MONTENEGRO DEFIES AUSTRIA.

(Continued from Page 1)

Europe still think of snatching Scutari from Montenegro, who has given her life blood to take it. Europe will have to carry out the task by force ofarms."

Berlin, April 24.—There are many indications here today that the German government and public regard the European situation as critical. A high diplomatic official said today: "Europe has entered another crisis as grave as that which preceded the Austro-Russian demobolization."

The press bureau of the German foreign office, contrary to its custom was not prepared today with a statement either in regard to the ultimatum to Montenegro or to the general situation. An official, however, believed it probable that force would have to be employed to expel the Montenegrins from Scutari. The official view here is that all the European powers will work together until the problem has been solved.

A feeling of consternation and helplessness was displayed at yesterday's conference of the ambastadors in London. According to advices received here the representatives of all the nations, including Russia, agreed that the decision of the powers concerning Scutari must be enforced but were nonplussed as to how Montenegro was to be coerced.

The imperial chancellor and the foreign minister visited the budget committee of the imperial parliament today in order to make a confidential communication to its members in regard to the international situation.

The cancellation by Emperor William of his proposed trip on the steam ship Imperator and his decision to return to Berlin from Hamburg on April 28 are attributed in well-informed quarters to the crisis brought about by the fall of Scutari.

The stock market was demoralized today by the fears of grave political complications.

BRITISH SOCCER RESULTS

London, April 24.—Postponed Southern League football games played today resulted as follows:
