General News.

THE LABRADOR FISHERY.—The cod fishery on the cost of Labrador has been a success this season, but the salmon fishery has been a failure.

— At the recent meeting of the Eastern Baptist Association, a discussion arose on the amalgamation of the *Christian Messenger* of Halifax and the *Christian Visitor* of St. John.

—Two men discovered a stake laying across the railway near Robbs Iron Foundry Amherst, on Saturday night. They removed it. A few minutes afterwards the special train from Moncton with the Orangemen on board whizzed past.

HOT WEATHER.—At Charleston, S. C., on Saturday last, sixteen persons died from the effect of sunstroke, among the number being the Rev. John Foster, D. D. At St. Louis, Mo., a prominent merchant and banker, died from sunstroke. At Portsmouth, N. H., ther. in the morning registered 98 in the shade. At Bath, Me., ther. 96 in the shade, and at Waterbury, Vt., 100 in the shade.

POTATO TRADE.—The extent of the potato shipments from Nova Scotia to the United States, during the spring and early summer this year, was much larger than many imagine. Some idea may be formed of it from the fact that one enterprising trader alone Mr. C. N. Cummings, of Folly, Colchester County, shipped upwards of 60,000 bushels between the 17th of April and the 26th of June. He paid out in cash for the potatoes, labor in putting them up, truckage, wharfage, railway freight, barrels, sacks, &c., upwards of $40,000. Mr. Cummings is an active, shrewd and intelligent business man, and it is satisfactory to record that his enterprise was fairly rewarded.

THE POTATOE BUG.—This destructive insect has made its appearance at McAdam Junction, and its movements have been closely watched by those having potato crops at that place. The advent of the bug was notified about ten days ago. As far as can be ascertained his approach is first heralded by the presence of a large sized specimen of the species. Ten days after this, it has been notified that the harbinger of the tribe has deposited eggs from which have sprung from 100 to 200 bugs ready to deposit a fresh supply of eggs, and so the number multiply. One leaf was plucked from a vine by Mr. James Haddock on Saturday morning last at the Junction, on which was a single bug. This was placed on a plate and covered with a goblet. In the evening no less than seventy eggs were counted. Mr. Haddock, who keeps the Junction House and who settled there ten years ago amid the barren rocks, has 10 acres of crops infested by this destructive insect. The bug has found its way into the upper part of Carleton County, but no great fear is entertained of its ravages this season. —*St. John Sun.*

HANLAN'S LATEST CHALLANGES.—At the Charity Hospital, New York, the senior physician sounded Hanlan and stated that he was physically a phenomenon. "Why," said he, "his heart beats as regular as a clock; a rare thing in a professional rower." Hanlan told the physician that he could sleep until fifteen minutes before a race, so completely free was he from nervousness. Before leaving New York Hanlan expressed a desire to the *Herald* reporter to set the Plaisted matter at rest. "You can say officially for me," said he, "that I will row Plaisted on any waters in the world for $10,000 a side. And in addition to this, if he is not satisfied, I will give him a full minute handicap in a five mile pull. As for Trickett, I would like to meet him simply because he is champion of the world by title alone. He went to England, beat Sadler, and then retired to Australia as champion. I will also row him even for $10,000 a side on the waters of this continent. Least he should object I will give him $1,000 for his expenses. I am anxious to have the next championship match rowed in Toronto Bay." Hanlan also spoke in reference to Hawdon, and explained the reasons for his "walk over." "Hawdon," he said, "was trained to death. When I stopped in the race and looked back at him, I involuntarily thought to myself "what a rack of bones! It was a shame to train him so as Hawdon is a good man."

