thirteen houses were burned. One house contained thirty women and children, who had fled there for refuge and were protected by only a few men, and the wretches of assailants, had the refined cruelty, to cut down the staircase before they set the house on fire. Two men only escaped out of the whole number.

After all these atrocities, besides ten other attempts at incendiarism, and twenty attempts to assassinate isolated persons, on the following day our worthy governor Rosetoland issued a proclamation of liberty and amnesty for political crimes, &c. We are only astonished that he did not vote them a recompense.

At Pecheur, fifteen soldiers of the line and the crew of the schooner-of-war La Masenge held all the populace in check; some fires only took place, but the negroes yielded to the law after forty or fifty were executed.

Numbers are emigrating—seven or eight families have already departed for the United States and ten or twelve more are preparing to go.—[N. Y. Herald, 28th.

PROVINCIAL APPOINTMENTS.—*Bye Roads, St. John*—The following persons are appointed Commissioners, in the room of Hugh Ryan, who declines to act as a Road Commissioner, viz:—

John Johnson—For the Road from Black Settlement to the Quaco Road, back Road, £10; for the Road from the Hibernia Settlement Road to the Quaco Road, £10; for the Road leading from Mullkin's Road through the Settlement of Messrs. Vaughan & Campbell, £10.

David Collins—For the Road from Quaco Road, through the Ryan Settlement, to the Forks of the Road near the late McCracken's, £15.

By His Excellency's Command.

DESTRUCTION OF A SHIP BY FIRE.—Intelligence has reached us of the total loss by fire, on May 22 last, in lat. 34, long. 63, of the ship "General Wm. Nott," bound from Cuba to Swansea with copper ore. The fire had been burning several hours when the "Liverpool," Irving master, hove in sight.—The crew were found clinging to the wreck in momentary expectation of death, the boats were damaged, and all escape cut off when they were rescued, shortly after they were taken off, their vessel blew up with a terrific explosion. The loss sustained partly covered by insurance, is £30,000. The crew have been landed.

A NEW SPECIES OF POTATO.—Mr. Edwin Bryant, in his tour to California, says that he was presented by one of the Kansas Indians with a root or tuber of an oval shape, about an inch and a half in length, and an inch in diameter. This root is called the prairie potato. Its composition is farinaceous and highly nutritious, and its flavour more agreeable than that of the finest Irish potato. "I have but little doubt," adds Mr. Bryant, "if this plant were cultivated in our gardens it would be an excellent and useful vegetable for ordinary consumption, and, very probably, it would be so improved as to form a substitute for the potato.—*U. S. paper.*

Nine hundred pounds of bread was lately seized by the Superintendent of Police at Quebec, for being light of weight.

☞ The newspaper portion of the English Mail arrived about noon this day. From papers received we make the following additional extracts:

[*From the Liverpool Mail, July 22*]

We have had a pretty steady business in the past week, with a probability of long continued prosperity, should confidence be undisturbed by the events which are daily arising around us. Though the weather has recently been wet and stormy yet the harvest prospects are favourable. The people in the manufacturing districts are more generally and actively employed and the papers published there admit that there is an improvement in almost all branches of industry. When they do this, we may be sure that all is the right, for Manchester people are proverbially dissatisfied unless they are working to very great advantage, and their feelings and opinions are very closely re-echoed by their public organs. The expectation of a settlement of the political affairs of the North of Europe is strengthened, and the accounts from the continent are generally more satisfactory. Money is also easily obtainable at moderate rates. On the other hand, we have to note the unfavourable advices from Ireland, which would lead to the supposition that the misguided peasantry are determined to take up arms against the government, and the intimation that in many parts of England, the potato disease has again appeared, though not to the same extent as formerly. The public funds have already been injuriously affected by these reports. Should there really be an outbreak in Ireland, of which we confess we have little fear, it is most likely there may also be a rising of the disaffected in the large towns of England and Scotland, but it is a consoling reflection, that in all parts of the British empire the government and the friends of order are quite able and prepared to suppress the slightest attempt at disturbance. Even the potato disease, should it prevail as alarmingly as last year, which we think will not be the case, may be a valuable auxiliary to their efforts for the preservation of the public peace; but should the crop be altogether destroyed, we scarcely can imagine that it would be missed, so plentiful a supply will there most probably be of every other article of agricultural produce

IMPORTANT ANNOUNCEMENT.

