Public School Opening.

The various departments of our public school were opened Tuesday morning, Sept. 5th, with the following staff:—

R. W. Ford, principal, Miss Hamilton, Miss Purdy, Miss Coggins, Miss Denton, Miss West, and Miss Chambers.

The new primary department is a light, airy and attractive room and is furnished with chairs and tables built to suit the age of pupils between the ages of five and seven years. Children under five are not admitted to this department. The number enrolled at present in this room is forty-nine. In several of the other departments the children have not presented themselves for work. Parents are urged to send their children at once so that they may get the foundations of the year's work well laid. Children who are kept out at the first of the year find it next to impossible to catch up to the class and so are all the year striving for something that is just beyond their reach. At the end of the year they fail to grade. An early start and regular attendance are indispensable factors in a pupil's success.

At the provincial examination the following pupils from Wolfville High School passed in the various grades indicated:

GRADE XI.—Lillian Chase, Margaret Wright, Ruby Archibald, Grace Shaw, Marguérite Elderkin, Ronald Brownell.

GRADE X.—Amos Wakeham, Harold Johnson, Carrie Wickwire, Paul Tingley, Angus Elderkin, Harold Vaughn, Horace McKenna.

GRADE IX.—Burton Angus, Bertha Newcomb, Robert Borden, Doris Chambers, Raleigh Bishop, Lewis Fick, Violet Sleep.

The rainy season and rough fall weather will soon be here.

Everybody should be prepared for this seasonable weather by getting a pair of our Storm Boots, either Tan or Black, very heavy viscolized soles, storm calf uppers, made in different forms and styles of lasts and in different widths. Made by the most celebrated shoemakers in Canada, J. T. Bell. Sole agents in Wolfville.

WOLFVILLE.

Did You Ever Think of This?

.. MAN ..

comes into the world without his consent, and leaves against his will. During his stay on earth his time is spent in one continuous round of contrraries and misunderstandings. In his infancy he's an angel. In his boyhood a devil. In his manhood he's everything from a lizard up. In his duties he's a fool. If he raises a family he's a chump. If he raises a cheque he's a thief, and the law raises cain with him. If he's poor he's a poor manager and has no sense. If he's rich he's dishonest but considered smart. If he's a politican he's a grafter and a crook. If out of politics an undesirable citizen. If he goes to church he's a hypocrite. If he stays away he s a sinner. If he donates to foreign missions he does it for show. If he does not he's stingy and a tight wad. When he comes into this world everybody wants to kiss him. Before he goes out they all want to kick him. If he dies young there was a great future before him. If he lives to a ripe old age he's living to save funeral expenses. Life's a darn funny thing isn't it?

All these troubles overcome if you deal at the

A Residential School for Boys and Young Men.

Horton Collegiate Academy, whose advertisement appears elsewhere in this issue, has issued its eighty second annual catalogue. This school has recently closed the most successful year in its history, having an enrollment of 197.

There is a staff of nine experienced teachers selected because of their special fitness for dealing with boys. The buildings are commodious and well adapted to modern school conditions. The Academy residence is situated near a spacious campus, providing superior athletic advantages.

There are four courses of study offered. In the collegiate course students are prepared for martriculation in arts, science and engineering. A general course is provided for the class of boys who for certain reasons do not wish to enter the universities. The manual training course is given by thoroughly qualified instructors in a well equipped, modern plant. The business, stenography and typewriting courses are given in a department known as the Acadia business school.

The school is located in Wolfville, a town where the very atmosphere is permeated with the educational spirit. The boys are inspired to their best effort by the presence of the teachers with them in the academy residence. This academy has had a continuously successful record covering a period of 83 years.

If you have a boy to send to a residential school, or if you are a young man recently awakened to the importance of securing an education, it would be well to write for the calendar and other desired information, to

In Dread of Something

You can scarcely tell what—It may be Hysteria, Insanity, Nervous Collapse.

You can only throw off this depression when the nerve cells are restored to health by such treatment as Dr. Chase's Nerve Food. Your digestive system has failed to supply proper nourishment to the nerves and you are compelled to seek aid from other sources.

It will take some patience and persistent treatment, but there is no way by which you can so certainly restore health and vigor as by the use of Dr. Chase's Nerve Food.

The best time to restore the nervous system is long before such a critical condition is reached. Such symptoms as sleeplessness, headaches, nervous indigestion, muscular weakness, loss of energy, failure of memory and power of concentration, irritability and discouragement tell of a failure of the nervous system and warn you of the approach of serious trouble.

Dr. Chase's Nerve Food 50 cents a box, 6 boxes for $2.50; all dealers, or Edmanson, Bates & Co., Toronto.