VALUABLE MINES.—The folks living in the suburbs of Windsor have been much disturbed in mind over a rich silver mine, which defies the genius of the miner, or prospector to discover it. We refer to the rich silver mine on the mountains between Beckman's Lake and the Ponhook Lakes. Years ago the Indians of a former generation, used occasionally to bring in to town lumps of silver, and trade them off for fire-water. At last the curiosity of the settlers was aroused, and several parties prospected without success, until at last, by a mere accident, a farmer on the Forks Roads struck a trail and unexpectedly, to him, discovered a boiling spring, and a rich deposit of silver was visible in the liquid depths of the basin of this spring. He returned home in order to get the instruments to work the mine, and never afterward was able to find it. The compass refuses to do its duty in the neighborhood of the spring, which is one cause of the difficulty in finding it. Occasionally parties start out prospecting for it, but up to the present this valuable mine lies undiscovered at our very doors. Along this range of mountains there is coal also protruding from the surface, as many can testify who have visited the Ponhook Lakes, and rich specimens of gold have been gathered in many places.—*Windsor Mail.*

ENGLISH CROPS INJURED BEYOND RECOVERY. —*London*, July 16.—John Joseph Mechi, the noted scientific agriculturist, writes to the *Times* as follows; "Another week of flooding storms and low temperature has put the finishing stroke to the agricultural disaster. It is now too late for the crops to recover. They are considerably injured even on well farmed and drained lands, while on ill-farmed and undrained lands the matter is simply ruinous. The wheat will suffer less than the spring crops; weeding is hopeless, and unless we get the promised hot, dry weather, many grass and clover crops, and even peas, will rot ungathered.

UPSET BY THE SQUALL.—The fishing schr. Bee, belonging at Clementsport, commanded by Capt. James Spurr, while entering the Gut yesterday afternoon, was struck by the squall and upset. The men clung to the overturned vassel till the arrival of the schr. P. Dixon, Capt. Jas. Cousins, when she was towed on to Indian Beach. With the exception of the loss of sail, the other damage was slight.—*Digby Courier.*

Lawrencetown High School.

The High School closed on Wednesday, the 16th inst. On the 11th, 14th and 15th, the classes underwent a rigid examination in the following branches—Roman, Grecian, English and Canadian History; Arithmetic, Algebra, Geometry, Geography, Grammar, Elocution, Prosody and Scanning, Philosophy, French, Mapping, Book-keeping, Practical Mathematics and Navigation. The senior class was examined in the following branches—Latin Greek, Philosophy of Ethics, Esthetics, English Literature, Chemistry and History of Civilization by Guizot. The examinations were very satisfactory.

MUSICAL RECITAL.

On Tuesday evening the Music class, under the direction of Prof. McDonald, gave a recital to an appreciative audience. The programme was as follows:—

PART I.

Overture....." I Monteechi Ed I Capuletti."
Duett by Misses Bowlby and L. Newcomb.
Flee as a Bird.....Mozart.
By Miss A. M. Dodge, Middleton.
"Annen Polka".....Strauss.
By Misses Bowlby and Whitman.
"The Bridge".....Miss Lindsay.
Vocal Solo by Miss L. K. Newcomb, Yarmouth.
"Semiramis".....Rossini.
Duett—C. F. Hall and Miss A. M. Dodge.
"Let me dream while life shall linger,"
Bass Solo and Quartette—N. J. Franks.
"Sonata, No. 2 of 33".....A Piabelli
Duett by Misses Newcomb and L. W. Parker.

PART II.

Overture—"Poet & Peasant"..From Von Suppi
Duett by Miss A. M. Dodge and C. F. Hall
"The Sailor Boy"—Vocal Solo by C. F. Hall
"Il Trovatori"
Duett by Misses Euphemia and Etta Durling
"Come Back to Me.....Kuhl
By Miss A. M. Dodge.

GOD SAVE THE QUEEN.

The music was classical and indicated on the part of Prof. McDonald and his class a decided interest in the study of music.

GRADUATING EXERCISES.