In the House of Commons, last night, Lord John Russell said:—"I rise to give notice that I shall, at twelve o'clock tomorrow, ask leave to bring in a bill to empower the Lord Lieutenant, or other Governor or Governors of Ireland, to apprehend and detain until the 1st day of March, 1849, such persons as he or they shall suspect of treasonable designs against her Majesty's Crown and Government.—[Loud cheers.]

Her Majesty in Council has been pleased to confirm and render final the suspension of Dr. John Reddie from his office of Chief Justice of St. Lucia.

A vessel arrived in the river Thames, from Canton has brought the somewhat remarkable importation of 140 000 Chinese insects, for the purpose of natural history.

An official notice has been posted at the chartists' head quarters, John street, Tottenham, Court road, London, announcing that the committee are without funds, and that the institution is at an end.

To prepare new potatoes, throw a handful of salt upon them, and turn them over a little with your hand. Afterwards cut them into water. This will bring off the peel without the trouble of scraping.

On Friday afternoon a thunder and hail storm did great damage in Cambridgeshire and Oxfordshire, the lightning setting fire to buildings in several places, and the hail destroying the crops.

On Sunday evening last, the sugar house of Mr. Parker, at Greenock, was burnt to the ground.

Within the week ending on Friday last, not a single death was registered in the Swansea district, which contains a population of nearly 40,000 inhabitants.

Charles G. Duffy, Esq. Editor of the Nation, has been sent to Newgate. Richard Dalton Williams and Kevin Izod O'Dougherty, Esqrs., the registered proprietors of the *Tribune*, were arrested and committed, on Sunday, to Newgate, on a charge of felony.

The Lord Lieutenant has postponed for a few days his intended visit to London. From all that can be gleaned in official quarters, Lord Hardinge will, no doubt, be the new Viceroy, and that, too, within a few days from this date.

THE ARMY.—On Thursday morning orders were given from the Commander-in-Chief's office to all officers belonging to regiments in Ireland, on leave of absence in London, to repair immediately to rejoin their respective regiments quartered in that country.

It is said, that amongst other changes contemplated in the church, is the formation of a diocese of Canterbury, to which a Bishop will be appointed. This change will relieve the Archbishop of the duties of a subordinate diocesan, and afford him uninterrupted time to superintend the many bishoprics of his extensive district.

DR. HALSEY'S GOLD AND SILVER PILLS—Are founded upon the principle that nearly all diseases arise from the same causes, or that a morbid condition of *the liver, stomach, and bowels*, predisposes the system to every class of disease. When these important function become obstructed with super abundance of bile and viscid matter, Nature ceases to fulfil her proper office. It is then that the *blood* becomes impure, because the secretive organs of the liver, whose office it is to separate the worn-out principle of this vital fluid, are no longer fit for their office, and the wasted parts of the blood continues therefore in its circulation and become diffused throughout the whole system. Thus filled with infectious humours the body is made liable to sickness. If, by chance, it is exposed to a sudden change in the weather, a bad cold, or consumption, would be the result—if in the vicinity of contagious disorders, it would imbibe the infection.

Dr. Halsey's Gold and Silver Pills, although pleasant to take and innocent in operation, is the most excellent medicine in the world, to remove the bile and viscid matter from the system, and to restore the liver, stomach, and bowels, to the performance of their proper functions thereby rendering the blood pure, and divesting the system from all morbid and infectious humours, which we finally remove every disease, however long standing, and endow the system with health, strength, and vigour.

A circular giving a full explanation of the two fold action of the *Gold and Silver Pills*, can be had of the agent gratis.

Commercial HOTEL,
Head of King-street, Saint John, New Brunswick!!

THE Subscriber begs leave to announce to his numerous friends and the public generally, that he has re-leased the above Establishment for a term of years. This Hotel has recently undergone a thorough repair, and neither pains nor expense has been spared to render it equal to any in the Province. The walls of the old part have been torn down and new one substituted, besides which very extensive additions have lately been made to the Establishment—fourteen entirely new rooms have just been thrown open, finished and furnished in a superior style.

Thankful for the patronage heretofore received the subscriber pledges himself that no effort on his part shall be spared to render the stay of those visiting the "Commercial" pleasant and agreeable.—The Travelling Public and others are respectfully invited to call and make trial for themselves.

Families visiting this City can always be accommodated with Private Rooms, &c. &c.

Commodious Stabling for Horses, and a superior Hostler always in attendance.
