Press was exciting great attention. At the former place it was resolved that the censorship should be continued; at the latter the freedom of the Press was announced amid great rejoicings. It was generally thought at Paris, from present indications, that the period was not very distant when a great experiment would be made by the liberals for the achievement of the entire liberty of the Press, and other free institutions.

KING LEOPOLD'S MARRIAGE.—Orders have recently been received from King Leopold, for the purchase of several articles in this country, which are, it is supposed, intended for his marriage. The increased allowance which the King receives from the state, with the fortune of his intended bride, would enable him to restore the brilliancy of the court at Brussels, and to distribute largely in charity. We have seen an authentic letter from Brussels, in which it is stated that Leopold has, since his arrival in Belgium, given upwards of £15,000 to public and private charities.

The *Warsaw Gazette* announces that a shepherd, named Demetrius Grabousky, died recently at Potorski, on the frontiers of Lithuania, at the Patriarchal age of 169 years.

The present Emperor of Russia, when Grand Duke, declared that the Polish Nobility would never be subdued "till three families had but one goat." He seems to proceed at present upon this principle.

CROWN PROPERTY.—A Parliamentary paper has been printed, showing what the crown has gained or lost during the two reigns of George III. and George IV. by surrendering the hereditary and temporary revenues as enjoyed by his Majesty George II. and accepting an annuity in the place of them. It appears that, from Oct. 26, 1760, (the accession of George III.) to the demise of the late King, June 26, 1830, the sum total of the revenues alienated, including all branches of every description, would, during that period, have produced £94 871,427; whereas, the annuities paid to the crown during the said 70 years, under the denomination of civil list, including occasional grants of Parliament for the discharge of arrears due at nine different periods, and the whole of which extra payments amounted to £3 393,009, make up the grand total of £65 823,438, deducting which from the total hereditary, &c. revenues, as above, leaves the public a gainer by the exchange, to the amount of a fraction more than £29,000,000, sterling.—*London paper.*

THE OBSERVER.

ST. JOHN, TUESDAY, APRIL 24, 1832.

Twenty four days later from England.—The *Eleanor* from *Liverpool*, has furnished us with London dates to the 14th, and Liverpool to the 15th of March,—and the *Alchymist* from *Falmouth*, has brought London papers to the 20th, twenty-four days later than our advices last week.—The Reform Bill passed the *third* reading in the House of Commons on the evening of the 23d of that month, by a majority of 116—355 voting in its favour—and 239 against it. Lord JOHN RUSSELL and Lord ALTHORP were ordered to carry the bill to the Lords, and bespeak for it their Lordships' concurrence; with what success remains to be seen.—The Cholera, we lament to observe, was gradually extending its unsparing ravages in London, and had appeared in 26 Parishes of that vast City. On the 24th March, 47 new cases were reported, and 33 deaths—total of cases from the commencement, 1258—deaths 680. In all other parts of England and Scotland, by the latest reports, 6784 cases, and 2169 deaths.—This fearful disease, it is stated, has also broken out in Belfast.—We have made copious extracts from the papers received, to which we beg to refer.

The Halifax Mail, due on Saturday, did not arrive here till a late hour yesterday afternoon; the English March Mail also arrived at the same time. The dates are to the 11th of the month,—which have been anticipated by arrivals at this port. The lateness of the arrival of the Mail was owing to its having been detained at Halifax a day later than usual.

Meeting of the House of Assembly.—In our last we informed our readers that the Lieutenant Governor had called a Meeting of His Majesty's Council, to deliberate and decide upon proper measures to be taken in the matter of the Revenue Law, of late the subject of so much anxious discussion. The result of their deliberations has been, the calling of a Special Session of the Legislature, to meet at Fredericton on Thursday the 31 day of May next, as will be seen by the Governor's Proclamation. The *peculiarities* of the Act in question, originated no doubt in an *oversight* of the House, and will, it is to be hoped, prove a very salutary lesson on all future occasions.—A Law regulating the Imports of the Province, by which so large a portion of its inhabitants must be guided in their commercial transactions, imperiously demands at least the *attention* of the Legislature, and no pains should be spared to render its language free from ambiguity and incapable of misconstruction.

