A NEW DEPARTURE:—Attention is directed to the advertisement of the new cash store to be opened on 4th June by Messrs. Loggie & Co. It will, no doubt, be especially attractive to the ladies, on account of the department exclusively devoted to them and in charge of a competent young lady, while all the usual departments will have full and varied stocks. The strictly cash system will enable the firm to sell at low prices, as they will aim to dispose of large quantities of goods at small profits.

THE "GARRETT" CASE:—Last Friday's Sun says, under head of equity court proceedings at St. John:—"Ex parte Jemima McKay, the habeas corpus order was returnable yesterday. A. I. Trueman appeared for the prisoner and L. A. Currey placed cause against the order. An affidavit was read to show that the woman was generally known as Mrs. Garrett, by which name she was committed. Mr. Trueman applied for further time to produce affidavits on this point. His honor said that unless there was some other ground than the name of the person convicted he would not grant the discharge. The matter stands until Tuesday next."

Big Hole, Northwest. Fishing Privileges.

The lease of the fishing privilege at the Big Hole, Northwest Miramichi, off the Quigley lands, was disposed of by auction by Mr. J. R. Lawlor in front of the Waverley hotel, Newcastle on Saturday last for $125 a year, for five years, the purchaser being Mr. John McKane, who was acting for a local syndicate.

At the same time and place Mr. Geo. Staples offered the right on the opposite side of the river from the Indian reserve lands, and there was lively competition. The upset price was sixty dollars, but several gentlemen entered the lists and it finally went to Mr. George Brown at $150 a year for five years. Mr. Brown was acting for Mr. D. R. C. Brown of Aspen, Colorada, who is the owner of a lot formerly sold out of the Indian reserve block, and which fronts on a part of the Big Hole pools.

A Day's Pleasure at Blackville.

One of the most flourishing Divisions of the old and reliable order, the Sons of Temperance, is that at Blackville, and its members have determined to afford their friends in other places an opportunity to join with them in a first-class picnic on Thursday, 16th June. The arrangements are in the hands of an efficient committee, and all who go may rely on finding every facility for rational enjoyment. There will be a baseball match, running and sack races and dancing, a good string band being engaged to furnish music for the latter.

The time of holding the picnic will be an opportune one for salmon and trout-fishermen who wish to try their luck at the favorite fishing spots at and in the vicinity of Blackville, as it will be in the height of the angling season in those waters and the return trip for one first-class fare will no doubt be an inducement for many to go who can thus kill two fish with one hook.

A Napan Complaint.

A Napan correspondent, who says he doesn't want to mention any names, complains of suspicious movements on the part of certain residents of that locality who, although they have excellent gaspereaux fishing near their own property, do considerable fishing in the night time with gaspereaux as well as old salmon nets, using the latter without license in prohibited waters, and in such a manner as not only to interfere with regular licensed fishermen, but also making sales of salmon in town, wholesale and retail, which lead to a suspicion that they sometimes—owing, no doubt, to the darkness—take salmon from other people's good and licensed nets, instead of their own old and unlicensed ones.

If the facts are as represented the guilty parties should be exposed and punished, for no honest community ought to tolerate persons who thus prey upon their law abiding and industrious neighbors.

The story told to us suggests the idea that if it is true, it ought not to be difficult for either the fishery officers to detect and punish the alleged violations of law, or the licensed fishermen, whose nets are alleged to be robbed, to catch the poachers when they are in the act of mistaking other people's fish for their own and we are glad to learn that there is a prospect of efforts being made in this direction.

A Night of Fun.

Messrs. Griffin & Wilcox's attraction at the Masonic Hall this week will prove a draw. Everyone knews the Musical Comedy "Peck's Bad Boy and his Pa," a dramatization of the famous "Bad Boy" sketches of George W. Peck, editor of the Milwaukee *Sun*. The entertainment is in three acts or scenes—The grocery store, the bad boy's home and the picnic grounds. The many characters are the bad boy, his chum, his girl, his pa, the policeman, the servant girl, the doctor, the old soldier. The show is irresistibly funny; the company presenting it is said to be qualified in every way to give excellent performances.

Great Sport at Nepisiguit.

