SOME LADIES DO NOT

Quite understand how the balloting is managed at PEDDIE'S CLOSING OUT SALE. We therefore give a few words of explanation. When a purchaser of one, two, three or any number of dollars' worth is made, printed ballot tickets corresponding to the number of dollars are sent from the office and the name of the ladies' society you wish to vote for is written on the ballot by the saleswoman, and you drop them into a regular V. R. box, which has been locked and sealed up since the first day of the voting, and no one knows at this moment which society is ahead. When the box is opened on 29th of August by the Ladies' Committee the society that has the most ballots gets $50, next $30, next $20, next $10, next $10, next $5. A very little effort may put any society ahead.

THE WEATHER.

TORONTO, Ont., Aug. 9—11 p.m.—To-night a trough of comparatively low pressure extends from the Gulf of St. Lawrence westward across the St. Lawrence valley and lake region, and thence to Northwest Territories, while both to the southward and northward the pressure is higher. Showers and thunderstorms are prevalent from lakes eastward, and in the northwest the weather is fair and cool.

Minimum and maximum temperatures: Edmonton, 40°—70°; Calgary, 44°—76°; Qu'Appelle, 42°—60°; Winnipeg, 46°—72°; Toronto, 70°—91°; Montreal, 68°—80°; Quebec, 64°—74°; Halifax, 58°—76°.

TO-DAY'S PROBABILITIES.

TORONTO, Aug. 10—1 a.m.—The indications for the next 24 hours for the lower lakes region (covering the peninsula and as far east as Belleville) are: Generally cloudy weather, with showers or thunder storms in most places.

EXPECT TO RAISE THE ALVA.

A Neat Little Speculation for the Purchasers of the Wreck.

CHATHAM, Mass., Aug. 9.—The purchasers of W. K. Vanderbilt's steam yacht Alva went to the wreck on the tug William E. Cleary. A diver went down and remained over two hours making an examination. He found her but little sanded and in much better condition than was expected.

The owners intend to make an attempt to have divers close her water-tight compartments, if possible, then will try to pump out the compartments, take out her ballast and confidently hope to succeed in raising her.

Having made this examination they will bring more divers, several barges and the necessary tools as soon as possible.

The yacht cost in the neighborhood of some say $1,000,000, and the wreck was sold for $3,500.

Assassination by a Train Robber.

AMITE, La., Aug. 10.—Henry Sherling was assassinated yesterday in Washington parish. The assassin is supposed to be a confederate of the train robber, Eugene Jones.

The Crops in Manitoba.

OTTAWA, Aug. 9.—Prof. Saunders telegraps from Winnipeg that the crops in Manitoba and the Northwest Territories have matured rapidly during the last three weeks. In many places west of Indian Head the growth is small on account of drought; but about and east of Indian Head and also in Manitoba the growth will be good on well prepared lands. Fine ripening weather, straw short, heads average size, well filled, will be ready to cut a week or more earlier than last year. The present outlook of crops on both experimental farms is excellent.

IN LITTLE FOLKS' EYES.

How strange it would be if the pixies came down,
And set up a shop in the midst of our town:
And sold to us spectacles, through which the guise
Of all things would seem as in little folks' eyes.

In little folks' eyes, oh, what dreams will come true!
How long is a lifetime! What things one will do!
How wealthy one is with a purse of small size;
For pennies are dollars, in little folks' eyes.

How easy it is from all dangers to flee
To a harbor of safety, on somebody's knee!
How quickly soft kisses and low lullabies
Will clear away trouble, in little folks' eyes.

Such wee clouds of darkness make everywhere night;
Such wee glints of sunshine make everything bright;
And birthdays come slowly, for time seldom flies
But crawls toward the future, in little folks' eyes.

What a great world of singers we'd have before long
If these magical glasses were sold for a song!
Oh, clowns are so funny, and sages so wise,
And hearts are so honest, in little folks' eyes!

LONDON AND ENVIRONS.

—The Normal schools open on the 16th inst.

—The National Union will hold their annual picnic down the river on Friday afternoon.

—The hardware stock of Brown & Morris was offered for sale by Mr. J. W. Jones, auctioneer, yesterday and withdrawn.