On Wednesday morning the hall was very artistically decorated with boquets and house plants. The friends in the village sent in a large number of house plants while the piano and desks were well arranged with bouquets. A number of pieces of drawing and painting were suspended on the wall—the work of Miss Brown and her class. At an early hour a select audience had assembled to listen to the essays of the graduating class. The programme was as follows:—

Reading Scriptures and Prayers.
Music—Hear our Prayer.....Choir
Essay—Books.....Mr. Fred Primrose
Music.
Essay—Our Horizon.....Miss C. B. Marshall
Music—"Let me dream while life shall linger"
Solo and Chorus, N. Franks and Choir.
Essay—The Real & Ideal..Miss L. M. Palfrey.
Music—The Sailor Boy.....Solo, C. F. Hall.
Essay—The Seer.....C. F. Hall.
Class Poem.....Miss E. M. Franks.

The essays were exceedingly good and showed evidence of work and culture. We shall not now stop to particularise but hope to have an opportunity in the immediate future of seeing them in print. Dr. Hall informed the audience that the essayists had finished the Literary course and that it became his duty to confer the diplomas. At this point the principal complimented the class very highly and he hoped that their past success would prove and incentive to even higher and nobler work. As the class was receiving their diplomas the pupils in the School came forward and presented each of them with a number of boquets. Dr. Hall said that the school was now divided into the following classes, Preparatory, Junior, Middle and Senior. Pupils may join any of the advanced classes by standing the required examination or giving evidence of a fitness for the work. Eighty pupils have been registered in the High School during the year.

At the close the Revs. J. Brown, Buckly and C. Parker made neat and appropriate speeches.

LAWN PARTY.

In the afternoon the pupils, with a number of friends, visited the Island and passed a few hours in croquet, boating, and social conversation. Those elms, a century old, with the surrounding scenery, renders the Island unrivalled for its picturesque beauty.

LECTURE.

In the evening a large audience greeted the Rev. C. Parker, who addressed them on "Higher Education, and the way to attain at." We cannot give even an outline of the lecture. It was most practical in its tendency. The cause of Mr. Parker's popularity was never more evident than on this occasion. The audience paid the most careful attention throughout, and doubtless carried away higher ideas of education.

THE MUSIC.

Prof. Hall, with a select choir of about forty voices, has during the past few weeks been preparing music for the occasion. The music consisted of the following selections:—"The Centennial Hymn," by Jno. G. Whittier; "The Heavens are Telling the Glory of God," from Hayden's "Creation," and 'Kelly's American Hymn.' The music was a decided success. Prof. Hall deserves the utmost credit for his efforts in toning up musical taste. At the close of the exercise, Mr. Fred Primrose presented Dr. Hall with an address, and four copies of elegantly bound poems from the graduating class. The National anthem and the curtain drops on one of our most interesting annual occasions, in which not only to the High School, but the community appear so cordially to participate.—*Com.*

☞ *Johnson's Anodyne Liniment* will positively cure chronic diarrhœa of long standing, also dysentary, cholera morbus, and cholera, used internally. There is no remedy known so valuable for immediate use as this old life preserver.

One single box of *Parsons' Purgative Pills* taken one each night will make more *new* rich blood than ten dollars worth of any liquid blood purifier now known. These pills will change the blood in the entire system in three months, taken one a night.

LAUNCH AT DIGBY.—A brigt named the *Edmund* was launched from the shipyard of E. Burnham & Co., Digby, on Saturday. Capt. Chas. Burns is to command her, and is also part owner. The dimensions of the *Edmund* are: keel 85 ft. beam 24 ft. 8 in.; depth of hold 10 ft. 1 in. She will proceed at once to Annapolis, where she will load lumber for Messrs. Pickles & Mills for West Indies, for which trade she is intended.

Fat People's Misfortunes.

Some of the savage tribes enter their dwellings through a hole in the roof, and when a person becomes so fat that he cannot get in, he is regarded as an outlaw. Had this system been adopted in the United States, the "out-laws" could not have made a more active demand for Allan's Anti-Fat than now exists. Hundreds who had lived in constant fear of sudden death have, by its use, been reduced to a comfortable living weight. The Anti-Fat is purely vegetable and perfectly harmless. Sold by druggists.

Latest by Telegraph.

EUROPE.

NEW YORK, July 18—A London despatch says a delegation of Bonapartists from Marseilles, Lyons and other cities of Southern France to-day visited Prince Jerome Napoleon in Paris, and presented an address, accepting him as the legal head of the Bonaparte family and the rightful leader of the Imperial party. The Prince read an address, evidently carefully prepared, in which he declared himself the head of the Bonaparte family and dynasty. This, he said, was by no act of his own, but was simply the result of the rules of succession. He must be allowed to choose his own time in all his actions and to await the course of events. The Republic was by right at present the legal Government of the country, and so long as its administrators preserved the confidence of the people by peaceable and legal means it was the duty of Frenchmen to support it.

LONDON, July 19.—At the prize shooting at Wimbledon, Col. Gibson (Canadian) won the Prince of Wales prize of £100 and badge; score—94.

CANADA.

OTTAWA, July 19.—Weights and measures districts are as follows:—Halifax, to comprise City of Halifax, and counties of Halifax, Guysborough, Hants, Kings and Lunenburg; Yarmouth, to comprise town of Yarmouth and counties of Yarmouth, Shelburne, Queen's, Digby and Annapolis; Pictou, to comprise counties of Cumberland, Colchester, Pictou and Antigonish; Cape Breton, to comprise the whole island of Cape Breton; Charlottetown, to comprise the whole island of P. E. Island.

OTTAWA, July 21st.—A general regret is expressed at the proposed visit of the Montreal Orangemen. A disturbance is, of course, expected.

UNITED STATES.

MEMPHIS, July 19.—The cessation of business here has thrown 10,000 people upon charity, and only a few wealthy people have remained to battle with the disease and help the pauper multitude.

PHILADELPHIA, July 20.—The steamship Santiago de Cuba, of New York, and Scots Grey, of London, collided in Delaware this afternoon, causing damage to both vessels to the extent of £5,000.

NEW YORK, July 20—A despatch from Memphis reports that the fever is spreading. Business is dead. The authorities recommend the evacuation of the city. Probably a relief committee will be formed immediately and Government called on for aid. Business men are making arrangements to conduct business in other localities.

The New York Board of Health say no extraordinary precautions are necessary to preserve New York from yellow fever.

NOVA SCOTIA.

YARMOUTH, July 21.—Ship St. Bernards, 1564 tons, from New York for Antwerp, grain laden, and owned by W. D. Lovitt, is reported, by cable, lost on West Cappelle Banks, near Flushing. Capt Martin Burns and the mate were lost. Capt. Burns leaves a wife and family, for whom great sympathy is felt. Insurance in Yarmouth offices, $28,000 on vessel and $12,000 on freight.

The Hyde Heirs.

A meeting of the representatives of the heirs to the Hyde estate was held in a private room at the International Hotel last week. Present—Mr. E. P. Archibold, Chairman; Mr. J. W. James, Lawrencetown, Treasurer; Mr. Thomas A. James, Secretary; Hon. Senator Almon, and Mrs. J. W. James. The meeting was held for the purpose of exhibiting the various documents in the possession of the heirs. The "warrant" granted to Thomas Hyde, of Annapolis, in 1737, signed by the Duke of Argyle (grandfather of the present Gov.-General), about which so much has been written, and the possession of which by the heirs has been so long disputed, was produced. It is in a remarkably good state of preservation, written on parchment, and quite legible. The various documents produced appear to establish, beyond all doubt, the claims of the Hyde heirs to the £60,000,000 now awaiting owners in the Bank of England. During the nine months that Mr. J. W. James has been treasurer he has received no less than 373 letters and communications referring to the matter. The majority of the heirs reside in the Maritime Provinces, but a few live in Boston, who are acting with the heirs in Nova Scotia, as will be seen from the following recent communication from the Boston "Globe":—

Certain statements regarding the settlement of the Hyde estate involving millions of dollars, now in progress of settlement, having appeared in the New York and Portland papers, and copied from them into the columns of the Boston dailies, we, the Boston claimants, wish to say that whatever has been or is being done by parties in New York or elsewhere, outside of the association in Halifax, N. S., or St. John, N. B., is in no way connected with our proceedings. Furthermore, the matter we have in hand is at present nearing, we believe, a happy termination. Our agent, sent by us to England eight months ago to complete the links in the chain of evidence has reached the termination of his labors, and his official report is now on its way from London. Our proofs are as clear as the midday sun. The original documents which still remain at Halifax, will be forwarded immediately on receipt of advices from London, and we are confident that the £60,000,000 so long held in abeyance in the chancery courts will pass to its rightful owners. There are comparatively few of the heirs in the United States—some 30 in all, 25 of whom are in this city. In our business transactions with the British Government no "red tape" or "diplomacy as between foreign nations" has to be made use of, the business all being transacted from Halifax and St. John. The bulk of the money will remain in England. There are seme 200 claimants in all.—*Hx. Paper.*

MOVEMENTS OF THE FISHING FLEET.—The mackerel fishery is looking up a little, and as the quality of the fish improves more are salted. 11 arrivals have been reported since our last issue, 7 of them with fares aggregating 1480 bbls. Sales have been made by the trip at $5 per bbl. out of pickle, without bbl. The number of Bank arrivals for the week has been 5 from Western Bank with 415,000 lbs. codfish, and 9 from Grand Bank, 230,000 lbs. halibut. 22 Georges arrivals have been reported, bringing 300,000 lbs. codfish and 13,000 lbs. halibut. The inshore codfish fleet are troubled by a scarcity of bait and the depredations of the dogfish. Only 2 arrivals have been reported the past week, bringing 34,000 lbs codfish. Total number of arriaals for the week, 49.—*Cape Ann Advertizer.*

FROM LABRADOR.—The schooner J. S. Ritcey of LaHave, Capt. John Ritcey, arrived at this port yesterday from Labrador with [illegible] 900 quintals of codfish. [illegible] the fleet to [illegible]

TELEGRAPH NOTES FOR THE WEEK

The Government has decided not to prosecute Annie Parker, who became well known through the Osborne case. Unless she is prosecuted privately she will be discharged. A few months ago she was arrested at the instance of the Osborne family on a charge of perjury, she having given evidence against them on their trial for the murder of Timothy McCarthy. They thought the Government would bear the expense of the trial, but the Attorney General has decided otherwise ....London, July 16.—In the House of Commons to-day, Sir Stafford Northcote said the bill relating to elections and corrupt practices ought to be considered before the dissolution of Parliament, but he doubted whether it could be considered during the present session....The new Canadian 4 per cent. loan has been fully subscribed. The tenders at the official minimum at 95 per cent. will receive about 90 per cent. of the amount of their tenders, and all tenders above 85 per cent. will receive the full amount bid for.... Chastine Cox, who murdered Mrs. Hull, has been convicted of murder in the first degree. Cox has been sentenced to be hanged on the 29th of August....Pietermaritzburg, June 30.—Gen Wolseley will unite Gen. Crealock's command to that of Lord Chelmsford, and Fort Lurnford will be the base of supplies. Cetewayo is reported to be north of Ulundi with 10,000 men. Messengers from Cetewayo have come to Fort Pearson, and General Wolseley has sent them back with the names of the chiefs whom Cetewayo must send to Gen. Crealock....Advices from Cape Town to July 1st announce that an envoy from Cetewayo reached Fort Napoleon on June 26, bearing the peace proposals and a fine tusk of ivory as a present. He wished to stop the advance of the second division, but was informed that peace proposals must be made to Lord Chelmsford, and that the advance would only be postponed on condition that the former demands were acceded to....London, July 18.—The following is the latest from the seat of war. The balance of opinion seems to favor a belief in speedy peace and the submission of Cetewayo. One report, which lacks confirmation, represents that Cetewayo would come forward personally to treat for peace. General Wolseley has instructed Col. Lanyon not to recommence operations against Secoconi and to retrench expenditures....Port Hawkesbury, July 17.—A terrific thunder squall, with hailstones, some measuring over an inch in thickness, passed over here at 7 p. m., doing much damage to window glass. ....A fire occurred at Koshaw, Russia, on the 5th, in which eleven houses were destroyed. Loss 140,000 roubles.... "Village Girl," who won the twenty mile race, at Lepine Park, on Wednesday, died Monday night from the terrible test of endurance. She was valued at $1,000. A Society for the Prevention of cruelty to Animals is wanted..Boston, July 16.-One of the severest storms ever known here passed over the town about 4 o'clock this afternoon. Much damage was done. Hail fell, breaking many windows. Serious disasters are reported in the harbor; one vessel was capsized and four women and a boy drowned; other losses of life probable. Many of the finest trees in the city were blown down. Despatches from various points throughout New England report the storm unusually severe. Great damage has resulted.

WHAT THEY SAY OF IT? A FEW FACTS FOR THE PEOPLE.—There are but few preparations of medicines which have withstood the impartial judgemnt of the people for any great length of time. One of these is Dr. Thomas, Electric Oil. Read the following and be convinced:—Thomas Robinson, Farnham Centre, P. O. writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Electric Oil, and since then have had no attack of it. I would recommend it to all."——J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes—"I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Electric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, ect., and think it equally as good for horses as for man."——A. Maybee, Merchant, Warkworth, writes, "I have sold some hundred of bottles of Electric Oil, and it is pronounced by the public, "one of the best medicines they have ever used; it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."——Joseph Rusan, Township Percy, writes, "I was persuaded to try Dr. Thomas' Electric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a public benefit."

BEWARE OF IMITATIONS.— Ask for Dr. Thomas' Electric Oil. See that the signature of *S. N. Thomas* is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and *Take no other.* Sold by all medicine dealers. Price 25 cts. NORTHROP & LYMAN, Toronto, Out., Proprietors for the Dominion.

DRY GOODS.

THE OLD TARIFF.

Two hundred and thirty-eight Packages of

NEW SPRING GOODS,

imported and Duties paid under the Old Tariff.

This large importation, which consists chiefly of STAPLE GOODS, was made earlier in the season than usual to SAVE our customers paying the increased duties. In addition to the above we hold a very large stock, comprising a general assortment of Dry Goods, all of which we offer WHOLESALE AND RETAIL

AT OLD PRICES.

MILLINERY, GENTS' FURNISHINGS

and Novelties for all Departments, to make our Stock complete, and which could not be imported earlier. As these Goods come forward they will be subject to the Duties under the New Tariff. All consumers of Dry Goods who are in a position to lay in a stock of COTTONS and other STAPLE GOODS, should not fail to do so at once, as prices must advance when the present stock is exhausted.

GILBERT'S LANE

DYE WORKS,

ST. JOHN, N. B.

IT is a well-known fact that all classes of goods get soiled and faded before the material is half worn, and only require cleaning and dying to make them look as good as new. *Carpets, Feathers, Curtains, Dress Goods, Shawls, Waterproof Mantles, Silks and Satins, Gentlemens' Overcoats, Pants, and Vests, &c, &c,* dyed on reasonable terms. BLACK GOODS a specialty.

AGENTS.—Annapolis, W. J. SHANNON, Merchant; Digby, Miss WRIGHT, Millinery and Dry Goods; H. S. PIPER, MONITOR Office, Bridgetown.

SPECIAL NOTICE!

IN order to meet the demands of our numerous customers, we beg to announce that we have added to our Establishment a

Slipper and Lasting Factory

the necessary Machinery for the Manufacture of

Men's, Women's, Misses', & Children's

BOOTS AND SHOES

in all the leading styles.

By continuing, as in the past, to use first quality of material, we hope to merit a liberal share of public patronage in our new branch of business, as well as a continuance of public favor in our old business.