Sea-trout fishing was reported as having just begun at Nepisiguit on Tuesday. It will last for a fortnight or three weeks. It is the surest place on the North Shore for the sport. Mr. Keary of the Keary House has erected a structure for the accommodation of fishermen on his grounds beside the river at head of tide and seems, himself, to go into the pastime with all his old time enthusiasm. Amongst the many now there are Messrs. Jas. Burke, Inland Revenue Inspector for the Province, and Jas Reynolds, Esq., of St. John, President and Treasurer of the Relief and Aid Society of that city. As the trout are running up-river the fishery is practically exhaustless until the schools have all passed.

The Sunday Schools.

The Provincial Sunday-school secretary, Rev. A. Lucas, will visit the Sabbath-schools in a number of the parishes of this County during the period between June 4th and 21st, conferring with the workers and organizing schools where needed.

Concert.

Quite an attractive concert was given in Masonic Hall, Newcastle, last Thursday evening under the direction of Mr. S. W. Farnham. There were solos, duets and a quartette by leading singers, including Mrs. John Miller, Miss Francis Elliot, Miss Jardine, Mr. Farnhan, Mr. McCurdy, Tinie Jardine and Bertha Elliot and chorus singing by members of Mr. Farnham's Newcastle and Douglastown classes. Mr. Farnham made some explanations in reference to the non-appearance of the 73rd batt. band, which had assisted him in former concerts, and the Advocate says they were "anything but creditable to the band." It is an unpleasant thing, no doubt, to have misunderstandings of this kind, but there are, of course, two sides to all stories. From the other side's story it may be said that Mr. Farnham ought not to attack the band. It helped him with his first concert without charge, while he failed to keep his engagements with it in connection with his second concert. Then, without engaging it for the purpose, he advertised that it would appear in Newcastle and because it did not, on account of his failing to make satisfactory arrangements, after having ample time to do so, he appears to have placed it in a false position before the Newcastle audience of last Thursday night. From some things of which we are assured, it seems ungrateful on Mr. Farnham's part to say unkind things about the 73rd band.

The "Armenia" Salvage Claim.

At Cardiff county court, May 5, the case of the owners of the Cardiff tug "Clyde" against the New Brunswick barque "Armenia" was tried. The case for the plaintiffs was that the "Armenia" was dragging her anchors near Monkstone Rock, Cardiff Roads, when the captain put up signals of distress, which attracted the tug. An order, it was said, was given by the pilot to the tug to keep in attendance, and it was contended that this was sufficient service on which to claim salvage, as the tug remained ready for service if called upon. They claimed £100. For the defence, the captain, mate and others of the "Armenia" gave evidence. In effect, they stated when the tug came alongside, no bargain was made with her, as the captain refused to do the work for £25, insisting upon £200. The captain of the "Clyde" having been told to go away, about an hour afterwards another tug was hired and the vessel taken in tow. The captain did not anticipate any danger, as the gale moderated and another anchor was in readiness to use if needed, when the "Clyde" was ordered away. The mate stated that in his opinion the "Clyde" would have been of no use if called upon. If he had had charge of the vessel he would have slipped the cable without the assistance of a tug; but he admitted it would have been safe to have a tug at her head. The judge awarded the plaintiffs £60.

Patent medicines differ—One has reasonableness, another has not. One has reputation—another has not. One has confidence, born of success—another has only "hopes."

Don't take it for granted that all patent medicines are alike. They are not. Let the years of uninterrupted success and the tens of thousands of cured and happy men and women, place Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription on the side of the comparison to which they belong. And there isn't a state or territory, no—nor hardly a country in the world, whether its people realise it or not, but have men and women in them that're happier because of their discovery and their effects.

Think of this in health. Think of it in sickness. And then think whether you can afford to make the trial if the makers can afford to take the risk to give your money back, as they do, if they do not benefit or cure you.

C. P. R. Excursions.

Arrangements have been made for four cheap excursions from the Maritime Provinces to the Northwest, via the C. P. R., on June 13th, 20th, 27th, and July 18th. The tickets will be from any point on the Intercolonial, P. E. I., Windsor & Annapolis or C. P. Railways in the Maritime Provinces, and to Deloraine, Oxbow, Moosomin, Nesbitt and Binscarth the fare will be $28; to Moosejaw, Regina and Yorkton, $30; to Calgary and Prince Albert $35; and to Edmonton, $40. They will be good to return within six weeks of the date of issue. A sale of C. P. R. lands at Edmonston is to be held on July 5th, and can be reached by leaving here on June 27th, while those wanting to visit the great western exposition at Winnipeg on July 25th to 30th should go by the last excursion.