As to the question of the Members receiving pay for their attendance at this extra Session.—"Let it not be so much as named"—Certes, the public spirit of the Members would revolt at the insulting idea of any remuneration, either in the shape of *travelling charges*, or for their attendance in the House. Too happy must they feel at the opportunity afforded them of attoning for their error, and repairing the evils of the last Revenue Law, by the enactment of another, more congenial to the interests of our Commerce and the feelings of the People.

ST. GEORGE'S DAY was yesterday celebrated in this City, by the St. George's Society, with their Guests, dining together at the Exchange Coffee House.—R. F. HAZEN, Esquire, President of the Society, in the Chair, assisted by J. V. THURGAR, Esquire, Vice President, as *Croupier*.

Cold Weather still!—Yesterday morning, *the 23d of April*, the Thermometer stood at *thirteen* degrees above zero!—Wind North-west and clear. A further proof of the intense coldness of the weather yesterday, was furnished by the chilling sight of *ice* formed at the bows of the vessels coming into harbour. Such a backward spring is scarcely recollected by our oldest inhabitants.

DARING ROBBERY.—On Sunday morning last, between the hours of 11 and 1, while the family were at Church, the house of Mrs. C. HANFORD, lower end of Prince Wm. street, was entered, by some person or persons, through a back window. A pane of glass was first broke, and then a screw which secured the window removed.—Two gold watch chains, several rings, &c. valued in all at £60, were stolen. We sincerely hope that the thief or thieves may be discovered and dealt with as the crime deserves.

The *Alchymist* has brought 136 Passengers, principally from the County of Cornwall. But like many of their predecessors, they are chiefly bound, we presume, to the "land of Promise"!—They would make good settlers, and encouragement should be held out to induce them to continue in the country.

Symptoms of Fever having been observed among some of the passengers on board the Ship *Pallas*, arrived yesterday from Cork via Halifax, it was deemed prudent to detain that vessel a short time at the Quarantine ground to give time for further observation. We are happy to learn that she has since been released.

On the 22d instant, at the Parish of Portland, a Coroner's Inquest was held on view of the body of JOSEPH POOLE.—Verdict, Died by Suffocation.

"We are extremely sorry that our remarks on the article which recently appeared in the *Observer*, are too "tame" for the Editor of the *British Colonist*. ABUSE is not a weapon which we shall ever stoop to use, besides, we freely yield the palm of *scurrility* to the redoubtable Editor of the Colonist."

The above paragraph is from the last *St. Andrews Herald*, in reply to the Editor of the *Colonist*, whom we beg leave to congratulate upon the prompt and spirited answer he has received to his officious call.

The Legislature of Nova Scotia was prorogued on Saturday the 14th inst.

The East India Company's ship Mangles, arrived at Halifax, on the 12th inst. from Canton, 120 days.

The M. left Canton on the 31 Dec., at which time the differences between the British residents and the Chinese government were settled, and the trade was going on as formerly.

Lord BELMORE, Governor of Jamaica, has been recalled. He is to be succeeded by Earl MULGRAVE.

It is said that the number of vessels preparing to sail for Canada at the opening of the season, both in London and the outports, is great beyond all precedent.

By the attention of Mr. WEDDERBURN we are furnished with the following information for the guidance of emigrants applying for lands in the Province.

After the first day of May, no land will be sold under *three shillings* per acre, if paid down, or *three shillings* and *four pence*, if paid by instalments; and no fees of any description will be charged. In the surveyed tracts under his charge as General Agent, immediate possession will be given under the Government regulations; and in any other where parties wish to settle, he will afford them every aid and information, by applying in their behalf, or in any other way which their cases may require.

No fees for petitions, warrants of survey or search, are now charged at the Crown Land Office, but no warrant will be issued to any applicant until a deposit is made to an amount equivalent to the first instalment on the quantity of land applied for.