—C. H. Keefer, C. E., of Toronto, who is in the city will, with Engineer Moore, prepare a report on the capacity of the pumping machinery and water supply of the city.

—Henry Adams, stonemason, East London, while working at Geary's planing mill in Ward 6 on Monday, fell through an old floor that gave way under him and received severe injuries to his head.

—Wm. Magee, who was for a number of years accountant for the ADVERTISER Company, has received the appointment of local manager of the Retail Merchants' Protective Association, of Rochester, N. Y.

—The tax collectors are out with an advertisement requesting payment of all overdue taxes by Aug. 15. Warrants will be issued after that date for all taxes not paid. The rolls must be returned, so save this extra expense and pay up.

—A motion was introduced into the High Court, I.O.F., at Barrie, that created considerable discussion. It was relative to holding the High Court sessions at three or four central points, Toronto, Hamilton, London, or Ottawa. This motion was defeated.

—Robert D. Kilgour, traveler for a furniture house in this city, sold a bill of Canadian goods while passing through Maine to New Brunswick last week. Canadians do not appear to be so poor and puny workmen and manufacturers as trade restrictionists make out.

—Sheriff's Officer John A. Graham today brought up the Tecumseh—the new boat recently launched at Ward's—to the Dundas street dock. The craft will be sold on the 18th inst. to satisfy demands against her. The principal claimants are Inglis & Son and E. Leonard & Son. Mr. Ward protests that he holds first claim on the boat.

—A young man from London who climbed the pole on Victoria Park to put the ball on top for the Dominion Day celebration, accomplished the feat of climbing the flag pole of the Fraser House, Port Stanley, one day last week, which is 90 feet high, and putting the rope through the top.—[St. Thomas Journal.

—Citizens out late Monday evening were startled at two odd-looking objects coming along Burwell street, not far from the M. C. R. stables. Close inspection, however, showed that the two mysterious objects were men, supposed to be teamsters practicing sack racing for the teamsters' picnic, nothing being visible but their heads.

—A meeting of the creditors of Joseph Lea, once manufacturer, St. Thomas, was held at the office of Gibbons, McNab & Mulkern, in this city yesterday. It was decided to grant Mr. Lea a clearance if in ten days he was prepared to make an offer of 40 cents on the dollar, secured, payable in a year with interest. Mr. Lea will offer the property for sale on Wednesday, 17th. He hopes to be able to pay 40 cents on the dollar and be able to resume business. If he does resume business again it will be in Toronto.

The Discovery of America.

The Minister of Education has sent a circular to the inspectors and teachers of the Province concerning the celebration on the 12th of October next of the 400th anniversary of the discovery of America. It is proposed to have songs, essays, and addresses having reference to this important event.

Small Potato Business.

A party of about eighteen from Youngstown, O., have for little over a week past been camping at Port Stanley, east of New Orchard Beach. On their tent has been flying to the breeze two flags—the flag of their country, the Stars and Stripes, and the Union Jack. The flying of the Stars and Stripes, even though alongside of the Union Jack, seemed to have been too much for the ultra loyal Port Stanleyites to bear, and Monday morning, when the Ohio campers turned out, they found that the Stars and Stripes had been hauled down during the night and torn into shreds. The party or parties who have no more sense than to commit such an act should be dumped into the lake until they cool off.—[St. Thomas Journal.

The Water Commissioners.

The Water Commissioners met last night, present, Chairman Davis, Commissioner Jones, Engineer Moore, Inspectors Platt and Plastow, and Secretary Ellwood. Geo. T. Hiscox appeared before the board re arrears of water rates due by a tenant. Mr. Hiscox said that the latter had an agreement with the Water Commissioners regarding the rates. As this was the case the board decided that the tenant was responsible. The Sisters of St. Joseph made application for water at a fixed rate of $40 per annum, as they were a public charity. Action deferred. It was decided to lay mains on Elias street from English to Ontario, and on Colborne street north of Regent street. After passing the usual accounts the board adjourned.

Who Is He?

