Bradstreet's Weekly Report.

NEW YORK, Nov 3—The general distribution of merchandise throughout the United States as reported by special telegrams to Bradstreets while continuing to move rapidly, is evidently of not ably less volume than at the corresponding time last year. The iron trade is weaker than when last reported, and pig iron has been cut in several instances; the trouble with the iron trade appears to have been an over estimate of the consuming demand. Certificate for crude petroleum advanced rapidly to-day, owing to the removal of the heavy carrying rates west, and the effect of the October report of oppression in the oil regions, quotations reached 99½c early in the afternoon and predictions of $1 were freely made. Exports of grain and petroleum on time are practically at a standstill, while shipments of cotton are heavy. The October cotton report published by Bradstreet's to-morrow states that the weather during the month has been excellent and the promise now is for a large crop. The prices of wheat are falling and those of corn, owing to small receipts, have advanced. The failures in the United states during the week number 156, or 17 more than in the preceding week and 19 more than in the corresponding week last year. The failures have been larger than for some time past; Canada had 21, an increase of 7.

READABLE PARAGRAPHS.

—Impaired vigor of mind and body, in both male or female, old or young, cured by the timely use of Dr. E. C. West's Nerve and Brain Treatment.

Nothing better ever made than those Jersey suits for the boys—last longer, look better and half the price of the old-fashioned suits of tweed. All sizes at White's, 66 King st. west.

Mr. Christopher Rhode, Mitchell, writes: "I tried a box of Dr. Kellog's Asthma Remedy, and would say to all parties afflicted with asthma that it is the best thing I ever used for it; after inhaling I can go to bed and sleep all night, something I had not done for years before." Northrop & Lyman, Toronto, proprietors.

Sir J. Lawes, the eminent English scientific agriculturist, says that while the English wheat crop of 1882 cannot perhaps be considered an average crop, the other crops are, taking them all round, very good, and the prospects of agriculture more favorable than for several years.

H. A. McLaughlin, Norland, writes: "I am sold out of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. It sells well, and I find in every instance it has proven satisfactory. I have reason to believe it the best preparation of the kind in the market." It cures Dyspepsia, Biliousness, and Torpidity of the Liver, Constipation, and all diseases arising from Impure Blood, Female Complaints, etc.

The fact that Sir Garnet Wolseley is sonless, and Sir B. Seymour unmarried, makes the giving them peerages a matter of little moment, but the queen hates giving peerages to poor men with sons.

What a comfort to be able to gratify one's appetite once more without pain, after long suffering from Dyspepsia! Victims of indigestion wise enough to accept the general verdict in favor of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure as true, and use the article, can enjoy the welcome relief. Obstinate Dyspepsia, Constipation and Biliousness, invariably yield to its potent regulating action.

Coleridge was descanting in the presence of Charles Lamb upon the repulsive appearance of the oyster. "It isn't handsome Coleridge," said Lamb, "but it has the advantage of you in one thing." "What is that?" said Coleridge, who was an exhaustless talker. "It knows when to shut its mouth," was the reply.

Mr. James J. Anslow, Newcastle, N.B, writes: "Mrs. Anslow was troubled with lung disease, and until she took Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda had little or no appetite; but after taking a bottle or two she gained appetite and had a relish for her food, which was quite a help to her in keeping up against the disease. As we are out of yours, and cannot procure any here, she is taking another Emulsion; but as we prefer your preparation to any in the market, will you kindly ship me some at once and oblige."

A plain, well finished black cashmere skirt and a Jersey waist of any color preferred, or black, makes the best kind of a utility costume.

Mr. Wm. Boyd Hill, Cobourg, writes: "Having used Dr. Thomas' Eclectric Oil for some years, I have much pleasure in testifying to its efficacy in relieving pains in the back and shoulders. I have also used it in cases of croup in children, and have found it to be all that you claim it to be."

Josiah Snow, Gunning Cove, N.S., writes: "I was completely prostrated with the asthma, but hearing of Dr. Thomas Eclectric Oil, I procured a bottle and it done me so much good that I got another, and before it was used I was well. My son was cured of a bad cold by the use of half a bottle. It goes like wild-fire, and makes cures wherever it is used."

The gist of Chicago criticism of the Rev. George C. Miln's Hamlet is that he is not at first a good actor, but is likely to become one. He has a fine voice, and uses it well, but his attitudes and gestures are awkward and sometimes ridiculous. He departs from the readings of the text commonly used on the stage, and in the main intelligently, but in some instances with a view, seemingly, to provoke discussion and condemnation. Thus he alters "mobled queen" to "innobled queen," therein following the idea that the original word was an old English form of "ignobled."