News and Notes.

THE CHARGES AGAINST CAPT. BLISS.

The charges preferred against Captain Bliss by the militia department have been dismissed, Col. Powell, the adjutant general, says the whole matter has been referred to the justice department.

A COSTLY BREAK.

HALIFAX, May 26—The Allan liner, Caspian which broke her shaft after leaving this harbor for Liverpool was towed back a distance of 20 miles. It is estimated that the mishap will cause loss in expense of $25,000. Tugs got $800 by agreement for towing her up.

A MINER DASHED TO PIECES.

HALIFAX, N. S., May 26.—This morning, while James Gleason, a miner employed at Sydney mines, was putting spears in the shaft, the board on which he was standing gave way, he fell a distance of 100 feet, and was dashed to pieces.

THE CHURCH OF SCOTLAND.

LONDON, May 25.—In the House of Commons yesterday, the resolution introduced by Charles Cameron (Radical), member for the College division of Glasgow, relative to the disestablishment and disendowment of the Church of Scotland, was rejected by 265 to 209.

SUNDAY CLOSING OF THE CHICAGO FAIR.

WASHINGTON, May 26.—In the House to-day the pending question was on the subject of the Sunday closing of the World's Fair. A resolution was adopted, providing that no part of the amount appropriated for the World's Columbian exposition should be available, unless the doors of the exposition shall be closed to the public on Sunday.

IMPERIAL HONORS.

Prince George of Wales has been given a peerage, with the titles of Duke of York, Earl of Inverness and Baron of Killarney. The grand cross of the order of the bath has been bestowed upon Sir Julian Pauncefort, British Minister at Washington, and Chief Justice Lacoste is knighted. Hon. J. J. C. Abbott and Oliver Mowatt have been made K. C. M. G., and Sir William Dawson a C. M. G.

LORD DYSART DESERTS THE TORIES.

LONDON, May 26.—Considerable gratification has been caused in Liberal and Irish ranks by the announcement that Sir William John Manners Tollemache, Earl of Dysart, one of the most promising and capable of the younger British peers, has declared that he has been converted to Home Rule and will no longer act with the Liberal-Unionists. The desertion of Lord Dysart, who is also Lord Lieutenant of Rutland county, has caused a painful impression in the Tory ranks, as it is feared other desertions will follow.

A "CRITIC."

A Halifax paper—the Critic—places the title "Two Rivals" over the following—

The bride of May is now the rage,
She permeates each papers's page,
Her gown, her flowers, her gay trousseau,
Her gifts and graces we all know,
But soon she'll abdicate the throne,
The wedding bells will cease their tone,
And we'll read of that other girl,
The sweet girl graduate of June.

The Critic, doubtless, feared that its readers might make the mistake of thinking that the bride of May and the sweet girl graduate of June were only "one rivals." The same paper is attempting to be witty says, "Necessity knows no law. A good many lawyers are in the same fix."—That is, they know no law. We hope that all the critics of Halifax are not so flagrantly open to criticism.

The St. John Globe sneered over the Queen's Birthday being honored at Ottawa by the suspension of parliamentary business. It ought also to protest because, in pursuance of a formal order, the celebration of the anniversary of the Queen's birthday, took place in London on 25th ult., and according to a press despatch, "There was a parade of the Horse Guards and a trooping of the colors by the Foot Guards. This ceremany was witnessed by a vast throng of people, including a large number of aristocrats and notable foreigners. The Duke of Cambridge, commander-in-chief of the forces, accompanied by Prince Christian, was in command. The massed bands played the national anthem. The Foot Guards marched past in review in the order of quick time.'

GOVERNMENT STEAMER WRECKED.