A Chicago dispatch has the following in reference to a case already referred to in these columns: "The police arrested a man here Saturday who claimed to be a Catholic priest, and who was attempting to raise money on that plea. He said he was Father James Ryan, and had just voluntarily resigned a pastorate at Rawlins, Wyo. He needed money to get him to London, Ont., his former home. He was suspected of being a fraud and was locked up on a charge of soliciting alms under false pretenses. But officers detailed to investigate learned that the old gentleman was a regularly ordained priest, and that all his statements were true. Father Ryan was speedily released, and the newspaper advertising he had received resulted in the gathering of a purse, with which he left for Detroit this morning, en route home. No priest of this name is known in London.

Before the Police Magistrate.

A 15-year-old lad named Jeremiah Fitzpatrick knocked down a little son of Mrs. Wells, a huckster who has a stand on the market, the other day, and had to appear at the Police Court this morning on a charge of assault. Mrs. Wells admitted that her boy was not hurt at all, and the magistrate let Fitzpatrick go.

The cases of Isaac Sholtt, Henry Blcomgarden and Samuel Jacobs, charged with desecrating the Sabbath, were adjourned for a day.

Thomas Gardhouse and Michael McGuire two unknown men found asleep in a public place last night, were charged with being drunk and vagrants. They begged for liberty and said that they would leave the city at once. They were let go. Two drunks were discharged and a driver was fined $1 for being too vigorous in his progress.

Hog Cholera in Western Ontario.

Mr. Carling has telegraphed that he will meet the hog breeders of Western Ontario at London on Thursday next to discuss methods for suppressing hog cholera. The law, as it now stands, compels hog owners to report at once to the district inspectors any outbreak of the disease. The inspector is then placed in charge and whatever deaths occur after that date the owner is allowed one-third value by the Dominion Government. This inadequate compensation is looked upon by hog breeders as encouraging the spread of the disease rather than promoting its suppression. The breeders want this law amended so that Government inspectors will have authority to at once destroy, not only all hogs infected with cholera, but also those exposed to the infection and pay the owner the full value of the animals. Then, they claim, there would be no incentive for delay in reporting an outbreak and the disease would be promptly stamped out.

Londoners in Muskoka.

A Rosseau correspondent writes: The following Londoners are staying at the charming little village of Borrean, Muskoka. A pretty spot called "The Pines" is occupied for the summer by Mrs. Montgomery Lewis and two children. At Maplehurst the Rev. Mr. and Mrs. English, Miss English and Master Stewart English, Mr. and Mrs. Herbert Gates and Mr. and Mrs. George Brown. One of the most delightful spots on the lake is Rossmoyne, situated at the mouth of Shadow River. Rossmoyne is owned by Miss Turner, of Toronto, and she throws it open to a limited number of guests. Among them are the following: Miss A. L. Shaw and her niece, Miss Hamilton Moore, of London; Miss Fair, Petrolea; Miss May Lingling, Miss Louie Champ and Miss Flossie Burns, of Hamilton; Mr. and Mrs. George Shaw, Mr. Brennech, the well-known artist; Mrs. Geo. Evans, Mr. Charlie Evans, Master Vernon Evans and Miss Nichol, of Toronto. This house is made especially attractive by their being a very musical lot of people, and they gave a garden party in aid of the parsonage at Rosseau, at which Miss Hamilton Moore, a Hellmuth pupil, sang several songs, one with violin obligato by Professor Boyce, of Brantford.

Graceful Acknowlegement.

Ald. D. C. Hannah, chairman of the subcommittee of the council appointed to expend the grant for the sufferers by the recent great fire in St. Johns, Nfld., yesterday received the following letter of acknowledgment:

"ST. JOHNS, Nfld., July 28, 1892.

"D. C. Hannah, Esq., chairman of the relief committees of London, Ont.:

Dear Sir,—The generous relief afforded our fire sufferers by the good people of the Dominion has exceeded our anticipations and hopes. Your city stands among the first in the manificence characterizing this liberality. Our people will not be forgettul of the practical assistance thus rendered in the hour of dire need by their fellow-subjects of the Dominion. We are now succeeding as well as can be expected in housing, clothing and feeding over 9,000 persons, and as far as possible placing them in a position in which they may be enabled to provide for their own wants. We wired your worthy mayor in answer to his message notifying the committee of the amount which we were to draw. Present our cordial acknowledgement to him therefor, and repeating the fervent thanks of the committee for the sympathy expressed and substantial aid tendered by you toward the victims of the great calamity, I remain, Sincerely yours,

JAMES B. SCLATER,
Secretary Relief Committee.

