor, Mr. Bartlett, was in the postal car at the time and was thrown against the side of the seat, breaking two of his ribs. D. L. Hanington, Esq., M. P. P., was on board the train; he was thrown across the car and his head struck the oppotite side, stunning him and cutting his head open about two inches. His injuries are not very serious and he will soon be out. Mr. Hanington and the conductor received the most severe injuries. Some of the passengers fainted, and it required considerable time to bring them too again. The passengers were taken on board the second class car and arrived in St. John about 5 o'clock this morning. The cars thrown off the track are out of the way of any passing trains. The escape from death or very severe injuries to the passengers is a matter of great thankfulness, and the passengers have great cause to be glad that the mishap did not occur at some of the high bridges or embankments, where the result would have been a truly horrible tragedy.

A lad about eight years old, was started to school in Huntington county, Indiana, one morning a few days ago. About half an hour later his father went out to feed the hogs. There laid the head of his darling boy among the hogs. The body was nowhere visible, bnt had been consumed by them. His clothes were scattered about in all directions. He had been attacked by a ferocious sow and torn to pieces.