OTTAWA, Ont., May 26.—The Minister of Marine was notified yesterday of the wreck of the Government steamer Quadra, on Queen Charlotte island, in the North Pacific. The Quadra, it will be remembered, was depatched recently from Vancouver to convey Mr. James Macoun, of this city, to the Pribyloff islands, for the purpose of further investigating the condition of seal life on the rookeries. She was on her way northward when she ran ashore on an unknown ledge, and was wrecked. All the crew were saved and returned to Victoria. Efforts will be made to have the Quadra floated and towed to Victoria for repairs. She is a brand new steamer specially built on the Clyde for the lighthouse and buoy service on the coast of British Columbia. What steps will be taken to provide another conveyance to Behring Sea for Mr. Macoun, have not yet been decided upon.

A BORROWED EXPRESSION.

That ridiculously pretentious publication, the Halifax Critic, which often appropriates the news of other journals and the ideas of other journalists without any indication of or regard for their origin or meaning, announces a number of the decorations recently conferred by Her Majesty upon public men as "in honor of the Queen's birthday"—as if it were possible to impart a greater honor to the 24th of May in any part of the British empire than it now has as the birthday of the Queen. The majority of British subjects appear to believe that the conferring of decorations usually announced on the Queen's birthday are in honor of the persons decorated. The same paper says—

"That mysterious term 'hypnotism' is being stretched to cover some very black doings. In Canada, we have, to our shame, 'Prince Michael.'"

It is to be hoped that the Critic will not be mistaken abroad as a fair sample of well-informed Canadian journalism.

CALVINISM IS INTACT.

PORTLAND, Ore., May 26.—At yesterday's session of the general assembly of the Presbyterian church the report of the committee appointed to revise the confession of faith was presented by Dr. W. C. Roberts, it contains two new chapters, one relating to the work of the Holy Spirit and the other to the missionary spirit. Besides these new chapters, 26 sections in 18 other chapters have been changed. None of the changes proposed impair the integrity of the Calvinistic system of the confession. Several of the members of the committee have signed the report but have made exceptions to certain parts of it. In conclusion this report says:

"It was found impossible to meet the individual preferences of every presbytery without setting aside what were known to be the views of a large majority of the church. There was an effort made to secure harmony at any sacrifice. The report is the very best that the committee has been able to prepare."

REVIVAL OF WORK.

Ald. Connor of St. John received word last Thursday from the Consumers Cordage Company of Canada to have the New Brunswick Cordage works got ready for operation without delay. This is good news to many, especially as the despatch states that the works will be required to run permanently. The cordage works have been closed down for nearly two years in accordance with arrangements with the Consumers Cordage Company. It is expected that about two weeks will be required to fix up machinery, etc., and get ready to resume operations. A number of men have been put to work on getting the place ready for business. The instructions are to run the works to their full capacity, and this means the employment of about one hundred and seventy-five hands.

A GREAT SHIP.

HALIFAX, May 26.—The new flagship on this station, H. M. S. Blake, arrived in port at 5.30 this evening from Bermuda. A great crowd witnessed her arrival, as the Blake is the finest warship that ever appeared in Atlantic waters. She is 9,900 tons, and her engines are 20,000 horse power. She is a twin screw cruiser of first-class and one of the finest ships in the British navy, there being but three others like her. She sailed from Bermuda at 3.30 Tuesday afternoon, thus making the passage in fifty hours, the fastest time ever made between the two ports. She is capable of doing 23 knots. Her armament is very complete. She carries two 9-pounder breach-loading guns, and also Nordenfelt and Gardner machine and quick firing guns. She has two submerged torpedo tubes and two above water, as well as a set of torpedo nets, which go all around her. Admiral Hopkins is accompanied by his wife and two children. The Blake carries a crew of 676. The Magicienne and Canada, which left Bermuda with the Blake, are expected to-morrow.

FRED. COLEMAN AND THE HOUSE OF COMMONS RESTAURANT.
(Ottawa Citizen)

Since the opening of the present session of parliament, the restaurant of the house of commons has been under the control of Fred Coleman, the popular proprietor of the Barker House, Fredericton, N. B. Mr. Coleman has decided to give up the position of caterer to the members, and in the course of a few days he will leave for home. During his connection with the restaurant of the house Mr. Coleman has steadily risen in the esteem of all who came in contact with him. He has enjoyed the confidence and the respect of members, many of whom will regret his departure from the city, especially at a time when he was just beginning to become well known and to form new and lasting friendship. Mr. Coleman proved an admirable manager. The business of the restaurant received his personal and constant attention, and he was invariably polite and courteous, giving general satisfaction to guests. Mr. Coleman's newly formed Ottawa friends will wish him all possible success in the future.