MOTHERS! MOTHERS! MOTHERS

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so go and get a bottle of MRS WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it, who will not tell you at once that it will regulate the bowels, and give rest to the mother and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

REST AND COMFORT TO THE SUFFERING

"Brown's Household Panacea," has no equal for relieving pain, both internal and external. It cures Pain in the Side, Back or Bowels, Sore Throat, Rheumatism, Toothache, Lumbago, and any kind of a pain or ache. "It will most surely quicken the Blood and Heal, as its acting power is wonderful." "Brown's Household Panacea," being acknowledged as the great Pain Reliever, and of double the strength of any other Elixir or Liniment in the world, should be in every family handy for use when wanted, "as it really is the best remedy in the world for Cramps in the Stomach, and Pains and Aches of all kinds," and is for sale by all Druggists at 25 cents a bottle.

Dullness of Trade.

The cause of the dullness in the ready-made clothing trade in a number of the city houses is, no doubt, to be attributed to the fact that the public have become convinced of the very low prices at which the new firm of Petley & Petley are selling boys', youths', and men's clothing, and are making their fall and winter purchases at that well-known and popular establishment.

Saturday Sale.

We would call the attention of our readers to the advertisement of Petley & Petley on the fourth page. This firm are advertising a special sale of overcoats for one day only about one-third less than the usual retail prices. This will no doubt be a fine opportunity for purchasing overcoats for the coming winter season.

The Stranger in London.

That the great city will ere long be hardly recognizable by its former denizens, all the world has heard. The visitor passing up the Thames now finds his eye gratified by the many handsome edifices recently erected. As he reaches the famous Victoria Embankment, there rises over him on the right hand the new Times office, and on the left hand the new tower-crowned works of Messrs. James Epps & Co., both phases of Italian architecture. It may be said that these two buildings are types of the far-reaching business energy of the nineteenth century, for it has resulted from such means that these two establishments have brought themselves to the fore, and that the annual issue of each has come to be estimated by millions. During the last year the number of copies of the Times issued is estimated at 16,276,000, while the number of packets of Epps' Cocoa sent off in the same period is computed at 14,749 695. The latter is a large total, when it is borne in mind that in 1830 the consumption of cocoa throughout the whole kingdom was but 42n,382 lbs, there then existing no preparation of it such as this, which by the simple addition of boiling water would yield a palatable drink. Truly time may be said to work many changes. tf

Corrugated Boiler Flues.

From the Mechanical Engineer.

At a recent test of plain boiler flues in England against corrugated flues, the former collapsed at 225 pounds per square inch, while the latter withstood 1020 pounds per square inch.

INSURANCE.

GOVERNMENT LIFE INSURANCE.

By arrangement with the Dominion Government,

THE ÆTNA LIFE INSURANCE CO.

Now offers to every citizen of Canada, in good insurable health and circumstances, Government-guaranteed Life Insurance Policies—the Reserve, or Re-insurance Fund, being annually deposited with the Government at Ottawa.

This deposit is made, in pursuance of the Statute, for the *exclusive benefit* of the holders of these Policies, rendering them, after three annual payments of premium, ABSOLUTELY NON-FORFEITABLE, if their terms are duly complied with, and no possible danger of the funds being misused or lost—the Government of Canada being responsible for their safe-keeping.

The following are the rates per **$1,000** upon ages at the nearest birth-day at the time of entry:—

Age	Annual Premiums.	Age	Annual Premiums.	Age	Annual Premiums.	Age	Annual Premiums.
20	$13 03	31	$17 75	41	$25 30	51	$39 59
21	13 36	32	18 33	42	26 42	52	41 45
22	13 71	33	18 94	43	27 55	53	43 50
23	14 07	34	19 59	44	28 75	54	45 67
24	14 45	35	20 27	45	30 03	55	47 98
25	14 85	36	21 00	46	31 39	56	50 44
26	15 27	37	21 76	47	32 83	57	53 05
27	15 72	38	22 58	48	34 36	58	55 85
28	16 19	39	23 45	49	35 98	59	58 82
30	17 20	40	24 37	50	37 70	60	61 98

For example: a person, whose age at nearest birth-day is **36** can secure **$1,000** at his death, on payment of **$21** annually; and a person aged between **14** and **20**, can have **$1,000** secured to his heirs for an annual payment of **$13.03.**

EVERY POLICY issued on the above rates contains a positive guarantee, in plain figures, showing the amount of paid-up insurance the holder would be entitled to, under the terms of the Policy, if he should, for any reason, have to discontinue further payments, after three premiums have been paid. The following are examples of this beneficent provision, made for the benefit of those who fear that if they cannot continue payments, they lose all they have paid:—

Age at Issue.	After 3 Years.	After 5 Years.	After 8 Years.	After 10 Years.	After 20 Years.
20	$36	$79	$144	$186	$360
25	43	91	162	207	391
30	50	103	180	230	421
35	58	116	201	255	447
40	67	132	222	277	469
50	75	147	243	301	502

Ten payments of **$17.30** at age **30**, total **$172.00**, give ten years' insurance of **$1,000**, and leave a Free Policy of **$230.** When entering into an engagement for life, it is well to enquire what your rights are if you should have to terminate the arrangement. No uncertainty about this plan. Just what you have been waiting for. Over **1,100** Policies issued in Canada the past twelve months. Western Canada Branch Office:—10½ Adelaide Street East, Toronto.

WILLIAM H. ORR, Manager.
