Local Market.

London, Tuesday, Oct. 10.

Notwithstanding the fact that roads are in good condition, and the weather unrivaled, there was a decidedly small market today. Seemingly the farmers are too busy at home, attending to their roots and plowing, to spare more than one day a week on the market. Those who attended this morning, generally speaking, were those who have regular customers, whom they do not wish to disappoint. The weather is at present too warm for a sharp demand at the meat stalls, and as it is now late in the season the transactions at the fruit stands are becoming light. Apples are still plentiful, at 30c to 75c per bag; grapes, per 10-lb basket, are 20c to 30c; pears, 50c to 75c; peaches, 60c to 75c, and tomatoes, 25c a basket. No crab apples were offered, and 12-lb baskets of quinces brought from 50c to 60c.

A. M. HAMILTON & SON'S REPORT.

London, Tuesday, Oct. 10.

Wheat, white, per bu .....67¼c to 69c
Wheat, red, per bu .....67¼c to 69c
Wheat, spring, per bu .....67¼c to 69c
Oats, per bu .....27¼c to 28c
Peas, per bu .....55c to 60c
Corn, per bu .....42c to 44c
Barley, per bu .....36c to 39c
Rye, per bu .....50c to 60c

Receipts of wheat were fair and prices steady and unchanged. Oats were higher; the fine weather has made farmers busy, and oat sellers seem to have been most effected, there being a greater shrinkage in the volume of these than other lines. Prices today ranged from 82c to 85c, an advance of 3c. One load of feed barley sold at 78c.

Dressed hogs displayed considerable strength, as high as $6 being paid for some small lots. The range was $5 75 to $6 for good lots.

No change in live hogs.

Hay was much easier, the supply was large and buyers had little difficulty in squeezing prices down.

HEALTH OF SCHOOL GIRLS

"Parents little imagine how great and prevalent is the injury done to girls between the ages of 10 and 16 by over-application to study," said a prominent New York physician when addressing the school board recently.

For reasons connected with the physiological structure of women it is of the utmost importance that at this period, when the peculiarly feminine period, when the peculiar feminine organs are begining to assume their functions, the nervous system should not be exhausted by over-exertion and anxiety caused by school work and examinations. Hosts of pale, weak, poorly-developed girls have been restored to health and strength by the use of

DR. CHASE'S NERVE FOOD

the great restorative, in pill form. In all the year there is no season so well suited to building up the system. In the whole range of remedies there is no treatment to be compared to Dr. Chase's Nerve Food. Let the nervous system be thoroughly restored before the school term starts. 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

THE SAN JOSE SCALE

To Be Discussed at the Annual Meeting of Entomologists in This City.

The Entomological Society of Ontario will hold its 36th annual meeting in the Y. M. C. A. building, Wellington street, on Wednesday and Thursday, of this week. An interesting programme has been prepared. On Wednesday afternoon at 3 o'clock a conference and discussion will be held on the San Jose scale, which is now ravaging orchards in some parts of the province and most states of the Union. It will be participated in by Hon. John Dryden, Ontario minister of agriculture; Dr. Jas. Fletcher, of Ottawa, Dominion entomologist and botanist; Prof. Webster, state entomologist of Ohio; Mr. Fisher, government inspector of orchards; Mr. John Dearness, commissioner on the San Jose scale in Ontario; Prof. Lochead, Agricultural College, Guelph, and others. The attendance of all interested in fruit growing and the preservation of their trees is particularly requested.

In the evening at 8 o'clock there will be short lectures on insects affecting the garden, farm, orchard and household, illustrated with lantern pictures, by Dr. Fletcher and Prof. Lochead; the annual address of the president, Mr. Henry H. Lyman, of Montreal; "One Hundred Years of Entomology in America," by Prof. Webster; short addresses by Rev. Dr. Fyles, of Quebec, and Rev. Dr. Bethune, of London. There will also be an exhibition of beautiful and curious specimens of insects from the society's collections, and some strange objects under the microscope. It ought to be a most attractive evening to young people and their elders also who have any love for natural history.

On Thursday, meetings will be held both morning and afternoon to receive the reports of the council and officers of the society, the branches in Toronto, Montreal and Quebec, the sections on geology, botany and microscopy; the directors, on the insects of the year, in their respective districts. Papers of a scientific character will be read by many of the members; the officers will be elected for the ensuing year, and general business transacted. Though the society is getting on in years, it is full of life and vigor, and is carrying on a useful and most important work.

STATISTICS OF THE POLICE COURT

An Increase of 800 Cases Over the Preceding Year—Vagrants Dealt With Severely.

The criminal statistics for the year ending Sept. 30 have been prepared by Police Court Clerk Moule, and will be forwarded to the minister of agriculture at Ottawa today. The total number of cases in court was 14,091, of which 346 were summary convictions by the magistrate, and 242 indictable offenses. The latter includes juveniles, and were all tried and disposed of by the magistrate. The number of juveniles before the court was 143. There were 300 more cases in court than in the preceding year. Vagrants were dealt with more severely, all through the year, than for a long period previously. There were also more liquor and petty stealing cases this year than last.

AMUSEMENTS

"A RUNAWAY GIRL" TONIGHT.

"A Runaway Girl" appears this evening at the Grand Opera House, and a crowded house is a foregone conclusion. The pretty and tuneful comedy or opera comique is too well and favorably known to our theatergoers to need extended notice. "A Runaway Girl" abounds in funny climaxes and humorous situations, and one of the prevailing features of the comedy-opera is the great march, "Listen to the Band," during the progress of the second act.

THE LYCEUM COMPANY.

Most people have witnessed a representation of some of Shakespeare's plays, and some have not, but to all alike an unusual and agreeable treat is in store in the near visit of the Lyceum Company of Players. The best of our modern plays cannot but suffer by comparison with the works of the famous bard of Avon, and when no expense has been spared in point of high-salaried actors, magnificent costumes, special scenery, and choice of plays, to make this comparison more strong, a perfect production can be anticipated. It was a preconceived knowledge of this fact that caused Mgrs. Shipman to organize the Lyceum Company, and a further recognizance of it prompted C. J. Whitney, lessee of the leading theaters of Canada, to book this company over his circuit.

THERE is not a more dangerous class of disorders than those which affect the breathing organs. Nullify this danger with Dr. Thomas' Eclectric Oil—a pulmonic, of acknowledged efficacy. It cures soreness and lameness when applied externally, as well as swelled neck and crick in the back; and, as an inward specific, possesses most substantial results.