COLUMBUS' SHIPS.

The reproduction of Columbus' caravel, the *Santa Maria*, is being built by the Spanish government at the Carraca yard at Cadiz for the Chicago World's Fair. The keel was laid on March 1. The caravel's dimensions are: length at keel, 62 feet 4 inches; length between perpendiculars, 75 feet 5 in.; beam, 22 feet, draught, 14 ft. 8 in. Great care is being taken with details, and the instruments and appliances of the time of Columbus will be in their places aboard the caravel. The *Pinta* and *Nina*, it is announced, are being reproduced by American capital, so visitors to the Exposition will be able to see the "Columbus fleet" complete. The Spanish government will provide crews for the three caravels, dressed as were Columbus' sailors, and the trip across the Atlantic will be made under escort of a Spanish man-of-war. After participating in the naval review in New York harbor the caravels will proceed to Chicago. After the Fair closes they will remain the property of the United States.

THE BRITISH ON TOP.

—According to the latest cable dispatches Great Britain has just won a great diplomatic triumph over Russia in Persia. The Shah owed a British company, whose rights he had bought out, some £500,000. And he had no money and no credit. At this juncture Russia kindly offered to lend him the money at 6 per cent. interest, if he would give Russia control of the Persian customs houses until the money was repaid. The idea, of course, was to place the Shah under obligations to Russia and at the same time secure to Russia control of Persia's trade. For a time it was thought that the Shah would accept the offer, as he stood sadly in need of the money. But at length the news comes that he has refused it, and will go on the London money market and borrow the money like a man. So the Blawsted Britisher is still supreme at Teheran as well as at Cairo, despite all that St. Petersburgh and Paris can do to dislodge him.

Farm and Household.

GO SLOWLY.

The greatest danger to-day is that the colts will be encouraged to do more than is good for them, and either get injured or discouraged. Either one mars the prospects for the season just opening. The tracks are just being put in condition, and "just to show the colt," men are in great danger of pushing a little too hard. Go slow. Let the colts and horses harden up gradually, and come from their work ready to do a little more than they have shown. Teach them the value of reserve power, while at the same time instructing in the way to go at their highest speed. Don't trot the fastest quarters or halves this year in May. Wait until good and ready in September, and then open the eyes and pocket books by and through the figures hung out.

PRECAUTIONS IN SPRAYING.

1. Keep poisonous substances labelled and out of the way of children.
2. Do not continue to spray so far into the season as to affect the fruit.
3. In making emulsions, remember the inflammable nature of coal oil.
4. Never spray trees in bloom.
5. Try mixtures on a small scale if you have any doubts regarding their effect upon the foliage.
6. Be careful and thorough in your work.

Much has been said of late regarding the danger incurred by eating fruit from trees and vines which have been sprayed with Paris green; but careful chemical analyses show there is no ground for such an alarm. In the case of some suspected animals it was found that eight tons would require to be eaten before a dose of poison would be taken.

ROSE CULTURE.

You can succeed with roses as with other shrubs with but little time given to their care, but that care must be in the line of the needs of the plant. Three "pleaties" are absolutely essential to success in growing roses, plenty of sunshine, plenty of water and plenty of manure. They will not flourish in gravelly soil nor in its opposite, clayey soil. Good loam is the thing. Now that spring is here, clean away the rubbish about the plant; if the soil be already poor, spade in barn manure about it, then cover a place as large round as a wash tub with the manure three or four inches deep about each rose bush; a half wheelbarrow load to a bush is none too much. This mulching is better done in the fall than spring, but it will do good now. In dry seasons the bush must be watered freely. Except with yellow roses, it is the new growth that blossoms, so cut your bushes back to within a foot of the ground, that give the new growth a better chance. Rose bushes should set where the sun can cast his rays freely upon them. Persian insect powder used with a blower, and blown over and under the leaves will kill the white lice; white hellebore, such as is used on currant bushes, will kill the slugs (worms.) Three or four applications in the season usually suffices. Your eyes and heart will be delighted with the result.