The Great Fair.

Entries in all the departments are received by every mail for the greatest of live stock and agricultural shows, the Western Fair of London (Sept. 15 to 24), and at the present time there have been registered by the secretary four times as many live stock entries as were received at this date last year, while in the other departments there is a corresponding increase. These facts should be gratifying, especially so to the directors, who devote a large portion of their valuable time endeavoring by every possible means to advance the usefulness of this exhibition, and keep it ever to the front as a highly educating, interesting and pleasing institution. Monday, Sept. 19, has been decided upon as Societies Day, and the city members, numbering from 3,000 to 4,000, wearing their handsome regalia and badges, are expected to form into line, accompanied by the city and visiting bands, and march through the city to the Fair grounds. On Tuesday, however, there will be assembled perhaps the largest society gathering ever witnessed in Canada, when it is expected by the grand officers that from 5,000 to 10,000, or probably more, Patrons of Industry, headed by their bands, carrying banners and bunting, will meet at the Market Square and march to the Fair grounds (where arrangements have been made for seating accommodations on the stands), there to be addressed by the grand officers and prominent officials of the order, and enjoy the full programme of special attractions. The object of this meeting is intended to be one grand rally, for the purpose of showing to the world that the Patrons of Industry are neither dead nor sleeping, as some suppose and venture to assert, but on the contrary are a live and great organization.

A Druggist Experiences 14 Years' Steady Increase in the Sale of Royal Crown Remedy.

ST. MARYS, April, 1881.

Some three years ago Isaac Williams' Royal Crown Remedy was introduced to me for sale; since then it has had a steadily increasing sale. It seems to give the best of satisfaction wherever used. S. FRALEIGH, Chemist.

Liver Complaint, Kidney, Debility and Female Weakness All Cured.

LONDON, June 29, 1880.

For some time I was a sufferer of liver complaint, affections of the kidneys, debility and female weakness; also with pain in the side, between the shoulders and underneath the shoulder blades, and much weakness in the back and distress across my body, and much sinking down of the system. Through persuasion I tried Williams' Royal Crown Remedy, and have derived great benefit from its use; in fact I am feeling better at present than I have for a number of years. I can with pleasure recommend it, and I would induce any one who is afflicted to get it without delay MRS. E. GREEN.

TERSE TELEGRAMS.

The News of the Day, Culled and Condensed.

The drought in the Schuylkill Valley, Pa., is fearful. Small streams are drying up and the river is receiving very little water.

At Lancaster, Pa., a building collapsed, carrying six men down eighteen feet with the debris. Frank Hart and Henry Rudy cannot live.

Captain Newton Talbot, employed by the Port Huron City Electric Railway Company, fell against a live wire on Monday and was instantly killed.

It is stated that Count von Eulenberg, president of the Prussian Council of Ministers, will succeed Herr Herrfurth as Prussian Minister of the Interior.

A scaffold at the Pittsburg locomotive works in Allegheny, Pa., collapsed Tuesday morning, and two tinners, John O'Day and John Bell, were fatally injured.

Judge Normile, of the St. Louis (Mo.) Criminal Court, who recently brought suit against the Post-Dispatch for $400,000, committed suicide Tuesday forenoon by taking poison.

The report from Rome that eleven persons were killed and 32 injured by the explosion of a mortar charged with dynamite while a religious fete was in progress at St. Alfonso's Church on Sunday was greatly exaggerated.

Fredericka Corman, aged 18, of Bridgeport, Conn., is dead from eating too many raisins. The girl suffered from peritonitis, and an operation was performed, when it was found that a large quantity of raisins seeds had collected in her stomach.

HONOR THIS MAN'S GRAVE.

Here Was a Hero Who Held His Own Life Cheaply.