We have further referred to him as to the mode pursued in his applications, &c. to the Crown Land Department, and find the manner in which they are made and replied to, the most prompt and convenient for applicants yet experienced in the Province; and that their interests are attended to by both with readiness and despatch.—*Courier.*

FIRE.—On Wednesday last, a Cottage and Barn, the property of Mr. ABBOT, on the Road leading from this City to Black River, about five miles from town, were entirely consumed.—Mr. A's. loss by this unfortunate accident is stated to exceed £100.—*Ib.*

From the Royal Gazette, April 18.

CIVIL APPOINTMENT.—His Excellency the Lieutenant-Governor has been pleased to appoint the Hon. WILLIAM BLACK to be Mayor of the City of Saint John.

BY AUTHORITY.

By His Excellency Major-General Sir ARCHIBALD CAMPBELL, *Baronet, G. C. B. Lieutenant-Governor and Commander-in-Chief of the Province of New-Brunswick, &c. &c. &c.*

A PROCLAMATION.

ARCHIBALD CAMPBELL.

WHEREAS the General Assembly of this Province stand prorogued to the First Monday in June next, and it is expedient, for special reasons, that a Meeting of the said General Assembly should be sooner held for the Despatch of Business; I have therefore thought it fit to summon the said General Assembly, and the same is hereby summoned, to meet at Fredericton on Thursday the 31 day of May next, for the Despatch of Business.

Given under my Hand and Seal, at Fredericton, the Eighteenth day of April, in the year of our Lord one thousand eight hundred and thirty-two, and in the second year of His Majesty's Reign.

By His Excellency's Command,

WM. F. ODELL.

From the London Globe, March 22.

The last New York papers announce an intended meeting of the young ladies of that city, for the purpose of devising some plan to improve the morals and habits of the young gentlemen. The object on the part of the ladies is said to be "not to keep company with any young *gentleman* who is in the habit of tippling, visiting taverns, theatres, oyster-cellars, &c., whereby he disgraces himself and family, and lays the foundation of his future ruin."

HALIFAX, April 19.—*Dreadful Explosion.*—A Stone Quarry has been worked during the last year, on a part of the Government grounds, near the east side of the road leading to Point Pleasant. A small stone house had been erected beside it, for the accommodation of the workmen; and one of them, with his family, resided there. On Monday morning he was handling a keg, containing about 14 lbs. of gunpowder, for the purpose of taking out a supply for the mining operations of the day; having unfortunately spilled some of the powder near the fire, it caught and communicated with the keg—in an instant the whole exploded. The roof was blown completely off, the side walls rent, and the whole building converted into a ruin, from which issued the piercing shrieks of the affrighted and maimed inmates. Eight persons were inside at the time of the explosion, and it is really matter of astonishment that any of them have escaped with their lives. One man and a woman were so seriously wounded, that we believe their lives are despaired of; some of the others were burnt or bruised, but not seriously, and are in a fair way to recover.—*Novascotian.*

WESLEYAN METHODIST MAGAZINE.—The first No. of this periodical made its appearance on Tuesday, from the Press of Mr. Cunnabell. So far as we are competent to judge, by a hasty glance at the contents—the matter appears appropriate and well arranged; and we have no doubt, if the work is kept up with the spirit which a good beginning would lead us to anticipate—that it will be extensively patronized, not only by the religious body to which it is especially addressed, but by persons of all denominations. Each Quarterly No. contains 64 pages—the price 1s. 3d.—*Ib.*

A difference has occurred at Prince Edward Island the House of Assembly for the purpose of increasing the Revenue passed a Bill for assessing lands, which the Council rejected. The House proceeded upon the principle broached here, that any tax they impose must be assented to by the Council, has passed sundry angry resolutions, and agreed to Address His Majesty upon the subject.—*Halifax Free Press.*

ST. JOHN'S, N. F. March 27.

We feel much pleasure in announcing to our readers that his Majesty's Government has come to the determination of granting to this colony a Local Legislature, similar to that of Nova-Scotia and New-Brunswick,—and that His Excellency Sir Thomas Cochrane may be expected here early in the summer, vested with full power to convene a Representative Assembly.

Passengers in the barque Eleanor from Liverpool.—Messrs. J. Hastings, P. Duff, and N. Disbrow, Jr. of this City, and Mr. Alex. Wright, of Miramichi, and Mr. John M'Murdo, of Liverpool.
