Call for Troops in Argentina To Suppress the Incendiaries

Buenos Aires, Jan. 5.—An appeal for national troops has been sent by the governor of the province of Cordoba, following the burning of eight stacks of grain and threats by agitators to burn the entire harvested crop.

AMERICAN NAVY HOST TO JELLICOE

Visits Navy Yards and Sees New Developments in Armament of Warships.

PAYS SOME FORMAL CALLS

Washington, Jan. 5.—The American navy was host tonight at a reception given to Admiral Viscount Jellicoe. The reception, which closed a busy day for the visiting naval officer, was at the residence of Secretary Daniels, who headed the receiving line. Every naval officer stationed in Washington was specially invited to be present. Among the guests were members of both houses of congress and naval attaches of the various embassies and legations.

Viscount Jellicoe, who arrived here yesterday from New York, started the day with formal calls on Secretary of State Lansing and Secretary Daniels. Later he called on Vice-President Marshall and was received on the floors of the senate and house.

The outstanding feature, however, of the day was an official inspection of the Washington navy yards, in the course of which the visiting party was shown not only routine work on the big guns, which will comprise the batteries of the new dreadnoughts Tennessee, California and Maryland, but new developments is naval armament of which no information hitherto had reached beyond naval circles.

Admiral Jellicoe and the officers in his party witnessed in the new gun shops the shrinking of a jacket on a 14-inch gun and the "lining" of a 16-inch, 50 calibre rifle. They also were shown an experimental 16-inch rifle which will have an elevation of 50 degrees. Engineers of the yard hesitated to predict the range of this piece, 30 degrees being the highest elevation yet tried. In this position, the gun threw a shell more than 25 miles.

The visiting admiral was the guest of Assistant Secretary Roosevelt at tea, and dined with Secretary Daniels. His staff were the guests of Rear-Admiral Niblack, who has been designated as his special aid.

Tomorrow the party will go to Annapolis to inspect the naval academy, and, returning in the afternoon, will leave at 3.15 o'clock for Key West and thence to Havana, where the British cruiser New Zealand is waiting. Admiral Jellicoe was unable to say today whether he would proceed to South Africa as originally planned, or go direct to London.

SCORES WERE KILLED IN BULGARIAN RIOTS

Geneva, Jan. 5.—More than a hundred persons have been killed or wounded in anti-dynastic manifestations at Sofia, according to Belgian advices published here. Large crowds of manifestants, including the leading bourgeoisie, assembled before the palace, shouting "Long live the republic. Down with the king."

They attempted to rush the palace, but the troops opened fire, and the demonstrators replied with revolvers and stones. It was in this fighting that most of the casualties occurred.

The serious situation is due to increasing unrest in the capital and thruout Bulgaria because of dissatisfaction over the terms of the treaty, especially the loss of lands in Thrace.

Rush Japanese Reinforcements To Assistance of Kolchak

LABOR TO COMPROMISE ON REINSTATEMENT

Winnipeg, Jan. 5.—Labor members of the new Winnipeg city council, which convenes tomorrow morning, are planning to revive the reinstatement issue, but in a compromise form, according to unofficial information at the city hall. Instead of asking for immediate reinstatement of civic employes who lost their jobs because of participation in the sympathetic strike last summer the labor faction, it is understood, wil intrioduce a resolution in the council that those men still unemployed be given first choice of taking their old jobs in event of a vacancy.

Some members of the opposing element will fight such a plan, it was declared today.

ANTI-VACCINATION OFFICERS CHOSEN

League Hears Alleged Evils of Practice and Sees Process.

Several speakers addressed the meeting held last night in Foresters' Hall, College street, by the Anti-Vaccination League on the evils of vaccination. The meeting was large, about 200 attending. Dr. Henry Becker, president re-elect of the league, acted as chairman.

A. B. Farmer gave an address with illustrations showing how vaccine is obtained. Dr. F. P. Millard, D. $1,000 Collected.

A collection was taken and a sum estimated at close to $1,000 was donated by the audience, and a great number promised subscriptions of from $5 to $50 a month to the league for the three months of their campaign against the practice. Donations as high as $100 and $150 were received from individuals.

An election of officers was held and the following members were placed in office for the ensuing year: Dr. Henry Becker, president; J. B. Fraser, M. D., 1st vice-president; Geo. H. Corsan, 2nd vice-president; E. K. Richardson, M. D., 3rd vice-president; George Goulding, the champion walker, 4th vice-president; R. S. Weir, hon. treasurer; Geo. F. Davis, treasurer, and A. B. Farmer, secretary.

W. F. Darrock, a teacher at Parkdale Collegiate Institute, who predicted some time ago that an epidemic of diphtheria would follow the general vaccination as a direct result, was present and pointed out that diphtheria was beginning to make its appearance. He said it will become more prevalent within the next three or four months.