NEW YORK, Aug. 10.—Young Clayton Witt is dead at his mother's home at New Brunswick. People had been standing at the gate for the last ten days hoping that his life might be spared. He had done a hero's work, and as the light went out of his eyes yesterday, there wasn't a woman in the town who didn't creep silently back to her household with a sigh on her lips and the best of prayers at her heart. Witt's story is briefly enough told. While passing up the street he had heard a woman's shrieks. He rushed into a narrow entry on Burnett street, and a sheet of flame well nigh blinded him. But he could hear a woman's voice calling out in her agony. The house was in flames, and he plunged into them just in time to hear 18-year-old Gussie Adler out in safety. She had been cooking over an oil stove. It exploded and she was enwrapped in its flames. Her rescuer was burned so fiercely that when the doctors reached him the small chance he might have had for his own life had vanished. Miss Adler's life was saved at the expense of his own. That is why the tears of so many honest people were shed last night in decent honor to an every-day hero's memory.

A Wise Young Woman.

Young Adolphus Fitzwilliam, he loved a fair maid,
But to ask her to marry him he was afraid,
Because of catarrh, which she had very bad;
So much so that often the youth was quite glad
To omit, at the parting, the kiss of the lover.
The reason of this she set out to discover.
"Catarrh makes me loathsome. It's fatal to love.
O, darling Adolphus, by all that's above,
I vow I'll not lose thee if something there is
To drive out catarrh and to sweeten a kiss."

So this wise young woman began searching for a cure, and good luck attended her. She found Dr. Sage's Catarrh Remedy at the drug store, and felt convinced that a preparation which the proprietors had such confidence in that they were willing to offer to pay $500 for a case they cannot cure, must be worth trying. She bought it. She tried it. It cured her. And when Adolphus kissed her at the altar last week, her kiss was as sweet and pure as roses in June.

Girls, a word of advice: If you want a lover to stay a lover, you must get rid of catarrh. Do as this sensible girl did, and get the only sure remedy for this disgusting and dangerous disease—Dr. Sage's Catarrh Remedy.

Quiet a child by sponging it off before putting it to sleep.

Two thicknesses of newspaper make a good lining for apple barrels.

The plumes in the helmets of the French dragoons are made of human hair.

We have no hesitation in saying that Dr. J. D. Kellogg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhœa, cholera and all summer complaints, sea sickness, etc. It promptly gives relief and never fails to effect a positive cure. Mothers should never be without a bottle when their children are teething.

When weak, weary and worn out, Hood's Sarsaparilla is just the medicine to restore your strength and give you a good appetite.

WONDERS OF MARS.

Remarkable Observations by a Harvard Expert in Peru.

Many Changes on the Face of the Planet During the Past Month.

NEW YORK, Aug. 10.—Prof. Wm. H. Pickering, director of the Harvard College annex observatory at Arequipa, Peru, telegraphs to the Herald as follows: "In my observations of Mars I have seen two large areas near the equator which are permanently blue. Near the edges they appear light blue. The light is slightly polarized. The total size of the area is about 500,000 square miles, one-half the size of the Mediterranean Sea. On June 23 a small dark spot appeared in the southern snow cap. Later this spot lengthened rapidly, and early in July it was 1,000 miles long, dividing the snow in half. Sixteen hundred thousand square miles of snow have melted within the last 30 days. The melted snow has apparently been transferred to seas across the lands. Small dark areas surrounded by snow appeared on July 11 and two days later I first saw a dark line on the fork of a "Y" shaped mark in the direction of the seas. The line became more conspicuous on July 14 and on the 16th a dark area about the size of the lake appeared on the northern side of the stem of the "Y," which was connected with the northern sea. The next day there appeared a large dark gray area near the northern sea. This had grown much smaller by July 23, and a new area appeared to the south of the southern sea, concealing its outline. The line in the fork of the "Y" had disappeared, but the area of the "Y" had extended. On July 24 a large dark area, apparently either a lake or sea, appeared near the melting snow, and on July 25 the southern branch of the "Y" became very narrow, the outlines of the northern seas were seen again, a narrow white line stretching north from the snow. Many other changes were noted. Rapidly changing faint whitish areas were seen. Green areas near the poles have not been seen for many weeks, but traces were recently discovered, and a bright green area was distinctly seen near the north pole last night.

SURPRISE SOAP

While the best for all household uses, has peculiar qualities for easy and quick washing of clothes. It does away with that boiling and scalding—the clothes come out sweet, clean and white. Harmless to hands and fabrics—lathers freely—lasts longest.
