Mr John E. Palmeter has our thanks for a bundle of American papers. Mr P. is now living at Milton, Mass.—Mr J. T. Davison also has our thank for San Francisco papers.

The meanest man of the year is the one who went out into the back yard the other day, turned the hydrant on over his head, let his hair freeze, and then broke it off rather than pay a barber for a hair cut.

Mr Edward Turner, of New Minas, while driving from C nard on Saturday last was thrown from his team, and his leg caught between the barrows of the sled and dragged him some distance—breaking his leg near the ankle.

Election day passed off quite quietly in Wolfville. We were sorry to see some cases of drunkenness but were glad to see that it was not common. In the evening the Liberal party had a procession and made a good deal of noise in honor of their victory.

The electric light was turned on for a trial on Monday evening. The light was steady and brilliant, and all we heard speak of it were well pleased. We understand that it will be turned on permanently to-night or Saturday. We shall refer to it further next week.

An interesting hockey match was played on the rink last Friday evening, between "The Professors" of Wolfville, and the Academy team. Sharp playing was done on both sides and the game was won by the H. C. A's, the score being 4 to 1 in their favor. A return match may be expected soon.

Mr Lewis, Agent and Lecturer of the Temperance Division, will (D. V.) speak as follows:

Miss Mabel Ells intends to leave Berwick in April for Boston where she will take a six months course of instruction at the Conservatory of Music. Miss Ells succeeded in winning the scholarship at this institution offered by the "Ladies Home Journal" of Philadelphia as a premium for a certain number of subscribers obtained for that magazine.

Charles A. Rand, of Upper Canard, died aged 41 years, on the 14th. Mr Rand leaves a widow and two little children to mourn an irreparable loss. His illness was protracted, and at times his sufferings were very great, but he bore all with a brave heart, and a patient mind. He trusted in Christ and found abundant grace. Only a few months ago, he followed his brother, Eiwin Rand, to the grave, now his loss augments the sorrow of his relatives and friends. COM.

Sold! Sold! On what? Its Merits! K. D. C. a household word!

Mr O. H. Cogswell, a Cornwallis boy, and a graduate of Acadia College, has just been appointed to the principalship of the High School at Victoria, B. C., with a salary of $1320 per year. Mr Cogswell has been in British Columbia for some time, and a few months ago he showed himself to have a level head by coming home for a Nova Scotia bride. We are pleased to note Mr Cogswell's success, and no doubt this paragraph will be very interesting to his friends in the Provinces.

Local and Provincial.

There is to be a hockey match in the rink next Tuesday evening between the Wolfville "Bloods" and the Hantsport club.

Admiral Sir W. Provo Wallis died in England on Saturday at the advanced age of 101 years. He was a native of Halifax.

Mr R. W. Storrs, who has been visiting in Boston and other American cities for some time back, returned last week—in time for the election.

The British Colonies will be well and largely represented at the Chicago's World Fair. A special cable says that a space of 300,000 square feet has been allotted to the British Empire.

The *Herald* says it has on the best authority that the Bishop of Nova Scotia will sail on March 16th from Genoa or Naples to New, and will reach home by Easter or perhaps by the 1st of May.

The Bank of England is comparitively an insignificant looking and gloomy building, as seen from the outside, yet it is a perfect hive of industry in its interior arrangement, 1,100 men finding employment and earning $1,500,000 per annum within its walls.

Minard's Liniment is the Hair Restorer.

To-night in the Wolfville rink there is to be a return race between D. E. Woodman and Edward Mackintosh, some dissatisfaction having been felt by the latter's friends in the race two weeks ago. This race is to be to win, and will no doubt be an exciting one.

The Marquis of Lorne is growing in favor among the working classes of England since he laid down the proposition that when capital would but listen to labor but refused its just demands, declined to arbitrate and antagonized all efforts to redress its wrongs—strikes were not justifiable, but praiseworthy.

A successful carnival was held in the rink on Tuesday evening. The ice was in good condition, and nearly 200 skaters and a large number of spectators were present. The Kentville band furnished very pleasing music during the evening which was much enjoyed. Quite a number were present from Kentville, Canning and other parts of the county. The only rink in the county now is in Wolfville, and it is one of the best in the Province. This winter it is meeting with a good patronage.

In responce to the piece about them rubbers of Rev'd. T's, I would like to know who Rev. T is, and who the blockhead is that threw them from the train. How did he expect me to know by the size of them rubbers who they belonged to as I did not hear him say any thing only threw a pair of rubbers from the train. I did not find them any help on my walk, keeping my feet from straying in by and forbidden paths as there is not elastic enough in them. I think if Rev T. had advertised his rubbers without so much slang it would have been more to his credit as a Rev. gentleman. He will find his rubbers at the postoffice unclaimed. C T

Free Farms in the Canadian Northwest.

Manitoba. Alberta.
Assiniboia. Saskatchewan.

The Government gives one quarter section (160 acres) free to every bonafide settler. A second quarter section can be purchased by deferred payments.

The Canada Pacific Railway Company have a large quantity of the best farming lands for sale at $3.00 PER ACRE, with easy terms of payment.

The Canada Northwest has the most productive soil in the world. Its wheat fetches the highest price; its live cattle are admitted to the English markets, while United States cattle are not. There is a market for the farmer at every station; and there are schools and churches wherever there are settlers. It is not subject to drought or floods, to grasshoppers, or to cyclones or tornadoes. Ask any Canadian Railway Agent for books and full information; ask for "Farming and Ranching in Western Canada," or the "Free Farms" map, or "Actual Experience," and read the testimony of men who have gone there from Eastern Canada. Young women are in great demand; they find occupation as domestics directly they arrive, and readily get married to prosperous young farmers. Young men or young women can start life there almost without money. They make the money there; an independence is gained in a very few years by the thrifty.

The old settlers of Prince Edward Island should use their influence with the young men who intend emigrating to keep them within the Dominion, where they are offering better advantages than in the United States and do not lose their nationality.

Lose no time in getting to the West and choose your location. First come, first served.
